Mark Literal(s) EN FUEGO

The mark consists of two touching horizontal stripes of different gradated shades of pink, the lower of the two being narrower, beginning in the top right corner then proceeding in a counterclockwise manner to form two touching concentric circles, underneath and ending at the bottom edge of the horizontal stripes, with another horizontal stripe of gradated shades of pink protruding from the inner left side of the inner circle to the center of the circles, all stripes having ends with a right angle edge at the top and a curved edge at the bottom, with the words "En FUEGO" in black centered below the circles or to the right of the circles and the word "En" superscripted or in a smaller font size than that of the word "FUEGO". The color white in the mark represents background, outlining, shading and/or transparent areas and is not part of the mark. The color(s) pink and black is/are claimed as a feature of the mark. The stippling is for shading purposes only. The English translation of "En Fuego" in the mark is "On Fire".

GOODS AND SERVICES INFORMATION
For Insurance and financial information and consultancy services; insurance services, namely, underwriting of extended warranty contracts in the fields of materials technology, resistance materials, metal working, and industrial heating technology; financing, credit, lease-purchase financing, and loan services; conducting financial project feasibility analysis studies
International Classes 36 - Primary Classes US Classes 100, 101, 102 International Class Title Insurance and Financial

For Lights for vehicles; air conditioning apparatus; heating elements; air heaters, namely, continuous flow hot air heating apparatus and space heating apparatus in the nature of air heating cassettes for industrial purposes; heating apparatus, namely, electric heating systems for industrial use composed primarily of heating elements and control and regulation equipment; water heaters; diffusion apparatus, namely, diffusion cassettes and tubes for industrial furnaces constituting tubular heating chambers sold as integral components of furnaces; furnaces; furnace bars in the nature of furnace component parts, other than for laboratory use; furnace for industrial use
International Classes 11 - Primary Classes US Classes 13, 21, 23, 24, 31, 34 International Class Title Environmental Control Apparatus

For Wholesale and retail store services featuring products used in the industrial heating technology and resistance materials industries; business consulting, management, and planning services in the field of industrial heating technology and resistance materials; wholesale and retail store services featuring products used within materials technology; business management consultancy and advisory services in the field of materials technology; inventory control; updating and maintenance of data in computer databases; commercial and industrial management assistance; advisory services for business management; business
management and organization consultancy; database management services in relation to industrial heating technology and materials technology; database management services in the nature of collating of data in computer databases; collection and systematization of information about temperature, performance and working capacity into computer databases; presentation of goods on communication media for retail purposes, namely, on-line wholesale and retail store services featuring products within the industrial heating technology and materials technology industries; provision of information, advice, and consultancy in relation to energy efficiency; rental of vending machines; business project management services; conducting business project feasibility analysis studies

**International Classes**

**35 - Primary Classes**

**US Classes** 100, 101, 102

**International Class Title** Advertising and Business

**For** Heating equipment installation and repair; interference suppression services for electrical apparatus; machinery repair, maintenance, and installation services in the field of industrial heating technology and resistance materials; rebuild and upgrade services, namely, the rebuilding and upgrade of electric heating systems and equipment, lighting apparatus and instruments, and electronic control systems in the field of industrial heating technology and resistance materials; repair, maintenance and installation of products, namely, machines and apparatus within materials technology; applying protective coating to metal surfaces, tools and machines

**International Classes**

**37 - Primary Classes**

**US Classes** 100, 103, 106

**International Class Title** Construction and Repair

**For** Downloadable registered computer programs for monitoring and controlling computer systems and communications between computers and automated machine systems and for monitoring and tracking productivity and product orders; downloadable registered operating system programs; downloadable registered computer software for monitoring and controlling computer systems and communications between computers and automated machine systems and for monitoring and tracking productivity and product orders; computers; measuring, detecting and monitoring instruments and apparatus, namely, level indicators in the nature of performance indicators, wear indicators, load indicators, service indicators and controllers; electronic control units and systems for the remote control of industrial operations; electronic apparatus for the remote control of industrial operations; simulation apparatus and instruments, namely, electronic training simulators and simulation test equipment in the nature of downloadable simulation software and hardware for evaluating and testing manufacturing chain efficiencies; downloadable computer software in the nature of mobile applications for providing product information, and for inventory automated ordering, inventory management and inventory cost followup; calculating machines, data processing apparatus, computer peripheral equipment; measuring instruments and apparatus, namely, pressure measuring apparatus, temperature measuring apparatus, resistance measuring instruments; downloadable computer software for storage and calculation of temperature, strain and vibration information; temperature sensors; strain sensors; pressure sensors; vibration sensors and acceleration sensors; measuring apparatus, instruments, software, sensors and computer programs incorporated in tubes and pipes of metal for measurement of temperature, and controlling temperature performance and working capacity of tube systems; downloadable electronic publications in the nature of handbooks, manuals, instructional and teaching material in the field of alloys, metallurgy and tubing systems and 3D printing, stainless steels, special alloys and titanium, furnace products and heating systems, hard and super-hard materials; ceramic electric resistors; capacitors; computer hardware for collecting, processing, transmitting, receiving, storing, retrieving, accessing and managing information and digital data; downloadable computer software for collecting, processing, transmitting, receiving, storing, retrieving, accessing
and managing information and digital data; downloadable software in the nature of mobile phone applications for collecting, processing, transmitting, receiving, storing, retrieving, accessing and managing information and digital data; computer hardware for enabling users to create, save, and launch sequences of commands and logic within and between other computer software applications and computer software functionality; computer software for enabling users to create, save, and launch sequences of commands and logic within and between other computer software applications and computer software functionality; mobile phone applications for enabling users to create, save, and launch sequences of commands and logic within and between other computer software applications and computer software functionality; downloadable computer software and mobile phone applications for accessing, browsing and searching online databases; computer hardware for controlling the operation of industrial heating equipment; computer software for controlling the operation of industrial heating equipment; mobile phone applications for controlling the operation of industrial heating equipment; computer hardware for monitoring the performance of industrial heating equipment; computer software for monitoring the performance of industrial heating equipment; mobile phone applications for monitoring the performance of industrial heating equipment; computer hardware for the collection, recordation and reporting of data relating to the selection, performance and maintenance of industrial heating equipment; computer software for the collection, recordation and reporting of data relating to the selection, performance and maintenance of industrial heating equipment; mobile phone applications for the collection, recordation and reporting of data relating to the selection, performance and maintenance of industrial heating equipment; computer hardware for testing, analysis and simulation of industrial heating equipment performance; computer software for testing, analysis and simulation of industrial heating equipment performance; mobile phone applications for testing, analysis and simulation of industrial heating equipment performance; semi-conductors; printed circuits; resistances, electric; video screens; lightning conductors

## Mark Information

**Standard Character Claim**  | No |
**Mark Drawing Type**  | 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) |
**Description of the Mark**  | The mark consists of a design comprised of a black silhouette of a woman wearing a white earring and having butterfly-style wings extending out from her back. The wings appear in black with white spots along the outside edges, teal sections along the top, yellow sections in the middle, maroon sections below the yellow sections, and teal sections at the bottom. The silhouette and wings design appear within, and extending out in front of, a black-outlined circle. To the right of the circle appears the stylized black wording "LOTUS BLOSSOM EVOLVE OR REPEAT". Other instances of white appearing in the mark represent background or transparent areas and are not claimed as a feature of the mark. |
**Color Drawing**  | Yes |
**Color Claimed**  | The color(s) black, white, teal, yellow and maroon is/are claimed as a feature of the mark. |

CASE IDENTIFIERS
Serial Number 90066487 Application Filing Date Jul. 22, 2020 Register Principal Mark Type Trademark
Publication Date Jul. 06, 2021

MARK INFORMATION
Standard Character Claim No Mark Drawing Type 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) Description of the Mark The mark consists of a stylized letter "F" that utilizes small "blocks" and a single "arrow" design to form the shape of the letter "F". The overall stylized letter "F" mark combines these elements to produce a clear letter "F". There is a single, small block at the bottom of the mark, followed by 3 connected blocks on top of it. Connected to the 4th highest individual "block" is an "arrow" that points to the right. On top of the arrow (to its' left) is the final individual, single "block". There is a total of 5 blocks in the mark with 1 arrow completing the stylized letter "F".

Mark Literal(s) INTEL CORE I3

CASE IDENTIFIERS
Serial Number  90069889 Application Filing Date  Jul. 23, 2020 Register  Principal Mark Type  Service Mark
Trademark Publication Date  Jul. 06, 2021

MARK INFORMATION
Standard Character Claim  No Mark Drawing Type  3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) Description of the Mark  The mark consists of a square containing a horizontal, straight line and a vertical, straight line. The horizontal line intersects with the vertical line near the right, bottom of the square. The lines inside this square form a medium-sized square in its upper left area, two rectangles, and a smaller square touching the bottom, right corner of the medium-sized interior square. The wording "INTEL CORE I3" appears inside the outermost square with the wording "INTEL" in its upper, left portion, the wording "CORE" beneath the wording "INTEL", and "I3" in the smallest square.

GOODS AND SERVICES INFORMATION
For  Computers; handheld computers; memory boards; computer hardware; integrated circuits; computer memory hardware in the nature of integrated circuit memories; semiconductor chip-sets; data processors in the nature of semiconductor processors; semiconductor processor chips; semiconductor chips; microprocessors; printed circuit boards; electronic circuit boards; computer motherboards; computer memories; downloadable and recorded computer operating systems software; micro-controllers; data processors; central processing units; semiconductor memory devices; software programmable microprocessors; digital and optical microprocessors; digital and optical data and signal processors; video circuit boards; audio circuit boards; audio-video circuit boards; video graphic accelerators; multimedia accelerator boards; video processors; video processor circuit boards; computer hardware in the nature of processor die packaging and casings; Apparatus for recording and transmission of data, namely, cards, discs, tapes, wires, records, microchips and electronic circuits, all for the recordal and transmission of data; modems; apparatus and instruments, all for processing, storage, retrieval, transmission, display, input, output, compressing, decompressing, modifying, broadcasting and printout of data, namely, computer memory hardware and computer input devices; computer hardware in the nature of computer input and output devices; computer work stations comprising computer hardware in the nature of processors, central processing units, computer monitors, computer peripherals, computer document printers; data memories, namely, memories for data processing equipment; storage devices in the nature of external computer hard drives; security systems for computer hardware and software comprised of computer hardware and downloadable computer software for securing computer hardware and software; set electronic chips in the nature of electronic
chips for the manufacture of integrated circuits; computer hardware in the nature of components for computers and printed circuits; computer hardware, namely, voice accelerators; computer hardware, namely, voice, data, image and video accelerators; memory systems for computers comprised of computer memories; electric cables and electrical adapters; computer terminals and document printers for use therewith; video display cards and monitors; telecommunications apparatus and instruments, namely, computer routers, hubs, servers and switches; cameras; computer hardware for computing; computer hardware for computing via a global and local network; computer hardware for cloud-computing; computer hardware for low-latency and high bandwidth computing; computer hardware for use in providing a secure computing environment; computer networking hardware; computer communication servers; computer hardware for use in providing a secure cloud computing network; downloadable and recorded computer software for computing; downloadable and recorded computer software for cloud computing; downloadable and recorded computer software for computing via a global and local network; downloadable and recorded computer software for low-latency and high bandwidth computing; computer memory hardware; downloadable and recorded computer software for providing a secure computing network; downloadable and recorded computer software for use in providing a secure cloud computing network; downloadable and recorded computer software for connecting personal computers, networks, telecommunications apparatus and global computer network applications; computer hardware and downloadable and recorded computer software for enhancing and providing real-time transfer, transmission, reception, processing and digitizing of data; computer network adapters; computer network controllers; computer network interface devices; computer network hubs, switches, and routers; microcontrollers for internet of things (IoT) enabled devices; downloadable computer software for connecting, operating, and managing internet of things (IoT) enabled devices; downloadable computer software for connecting, operating, and managing mobile internet of things (IoT) enabled mobile devices; computer hardware and downloadable and recorded computer software for the development, maintenance, and use of local and wide area computer networks; computer hardware and downloadable and recorded computer software for the development, maintenance, and use of interactive audio-video computer conference systems; computer hardware and downloadable and recorded software for the receipt, display, and use of broadcast video, audio, and digital data signals; electronic control devices for the interface and control of computers and global computer and telecommunications networks with television and cable broadcasts and equipment; computer network routers; computer network hubs; computer servers; computer switches; apparatus for testing and electronic programming devices for integrated circuits; computer hardware in the nature of peripheral memory apparatus and devices; semiconductor devices; computer hardware and downloadable and recorded computer software for creating, facilitating, and managing remote access to and communication with local area networks (lans), virtual private networks (vpns), wide area networks (wans) and global computer networks; downloadable and recorded computer network router, switch, hub and server operating software; downloadable and recorded computer software tools for the facilitation of third party software applications; computer hardware and downloadable and recorded computer software for wireless network communications; downloadable electronic publications in the nature of articles and newsletters in the area of electronics, semiconductors and integrated electronic apparatus and devices, computers, telecommunications, entertainment, telephony, and wired and wireless telecommunications; computer hardware for use in machine vision, machine learning, deep learning, artificial intelligence, natural language processing, learning algorithms and data analysis; downloadable and recorded computer software for machine learning, data query, and data analysis; downloadable and recorded computer software for cognitive computing, deep learning, artificial intelligence; downloadable and recorded
computer software platform for cognitive computing; downloadable and recorded computer software for graphical representation of data; downloadable and recorded pattern recognition computer software; downloadable and recorded computer software for data mining; downloadable and recorded computer vision software for acquiring, processing, analyzing and understanding digital images and extracting visual data; downloadable computer software development kits; downloadable computer software development kits for computer vision, machine learning, deep learning, artificial intelligence, natural language processing, learning algorithms, and data analysis; downloadable and recorded vision software that uses artificial intelligence to see and interpret data, connect with hardware and store, manage and process data in the cloud; computer hardware and downloadable and recorded computer software for recording, processing, receiving, reproducing, transmitting, modifying, compressing, decompressing, broadcasting, merging and enhancing sound, images, graphics, and data; downloadable and recorded algorithm software programs for the operation and control of computers; computer hardware and downloadable and recorded computer software for enhancing and providing real-time transfer, transmission, reception, processing and digitizing of audio and video graphics information; downloadable and recorded computer software for the collection, compilation, processing, transmission and dissemination of Global Positioning System (GPS) data for use in fixed, mobile and handheld devices; electronic database featuring roadway, geographic, map, public transit lines information, public transit line information, public transit route information, public transit timetables and schedules and other public transit information recorded on computer media; downloadable and recorded navigation software for calculating and displaying routes; public transit navigation system comprised of computer hardware and downloadable and recorded computer software for interactive digital map displays, interactive instructions and user generated information; downloadable and recorded interactive social computer software for the retrieval and display of public transit, navigation, geographic, map and travel information; downloadable and recorded interactive social computer software to enable the transmission of public transit information, mapping, navigation, traffic, routes and point-of-interest information to telecommunication networks, cellular phones, navigation devices and other mobile and hand-held devices; downloadable and recorded interactive social computer software that enables the exchange of information among users; computers and downloadable computer operating system software for autonomous driving, driver-assisted, connected vehicles, unmanned aerial devices, and drones; computer hardware and downloadable and recorded computer software platforms featuring interactive displays, control systems, and control devices, warning systems, connectivity, onboard computers, and GPS for vehicles, connected vehicles, autonomous, and driverless vehicles; multi camera systems for use in vehicles comprised of video cameras and computers; satellite navigational system in the nature of a global positioning system for navigation and navigation guidance, GPS location tracking devices, GPS map-displaying and route-calculating device, video recorders, and wireless communication network devices for data or image transmission for vehicles; downloadable and recorded computer software applications for digital virtual agents, predictive systems, machine learning, cognitive process automation, pattern recognition, character recognition, visual computing applications, knowledge virtualization, robotics, drones, and unmanned vehicles; downloadable and recorded computer software applications and computer hardware for automatic vehicle driving control; downloadable and recorded computer software applications and computer hardware for automatic vehicle driving control, autonomous control, navigation, assisted driving of vehicles, and self-driving of vehicles; Vehicle tracking devices comprised of downloadable and recorded computer software and computer hardware, electric or electronic sensors, satellite transmitters, audiovisual receivers and global positioning satellite receivers, all for use in connection with vehicle tracking and vehicle monitoring
For providing temporary use of on-line non-downloadable software for machine learning, data mining, data query, and data analysis; providing temporary use of on-line non-downloadable software for cognitive computing, deep learning, artificial intelligence; providing temporary use of non-downloadable software for data query and data analysis; providing temporary use of non-downloadable software for data mining; providing temporary use of non-downloadable software for cognitive computing, deep learning, artificial intelligence; searching and retrieving information on computer networks for others; computer services, namely, providing temporary use of online non-downloadable software, software application programming interface (API) software, and software in the nature of a widget for machine learning, data mining, data query, and data analysis; providing online non-downloadable computer vision software for acquiring, processing, analyzing and understanding digital images and extracting visual data; providing online non-downloadable computer software development kits; providing online non-downloadable computer software development kits for computer vision, machine learning, deep learning, artificial intelligence, natural language processing, learning algorithms, and data analysis; providing online non-downloadable vision software that uses artificial intelligence to see and interpret data, connect with hardware and store, manage and process data in the cloud; software as a service (SAAS) services featuring software for use in providing cloud-computing capabilities and information technology (IT) services, computing, and cloud computing; software as a service (SAAS) services featuring software for use in computing via a global and local network; software as a service (SAAS) services featuring software development platform for use in connecting applications to enterprise systems and devices; software consulting and providing information on software as service; software as a service (SAAS) services featuring software for use in providing low-latency and high bandwidth computing; computer software services in the nature of providing temporary use of online non-downloadable software for providing computing capabilities for application developers and content providers; cloud computing featuring software for use in providing low-latency and high bandwidth computing, information technology (IT) services, and computing via a global and local network; computer software services in the nature of providing temporary use of online non-downloadable software for providing cloud computing capabilities for application developers and content providers; services for enabling applications to be deployed across an online network, namely, deployment of wireless communication networks for others; services for providing computer systems analytics, caching in the nature of electronic data storage, computation in the nature of computer systems analysis and traffic routing in the nature of monitoring Internet traffic control of the websites of others; services for providing a secure and trusted computing network, namely, computer network configuration services; information technology consulting services, namely, providing computer hardware and software consulting services in the field developing a cloud based environment with integration of applications across various platforms and connected devices; computer services, namely, creating computer network-based indexes of information, websites, and resources; providing temporary use of non-downloadable computer software for connecting, operating, and managing networked devices in the internet of things (IoT); providing online non-downloadable computer software for connecting, operating, and managing networked devices in the internet of things (IoT); information technology consulting services in the field of computers and wireless computing; computer network management services, namely, monitoring of network systems for technical purposes; hosting of digital content on the internet; computer network monitoring services, namely, providing information on the operation of computer networks; customization of web software, and computer hardware, namely user interface, design for others; Development and design of computer hardware; designing and developing standards for others in
the design and implementation of computer software, computer hardware and telecommunications equipment; providing customers and technicians with information relating to computer project management; providing online software as a service services featuring software for the collection, compilation, processing, transmission and dissemination of Global Positioning System (GPS) data; providing online non-downloadable software featuring roadway, geographic, map, public transit lines information, public transit line information, public transit route information, public transit timetables and schedules and other public transit information; providing online non-downloadable navigation software for calculating and displaying routes and sharing public transit navigation system, map and travel information; Providing online non-downloadable computer software to enable the sharing of public transit information, mapping, navigation, traffic, routes and point-of-interest information; providing temporary use of online non-downloadable interactive social computer software that enables the exchange of information among users; providing online software as a service services featuring software for automatic vehicle driving control, autonomous control, navigation, assisted driving of vehicles, and self-driving of vehicles
