GOODS AND SERVICES INFORMATION
For Commercial land and rail vehicles for long-distance and local transport as well as for passenger and freight transport; brakes, brake systems and their parts for vehicles; exhaust brakes for land vehicles; compressed air apparatus for controlling brakes, clutches, and transmissions being structural parts of land vehicles; compressed air tanks, namely, pressure media containers in the nature of brake air cylinders and components of air suspension systems for land vehicles; pneumatic suspension systems for vehicles comprising air suspension valves for controlling suspension height for vehicles; pneumatic suspension systems for vehicles; pneumatic suspension systems for leveling, lifting or lowering the suspension on land vehicles; steering units for land vehicles; transmissions, transmission control units, and transmission components for land vehicles; clutch and clutch actuating units for land vehicles; drive gears for land vehicles; powertrain mechanisms comprised of clutch, transmission, and drive shafts for land vehicles; motors and engines for land vehicles; electric motors for land vehicles; vehicle wheels; axles and axle bearings for land vehicles; pedal systems for land vehicles comprised of foot pedals and clutch mechanisms; dampers for rotating shafts for land vehicles, torsional vibration dampers, each as vehicle parts; door systems, namely, doors for vehicles, in particular exterior doors, interior doors, connecting doors, sliding doors, driver's cab doors, pivot sliding doors, swing doors, and boarding aids for railway vehicles, in particular ramps, sliding steps, folding steps, gap-bridging devices, trapping protection devices being parts of a vehicle door system; traction controls, namely, traction control systems for land vehicles comprised of brakes, automatic traction control valves, and an electronic brake module;
tractions controls, namely, an electronic stability system to allow better control and maneuverability of trucks and trailers, sold as an integral component of trucks and trailers; bogies for railway wagons and rail-bound vehicles; sanding devices, namely, braking devices using sand as a braking medium, as parts adapted to rail-bound vehicles; windscreen wiper and washer systems comprised of windscreen wiper blades, windshield wiper drives, windshield wiper spray nozzles, windshield wiper water tanks, windscreen wiper water pumps and windscreen wiper operating valves; structural parts for the aforementioned goods; all of the aforementioned goods for commercial land and rail vehicles

**International Classes** 12 - Primary Classes **US Classes** 19, 21, 23, 31, 35, 44

**International Class Title** Vehicles

For Compressors, namely, pneumatic compressors, hydraulic compressors, air compressors and electric compressors; air, pneumatic, and hydraulic compressors for vehicles; compressors for machines; pumps, namely, pneumatic pumps, hydraulic pumps, electric pumps, vehicle hydraulic and pneumatic pumps; hydraulic pumps being parts of vehicle hydraulics or vehicle hydraulic controls; compressed air pumps for land vehicles; pumps as parts of machines, except for land vehicles; pumps used in the liquid transfer between terminals; pneumatic, hydraulic controls for motors; compressed air systems, namely, compressed air machines, compressed air engines not for land vehicles, compressed air generators for vehicles; compressed air supply systems, namely, air compressors for vehicle compressed air systems, automotive intake manifolds; air intake systems comprised of an air filter, mass flow sensor, throttle body and tubing connecting the air filter to the engine of land vehicles and their structural component parts for motors and engines; electromechanical and electropneumatic entrance systems as parts of door systems for vehicles, namely, electromechanical and electropneumatic drive devices for opening and closing vehicle doors; electromechanical and electropneumatic door systems, namely, drive devices for opening and closing platform screen doors

**International Classes** 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35

**International Class Title** Machinery

For Heating and air conditioning apparatus; lighting installations; ventilating apparatus and installations, namely, ventilating fans and apparatus for use in commercial land and rail vehicles; air treatment apparatus, namely, devices and apparatus for purifying compressed air; HVAC units; all of the aforementioned goods for commercial land and rail vehicles; structural parts for the aforementioned goods

**International Classes** 11 - Primary Classes **US Classes** 13, 21, 23, 24, 31, 34

**International Class Title** Environmental Control Apparatus

For Provision of training courses in the fields of vehicle maintenance, vehicle servicing and vehicle brake systems, land vehicles, commercial vehicles, trucks, buses, agricultural machines, rail vehicles, public transportation services and equipment, state and private railroads, industrial supply, plant construction for power plants, conveyor systems and product safety; provision of online training in the fields of vehicle maintenance, vehicle servicing and vehicle brake systems, land vehicles, commercial vehicles, trucks, buses, agricultural machines, rail vehicles, public transportation services and equipment, state and private railroads, industrial supply, plant construction for power plants, conveyor systems and product safety; consultancy services relating to training in the fields of vehicle maintenance, vehicle servicing and vehicle brake systems, land vehicles, commercial vehicles, trucks, buses, agricultural machines, rail vehicles, public transportation services and equipment, state and private railroads, industrial supply, plant construction for power plants, conveyor systems and product safety
International Classes   41 - Primary Classes US Classes   100, 101, 107 International Class Title   Education and Entertainment

For   Business management; professional business consultancy; supply chain management services; business management and supply chain management services in the field of industrial supply

International Classes   35 - Primary Classes US Classes   100, 101, 102 International Class Title   Advertising and Business

For   Modification, maintenance, overhauling and repair of vehicles; installation, modification, maintenance, overhauling and repair of electric and electronic apparatus, in particular in vehicles; maintenance and repair of motor vehicle engines; repair and overhaul of compressors, dampers, transmission components, brakes and their parts, control units, valves as machine components, pedal systems, clutches, motor vehicle engines, heating, ventilating, air conditioning apparatus and air treatment apparatus for land vehicles; overhaul of worn or partially destroyed machines; vehicle repair consultancy; advisory services relating to the maintenance and repair of mechanical and electrical equipment

International Classes   37 - Primary Classes US Classes   100, 103, 106 International Class Title   Construction and Repair

For   Scientific, nautical, surveying, optical, measuring, signaling, controlling apparatus and instruments, namely, distance measuring apparatus, pressure regulators for vehicles; measuring couplings for measuring temperature, pressure, quantity and concentration of fluids in hydraulic or pneumatic systems; surveying machines and instruments; sensors for measuring vibrations, accelerations and distances; electro-optical instruments for use in inspection and measurement of industrial components; optical sensors and detectors; electric sensors; weighing machines, not for medical use; passenger and vehicle information systems, namely, electronic display and information panels; electronic apparatus for monitoring and checking operational parameters and power consumption of mass transit vehicles, rail vehicles, trucks, buses, truck trailers and agricultural machines; power supplies for mass transit vehicles and rail vehicles; physical, electric, electronic measuring, signaling, checking, supervision, control, regulating, and monitoring equipment and apparatus, namely, electronic signaling units in the nature of electric and electronic brake controllers, electronic controls for motors, electronic control systems for engines, electronic control systems for machines, electronic controllers for use with power converters, electronic apparatus and instruments for controlling, adjusting and testing of drives and motors; electro-pneumatic and electronic controllers for vehicle brakes; electric and electronic apparatus and components for monitoring and controlling belt conveyor systems; measuring, signaling, checking, supervision, controlling, regulating, conveying, recording, amplifying and monitoring equipment and apparatus, namely, electric and electronic brake controllers, electronic controls for motors, electronic control systems for engines, electronic control systems for machines, electronic controllers for use with power converters, electronic apparatus and instruments for controlling, adjusting and testing of drives and motors; electronic signaling mechanisms, namely, rail vehicle control systems used in the railway industry for detecting and controlling trains, ground faults, broken rails, power failures, track switches and lights; electronic sensors, namely, electric load sensors, electric sensors; electric and electromechanical obstruction sensors consisting of detectors, measuring apparatus and apparatus for the output of electrical signals; apparatus and instruments for conducting, switching, transforming, accumulating, regulating and controlling of electricity; electric apparatus for commutation; material testing instruments and machines, namely, apparatus for testing components of land vehicles, vehicle steering systems, power converters, traction inverters, traction and power supply apparatus, and industrial conveyor systems; lifesaving apparatus and equipment, namely, emergency stop systems for industrial equipment comprising
actuators, electric sensors, electromechanical limit switches, emergency stop switches, misalignment switches and pull rope electromechanical emergency stop switches, pull ropes, tension springs, turnbuckles, rope clamps, pulleys, and rope support eyebolts; electric switches; high-frequency apparatus, namely, high-frequency switches, high-frequency switching power supplies; telecommunications equipment in the nature of communication devices for voice, data or image transmission; data processing apparatus; data communications apparatus, namely, wireless communication devices for voice, data or image transmission; telematics apparatus, namely, telematics communication apparatus for the purpose of displaying and reproducing wirelessly transmitted information and data from vehicles, vehicle trailers and components thereof; telematics terminal apparatus, namely, telematics communication apparatus for the purpose of displaying and reproducing wirelessly transmitted information and data from vehicles, vehicle trailers and components thereof; computer hardware; structural parts for the aforementioned goods; peripherals adapted for use with computers; recorded or downloadable computer software for monitoring vehicles, railway stations and railway lines, for detecting and controlling vehicles, ground faults, broken rails, power failures, switches and lights, for controlling signaling equipment for vehicles, railway stations and railway lines, for facilitating and managing the transportation and delivery of people and goods by road and rail, for facilitating the maintenance of vehicles, railway stations and railway lines, for fleet management, for facilitating and managing logistics of railway systems, for facilitating the training of staff with respect to vehicles and railway stations, for the steering and control of vehicles, for the remote control of railway points, for automatic steering of vehicles, for voltage regulation of vehicles, for tracking and mapping of road and rail traffic, for the management and maintenance of road and rail traffic, for the maintenance of vehicles, for modelling and simulation of road and railway equipment and optimization of road and railway equipment, for cyber security of railway systems, for measuring energy, for controlling energy, for protection against surges or electrical interferences, for controlling doors including railway platform screen doors, for controlling vehicle trailer functions, for monitoring, diagnosing, controlling and operating vehicles, for pressurizing brake systems for land vehicles, for monitoring and controlling brakes for land vehicles, for monitoring and controlling heating, ventilating, air conditioning and air purification equipment, for education featuring instruction in the field of equipment for vehicles, for management and operation of railway stations and railway lines, for use in connecting information systems, for use in monitoring, controlling and operating telecommunications equipment and systems, and for data processing in relation to all of the foregoing; downloadable or recorded computer software which creates, controls, records and analyzes virtual reality scenarios; recorded or downloadable software for monitoring, controlling and operating electronic driving assistance systems for land vehicles; downloadable or recorded computer programs for processing data relating to commercial and rail vehicles, for computerized navigation, and for use in the assisted driving of vehicles; recorded or downloadable computer software for adaptive cruise control (ACC); recorded or downloadable computer software for smart vehicle steering; recorded or downloadable computer software for smart hydraulic steering; recorded or downloadable computer software for monitoring, controlling and operating lane departure warning systems; recorded or downloadable computer software for monitoring, controlling and operating side wind compensation systems; driving simulators and recorded or downloadable computer programs for the steering and control of vehicles; electronic databases recorded on computer media in the field of data relating to commercial vehicles and rail vehicles; recorded or downloadable computer software for monitoring, controlling and operating electronic driving assistance systems; downloadable or recorded computer programs for monitoring vehicles, railway stations and railway lines, for detecting and controlling vehicles, ground faults, broken rails, power failures, switches and lights, for controlling signaling equipment for vehicles, railway stations and railway lines, for facilitating and managing the transportation and delivery of
people and goods by road and rail, for facilitating the maintenance of vehicles, railway stations and railway lines, for fleet management, for facilitating and managing logistics of railway systems, for facilitating the training of staff with respect to vehicles and railway stations, for the steering and control of vehicles, for the remote control of railway points, for automatic steering of vehicles, for voltage regulation of vehicles, for tracking and mapping for road and rail traffic, for the management and maintenance of road and rail traffic, for the maintenance of vehicles, for modelling and simulation of road and railway equipment and optimization of road and railway equipment, for cyber security of railway systems, for measuring energy, for controlling energy, for protection against surges or electrical interferences, for controlling doors including railway platform screen doors, for controlling vehicle trailer functions, for monitoring, diagnosing, controlling and operating vehicles, for pressurizing brake systems for land vehicles, for monitoring and controlling brakes for land vehicles, for data processing in relation to all of the foregoing, for monitoring and controlling heating, ventilating, air conditioning and air purification equipment, for education featuring instruction and training in the field of equipment for vehicles, for use in connecting information systems, and for use in monitoring, controlling and operating telecommunications equipment and systems; downloadable and recorded software which creates, controls, records and analyzes virtual reality scenarios; downloadable or recorded computer programs for processing data relating to commercial and rail vehicles, for computerized navigation, and for use in the assisted driving of vehicles; automatic vehicle speed control apparatus; electronic control systems for vehicle doors and platform screen doors; levelling apparatus for land vehicles in the nature of apparatus for the electrical regulation of the height of vehicles and electrical components thereof, namely, height sensors, electronic control units, automatic valves and recorded and downloadable software for control of vehicle level and height; electronic control module for lift axle control in vehicles; all of the aforementioned goods for commercial land and rail vehicles, railway stations and railway lines

International Classes  9 - Primary Classes US Classes  21, 23, 26, 36, 38  International Class Title  Electrical and Scientific Apparatus

For  Telecommunications, namely, electronic transmission of data and messages; providing telecommunications connections to databases; computerized telecommunications services, namely, communications by computer terminals and mobile devices; electronic transmission of data; electronic data transmission; transmission of information by computer; telematics services, namely, telematics sending of information; data transmission services via computers connected to the same telematics network; telematics communication services, namely, information transmission by telematics codes; interactive broadcasting, namely, electronic transmission of voice, data and/or images through an electronic network; communications services, namely, providing electronic transmission of information via interactively communicating computer systems; providing access to data via the internet; consultancy in the field of telecommunications; all of the aforementioned services for commercial land and rail vehicles, their parts and accessories

International Classes  38 - Primary Classes US Classes  100, 101, 104  International Class Title  Communication

For  Treatment and conversion of materials, namely, custom assembling of materials for others in the field of land and rail vehicles and their component parts; treatment of materials by vulcanization; metal treating, heat treatment of metals; metal plating and laminating; treating materials with ultrasonic waves to modify their properties; treatment of materials by laser beam; treatment of materials, namely, parts for vehicles using chemicals; metal casting; custom construction of machines; providing information in the field of material treatment
For Scientific and technological services, namely, scientific research and development; scientific and industrial research in the fields of land vehicles, commercial vehicles, trucks, buses, agricultural machines, rail vehicles, public transportation equipment, state and private railroads, power plants, conveyor systems, energy consumption, and the reliability, availability, predictive maintenance, preventive maintenance and punctuality of mass transit vehicles, rail vehicles, commercial trucks, truck trailers, buses, and agricultural machines; engineering research; design services, namely, technical design of products for others in the fields of land vehicles, commercial vehicles, trucks, buses, agricultural machines, rail vehicles, public transportation services and equipment, state and private railroads, industrial supply industries, power plants, and conveyor systems; engineering services; engineering services relating to energy supply systems; engineering services relating to information technology; design and development of data processing programs; industrial testing, namely, analyzing and evaluation of land vehicles, commercial vehicles, trucks, buses, and agricultural machines, rail vehicles, conveyor systems and their structural parts to assure compliance with commercial and industry standards; quality control for others; and conducting engineering surveys; testing, analysis and evaluation of the goods and services of others to determine conformity with certification standards; materials testing and analyzing; providing information in the field of product design; providing information in the field of product development; providing information about industrial analysis and research services in the fields of vehicles, railway stations and railway lines; technological consultancy services in the fields of vehicles, railway stations and railway lines; engineering consultancy services; information technology (IT) consultancy; advisory services relating to material testing
