**For**  
Treatment of materials, namely, production of energy and conversion of wasted energy into electricity and useful steam, processing of gas, carbon, water, oil; production of energy; consultancy in the field of production of energy as well as other services relating to the aforementioned activities, namely, consultancy in the field of treatment of materials, namely, production of energy and conversion of wasted energy into electricity and useful steam, processing of gas, carbon, water, oil; metal casting for railway crossings; gas technical advisory, namely, technical consulting in the field of gas production and processing; technical support and advisory connected to turbine engineering support, namely, technical support in the nature of providing technical advice related to the manufacture of turbines
Scientific and technological services and research and design relating thereto, namely, research and design in the field of aerospace, automotive, food and beverage, information technology and telecommunications, maritime, oil, gas and energy, petrochemical, biorisk, climate change, information technology software and systems, railroads; industrial analysis, namely, product research in the field of aerospace, automotive, food and beverage, healthcare, information technology and telecommunications, maritime, oil, gas and energy, petrochemical, biorisk, information technology software and systems, railroads, process industry, chemical industry, offshore industry; technical consultancy services in the field of environmental science; technical consultancy in relation to technical research in the field of foods and beverages; design and development of computer hardware, software and other digital software based products; maintenance and implementation of software; software quality improvement and development services; information technology service management, namely, remote and on-site management of the information technology systems of others; consulting in the field of computer risk management services; safety management services, namely, product safety testing and food safety testing in the field of aerospace, automotive, food and beverage, healthcare, maritime, oil, gas and energy, petrochemical, rail roads, biorisk, hospital accreditation, process industry, chemical industry, offshore industry; Testing, and classifying the goods and services of others for the purpose of certification, verification and classification, namely, testing, analysis and evaluation of the goods and services of others to determine conformity with certification standards; technical inspection services by sensors and drones of wires, pipelines for quality control purposes; inspecting of the quality and quantity of raw materials, commodities, supply chain, manufactured, semimanufactured and transformed goods or services in the field of aerospace, automotive, finance, food and beverage, healthcare, information technology and telecommunications, maritime, oil, gas and energy, petrochemical, rail roads, biorisk, climate change, corporate responsibility, hospital accreditation, IT software and systems, process industry, chemical industry, offshore industry for quality control purposes; information technology consultation; computer software consultation; computer systems design and computer systems design analysis consultation in the field of aerospace, automotive, finance, food and beverage, healthcare, information technology and telecommunications, maritime, oil, gas and energy, petrochemical, rail roads, biorisk, climate change, corporate responsibility, hospital accreditation, process industry, chemical industry, offshore industry; product traceability services, namely, design and implementation of software for the purpose of product authentication and tracking, and brand monitoring and protection, to protect against counterfeiting, tampering, and diversion, and to ensure the integrity of genuine products; assessment services, namely, testing, analysis and evaluation of the goods and services of others for the purpose of certification, verification and classification, namely, for the purpose of determining conformity with certification standards and assure compliance with industry standards; classification, inspections and certification in the nature of testing, analysis and evaluation of ships, mobile offshore units, naval vessels and submersible manned/unmanned objects to determine conformity with certification standards; Fleet in service surveys in the nature of marine surveying; issuance of declarations in the nature of reports on the testing, analysis and evaluation of ships and mobile offshore units to determine conformity with certification standards; technical assessments, namely to approve manufacturers and personnel, namely, testing, analysis, and evaluation of the knowledge, skills and abilities of others in the field of process industry, chemical industry, petrochemical industry, offshore industry, maritime industry, aerospace, automotive, finance, food and beverage, healthcare, IT and Telecom, oil, gas and energy, biorisk, climate change, corporate responsibility, hospital accreditation, IT software and systems, operational excellence, quality management, risk management and railroads to determine conformity.
with certification standards; certification of management systems, namely, testing, analysis and evaluation of management systems of others to determine conformity with certification standards; testing and certification in the nature of testing, analysis, and evaluation of boats, light water crafts, diving systems and submarines to determine conformity with certification standards; certification in the nature of testing, analysis, and evaluation of the knowledge, skills and abilities of welders and nondestructive testing operators to determine conformity with certification standards; Verify yield, fatigue and buckling towards class rules and international standards, namely, testing, analysis and evaluation of the goods of others to determine conformity with certification standards; advisory connected to reliable and cost-effective structural engineering design; advanced structural analysis of marine structures; advisory services in the nature of consulting in the field of acoustics, sound, noise, and vibration for scientific purposes to prevent noise and vibration problems on ships; technology advisory services related to hydrodynamics, mechanical engineering, safety on ships and offshore units; technical gap analysis in the nature of analyzing software applications of others to determine conformity with industry standards; hardware-in-the-loop testing in the nature of testing of computer hardware; technical due diligence in the nature of conducting scientific feasibility studies; scanning, namely, digitization of documents scanning; digital compression of computer data; electronic storage of digital images; hosting digital content on the Internet; conversion of texts to digital format; cross-platform conversion of digital content into other forms of digital content; design and development of software and hardware for digital signal processing; hosting a website for the electronic storage of digital photographs and videos and other digital resources, namely, hosting the websites of others on a virtual private server; providing computer facilities for the electronic storage of digital data, namely, providing facilities for the location of computer servers with the equipment of others; design and development of software and hardware for producing, recording and processing digital and analog signals; product benchmarking services, namely, product development services; creating programs for data processing, namely, design and development of computer software; development of data processing programs for others; programming of data processing programs, namely, computer programming; maintenance of data processing software and software applications; computer programming for data processing and communication systems; maintenance of computer software for data processing; research in the field of data processing technology; software engineering services for data processing programs; design, development, maintenance and updating of computer software for word processing, data processing and process control; hosting platforms on the Internet, namely, cloud hosting provider services for the platforms of others; programming of software for marketing platforms for others; hosting computer application software for others in the field of knowledge management for creating searchable databases of information and data; design and development of software for importing and managing data; updating of web sites for others; updating of internet pages for others; updating and maintenance of computer software; testing services for the certification of quality or standards, namely, testing of ships, vessels, oil and gas installations and platforms, energy production installations, namely installations producing wind, solar, tidal and water energy, computer systems, management systems to assure compliance with industry standards; research in the field of computer technology conducted using databases and the internet; consulting and advice in the field of data storage systems and software-defined infrastructure; consulting and advice relating to the design, selection, implementation and use of computer hardware and software systems for data storage systems and software-defined infrastructure for others; technical support services, namely, repair of data storage systems in the nature of computer software for data storage systems and problems relating to software-defined infrastructure, namely, repair of damaged computer programs; design services for data storage systems and software defined infrastructure for others; installation, updating and maintenance of data storage systems, namely, computer software for software-defined infrastructure; consulting services in the field of software as a service for providing the storage of electronic data and software-defined
infrastructure; electronic data storage and providing temporary use of nondownloadable software for the storage and recovery of data as a service; software-defined infrastructure software as a service featuring software for database management; software as a service, platform as a service featuring software for use in database management; design of a digital data storage system as software for storing of documents and business intelligence data; programming of digital data storage system software; maintenance of data storage system software; rental of data storage systems, namely, rental of computers and computer software; provision of data storage systems and computer programs for software-defined infrastructure, namely, providing virtual computer systems and virtual computer environments through cloud computing; provision of data as a service, namely, providing temporary use of on-line non-downloadable cloud computing software for use in electronic storage of data; platform as a service featuring computer software platforms for use in database management; remote verification surveys in the nature of marine surveying through digital means; remote computer inspection services for quality control purposes; remote inspection services, namely drone inspection for quality control purposes; product development in the fields of artificial intelligence, self-learning algorithms that increase ability to process significant amounts of data; development of digital industry computer platforms for enhanced connectivity and interaction between industry players, domain experts and data scientists; development and testing of computing methods, algorithms and software; programming of data processing computer programs; computer programming for data processing; development of data storage systems; development of data transmission systems; scientific analysis of technical data in the field of process industry, chemical industry, petrochemical industry, offshore industry, maritime industry, aerospace, automotive, finance, food and beverage, healthcare, IT and Telecom, oil, gas and energy, biorisk, climate change, corporate responsibility, hospital accreditation, IT software and systems, operational excellence, quality management, risk management and railroads; development of algorithms and computing methods for generating telecommunication and navigation data; design and development of electronic databases; providing online information in the field of technological research in the field of process industry, chemical industry, petrochemical industry, offshore industry, maritime industry, aerospace, automotive, finance, food and beverage, healthcare, IT and Telecom, oil, gas and energy, biorisk, climate change, corporate responsibility, hospital accreditation, IT software and systems, operational excellence, quality management, risk management and railroads from a computer database or the internet; advisory services related to port state control/inspection and detention risk, namely, related to the inspection of ships and vessels for quality control purposes; testing, inspection, certification and verification of fish farms, namely, testing, analysis and evaluation of the services of fish farms to determine conformity with certification standards; offshore container certification services, namely, testing, analysis and evaluation of offshore containers of others to determine conformity with certification standards; risk reduction services and engineering support in the nature of development and engineering of software for use in risk reduction in offshore projects and marine operations; Laboratory testing services, namely failure investigations in the nature of product failure analysis services, large scale materials and components testing, corrosion testing, large scale structural testing, in-field weighing of heavy offshore modules, in-field vibration measurements, combustion, fuel and energy lab, and full-scale fire, explosion and blast testing; geotechnical engineering assessments in the nature of scientific research; load response computer modelling services; finite element analyses for scientific research purposes; computer integrity assessments, inspections and maintenance services; technical life- extension studies and decommissioning assessment of ageing assets in the nature of evaluation of product quality; technical incident investigation, namely, troubleshooting of computer software problems; flow assurance services, namely a predicting service based on the behavior of produced fluids consisting of produced fluids testing and analysis as they travel along a pipeline; new product design of pipelines; gas technical
advisory, namely, technical consulting in the field of gas pollution detection; technical mechanical engineering advisory; structural engineering advisory; naval architecture services; marine advisory, namely decommission activities in the nature of evaluation of product quality; feed assessments and concept studies in the nature of scientific research for onshore and offshore oil and gas assets; visual inspection of metal castings for railway crossings for quality control purposes; new technology development and scientific research in purification of high-pressure natural gas streams; test certification in the nature of testing of low, medium and high power equipment of others in laboratories to determine conformity with certification standards; technical measuring and testing laboratory services of electrical power grids; technical support and advisory connected to turbine engineering support, namely, technical support in the nature of providing technical advice related to troubleshooting of computer software problems connected to turbine engineering; energy advisory, namely, consulting services in the field of energy efficiency measure implementation; design services related to turbines, solar photovoltaic plants, naval vessels, ships, offshore and onshore installations; software as-a-service, namely, hosting supervisory control and data acquisition system software, forecast system software to be used in forecasting energy production and pricing, and shadow cast software systems which calculate when shadow casts from wind turbines affect the surroundings for use by others; asset management services in the nature of management of information technology systems for wind farms and solar plants; maintenance of meteorological measurement software systems; operation and offering information security management systems as-a-service, namely, providing temporary use of online non-downloadable software for cyber security tests and control; environmental testing and assessment services, namely environmental verification, certification and advisory services in the nature of testing, analysis, an devaluation of environmental goods or services of others to determine conformity with certification standards; development of block chain technology, distributed ledger technology, artificial intelligence, internet of things, digital identification products; digital data assurance and verification services in the nature of Internet Protocol address verification services; data management and analytic services in the nature of electric and natural gas meter data management and analysis; computer cyber security advisory; equipment lifetime assessments in the nature of evaluation of product quality; consultancy services in the field of data verification in the nature of Internet Protocol address verification; computer project management in the field of electronic data processing; activities involving use of explosives, namely, explosion testing of construction materials and off shore structures to assure compliance with construction industry standards
