- **Publication Date**: Nov. 16, 2021

**MARK INFORMATION**
- **Standard Character Claim**: No
- **Mark Drawing Type**: 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S)
- **Description of the Mark**: The mark consists of the numbers and letters "V99.1 FM" shown in red capital letters located below a design of four interlocking black circles. The interlocking circles consist of one center circle, with three outer symmetric circles. One of the outer circles is on the top half of the center circle, and the two remaining outer circles are side by side on the bottom half of the center circle. The three outer circles are connected to each other in the center of the center circle to form another smaller circle within the center circle. The three outer circles are wide and appear joined in the center of the center circle, but gradually diminish in size as they rotate outward, coming to points, though none of the circles are closed. The words "ALTERNATIVE MUSIC NOW" begin in the circle on the right side of the design and continue to the right of the design above the words, "V99.1 FM" to complete the entire stylized design. The words "ALTERNATIVE" and "NOW" are shown in black capital letters, while the word, "MUSIC" is shown in red capital letters. All numbers, letters and circles have the appearance of a rough, painted surface showing paint-brush strokes. The entire design is on a white background.
- **Color Drawing**: Yes
- **Color Claimed**: The color(s) black, red and white is/are claimed as a feature of the mark.
- **Disclaimer**: "FM" AND "ALTERNATIVE MUSIC"

instruments, conductivity meters; speed indicators, wind indicators, automotive measuring instruments, namely, water temperature gauges, air fuel/ratio gauges, boost gauges, vacuum gauges and exhaust gas temperature gauges; detecting and monitoring instruments, namely, vehicle tracking devices, electronic tire pressure monitors, vehicle location detection system comprised primarily of display monitors, computers, image sensors, and video cameras, on-board vehicular surveillance systems comprised of cameras and monitors for exposing and eliminating the blind spots on both sides of the vehicle, safety and driving assistant systems for mobile vehicles and vessels comprised of electronic proximity sensors and switches, high-resolution cameras, integrated circuits for the purpose of imaging processing, and display monitors, indicators, namely electronic indicator panels, electronic indicator boards, speed indicators, wind indicators, temperature indicators, faulted circuit indicator, automatic altitude indicators, automatic indicators of low pressure in vehicle tires, level indicators for monitoring and controlling liquids in tanks and vessels and controllers, namely electrical controllers, electronic servo motor controllers, electronic speed controllers, cruise controls for vehicles and motorcycles, electrical integrated control systems for use in the field of computers, electronic systems, engineering, transportation, logistics, data analytics, cybersecurity, artificial intelligence, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales and network solutions for innovative business models; navigation, guidance, tracking, targeting and map making devices namely, electronic navigational and positioning apparatus and instruments, GPS tracking devices, GPS navigation devices, car navigation computers, satellite-aided navigation systems, navigation apparatus for vehicles in the nature of on-board computers, navigational apparatus for automobiles, heads-up displays (HUDs) in the nature of transparent electronic displays for the projection of data from a mobile device onto a vehicle windshield and for providing vehicles with navigational and operational information; optical devices and equipment, enhancers and correctors, namely telescopic aiming sights, apparatus for amplifying images, apparatus providing night vision in the nature of night vision goggles, distance measuring apparatus, fibre optic periscopes, image amplifiers, image intensifiers, instruments for amplifying images, telescopic sights, three dimensional viewers in the nature of 3D spectacles; safety, security, protection and signaling devices and equipment, namely, security control apparatus, holographic security apparatus, security surveillance apparatus, electronic security tags, security surveillance robots, cards encoded with security features for identification purposes, wireless controllers to remotely monitor and control the function and status of security systems, security tokens in the nature of encryption devices, security warning apparatus; scientific and laboratory devices for measurement of physical reaction using electricity, namely lasers for scientific use, DNA chips, sensors for scientific use to gather biometric data; software for use in displaying and analyzing data in the field of computers, electronic systems, engineering, transportation, logistics, data analytics, cybersecurity, artificial intelligence, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, security software, software for network and device security, software to control building environmental, access and security systems, software for ensuring the security of electronic mail, computer software for the remote control of security apparatus, artificial intelligence software for surveillance, artificial intelligence software for controlling vehicles, artificial intelligence and machine learning software for restricting unauthorized access to computer systems, artificial intelligence software for managing logistics, business intelligence software, artificial intelligence software for analysis of data; downloadable databases in the field of computers, electronic systems, engineering, transportation, logistics, data analytics, cybersecurity, artificial intelligence, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, artificial intelligence software for surveillance, artificial intelligence software for vehicles used for tracking vehicles, artificial intelligence and machine learning software for use in software development, artificial intelligence software for automated driving, artificial intelligence software for analysis of computer systems; recorded media
devices, namely, digital media streaming devices; audio and visual as well as photographic devices, namely, display monitors, touchscreen monitors, cameras, virtual reality glasses, virtual reality headsets, digital media streaming devices, apparatus for recording and reproduction of sound, images or data, cameras; data storage devices, namely, blank tapes for storage of computer data, computer storage devices, namely, high-speed storage subsystems for storage and backup of electronic data either locally or via a telecommunications network; electrical and mechanical data processing devices and equipment as well as accessories in the nature of data processing apparatus; communications equipment, namely, electronic and optical communications instruments and components, namely, communication link testers for testing communication links, electronic and optical communications instruments and components, namely, digital transmitters, electronic and optical communications instruments and components, namely, optical transmitters, electronic and optical communications instruments and components, namely, optical receivers, communications computers, apparatus for transmission of communication; replicating apparatus, namely, digital color copiers; electrical and optical signal cables for IT, audio vision and telecommunication; alarms, namely, personal security alarms that connect to a wireless communications network and parts for anti-theft automotive alarms, namely, electronic sensors, remote control transmitters and receivers for remotely operating land vehicles; analytical testing apparatus not for medical use, namely, lasers for scientific use, sensors for scientific use to gather biometric data; electrical switching devices, namely, electric circuit switches; electronic display units, namely, LCD large screen displays; checking being supervision apparatus and instruments namely, for checking vehicle parameters; electronic monitoring instruments, other than for medical use, namely, vehicle tracking devices, electronic tire pressure monitors, vehicle location detection system comprised primarily of display monitors, computers, image sensors, and video cameras, on-board vehicular surveillance systems comprised of cameras and monitors for exposing and eliminating the blind spots on both sides of the vehicle, safety and driving assistant systems for mobile vehicles and vessels comprised of electronic proximity sensors and switches, high-resolution cameras, integrated circuits for the purpose of imaging processing, and display monitors, indicators, namely electronic indicator panels, electronic indicator boards, speed indicators, wind indicators, temperature indicators, faulted circuit indicator, automatic altitude indicators, automatic indicators of low pressure in vehicle tires, level indicators for monitoring and controlling liquids in tanks and vessels and controllers, namely electrical controllers, electronic servo motor controllers, electronic speed controllers, cruise controls for vehicles and motorcycles, electrical integrated control systems for use in the field of computers, electronic systems, engineering, transportation, logistics, data analytics, cybersecurity, artificial intelligence, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales and network solutions for innovative business models; measuring apparatus and instruments, namely, height measuring instruments, resistance measuring instruments, conductivity meters; speed indicators, wind indicators, automotive measuring instruments, namely, water temperature gauges, air fuel/ratio gauges, boost gauges, vacuum gauges and exhaust gas temperature gauges; electronic transistors; electricity anti-interference devices, namely, filters for radio interference suppression, conductive silicone packing for electro-magnetic interference; controllers the nature of remote controllers, motion controllers, electrical controllers, sensor controllers, communications controllers, digital electronic controllers, temperature controllers apparatus for use in vehicle heating systems; radio telephony sets; high-frequency apparatus, namely, high frequency switches, high frequency mobile and sea-based communication antennas, electronic frequency converters for high velocity electro motors; electronic navigating apparatus; radar apparatus; radio transmitters; transmitters of electronic signals; computer software for use in database management and electronic storage of data, downloadable virtual reality training simulation software in the field of computers, electronic systems, engineering,
transportation, logistics, data analytics, cybersecurity, artificial intelligence, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing; downloadable software for monitoring and controlling communication between computers and automated machine systems; computers and computer hardware; computer programmes for data processing; computer operating systems; recorded computer operating programs; electric access and admission control devices, namely, electric locks; signaling apparatus and instruments, namely security control apparatus, holographic security apparatus, security surveillance apparatus, electronic security tags, security surveillance robots, cards encoded with security features for identification purposes, wireless controllers to remotely monitor and control the function and status of security systems, security tokens in the nature of a fob-like device used by an authorized user of a computer system to facilitate authentication, security warning apparatus; protective and safety equipment for vehicles, namely electronic deer alerts, electronic tire pressure monitors, back-up sensors and cameras, electronic vibration, shock, motion, angle, temperature and voltage monitors, on-board vehicular surveillance systems comprised of cameras and monitors for exposing and eliminating the blind spots on both sides of the vehicle, safety and driving assistant system for mobile vehicles and vessels comprised of electronic proximity sensors and switches, high-resolution cameras, integrated circuits for the purpose of imaging processing, and display monitors; alarms and warning equipment, namely, personal security alarms that connect to a wireless communications network and parts for anti-theft automotive alarms, namely, electronic sensors, remote control transmitters and receivers for remotely operating land vehicles; analytical testing apparatus not for medical use, namely, lasers for scientific use, sensors for scientific use to gather biometric data; monitoring instruments and apparatus, namely, vehicle tracking devices, electronic tire pressure monitors, vehicle location detection system comprised primarily of display monitors, computers, image sensors, and video cameras, on-board vehicular surveillance systems comprised of cameras and monitors for exposing and eliminating the blind spots on both sides of the vehicle, safety and driving assistant system for mobile vehicles and vessels comprised of electronic proximity sensors and switches, high-resolution cameras, integrated circuits for the purpose of imaging processing, and display monitors, indicators, namely electronic indicator panels, electronic indicator boards, speed indicators, wind indicators, temperature indicators, faulted circuit indicator, automatic altitude indicators, automatic indicators of low pressure in vehicle tires, level indicators for monitoring and controlling liquids in tanks and vessels and controllers, namely electrical controllers, electronic servo motor controllers, electronic speed controllers, cruise controls for vehicles and motorcycles, electrical integrated control systems for use in the field of computers, electronic systems, engineering, transportation, logistics, data analytics, cybersecurity, artificial intelligence, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales and network solutions for innovative business models; sensors and detectors, namely radar, laser and ultrasonic object detectors for use on vehicles; testing and quality control devices namely, testing instrumentation for monitoring and detecting contamination, apparatus for testing vehicle brakes; measuring, counting, alignment and calibrating instruments namely, laser measuring systems, audio analyzers, tool measuring instruments, distance measuring apparatus, mechanical and electronic measuring machines for identifying and analyzing structural damage to vehicles, automotive measuring instruments, namely, water temperature gauges, air fuel/ratio gauges, boost gauges, vacuum gauges and exhaust gas temperature gauges, electronic instruments for use in remote inspection and measurement of industrial components using remote visual devices, calibration devices for calibrating optical emission spectrometers; computer applications for automotive control; computer programs for project management; artificial intelligence apparatus in the nature of humanoid robots with artificial intelligence, safety and driving assistant systems with artificial intelligence for mobile vehicles and vessels comprised of electronic proximity sensors and switches, high-resolution cameras, integrated circuits for the purpose of imaging processing, and display monitors; augmented reality software for use in
mobile devices for integrating electronic data with real world environments

**International Classes**  9 - Primary Classes **US Classes**  21, 23, 26, 36, 38 **International Class Title**  Electrical and Scientific Apparatus

**For**  Safety and enforcement services for the protection of property and individuals, namely, security guard services, security screening of baggage, security threat analysis for protecting personal property and personal safety, security services, namely, monitoring of home security alarm systems, rental of security surveillance apparatus in the nature of security camera surveillance equipment, security surveillance robots, compiling crime occurrence data, analyzing data in computer databases for criminal activity, providing a web site featuring information on the development of privacy, security and data governance law; lifeguard services; security consultancy in the field of physical and personal security; security services for the protection of property and individuals, namely, security services for buildings in the nature of providing physical access to properties via a remote call-in locking device; licensing services, namely, legal administration of licenses, licensing of software in the framework of software publishing, consultancy relating to computer software licensing, consultancy relating to patent licensing, intellectual property licensing consultation in connection with electronic systems, engineering, transportation, logistics, data analytics, information technology infrastructures, electric vehicles, automated driving, vehicle development, digital marketing, sales and after-sales, network solutions for innovative business models; legal services in the nature of licensing of computer software; licensing of intellectual property

**International Classes**  45 - Primary Classes **US Classes**  100, 101 **International Class Title**  Personal and legal services

**For**  Telecommunication services, namely, telecommunication access services, electronic exchange of data stored in databases accessible via telecommunication networks, data transmission and reception services via telecommunication means, aeronautical telecommunication services, transmission of voice, audio, visual images and data by telecommunications networks, wireless communication networks, the Internet, information services networks and data networks, communications via multinational telecommunication networks; computer communication by computer terminals and providing internet access; provision of internet access services; provision of access to the internet for purposes of experiencing content, websites and internet portals; digital network telecommunications services; electronic network communications by fiber optic networks, digital communications networks, wireless communication networks, the Internet, information services networks and data networks; providing access to multimedia content online; e-mail data services, namely, providing electronic transmission of secure e-mail; consultancy in the field of telecommunications

**International Classes**  38 - Primary Classes **US Classes**  100, 101, 104 **International Class Title**  Communication

**For**  Scientific and technological services, namely, scientific and technological research and development in the field of electronic systems, cybersecurity, artificial intelligence, engineering, transportation, logistics, data analytics, automated driving and vehicle development, electric vehicles, digital marketing; design services for others in the field of electronic systems, engineering, transportation, logistics, data analytics, automated driving and vehicle development; information technology engineering; testing in the nature of material testing, product testing, testing of security systems, testing on civil engineering, testing the functionality of apparatus and instruments, testing of occupant protection systems for motor vehicles, testing of electronic components and electronic systems, automotive safety testing and consultation, namely, conducting crash tests and providing advice, information and reports, testing of vehicles to determine conformity with certification standards; authentication in the field of electric vehicles, automated driving, vehicle development and quality control for others;
industrial, scientific, technical, technological and engineering research services in the field of electronic systems, cybersecurity, artificial intelligence, engineering, transportation, logistics, data analytics, automated driving and vehicle development, electric vehicles, digital marketing; computer aided industrial analysis services, namely, computer aided designs of vehicles and vehicle components; provision of product research services; IT security services in the nature of protection and recovery of computer data; computer virus protection services; IT consultancy, advisory and information services; computer security consultancy; software development, programming and implementation; software development; software creation; computer software consultancy; writing of programs for data processing; computer hardware development; hosting services, namely, server hosting, cloud hosting provider services, hosting of digital content on the Internet, hosting computer software applications and websites of others in the field of electronic systems, cybersecurity, artificial intelligence, engineering, transportation, logistics, data analytics, automated driving and vehicle development, electric vehicles, digital marketing; software as a service (SaaS), namely, hosting software for use by others for use in database management and service desk management; consulting services in the field of software as a service, software as a service features for software for use in database management and service desk management; rental of software; electronic data duplication and conversion services, namely, duplication of computer applications, computer programs and software, data conversion of electronic information, computer code conversion for others, data and multimedia content conversion from and to different protocols, data coding services in the nature of computer code conversion for others; hosting computer sites in the nature of web sites; provision of security services for computer networks, computer access and computerized transactions, namely, restricting unauthorized network access by users without credentials, monitoring of computer systems for securing data and information from unauthorized access, computer security services for protection against illegal network access, computer security services in the nature of administering digital certificates, computer security threat analysis for protecting data, authentication services for computer security; computer project management in the field of EDP; monitoring technological functions of network systems; technical testing services in the nature of testing of electronic components and electronic systems, testing of occupant protection systems for motor vehicles, environmental automobile emission testing and inspection services, vehicle roadworthiness testing; computer aided testing services in the nature of testing of electronic components and electronic systems, testing of occupant protection systems for motor vehicles, environmental automobile emission testing and inspection services, vehicle roadworthiness testing; computer systems integration services in the nature of integration of computer software into multiple systems and networks, integration of private and public cloud computing environments; design of computer information systems; advisory services relating to computer based information systems; software engineering, namely, software development; IT project management; engineering project management services; consultancy in the field of security software; consultancy in the field of software design; research relating to technology, namely, technology research in the field of electronic systems, cybersecurity, artificial intelligence, engineering, transportation, logistics, data analytics, electric vehicles, automated driving, vehicle development, digital marketing; technical research, namely, technology research in the field of electronic systems, cybersecurity, artificial intelligence, engineering, transportation, logistics, data analytics, automated driving and vehicle development; integration of computer software; integration of computer systems and networks; consultancy and information services relating to computer system integration; design and development of computer software for logistics; design and development of computer software for logistics, supply chain management and e-business portals; technical support in the software area, namely, troubleshooting of computer software problems, remote administration and management of in-house and hosted datacenter devices, databases and software applications; provision of on-line support
services for computer program users, namely, troubleshooting of computer software problems, remote administration and management of in-house and hosted datacenter devices, databases and software applications; provision of technical support in the operation of computing networks, namely, troubleshooting of computer software problems, remote administration and management of in-house and hosted datacenter devices, databases and software applications

**For**: Machines for treatment of materials and for manufacturing, in particular machines for metalworking and machines for plastics processing; machine tools as parts of multi-purpose steam cleaning machines and industrial cleaning machines for the cleaning and surface treatment of ceramic, plastic, glass and metal surfaces by means of high pressure water jetting and ultrasound; machines for treatment of surfaces by means of high pressure water jetting; machines and installations for cleaning of ceramic, plastic, glass and metal surfaces by means of high pressure water jetting and ultrasound; machines and apparatus for the industrial cleaning of parts of metal, plastic, glass or ceramic with the use of cleaning fluids and/or vapour therefrom or with the use of ultrasound; machines and apparatus for the cleaning and subsequent drying of parts of metal, plastic, glass or ceramic; steam cleaning machines and installations; machines for cleaning surfaces using high pressure water jets; electric cleaning apparatus for parts of ceramic, plastic, glass and metal; cleaning installations comprising spray chambers, in particular for cleaning and degreasing surfaces and workpieces; machines and electric apparatus for the reconditioning of cooling lubricants; machines and electric apparatus for applying cooling lubricants to parts of metal and/or plastic; dust exhausting installations for cleaning purposes; degreasing machines for use on ceramic, plastic, glass and metal surfaces for commercial and industrial purposes; compressed air machines; steam boilers for steam generating as parts of machines; air condenser installations; compressors, namely, electric compressors, air compressors; pumps for machines and as parts of machines; power-operated blowers; filtering machines, namely, filtering machines for chemical processing and for filtering cleaning solutions; filters as parts of machines, motors and engines, namely, air filters, liquid filters; separators, namely, oil separators, cyclone separators, centrifugal separators; sieves being machines or parts of machines; sliding valves and valves all as parts of machines; nozzles being parts of machines; power-operated sprayers; spray lances for attachment to pressure washing machines for cleaning purposes; taps and clack valves all being parts of machines, motors or engines; flange joints for piping as parts of machines; industrial robots; conveyor devices and installations all being machines; roller tracks for use in roller
conveyor apparatus and belt conveyor apparatus; machines and machinery equipment for transferring, turning, order picking, storing and sorting of industrially produced components; material handling machines, automatic; grabs being parts of machines, namely, buckets, grapples and forks in the nature of attachments of industrial robots; feeders for machines; motors and engines, other than for land vehicles; powertrains in the nature of power transmissions and gearing for industrial cleaning machines; driving motors, other than for land vehicles; transmission shafts, other than for land vehicles; hydraulic and pneumatic controls for machines, motors and engines; machine coupling and transmission components, other than for land vehicles; bearings as parts of machines; machine parts being machine housings; opening and closing mechanisms being parts of machines; pneumatic, electric and hydraulic control mechanisms for machines, engines or motors; regulators being parts of machines; brushes being parts of machines; boiler tubes being parts of machines; joints being parts of engines; clamping tools for holding piece parts during machining; tools as parts of multi-purpose steam cleaning machines and industrial cleaning machines for the cleaning and surface treatment of ceramic, plastic, glass, and metal surfaces by means of high pressure water jetting and ultrasound; holding devices for machine tools being machine tool holders; generators, namely, electric generators; turbines, other than for land vehicles; ball valves being parts of machines; control valves for regulating the flow of gases and liquids; electric ultrasonic cleaning instruments for the cleaning and surface treatment of ceramic, plastic, glass, and metal surfaces for industrial use; ultrasonic cleaning machines for the cleaning and surface treatment of ceramic, plastic, glass, and metal surfaces; heat exchangers being parts of machines; structural components and structural replacement parts for all of the aforesaid goods

**International Classes** 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title** Machinery

**For** Regulating accessories for water or gas apparatus and pipes; industrial installations for filtering liquids, namely, water filtering apparatus, cleaning fluid filtering apparatus; filters for industrial and household use, namely, air filtering units, liquid filtering units; installations for the collection of liquids, namely, sustainable onsite water recycling and waste water treatment systems, waste water purification apparatus, waste water treatment tanks; heating, ventilating, and air conditioning apparatus and systems, namely, heating installations, heating boilers, ventilating exhaust fans, air conditioners; refrigerating appliances and installations; drying installations, namely, heaters for drying cleaned workpieces, industrial dryers for heating and dehumidifying; steam generating apparatus, machines and installations; distillation apparatus not for scientific purposes; heat regenerators; heat accumulators; taps being faucets; lighting apparatus, namely, lightning installations; electric lamps; pressure tanks for liquids being waste water treatment tanks; structural replacement parts for all of the aforesaid goods

**International Classes** 11 - Primary Classes **US Classes** 13, 21, 23, 24, 31, 34 **International Class Title** Environmental Control Apparatus

**For** Installation, maintenance and repair of cleaning and surface treatment machines for the purpose of cleaning surfaces of plastic, metal, glass and ceramic; installation work in industrial plants, namely, installation of material working machines and cleaning machines in industrial plants; installation, maintenance and repair of machines and machine tools; repair information; degreasing, washing and cleaning services using solvent, water, and vapor technology for surfaces of plastic, metal, glass and ceramic

**International Classes** 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair
For Measuring, detecting and monitoring instruments, indicators and controllers, namely, gas meters, electric sensors, electrical controllers; optical devices, enhancers and correctors, namely, optical filters, optical condensers, optical sensors; apparatus, instruments and cables for electricity, namely, electricity limiters, electricity conduits; apparatus and instruments for conducting, switching, converting, storing, regulating and controlling electricity, namely, electric controlling devices, electric transformers, electrical adapters, electric limiters, electric switchgear, electric relays; safety, security, protection and signalling devices, namely, sound alarms, safety markers; recorded content, namely, recorded machine operating software programs for controlling operation of industrial cleaning machines and industrial surface treatment machines for the purpose of cleaning surfaces of parts of plastic, metal, glass, and ceramic; apparatus and instruments for weighing; material testing instruments, namely, electronic apparatus for cleanliness analysis of cleaned parts of plastic, metal, glass, and ceramic; inspecting apparatus and instruments, electric, namely, for measuring, testing, and checking the temperature, pressure, quantity, and concentration of gas and liquids; testing apparatus not for medical purposes, namely, voltage testers, apparatus for testing gas, liquids and solids; remote control apparatus, namely, remote controls for cleaning machines; electric installations for the remote control of industrial operations; electric and electronic control apparatus, namely, electric control panels; particle flow monitors, namely, flow-based analyzers providing cell and particle analysis, detection, or counting for scientific, laboratory, and general research uses; electric level regulators; dosimeters; ultrasonic oscillators; test apparatus and installations built thereof for condition-oriented machine maintenance, namely, testing equipment for measuring the temperature, pressure, position, or form of workpieces in a machine tool; vibro-acoustic test apparatus for cleaning machines; heat regulating apparatus, namely, temperature controllers for air heaters and liquid heaters; electrical power distribution units; electricity conduits; connections for electric lines; joining units being electrical contacts; electricity connectors; diagnostic apparatus, not for medical purposes, namely, sensors and instruments for measuring, testing, and checking temperature, pressure, quantity, and concentration of gas and liquids; optical, electrical, electromagnetic and mechanical switches for electricity; electric apparatus for commutation being commutators; circuit breakers; electrical plugs; electric couplings; magnets; sensors and detectors, namely, for measuring, testing, and checking temperature, pressure, quantity, and concentration of gas and liquids; electric sensors; optical sensors; liquid level sensors; pressure sensors; turbidity sensors for liquids; temperature sensors; leak detectors; level switches for monitoring and controlling liquids in tanks and vessels; alarm signals, luminous or mechanical; electric control valves for regulating the flow of gases and liquids; electrical and electronic controls for multi-purpose steam cleaning machines and industrial cleaning machines; electric valve actuators; electric, electronic or electromagnetic relays; thermometers, not for medical purposes; thermal sensors being thermostats; temperature indicating apparatus; water meters; rotary encoders; time switches, automatic; electrical switch cabinets; electric control panels; electricity distribution consoles; data processing apparatus and computers for use with industrial cleaning machines and industrial surface treatment machines for the purpose of cleaning surfaces of parts of plastic, metal, glass, and ceramic; computer peripherals for use with industrial cleaning machines and industrial surface treatment machines for the purpose of cleaning surfaces of parts of plastic, metal, glass, and ceramic; processors being central processing units; computer systems comprised of computers and computer hardware for use with industrial cleaning machines and industrial surface treatment machines for the purpose of cleaning surfaces of parts of plastic, metal, glass, and ceramic; data entry terminals in the nature of computer keyboards, mobile data terminals, touchscreens for use with industrial cleaning machines and industrial surface treatment machines for the purpose of cleaning surfaces of parts of plastic, metal, glass, and ceramic; computer monitors for use with industrial cleaning machines and industrial surface treatment machines for the purpose of cleaning surfaces of parts of plastic, metal, glass, and ceramic; interfaces for computers for use
with industrial cleaning machines and industrial surface treatment machines for the purpose of cleaning surfaces of parts of plastic, metal, glass, and ceramic; memory cards; integrated circuit cards; devices for wireless radio transmission; recorded and downloadable computer software to control and monitor industrial cleaning machines and industrial surface treatment machines for the purpose of cleaning surfaces of parts of plastic, metal, glass, and ceramic; alarms, namely, acoustic alarms, smoke alarms, signalling alarms; safety devices in connection with the operation of machines, namely light barriers, switches and shielding caps for use with machines or apparatus to protect the service staff against accidents and injuries; structural components and structural replacement parts for all of the aforesaid apparatus

MARK INFORMATION
Standard Character Claim No Mark Drawing Type 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) Description of the Mark The mark consists of the block outlined letters "IECQ" with three dark shaded horizontal lines depicted at the top portion of the block letters "IECQ". The letters are depicted on top of a shaded moon partially blocking a spherical object representing the sun; the sun is lighter in the middle, and shaded towards the outside with a dark outlined perimeter. The entire design is depicted on a dark shaded square with three lighter horizontal lines depicted on the bottom right portion of the shaded square and the depiction of the shaded moon. The colors black, white and gray represent a transparent area, shading, background or outlining and are not a feature of the mark. Color Claimed Color is not claimed as a feature of the mark.

Mark Literal(s) FOREIGN WORDING, ELLEAIR, "ELLEAIR WHITE" MADE WITH 100% PURE PULP.

CASE IDENTIFIERS
Serial Number 79297970 Application Filing Date Aug. 21, 2020 Register Principal Mark Type Trademark Publication Date Nov. 16, 2021

MARK INFORMATION
Standard Character Claim No Mark Drawing Type 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/LETTER(S) Description of the Mark The mark consists of a three-dimensional configuration of a paper packaging boxes, which include five boxes that are stacked on top of each other. All of the boxes have the same designs of a quarter circle on the front left of the box that extends to the middle of the front of the box and includes stylized stars, snowflakes, and leaves within the quarter circle. Next to that larger quarter circle are the foreign wording in larger font and smaller wording below "ELLEAIR WHITE" MADE WITH 100% PURE PULP.". To the right of this wording is a smaller quarter circle on the bottom right of the front of the box. The same design is present on the top of the top box and also is presented on the left side of the boxes, except the larger quarter circle is on the top left corner and the smaller quarter circle is on the bottom right and there is a stylized circular design next to the wording "ELLEAIR" and above the foreign wording all in black. The bottom right left includes numbers and the foreign wording, which transliterates to "360 SHEETS (180 sets)". The boxes all have different colors, except for the stylized circular design on the left. The first box designs are light blue, the second box is green, the third box is yellow, the fourth box is pink, and the fifth box is purple. The broken lines depicting the outer outline of the box and the broken lines at the top of the box indicating the perforated opening for the removal of tissue and to the right of each box, the broken horizontal lines in the middle of the box that separate the right side of the box and include broken lines that represent a half circle that is situated in the middle of each of the perforated horizontal lines indicates placement of the mark on the goods and are not part of the mark. Color Drawing Yes Color Claimed The color(s) blue, green, yellow, pink, and purple is/are claimed as a feature of the mark. Disclaimer THE NON-LATIN CHARACTERS THAT TRANSLITERATE TO "360 MAI / 180 KUMI" AND "WHITE" AND "MADE WITH 100% PURE PULP." Translation The wording "ELLEAIR" has no meaning in a foreign language. Transliteration The non-Latin characters in the mark transliterate to "ELLEAIR" and this has no meaning in a foreign language. The non-Latin characters in the mark transliterate to "360 MAI / 180 KUMI" and this means "360 SHEETS / 180 SETS" in English.

GOODS AND SERVICES INFORMATION
For  Vehicles, namely, land vehicles, light rail vehicles, trains, aircraft, space vehicles, boats, drones, and unmanned aerial vehicles; unmanned aerial vehicles (UAVs); drones; camera drones; remote controlled air, land, water, and space vehicles, namely, land vehicles, light rail vehicles, trains, aircraft, space vehicles, boats, drones, and unmanned aerial vehicles; military drones; military decoys in the nature of unmanned aerial vehicles; military vehicles for transport; robotic transport vehicles; structural parts of aircraft; structural parts of drones; aircraft and space vehicles, and structural parts therefor; aircraft; helicopters; rotorcraft; vehicle propellers and vehicle propeller blades; hovercraft; jet aircraft; military aircraft; marine vehicles; boats; ships; thrusters for vehicles; remote-controlled aircraft; unmanned aircraft; amphibious airplanes; gliders; light aircraft; apparatus for locomotion by land, water, water, or rail, namely, land vehicles, light rail vehicles, trains, aircraft, space vehicles, boats, drones, and unmanned aerial vehicles; space vehicles; launch vehicles being space vehicles; self-driving transport vehicles; vehicular balloons; aeronautical apparatus, namely, remote-controlled aircraft other than toys; land vehicles and structural parts therefor; automobiles; autonomous vehicles, namely, unmanned and self-driving land vehicles, light rail vehicles, trains, aircraft, space vehicles, boats, drones, and unmanned aerial vehicles; robotic cars; structural parts for autonomous vehicles, namely, land vehicles, light rail vehicles, trains, aircraft, space vehicles, boats, drones, and unmanned aerial vehicles; vehicles featuring autonomous driving features, namely, land vehicles, light rail vehicles, trains, aircraft, space vehicles, boats, drones, and unmanned aerial vehicles, and structural parts therefor; driverless vehicles, namely, driverless land vehicles, light rail vehicles, trains, aircraft, space vehicles, boats, drones, and unmanned aerial vehicles; driverless transporter vehicles, namely, self-driving transport vehicles; driverless cars, namely, autonomous cars; electric vehicles, namely, land vehicles, light rail vehicles, trains, aircraft, space vehicles, boats, drones, and unmanned aerial vehicles; autonomous vehicles based on artificial intelligence solutions, namely, land vehicles, light rail vehicles, trains, aircraft, space vehicles, boats, drones, and unmanned aerial vehicles; robotic and self-driving transport vehicles that transport people, packages, supplies, and freight, namely, land vehicles, light rail vehicles, trains, aircraft, space vehicles, boats, drones, and unmanned aerial vehicles; driverless land vehicles; vehicles connected to the internet, namely, land vehicles, light rail vehicles, trains, aircraft, space
vehicles, boats, drones, and unmanned aerial vehicles; remote controlled vehicles, namely, land vehicles, light rail vehicles, trains, aircraft, space vehicles, boats, drones, and unmanned aerial vehicles; structural electrical assemblies adapted for vehicles, namely, electric drives for vehicles; vehicles for neutralizing and destroying other vehicles, namely, drones, aircraft, and unmanned aerial vehicles; military decoys being unmanned aerial vehicles; electronically-controlled weapons platforms that may also be used as decoys and for reconnaissance, namely, military drones

**International Classes**: 12 - Primary Classes **US Classes**: 19, 21, 23, 31, 35, 44 **International Class Title**: Vehicles

**For**: Toy drones, and replacement parts therefor; toy vehicles, and replacement parts therefor; remote controlled toy vehicles, and replacement parts therefor; remote controllers for toy vehicles; toy model kits; scale model kits

**International Classes**: 28 - Primary Classes **US Classes**: 22, 23, 38, 50 **International Class Title**: Toys and Sporting Goods

**For**: Industrial robots and replacement parts therefor; industrial robots for use in security, safety and inspection applications; industrial robots for use in logistics applications; robotic exoskeleton suits being machines, other than for medical purposes; engines and motors for aircraft and unmanned vehicles, and replacement parts therefor; thrusters for machinery; generators of electricity; electrical power generators; engines other than for land vehicles; propulsion systems, namely, engines and rocket motors, other than for land vehicles; machines for manufacturing vehicles, namely, for assembling vehicles

**International Classes**: 7 - Primary Classes **US Classes**: 13, 19, 21, 23, 24, 31, 34, 35 **International Class Title**: Machinery

**For**: Ammunition; munitions; explosives; ballistic weapons; projectiles; guided projectiles; guided and ballistic missiles; bombs; firearms and artillery guns; artillery cannons; kinetic projectiles and ballistic weapons for disabling and destroying drones and unmanned aerial vehicles; remotely-operated kinetic projectiles for disabling and destroying drones and unmanned aerial systems (UAS); remotely-operated kinetic projectiles for disabling and destroying drones and unmanned aerial systems (UAS) via impact; air to surface guided and non-guided projectiles and ballistic weapons; surface to air guided and non-guided projectiles and ballistic weapons; weapon-launching apparatus, namely, devices for launching ballistic and guided weapons and projectiles; remotely-operated ballistic weapons and projectiles; ballistic weapons and projectiles for use with robots, vehicles and drones; ballistic weapons and projectiles for countering, disabling, and destroying robots, vehicles and drones; detonators; explosives in the nature of explosive armor plating for military vehicles comprising explosives between metal plates; machine gun turrets; gun carriages; missile launchers; countermeasure launchers, namely, missile launchers; decoy weapon launchers for later installation in or on aircraft, unmanned vehicles, drones, land vehicles, or marine vehicles, namely, missile launchers; defensive weapon systems, namely, guided missiles, ballistic weapons, and weaponized military lasers for disabling aircraft, drones, and unmanned aerial vehicles; drone and unmanned vehicle defense system comprised primarily of targeted weapons in the nature of guided missiles, projectiles, and ballistic weapons, and also containing non-medical lasers with kill assessment capabilities and electronic transmitters for jamming signals, for the purpose of intercepting and destroying enemy drones and unmanned vehicles; non-telescopic gun sights for firearms; replacement parts for all the aforesaid goods

**International Classes**: 13 - Primary Classes **US Classes**: 2, 9 **International Class Title**: Firearms
For Installation of security systems; installation of electronic communications systems hardware and electronics equipment; installation of electronic weapons systems hardware and electronics equipment; installation of electronic surveillance systems hardware and electronics equipment; repair, maintenance, and installation of computer hardware, electronics, and electrical devices; vehicle repair, maintenance, and installation services; aircraft and spacecraft repair, maintenance, and installation services; drone repair, maintenance, and installation services; unmanned vehicle repair, maintenance, and installation services; technical support services, namely, repair and maintenance of computer hardware, electronics, electrical devices, vehicles, aircraft, spacecraft, drones, and unmanned vehicles; consulting, advisory, and information services in the fields of repairing and maintaining computer hardware, electronics, electrical devices, vehicles, aircraft, spacecraft, drones, and unmanned vehicles

For Power management systems, namely, electric control devices for energy management; computers; computer hardware; computer peripherals; communications equipment, namely, computer hardware, radios, satellites, cellular phones, cellular signal transmitters and receivers, and computer peripherals for managing and coordinating the transfer and receipt of electronic data between and among unmanned vehicles and personnel; downloadable software for accessing, transmitting, and receiving radio signals; solar panels for production of electricity; downloadable computer software for managing and coordinating the transfer and receipt of electronic data between and among unmanned vehicles and personnel; downloadable encryption software; downloadable software for transmitting and receiving electronic communications data; downloadable software for controlling and operating unmanned vehicles; downloadable software for managing and operating war games simulations for military personnel, security personnel, unmanned vehicles, and drones; downloadable computer software for managing actionable intelligence related to national defense and national security; downloadable mobile applications for managing actionable intelligence related to national defense and national security; downloadable software for radar, radio frequency, and signal jamming; downloadable software for detecting, countering, disabling, and destroying robots, vehicles, and drones; radar apparatus; electronic sensors for detecting radar; radio frequency transmitters and receivers; electronic transmitters for jamming signals; electronic equipment for detecting, tracking, countering, disabling, and destroying robots, vehicles, and drones by kinetic or non-kinetic methods; electronic equipment for disabling and destroying drones and unmanned aerial systems by interfering with or impeding radio frequencies; downloadable software for developing and implementing artificial intelligence programs and algorithms in other software, computer hardware, and unmanned aerial systems; downloadable virtual reality software for controlling and operating unmanned vehicles and drones; downloadable augmented reality software for controlling and operating unmanned vehicles and drones; downloadable mobile applications for controlling and operating unmanned vehicles and drones; virtual reality and augmented reality computer hardware and computer peripherals; virtual reality computer hardware; downloadable computer software for implementing virtual reality technologies; augmented reality computer hardware; downloadable computer software for implementing augmented reality technologies; mixed reality computer hardware; downloadable computer software for implementing mixed reality technologies; downloadable computer graphics software; downloadable computer graphics software applications; downloadable computer software for electronic management and storage of data, for computer network management, and for enhancing graphical and video displays; downloadable computer software for operation of integrated circuits, semiconductors, computer chipsets, and microprocessors; machine learning processors; downloadable computer software for performing computer graphics operations and
improving graphical and video display capabilities; downloadable computer software for coordinating the operation and management of a variety of sensors, computer hardware, communications equipment, and unmanned vehicles; downloadable computer software for operating and managing unmanned vehicles with the aid of artificial intelligence; computer hardware and recorded software system for remotely monitoring environmental conditions and controlling devices within a building, facility, grounds, or designated spatial area; downloadable computer software for managing security and surveillance systems, and for managing related reconnaissance operations; downloadable computer software for operating and deploying weapon systems; computer hardware and downloadable computer software for developing and implementing programs and algorithms that use artificial intelligence, machine learning, deep learning, natural language generation, statistical learning, supervised learning, and un-supervised learning, for use in predictive data analytics and business intelligence; downloadable computer software for developing swarm intelligence programs and algorithms and implementing the same in other software and computer hardware; computer hardware and downloadable computer software systems using artificial intelligence, computer vision, and mesh networking, for managing security and surveillance systems, and for managing related reconnaissance operations; telecommunication towers; telecommunications terminals being electronic computer terminals; telecommunication tower systems for security and surveillance, comprised primarily of wireless transmitters and receivers, computer hardware, downloadable or recorded computer software for managing electronic security and surveillance systems and sensor data processing, cameras, solar panels for the production of electricity, and electronic proximity and motion recognizing sensors, and also containing mounting hardware, telecommunications tower bases, lighting fixtures, and metal poles; downloadable software, and computer hardware, for operating artificial intelligence platforms; data processing equipment, namely, couplers, computer central processing units (CPUs), and graphics processing units (GPUs); apparatus, instruments and equipment for electronic warfare, namely, electronic transmitters for jamming signals and radar jamming devices; laser object detectors for use on vehicles; lasers for measuring purposes; lidar apparatus; lidar sensors; radar apparatus; sensors comprised of computer hardware and recorded software for the detection of electromagnetic, ultraviolet, and infrared radiation; infrared sensors; collision warning sensors and radars, namely, radar apparatus, proximity sensors, and cameras containing a linear image sensor; surveillance cameras; vision equipment in the nature of electronic proximity sensors and optical sensors for manned and unmanned vehicles; downloadable software for detecting and identifying vehicles; lasers for non-medical purposes, namely, for electronic warning systems; thermal imaging apparatus and daytime vision apparatus, namely, remote controlled thermal imaging systems, not for medical use; thermal imaging hardware, namely, infrared cameras with near infrared, short-wave infrared, medium-wave infrared, and long-wave infrared capabilities; downloadable software for automotive technology, namely, downloadable software using artificial intelligence and related systems for autonomous navigation of motor vehicles; programmable electronic controllers for autonomous vehicles; electronic devices for preventing the detonation of explosives and munitions; computer hardware and downloadable software for detecting, classifying and analyzing the presence, location, motion, and nature of vehicles, aircraft, tanks, marine vessels, weapons platforms, and personnel; central processing units for processing information, data, sound or images; automatic altitude indicators, speed indicators, level indicators and temperature indicators; power supplies for lights, cameras, surveillance equipment, sirens and public address systems; security surveillance robots; guidance and navigation systems, namely, electronic navigational and positioning apparatus and instruments; downloadable software and computer hardware for detecting motion; global positioning systems (GPS); downloadable software for developing, manufacturing, controlling, flying, steering, navigating, and monitoring vehicles; electronic equipment and systems, namely, computer hardware and downloadable software for directing combat operations, namely, for tracking and coordinating the transmission of data between unmanned vehicles and combat personnel; downloadable software
for recording and processing data used in controlling, flying, steering, navigating, monitoring, and securing vehicles; electronic communications, navigation, collision warning, and pilot assistance system for vehicles, namely, vehicle onboard computers; navigational instruments for vehicles on-board computers; computer hardware and downloadable software for land and air vehicles, namely, hardware and downloadable software for recording vehicle operation data and mission data; downloadable software for planning and managing intelligence gathering requests; computer hardware and downloadable software for managing and operating electronic surveillance and monitoring systems; data processing apparatus and computers; satellite transmitters and receivers; electric power converters; transponders; downloadable software for securing the privacy of electronic communications; downloadable software for receiving, viewing, and storing satellite imaging and data; computer hardware and downloadable software for target recognition, target identification, and target tracking by unmanned vehicles; multisensor platforms for vehicles comprised of computer hardware, motion sensors, proximity sensors, collision sensors, and velocity sensors; downloadable software for 3D-visualization, 3D modeling and 3D rendering; downloadable software for image rendering, modeling, and image manipulation and processing; computer vision accelerators comprised of computer hardware and recorded software for implementing technologies and algorithms in the fields of artificial intelligence, machine learning, deep learning, high performance computing; electronic video streaming system and products, namely, electronic components of security systems; mesh networking software and hardware, namely, computer hardware and downloadable software for administration of mesh computer networks; wireless mesh sensing hardware and software, namely, computer hardware and downloadable software for managing and collecting data from electronic sensor networks; mesh communication devices being computer hardware and computer peripherals; perimeter awareness systems comprised of motion and proximity recognizing sensors; head-mounted video displays; virtual reality headsets; augmented reality headsets, namely, virtual reality glasses; downloadable virtual reality software for operating virtual reality headsets; augmented reality glasses, namely, virtual reality goggles; downloadable augmented reality software for operating augmented reality headsets; downloadable gesture recognition software; motion tracking sensors for augmented reality technology; motion tracking sensors for virtual reality technology; downloadable virtual reality software for navigating a virtual reality environment; downloadable virtual reality software for object tracking, motion control, and content visualization in virtual reality environments; downloadable augmented reality software for navigating an augmented reality environment; downloadable software for recording, storing, transmitting, receiving, displaying, and analyzing data from wearable computer hardware; downloadable software, downloadable firmware and computer hardware for visual, voice, audio, motion, eye, and gesture tracking and recognition; downloadable software for enabling the delivery of wireless content, digital data, and digital information; sensor fusion computer hardware and downloadable computer software for coordinating and unifying the operations of multiple electronic sensors; downloadable software for sensor fusion, namely, downloadable software for monitoring, compiling, and analyzing the data outputs from multiple sensors simultaneously; electronic computer vision accelerators, namely, microprocessors; artificial intelligence apparatus comprised of computer hardware and recorded software for implementing artificial intelligence technologies and algorithms to enhance products and services; automated self-contained digital video streaming devices that can be deployed to gather and analyze information in remote locations; computer hardware and recorded computer software system for detecting, classifying, triangulating, and tracking real world objects using computer vision sensors; computer hardware systems comprised of cameras, matrix switchers for audio and video signals, video monitors, microphones, video and audio recorders, transmitters of electronic signals, and electronic video streaming devices for IP (Internet protocol) video surveillance and transmission of data; mobile computers; mobile
communications devices, namely, wireless transmitters and receivers for use with text, audio, video, images, still and motion pictures, graphics, signals, messages, multimedia files, and other digital data; computer hardware and downloadable software for processing, reproducing, synchronizing, recording, organizing, downloading, uploading, transmitting, streaming, receiving, playing and viewing text, multimedia, and data files; computer hardware for use in artificial intelligence applications and computer vision; downloadable software using artificial intelligence for enabling computers to process and analyze visual data inputs; downloadable computer vision software, namely, downloadable software using artificial intelligence for enabling computers to process and analyze visual data inputs; downloadable pattern recognition software for identifying objects and persons; computer hardware and software systems, and communications hardware and software systems, for the operation, control, maintenance, and management of vehicles, namely, onboard computers and navigational apparatus for vehicles; computer hardware and software systems for vehicle components for the purpose of vehicle navigation, travel and trip planning and communication with vehicles, namely, onboard computers and navigational apparatus for vehicles; computer hardware and software systems for collecting, tracking, analyzing, and reporting data and information in the field of self-driving and autonomous vehicles, namely, onboard computers and navigational apparatus for vehicles; software and hardware system that facilitates data transmission, data collection, data analysis, and decision-making, namely, onboard computers and navigational apparatus for vehicles; computer hardware for IP video streaming; downloadable autonomous vehicle operations software featuring navigation, steering, tracking, wireless communication, object detection, camera and electronic sensor control, and image processing; downloadable software for steering and navigation of autonomous vehicles; downloadable software for communicating with autonomous vehicles; downloadable software for searching, locating, compiling, indexing, correlating, navigating, obtaining, downloading, receiving, encoding, decoding, playing, storing, and organizing text, data, images, graphics, audio, and video on a global computer network; downloadable software for collecting, managing, editing, organizing, modifying, transmitting, sharing, and storing of electronic data; downloadable software platforms for developing and implementing artificial intelligence software applications; downloadable interpretative interface software for facilitating interaction between humans and machines; downloadable software for operating and controlling compute intensive data processing, data processing architecture, smart infrastructure computing, predictive intelligence computing, execution planning in computing, and for operating sensor devices in the fields of artificial intelligence, machine learning, deep learning, high performance computing, distributed computing, virtualization, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics, and business intelligence; downloadable software for modifying, and for enabling the transmission of, images, audio, audio visual and video content, and electronic data; downloadable software and computer hardware for enabling data processing in the field of battlefield awareness by unmanned aerial vehicles and drones; downloadable software and computer hardware for enabling data processing in the field of threat assessment and intelligence gathering; downloadable software for processing images, graphics, audio, video, and text; downloadable software for enabling operation of electronic devices by voice command; downloadable software for speech recognition; downloadable software for speech to text conversion; downloadable software for voice processing, namely, downloadable software for the control of voice controlled information and communication devices; wireless controllers to monitor and control the functioning of other electronic devices; electronic components, namely, circuit boards, field programmable gate array IP cores, artificial neural networks, electronic thermal sensors, geofencing sensors, electromagnetic sensors, mechanical sensors, optical sensors, proximity sensors, image sensors, and motion sensors; downloadable software for connecting, operating, and managing networked computing systems, sensors, actuators, robotic systems, communication systems, and test systems; scientific instruments, namely, instruments for gathering, measuring and processing data for use in
the fields of artificial intelligence, machine learning, deep learning, high performance computing, distributed computing, virtualization, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics and business intelligence; downloadable software, downloadable firmware, and computer hardware for evaluating, analyzing, collecting, storing, and searching data in the fields of edge computing, artificial intelligence, high performance computing, distributed computing, machine learning, automation controls, data collection and data analytics; downloadable software for the collection, editing, organizing, modifying, book marking, transmission, storage, and sharing of data and information in the field of wireless communications for voice, audio, video, and data transmission; robotic systems comprised of electric actuators, electronic controllers for robots, and computer hardware for data processing, all for use in the fields of network edge computing, artificial intelligence, high performance computing, distributed computing, machine learning, automation controls, data collection and data analytics; downloadable computer software development tools; electronic display interfaces; equipment for data processing and computers, namely, computer hardware and computer peripherals which integrate machine learning and artificial intelligence technology; computer hardware and downloadable software for detecting objects, user gestures, and voice commands; computer hardware and downloadable software for operating sensor devices; computer hardware for artificial intelligence and machine learning technology; portable electronic devices in the nature of computers, smartphones, and tablet computers for receiving and reading text, images and sound through wireless internet access; downloadable software for data visualization, data analysis, data mining, data interpretation, predictive analytics, accessing and editing large-scale data, interactive visual computing, design of information graphics, video streaming, and maximizing graphics processing and performance; downloadable computer software platform for controlling, tracking, and monitoring self-driving and autonomous vehicles; computer hardware and downloadable software using artificial intelligence for controlling and monitoring self-driving and autonomous vehicle electronic driving systems; downloadable software for analyzing images, and for classifying and categorizing the content of images; electronic sensors, namely, motion sensors; electronic controllers for operating drones and unmanned vehicles; sensors for detecting and measuring acceleration; sensors for detecting and measuring the position of objects; sensors for detecting and measuring temperature and pressure; electronic night vision devices and apparatus, namely, night vision goggles; electronic thermal vision devices and apparatus, namely, thermal imaging cameras and thermal imaging systems, not for medical use; motion control devices and apparatus, namely, electronic controllers for operating drones and unmanned aerial vehicles by physical user motion; navigation apparatus for vehicles; unified global positioning system (GPS), radar apparatus, and image-based navigation devices, namely, navigation apparatus for vehicles; vehicle tracking devices, namely, vehicle locating, tracking and security system comprised of an antenna and radio transmitter to be placed in a vehicle; tracking devices using sensor fusion, namely, computers for tracking objects with the aid of electronic sensors; batteries; batteries for vehicles; security cameras; apparatus and instruments for conveying, distributing, transforming, storing, regulating or controlling electricity; tactical robots; wireless communication equipment, namely, computer networking hardware and computer peripherals; optical and aiming instruments and devices, namely, optical data links, optical receivers, optical transmitters, and lasers other than for medical purposes; air traffic control computers and radio equipment; wireless transmitters and receivers; antennas, aerials, and replacement parts therefor; apparatus for recording,
transmission, and processing, of sound, images, or data; automated drone detection systems comprised of computer hardware, recorded software for detecting flying objects, motion sensors, proximity sensors, and radar apparatus; downloadable software for the automatic piloting and navigation of unmanned vehicles; downloadable computer software for the collection, editing, organizing, modifying, book marking, transmission, storage, and sharing of data and information; unmanned and robotic vehicle control computer systems, namely, computer hardware and recorded software for controlling drones remotely; unmanned and robotic vehicle navigation computer systems, namely, computer hardware and recorded software for controlling drones remotely; electronic surveillance apparatus and equipment, namely, video cameras; cameras; infrared cameras; infrared detection apparatus; infrared devices, namely, infrared cameras not for medical purposes; intruder detecting apparatus, namely, motion sensors; motion-activated cameras; industrial automation controls; downloadable software for controlling edge devices in the nature of routers, routing switches, integrated access devices, multiplexers, metropolitan area network access devices, and wide area network (WAN) hardware; downloadable software for controlling self-driving and autonomous vehicles; directional infrared and laser devices for defending against weapon attacks, namely, directional infrared countermeasures systems comprised mainly of electronic proximity and motion sensors, infrared signal transmitters, lasers, electronic directional aiming devices and associated computer processing hardware and recorded software for military and security threat assessment, weapon tracking and directing energy from such infrared sensors and lasers onto attacking weapons to neutralize the threat; replacement parts and structural parts for all the aforesaid goods

GOODS AND SERVICES INFORMATION
For 35mm cameras; 3D camera systems, namely, adapters for allowing 3D shooting; Bicycle accessories, namely, electronic sound making devices for use on bicycles that generate a motorcycle engine sound; Camera cases; Camera containing a linear image sensor; Camera filters; Camera flashes; Camera handles; Camera hardware systems for IP (Internet protocol) video surveillance; Camera hoods; Camera lens adapters; Camera lens mounts; Camera mounts and supports; Camera shutters; Camera stability accessory, namely, a support arm, vest and sled for film and video cameras to absorb shaking moves while shooting; Camera straps; Camera tripods; Cameras; Cameras for monitoring and inspecting equipment in a nuclear power station; Cameras for self-developing film; Cell phone auxiliary cables; Cell phone backplates; Cell phone cases; Cell phone covers; Cell phone faceplates; Cell phone having large keys and numbers that assist users having impaired vision or dexterity; Cell phone straps; Cell phones; Chargers for batteries; Chargers for electric accumulators; Chargers for electric batteries; Chargers for electronic cigarettes; Chargers for smartphones; Clock generators for computers; Control cabinets specially adapted for traffic control equipment; Control cabinets specially adapted for vehicle traffic control equipment; Control valves for regulating the flow of gases and liquids; Devices for wireless radio transmission; Digital audio and video recorders and players; Digital audio players; Digital audio tape players; Digital audio tape recorders; Digital book readers; Digital cellular phones; Digital colour copiers; Digital colour printers for documents; Digital disc drives; Digital door locks; Digital film scanners; Digital graphic scanners; Digital input and output scanners; Digital media hubs; Digital media receivers; Digital media servers; Digital media streaming devices; Digital multimeters; Digital music downloadable from the Internet; Digital music system that synchronizes digital music files stored on a home unit and a car unit; Digital notepads; Digital pH meters; Digital phones; Digital photo frames; Digital photo image converters; Digital plotters; Digital projectors; Digital signage; Digital signage display panels; Digital signage monitors; Digital signal processors; Digital signs; Digital sound processors; Digital telephone switching apparatus; Digital telephones; Digital to analog converters (DACs); Digital to analogue converters; Digital torque gauges; Digital versatile disc player; Digital video disc drives; Digital video recorders; Digital voice recorders; Digital voice signal processors; Electric light dimmers; Electric light switch plaster rings; Electric light switches; Electric
control devices for heating and energy management; Electric discharge tubes, other than for lighting; Electric warning light systems; Electrical arc detection and suppressing device used in low voltage switchgear; Electrical plug device enabling connection and disconnection of power and/or control cables; Electrical power devices, namely, multimedia outlets; Electrical power devices, namely, taps; Electrical switchgear, namely, voltage boosting devices for electric power lines; GPS data logger for recording trips and classifying them into different accounts; GPS navigation device; GPS receivers; GPS tracking device to be worn on the wrist of an athlete during endurance events; Lighting control apparatus; Lighting control panels; Lighting controls; Lighting panel control boards; Lights for use on video cameras; Lights for use with cameras on cell phones, cars, tablets, computer; Cameras; Metered gasoline pumps; Metering orifices, namely, orifice plates for metering or controlling the flow rate of liquids; Remote circuit breaker control switch operators; Remote control starters for vehicles; Remote control telemetering machines and apparatus; Remote control telemetering machines and instruments; Remote control transmitter for radio-controlled devices; Remote controlled thermal imaging systems, not for medical use; Remote controls for gas stoves and fireplaces; Remote controls for massage chairs; Remote controls for motors; Remote controls for operating vehicle alarms; Remote controls for projectors; Remote controls for televisions; Remote controls for motors, TV, tablets; Remote cursor controls for computers; Remote filling stations for use in carbon dioxide fire suppression systems; Remote fuel oil level sensing system; Remote sensors for use in measuring thermal and infrared radiation energy waves; Scales; Scales with body mass analysers; Scales with body mass analyzers; Smart watches; Solar batteries; Solar cells; Solar panels for production of electricity; Solar panels for the production of electricity; Solar wafers; Solar-powered rechargeable batteries; Speaker enclosures; Speaker microphones; Tablet computer; Tablet computers; Thermometers not for medical purposes; Thermometers other than for medical use; Thermometers, not for medical purposes; Thermostats; Thermostats for vehicles; Timer that may be attached to a prescription vial cap for reminding persons to take medicine; Timers; Timers for reminding persons when their disposable contact lenses need replacing; Video cameras; Video cameras for analyzing golf swing; Abdominal belts containing built-in speakers for purposes of transmitting music/sounds/educational material to a fetus and built-in pockets in which to carry audio transmitters; Access control and alarm monitoring systems; Accessories for lighting fixtures, namely, plastic pole with electrical source in protective cover; Acoustic meters; Acoustic amplifiers for mobile devices; Adapter rings for attaching objectives on cameras; Adapters for coupling a GPS receiver to the microphone input of a digital camcorder; Adjustable smartphone and PC tablet stabilizers and mounts; Air traffic control radio equipment; All-in-one (AIO) liquid coolers for central processing units; Ampere-hour meters; Analog cameras; Analog to digital converter (ADCs); Analogue to digital converters; Apparatus for converting electronic radiation to electrical energy, namely, photovoltaic solar hybrid modules; Apparatus for converting electronic radiation to electrical energy, namely, photovoltaic solar modules; Apparatus that employs light concentrating optics to concentrate sunlight and to aid in the conversion of sunlight into electric and thermal energy; Art kit for use in assembly of art installation that creates a kaleidoscope painting of moving patterns and changing colors consisting of a custom designed incandescent/LED lamp with interchangeable colored glass filtered lenses, glass crystals with custom designed sterling silver bails, plastic mounting hooks, filaments for suspending crystals, a remote control for light color and dimming preferences, micro-fiber cleaning cloths, and instructions; Audio speaker enclosures; Audio speakers; Audio speakers for automobiles; Audio speakers that may be attached with adhesive to the abdominal area of pregnant women for the purpose of transmitting music or sounds to the fetus, not for medical purposes; Audio equipment for vehicles, namely, loud speakers for automotive audio systems; Audio equipment for vehicles, namely, stereos, speakers, amplifiers, equalizers, crossovers and speaker housings; Automatic solar tracking sensors; Automatic combustion control machines and instruments; Automatic fluid-composition control machines and instruments; Automatic inlet control valves for reciprocating air
compressors; Automatic liquid-flow control machines and instruments; Automatic liquid-level control machines and instruments; Automatic pressure control machines and instruments; Automotive, industrial, construction, locomotive, aviation, navigation and marine safety-warning lights, namely, strobes, rotating lights and bar lights; Baby scales; Bags for cameras and photographic equipment; Bags for underwater camera enclosures; Bags specially adapted for underwater camera housings; Ballasts for halogen lights; Bariatric scales; Bark control devices for training dogs; Bass speakers; Bathroom scales; Batteries and battery chargers; Batteries and battery chargers for intravenous fluid delivery apparatus; Battery chargers; Battery chargers for electronic cigarettes; Battery chargers for home video game machines; Battery chargers for laptop computers; Battery chargers for mobile phones; Battery chargers for tablet computers; Battery chargers for use with telephones; Battery chargers for use with cell phones, car, automotive, tablets, computer, electronics; Battery charge devices; Battery packs for microphone stands, speaker stands, microphone cables, speaker cables, speaker boxes, camera; Battery powered meter for measuring the moisture content of coffee beans; Bellows for cameras; Bicycle safety lights; Blank digital audio tapes; Blank digital storage media; Body cameras; Body cameras for use by individuals, teachers, military, security personnel, law enforcement; Body fat scales for household use; Boiler control instruments; Buoyancy compensator devices for divers; Calculating scales; Candy thermometers; Capacitive styluses for touch screen devices; Carbon nano tubes, namely, tubular carbon molecules used in extremely small scale electronic and mechanical applications; Carrying cases for cell phones; Carrying cases specially adapted for electronic equipment, namely, computers, tablet computers, cell phones; Carrying cases specially adapted for pocket calculators and cellphones; Carrying cases, holders, protective cases and stands featuring power supply connectors, adaptors, speakers and battery charging devices, specially adapted for use with handheld digital electronic devices, namely, microphone stands, speaker stands, microphone cables, speaker cables, speaker boxes and sound mixers; Cases adapted for cameras; Cases for music, audio and related electronic equipment, namely, cases for audio tuners, audio receivers, amplifiers, tape players, compact disc players, MP3 controllers/players, audio mixers, audio speakers in the nature of music studio monitors, microphones, audio speakers, compact discs, audio tapes, portable computers, antennas, phonographic record players, audio recording equipment, and the cables associated with all of the foregoing equipment; Cell phone battery chargers; Cell phone battery chargers for use in vehicles; Cellular phone usage detection system comprising a camera and a mobile phone signal receiving device; Central processing unit (CPU) clocks; Central processing unit (CPU) coolers; Central processing unit (CPU) fans; Centrifugal metering pumps; Charge-coupled devices (CCD); Charged coupling devices; Chess timers; Chipsets for connecting multimedia home devices, home and VoIP phones and digital cordless phone devices; Cinematographic cameras; Circuit overload protector devices; Clear protective covers specially adapted for personal electronic devices, namely, computers, tablet computers, cell phones; Climate control digital thermostats; Climate control systems consisting of digital thermostats for cooling equipment, and a programmable logic controller (PLC) with input and output features for temperature and humidity, which works with a remote digital read out controller; Climate control systems consisting of digital thermostats, air conditioning, heating, ventilation and drying control devices; Closed circuit TV systems for security and surveillance, namely, cameras, switches, monitors, microphones, and recorders; Color filters for television and motion picture film cameras; Combination video camera and two-way radio worn on the body for use by individuals, teachers, military, security personnel, law enforcement; Computer cameras; Computer cursor control devices, namely, light pens; Computer cursor control devices, namely, trackballs; Computer cursor control devices, namely, digitizer tablets; Computer hardware and peripheral devices; Computer hardware and recorded software system for remotely monitoring environmental conditions and controlling devices within a building, facility, grounds, or designated spatial area; Computer memory devices; Computer network interface.
devices; Computer peripheral devices; Computerized time clock with fingerprint recognition; Computerized time clocks with fingerprint recognition; Computers and computer peripheral devices; Computers for managing control devices for aircraft; Concentration meters; Conical attachment to an audio speaker for diffusing and distributing sound as it is transmitted from the speaker; Consumer electronic products, namely, audio amplifiers, audio speakers, audio receivers, electrical audio and speaker cables and connectors, audio decoders, video decoders, speakers, power conversion devices, power converters, and power inverters; Conversion lenses for cameras; Countdown timers and alarms to remind a person to take or give medication and/or to remind a person of daily routines, incorporated into a wristband; Cover for an electric door bell that attaches to the doorbell to block its use; Covers for tablet computers; Covers for personal digital assistants; Crystalline silicon solar cells; Dashboard cameras; Data access port for use with electrical control panels for connecting multiple data and electrical devices; Day and night vision systems primarily comprised of day and night sensors, day and night cameras, and monitors; Decorative dials for thermostats not for medical use; Digital camera accessory in the nature of a digital photo viewer; Digital cameras; Digital cameras for industrial use; Digital bathroom scales; Digital single-lens reflex (DSLR) cameras; Digital spoon scales; Digital switching systems comprised of interconnected electromechanical and solid-state power management enclosures with standard and custom keypads for user remote control, the foregoing for use on marine helms and land-based vehicle dashboards; Digital video cameras; Discharge tubes, electric, other than for lighting; Display screen filters adapted for use with computers, tablet computers, cell phones; Display screen protectors for providing shade and privacy specially adapted to electronic devices, namely, computers, tablet computers, cell phones; Disposable cameras; Document cameras; Downloadable lighting control software for use in commercial and industrial facilities; Downloadable computer programs for connecting remotely to computers or computer networks; Downloadable computer programs for searching remotely for content on computers and computer networks; Downloadable computer programs for searching the contents of computers and computer networks by remote control; Downloadable industrial process control software; Downloadable mobile applications for recording field and crop observations related to pest pressure, tracking field conditions with GPS-enabled maps, and generating crop scouting reports; Downloadable software for connecting, operating, and managing networked cars, home appliance, HVAC system in the internet of things (IoT); Earpieces for remote communication; Echo sounding devices; Egg timers; Electric control devices for energy management of electric apparatus and outdoor lighting fixtures; Electric control panels; Electric door bells; Electric meters; Electric audio playback units with lights and speakers; Electric bark control dog collars; Electric fence chargers; Electric installations for the remote control of industrial operations; Electric shaver chargers; Electric strikes for remote control of door ingress and egress; Electric warning lights; Electrical lights for use in professional quality photography; Electrical voice intracommunications systems comprising control stations, interface modules, frames, controller cards, connectors, power supplies, panels and mountings for use in the production of live musical performances, theatre, and other live events; Electrical controlling devices; Electrical energy utilization metering devices; Electricity meters; Electrified rails for mounting spot lights; Electro-dynamic apparatus for the remote control of railway points; Electro-dynamic apparatus for the remote control of signals; Electronic control gears (ECGs) for LED lamps and light fixtures; Electronic control systems for engines; Electronic control systems for machines; Electronic devices for locating and tracking people, pet, keys using radio frequency, global positioning systems, cellular communication networks; Electronic devices for measuring electric current; Electronic devices, namely, energy meters for tracking and monitoring energy usage; Electronic devices, namely, energy submeters for tracking and monitoring energy usage; Electronic devices, namely, radio frequency repeaters used in long range communication for tracking and monitoring energy usage; Electronic digital signboards; Electronic metering faucets; Electronic timer for use while brushing teeth; Electronic timers; Electronic access control systems for interlocking doors; Electronic advertisement and
messaging display unit with multi-networking (TCP/IP) capabilities and remote connectivity; Electronic apparatus for the remote control of industrial operations; Electronic charging devices for tablet PCs that also include features to secure and disinfect the tablet PCs; Electronic control circuits for electronic musical instruments, electric heaters and fans, for desk, outdoor, portable, and personal use; Electronic device to charge and secure tablet PCs; Electronic devices for animal locating and tracking programmed to use global positioning systems (GPS) and cellular communications; Electronic devices, namely, handhelds for exchanging data in energy meters or submeters; Electronic displays, namely, digital signage; Electronic hubs for connecting computers, tablet computers, cell phones in an automobile; Electronic instruments for use in remote inspection and measurement of industrial components using remote visual devices; Electronic key fobs being remote control apparatus; Electronic kitchen timers; Electronic personal emergency response system consisting of a device worn on the body with a button that users push to notify others in the event of an emergency, and a remote unit that dials out on the telephone for help; Electronic regulating and control devices for the operation of light emitting diodes; Electronic sensors for measuring solar radiation; Electronic signaling mechanism, namely, a train control system used in the railway industry for detecting and controlling trains, ground faults, broken rails, power failures, track switches and lights; Electronic stud finders; Electronic testing equipment, namely, sound level meters; Electronic weighing scales for kitchen use; Electronic writing tablets; Electronically encoded badges and swipe cards for use with time clocks; Electrotechnical vibration meters; Emergency auto kits comprised of a battery charger and a hand held spotlight; Emergency warning lights; Endoscopy cameras for industrial purposes; Engine cut-out devices; Engine hour meters; Environmental enclosures, namely, structures specially adapted to hold and protect cameras from outdoor elements and tampering; Environmental monitoring system comprised of meters and sensors that measure pressure, humidity, temperature and includes alarm and reporting functions; Expansion valves for fluid control; Exposed camera film; Exposure meters for photographic devices; Fax devices; Film cameras; Film magazines for cameras; Film portrait cameras; Filters for optical devices; Fire alarm and emergency evacuation devices, namely, fire alarm control panels, smoke detectors, heat detectors, alarm pull stations, audible and visible notification appliances, strobes, sirens, bells, horns, and speakers; Fire pump control valves; Fish-eye conversion lenses for cameras; Fisheye lenses for cameras; Fitted plastic films known as skins for covering and providing a scratch proof barrier or protection for electronic devices, namely, MP3 players, mobile telephones, smart telephones, digital cameras, global positioning systems and personal digital assistants; Flash guns; Flash lamps; Flashing and steady safety lights; Flashing safety lights; Flashlamps for cameras; Floating fish weighing scales; Flow meters; Fluorescent lamp ballast for electric lights; Follow focus apparatus for adjusting camera lenses; Food timers; Food safety monitoring devices, namely, thermometers, alarms, for use with meat; Frequency meters; Game cameras; Gas meters; Gas appliance alarm timer for detecting and alerting the presence of gas flow after a prescribed period of time; Gas flow meters; Gateway routers in the nature of computer control hardware; Glass graduated scales; Global positioning system (GPS); Global positioning system (GPS) apparatus; Global positioning system receivers; Golf accessories in the nature of magnetic mounting devices for range finders; Golf club swing aids, namely, golf club balancing scales and scale parts thereof, to analyze, fit and/or make golf clubs; Golf club swing aids, namely, target laser and lights; Graphics tablets; Gyroscope stabilizers for cameras; Hand-held electronic scales; Hands-free headsets for cell phones; Hardened units composed of microprocessors and integrated transmitters and receivers installed in the field and on board both mobile and stationary equipment in large scale mining, construction, and industrial operations to collect data from various applications, to transmit the data to central processing facilities, and to receive data transmissions directed to the applications and equipment; Hardened units composed of microprocessors and integrated transmitters and receivers installed in the field at large scale mining,
construction, and industrial sites to collect data from monitoring and control installations, to transmit the data to central
processing facilities, and to receive data transmissions directed to the installations; Hardened units composed of
microprocessors and integrated transmitters and receivers installed in the field, affixed to equipment, or worn by personnel at
large scale mining, construction, and industrial sites to transmit telemetry data on equipment and personnel to central
processing facilities and to receive automated proximity alerts of other equipment or personnel for operations and safety
management systems; Harnesses specially adapted for holding electronic devices, namely, microphone stands, speaker stands,
microphone cables, speaker cables, speaker boxes, camera; Head-clip cell phone holders; Headsets for remote communication;
Helmet safety lights; Home and office automation systems comprised of computer hardware, wireless and wired controllers,
and downloadable software for automating energy management of electric apparatus for outdoor lighting fixtures; Home and
office electrical power automation systems comprised of computer hardware, wireless and wired controllers, and downloadable
software for automating energy management of electric apparatus for outdoor lighting fixtures; Home automation hubs
comprised of voice-activated speakers, computer hardware, and downloadable software for controlling networked devices in
the internet of things (IoT), operating internet-enabled and connected lighting apparatus and home security alarms for use with
microphone stands, speaker stands, microphone cables, speaker cables, speaker boxes and sound mixers; Home automation
hubs comprised of voice-activated speakers, computer hardware, and recorded software for controlling networked devices in
the internet of things (IoT), operating internet-enabled and connected lighting apparatus and home security alarms, for use with
microphone stands, speaker stands, microphone cables, speaker cables, speaker boxes and sound mixers; Home automation
hubs using artificial intelligence comprised of voice-activated speakers, computer hardware, and downloadable software for
controlling networked devices in the internet of things (IoT), operating internet-enabled and connected lighting apparatus and
home security alarms, for use with microphone stands, speaker stands, microphone cables, speaker cables, speaker boxes and
sound mixers; Home automation hubs using artificial intelligence comprised of voice-activated speakers, computer hardware,
and recorded software for controlling networked devices in the internet of things (IoT), operating internet-enabled and
connected lighting apparatus and home security alarms, for use with microphone stands, speaker stands, microphone cables,
speaker cables, speaker boxes and sound mixers; Home automation systems comprised of computer hardware, wireless and
wired controllers, and downloadable software for automating energy management of electric apparatus for outdoor lighting
fixtures; Home electrical power automation systems comprised of computer hardware, wireless and wired controllers, and
downloadable software for automating energy management of electric apparatus for outdoor lighting fixtures; Home theater
systems comprising microphone stands, speaker stands, microphone cables, speaker cables, speaker boxes and sound mixers;
Indicator lights; Indicator lights for circuit boards; Indicator lights for telecommunication apparatus; Infrared cameras; Infrared
thermometers, not for medical purposes; Input devices for computers; Insulation resistance meters; Interface circuits for video
cameras; Interfaces and peripheral devices for computers; Internal cooling fans for computers; Internet digital video recorders;
IP (Internet protocol) cameras; IP (Internet protocol) speed dome cameras; Iris recognition security devices; Joint meters;
Joystick chargers; Keypads for use with computers, tablet computers, cell phones; Kitchen timers; Kitchen timers, non-electric;
Laboratory equipment and supplies, namely, thermometers; Laboratory equipment, namely, electric bath heaters; Lap-counting
devices, namely, counters for use during sporting activities; Large scale integrated circuits; Leak detecting device for water
supplied home appliances consisting of water sensor, control unit with audible alarm and water valves; Leather protective
covers specially adapted for personal electronic devices, namely, computers, tablet computers, cell phones; LED lighting
controls for holidays, party, get together; LED and HID light controls; Lens caps for use with film, digital, and video cameras;
Lens filters; Lens hoods; Lenses for cameras; Lenses for cellular phone cameras; Lenses for smartphone cameras; Letter
scales; Lighting devices for taking pictures; Lockout devices for use with electrical switches; Loud speaker systems; Loud
speakers; Luggage scales; Luminoflux meters; Luminous variable/dynamic signs using light emitting diodes and electronic
controllers to produce real-time and programmable messages and information displays; Magnetic stud finders; Magnetic wall
stud finders; Marine depth finders; Measuring devices, namely, fluorometers; Measuring and control devices for air
conditioning technology; Measuring apparatus, namely, angle finders; Measuring apparatus, namely, clamp meters for
measuring electricity; Meat thermometers; Mechanical remote controls for motors; Mechanical timers; Medical weighing
scales; Metal depository containing a video camera, display screen, touch screen user interface and access card reader to record
deposits; Microphones for communication devices; Microscope illuminating devices; Mirrorless cameras; Mobile hotspot
devices; Monopods for cameras; Monopods for handheld digital electronic devices, namely, computers, tablet computers, cell
phones; Monopods used to take photographs by positioning a smartphone or camera beyond the normal range of the arm;
Motion picture cameras; Motion sensitive security lights; Motion sensors for security lights; Motion-activated cameras;
Motion-picture cameras for self-developing film; Motorcycle charger fault detector; Mounting devices for monitors; Mounting
devices for photographic equipment; Mounting devices for cameras and monitors; Mounts and mounting brackets adapted for
audio speakers with swiveling bases therefor; Multi-function electronic device for use in children's rooms comprising a sound
producing function, temperature gauge and also including a clock and nightlight; Multiframe view cameras; Multiple purpose
 cameras; Nano tubes, namely, tubular carbon molecules used in extremely small scale electronic and mechanical applications;
Nautical and photographic apparatus and instruments, namely, underwater housings for cameras, underwater enclosures for
cameras and underwater enclosures for photographic lenses; Noise level meters; Non-electric wall stud finders; Occupancy
sensors, namely, electronic devices which detect the presence of occupants and control the lighting system accordingly; Off-
grid power and deep cycle battery storage systems comprised of batteries, charge controllers and inverters with integrated LED
bulbs and LED light fixtures for energy management of electric apparatus in the nature of outdoor lighting fixtures installations
with LAN (local area network) hardware sensors and illuminator technology; Office automation systems comprised of
computer hardware, wireless and wired controllers, and downloadable software for automating energy management of electric
apparatus in the nature of outdoor lighting fixtures with LAN (local area network) hardware sensors and illuminator
technology; Office electrical power automation systems comprised of computer hardware, wireless and wired controllers, and
downloadable software for automating energy management of electric apparatus in the nature of outdoor lighting fixtures with
LAN (local area network) sensors and illuminator technology; Optical frequency metrology devices; Panel meters, namely, an
electronic instrument that displays an input signal in either a digital or analog form; Parking meters; Parts for anti-theft
automotive alarms, namely, electronic sensors, remote control transmitters and receivers for remotely operating land vehicles;
PC digital video recorders; PC tablet mounts; PC tablet stabilizers; PC tablets; Personal digital assistant computers; Personal
digital assistants; Personal digital assistants (PDA); Pet collar accessories, namely, safety lights; pH meters; Photographic
 cameras; Photographic cameras for the instant production of pictures; Photographic finders, namely, straight viewfinders and
angled viewfinders; Photographic exposure meters; Photographic flash units; Photovoltaic solar modules for production of
electricity; Photovoltaic solar panels for the production of electricity; Photovoltaic cells also including a solar thermal collector
sold as a unit; Photovoltaic installation apparatus, namely, solar modules for production of electricity, solar thermal and
electric receivers, tracking mechanisms and concentrating optics, and control algorithms; Plate cameras; Pocket scales;
Portable digital electronic scales; Portable electronic devices for monitoring and analyzing ball movement in sports; Portable
vibration speakers; Portable video cameras with built-in videocassette recorders; Pouches made in whole or substantial part of
