GOODS AND SERVICES INFORMATION
For Reinforcement rods, not of metal, for reinforcing concrete structures, particularly, buildings, bridges, dams, harbor infrastructure, coast protection infrastructure, silos and tanks, nuclear and blast-containment structures, hardstands and pavements, and for pre-tensioned and post-tensioned concrete structures; latticework, not of metal; building and construction materials and elements, not of metal, namely, building cover panels for reinforcing concrete structures; latticed mesh for building, not of metal

International Classes 19 - Primary Classes US Classes 1, 12, 33, 50 International Class Title Non-metallic Building Materials

For Fasteners, non-metallic, namely, non-metal threaded fasteners; non-metal fastening anchors for securing wheels to vehicles; non-metallic hardware, namely, non-metal threaded fasteners, clips, not of metal, for cables and pipes, non-metallic cable fasteners, fastening anchors and bolts all for linking composite element with surrounding structural elements, non-metal anchoring bolts, non-metal hooks, non-metal suspension devices in the nature of springs to create compensating pre-stressed reinforcements, screw rings, not of metal, spacer rings of polymeric elements being non-metal hardware, non-metal poles, and non-metal, non-mechanical tension reel for tensioning belts in the nature of reinforced composite belts
International Classes 20 - Primary Classes US Classes 2, 13, 22, 25, 32, 50 International Class Title Furniture and Articles Not Otherwise Classified

For Ropes, not of metal; raw textile fibers and substitutes therefor in the nature of glass fibers for textile use and carbon fibers for textile use; goods made of textile and fibers, namely, cargo slings of rope or fabric, wrapping or binding bands not of metal, cordage, and commercial nets; parts and accessories for all the aforesaid goods, namely, non-corrosive rope connectors in the nature of non-metal cables

International Classes 22 - Primary Classes US Classes 1, 2, 7, 19, 22, 42, 50 International Class Title Cordage and Fibers

For Hand-operated fastening and joining tools, namely, rebar and grid tying tools; hand-operated tools and implements for treatment of materials, namely, cutting tools and manually-operated grindstones for composite materials, hand-operated milling cutters for construction, repair and maintenance of composite rebars and grids; replacement parts and accessories in the nature of substitute cutting blades and grinding stones for all the aforesaid goods

International Classes 8 - Primary Classes US Classes 23, 28, 44 International Class Title Hand Tools

For Engineering consultancy services; product development; technical consultancy relating to product development; scientific and technology services, namely, technology advice provided to customers with regard to application of composite rebars and grids for building and civil structures and basic product research and development for enhanced composite reinforcement elements in the field of building and civil structures; design services in the field of architecture design and civil engineering; technological consultation services in the field of structural reinforcements of building and civil structures

International Classes 42 - Primary Classes US Classes 100, 101 International Class Title Scientific and computer services

For Anchors, metal tie rods, metal fasteners for positioning or embedding carbon reinforced rebars or grids in concrete structures, metal connectors for fixation of pre-tensioned or non-pre-tensioned carbon composite elements in building and civil structures, and connecting elements of metal for linking multiple carbon composite elements in building and civil structures; stainless steel and titanium for use as building and construction materials; metal hardware, namely, metal clamps, tension links of metal, metal connectors for decking and decking joists; replacement parts and accessories in the nature of joining, linking or connecting carbon metal composite elements, particularly rebars and grids, for all the aforesaid goods

**For**  Communication by wire communication apparatuses and instruments or radio communication apparatuses and instruments for transmitting fluctuating state data of valves and other piping elements; communications by computer terminals; telecommunication, other than broadcasting, namely, transmission of voice, data, and documents via telecommunications networks; rental of wire communication apparatuses and instruments or radio communication apparatuses and instruments for transmitting fluctuating state data of valves and other piping elements; rental of wire communication apparatuses and instruments or radio communication apparatuses and instruments; rental of communication apparatus and instruments
International Classes   38 - Primary Classes US Classes   100, 101, 104 International Class Title   Communication

For   Computer software design, computer programming, or maintenance of computer software for detecting or analyzing fluctuating states of valves and other piping elements; computer software design, computer programming, or maintenance of computer software for simulating optimum energy efficiencies and other plant operation efficiencies of chemical, nuclear, power generation, petroleum, heat supply, steam and other plants; computer software design, computer programming, or maintenance of computer software for diagnosing and improving energy efficiencies and other plant operation efficiencies of chemical, nuclear, power generation, petroleum, heat supply, steam and other plants; computer software design, computer programming, or maintenance of computer software for simulating optimum energy efficiencies and other plant operation efficiencies of chemical, nuclear, power generation, petroleum, heat supply, steam and other plants; computer software design, computer programming, or maintenance of computer software for detecting or analyzing fluctuating states of detected or analyzed valves and other piping elements, simulated results for optimizing energy efficiencies of plants and other plant operating efficiencies, or diagnosed and improved results for energy efficiencies of plants, and other plant operating efficiencies; computer software design, computer programming, or maintenance of computer software for detecting or analyzing plant operating states of chemical, nuclear, power generation, petroleum, heat supply, steam and other plants; computer software design, computer programming, or maintenance of computer software for diagnosing and improving plant operating states of chemical, nuclear, power generation, petroleum, heat supply, steam and other plants; computer software design, computer programming, or maintenance of computer software for diagnosing and improving plant operating states of chemical, nuclear, power generation, petroleum, heat supply, steam and other plants; computer software design, computer programming, or maintenance of computer software for visualizing fluctuating states of detected or analyzed valves and other piping elements, and diagnosed and improved results for plant operating states; computer software design, computer programming, or maintenance of computer software; consultancy in the field of computer software design, computer programming, or maintenance of computer software; design and development of computer programs for detecting or analyzing fluctuating states of valves and other piping elements; design and development of computer programs for simulating optimum energy efficiencies and other plant operation efficiencies of chemical, nuclear, power generation, petroleum, heat supply, steam and other plants; design and development of computer programs for diagnosing and improving energy efficiencies and other plant operation efficiencies of chemical, nuclear, power generation, petroleum, heat supply, steam and other plants; design and development of computer programs for diagnosing and improving plant operating states of chemical, nuclear, power generation, petroleum, heat supply, steam and other plants; design and development of computer programs for visualizing fluctuating states of detected or analyzed valves and other piping elements, simulated results for optimizing energy efficiencies of plants and other plant operating efficiencies, or diagnosed and improved results for energy efficiencies of plants, and other plant operating efficiencies; design and development of computer programs for detecting or analyzing plant operating states of chemical, nuclear, power generation, petroleum, heat supply, steam and other plants; design and development of computer programs for diagnosing and improving plant operating states of chemical, nuclear, power generation, petroleum, heat supply, steam and other plants; design and development of computer programs for diagnosing and improving plant operating states of chemical, nuclear, power generation, petroleum, heat supply, steam and other plants; design and development of computer programs for visualizing fluctuating states of detected or analyzed valves and other piping elements, and diagnosed and improved results for plant operating states; designing computer software computer programs to the specifications of others; providing computer programs in data networks, namely, providing on-line non-downloadable computer programs for use in database management; rental of computers; rental of detectors for detecting fluctuating states of valves and other piping elements; rental of measuring apparatus; rental of measuring apparatuses and instruments; testing or research on electricity, namely, on chemical, nuclear, power generation, petroleum, heat supply, steam and other plants, or machines, apparatus and instruments used in these plants; testing or research on other machines, apparatus and instruments, namely, testing the functionality of machines, research on machines; designing of machines, apparatus, instruments including their parts or systems composed of such machines, apparatus and instruments; technological advice relating to plant operations, computers and industrial machines, namely, technical consultation in the field of chemical, nuclear, power generation, petroleum, heat supply, steam and other plant
engineering, namely, testing and evaluation of equipment to improve performance and efficiency of such equipment; scientific and technological services, namely, scientific testing or diagnosis of chemical, nuclear, power generation, petroleum, heat supply, steam and other manufacturing plants conducted based on fluctuating states of valves and other piping elements in the field of engineering; scientific and technological services, namely, scientific testing or diagnosis of other chemical, nuclear, power generation, petroleum, heat supply, steam and other manufacturing plants in the field of engineering; scientific and technological services, namely, scientific testing or diagnosis of wire communication apparatuses and instruments or radio communication apparatuses and instruments for transmitting fluctuating state data of valves and other piping elements plants in the field of telecommunications; scientific and technological services, namely, scientific testing or diagnosis of other telecommunication apparatuses and instruments, other than telephone sets, radio receivers and television receivers in the field of telecommunications; scientific and technological services, namely, scientific testing or diagnosis of detectors for detecting fluctuating states of valves and other piping elements in the field of chemical, nuclear, power generation, petroleum, heat supply, steam and other plant engineering; scientific and technological services, namely, scientific testing or diagnosis of other measuring devices, namely, detectors for detecting steam, drain, air, gas leakage for valves and other piping elements, automatic operation-testing apparatus for steam traps; testing or diagnosis of the functionality of computer hardware and their peripherals, other electronic apparatuses and instruments; technology inspection of chemical, nuclear, power generation, petroleum, heat supply, steam plants, and other manufacturing plants conducted based on fluctuating states of valves and other piping elements; technology inspection of wire communication apparatuses and instruments or radio communication apparatuses and instruments for transmitting fluctuating state data of valves and other piping elements; technology inspection of telecommunication apparatuses and instruments, other than telephone sets, radio receivers and television receivers; technology inspection of detectors for detecting fluctuating states of valves and other piping elements; inspection of measuring devices; technology inspection of computers and their peripherals, other electronic apparatuses and instruments.

| Downloadable software for operating printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; downloadable software for operating blowing machines, fibre separators, air compressors and air ejectors for machines, equipment and apparatus for compacting, filling and pressing particles, dust and fibres separated from machines; downloadable software for operating ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air conveying devices, in particular |
fans, blowing machines and compressors, air heaters, air coolers, air filters, and nozzle chambers for humidifying; downloadable software for operating drying ovens, drying apparatus, heat accumulators, heat exchangers thermal energy accumulators, solar collectors and solar modules for heat generation; downloadable software for checking product authentication features, security features, security labels, securities and banknotes for authenticity; downloadable software for operating machines used for applying product security means, authentication features, security features and security labels; downloadable software for operating machines used for packaging products with security features and authentication features and for applying security features to securities and banknotes; downloadable software for operating machines used for analyzing security features, security labels and authentication features and for applying security features to securities and banknotes; downloadable software for producing electronic product security means, identification features, security features and securities, banknotes; downloadable software for remotely operating, monitoring, and controlling ink slides, ink rollers, damping rollers, register adjustment devices in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, intaglio printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, carton bonding machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, namely, for transporting, cutting, punching, folding, collecting, tacking, packaging, compiling, sorting, binding, scanning, checking, perforating, gluing, stapling, tying, bundling, bookbinding; pressure sensors for installations, equipment, apparatus, filters, separators, suction and conveying devices for the air-technology cleaning, dust removal and air separation of machines and rooms equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing particles, dust and fibres separated from machines; proximity sensors for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; pressure sensors for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; downloadable software for producing electronic product security means, identification features, security features and securities, banknotes; downloadable software for operating machines that apply product security means, identification features, security features and security labels; downloadable software for remotely operating, monitoring, and controlling ink slides, ink rollers, damping rollers, register adjustment devices in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, intaglio printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, carton bonding machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of
printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; downloadable software for remotely operating monitoring and controlling machines for changing, transporting and storing printing plates; downloadable software for remotely operating, monitoring and controlling machines for cleaning rollers, damping units, cylinders, inkjet print heads and laser systems in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, intaglio printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, carton bonding machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; downloadable software for remotely operating, monitoring and controlling machines used for storing and adjusting rollers, damping units, cylinders, inkjet print heads and laser systems in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, intaglio printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, carton bonding machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; downloadable software for remotely operating monitoring and controlling inking apparatus, damping units and printer engine cylinders in printer engines in printing machines; downloadable software for remotely operating, monitoring and controlling electronic devices for tempering of inking apparatus, damping units, cylinders, inkjet print heads and laser systems in printer engines in printing machines; downloadable software for remotely operating, monitoring and controlling electronic devices for cutting equipment and cutting cylinders in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, intaglio printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, carton bonding machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; downloadable consultancy software for remotely operating, monitoring and controlling electronic devices for assessing quality control in the operation of printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, intaglio printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated
cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, carton bonding machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastic or metal or organic or inorganic materials; downloadable software for remotely operating, monitoring and controlling electronic devices for assessing quality control in the operation of blowing machines, fibre separators, air compressors and air ejectors for machines, equipment and apparatus for compacting, filling and pressing particles, dust and fibres separated from machines; downloadable software for remotely operating, monitoring and controlling electronic devices for assessing quality control in the operation of ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; downloadable software for remotely operating, monitoring and controlling electronic devices for assessing quality control in the operation of drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; downloadable software for remotely operating, monitoring and controlling electronic devices for web tension settings in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, intaglio printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, carton bonding machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastic or metal or organic or inorganic materials; downloadable software for interacting with and enabling data transfer with printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, intaglio printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, carton bonding machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastic or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines; recorded consultancy software for database management recorded, sales software for analyzing sales trends and recorded software for managing interfaces and data transfer for installations, equipment, apparatus, filters, separators, suction and conveying devices for air
technology cleaning, dust removal and air separation from machines and rooms equipped therewith, air filters, fans, fibre separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing of particles, dust and fibres separated from machines; recorded consultancy software for database management, recorded sales software for analyzing sales trends and recorded software for managing interfaces and data transfer, for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and de-aerating, humidifying and dehumidifying installations and apparatus, air treatment installations, air conveying devices, in particular fans, blowers and compactors, air heaters, air coolers, air filters, and nozzle chambers for humidifying; recorded consultancy software for database management, recorded sales software for analyzing sales trends and recording software for managing interfaces and data transfer for use with drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; recorded consultancy software for database management, recorded sales software for analyzing sales trends and recorded software for managing interfaces and data transfer, for machines for the development of product packaging security features, authentication features, security features, security labels, printed security documents and banknotes; recorded consultancy software for database management, recorded sales software for analyzing sales trends, and recorded software for managing interfaces and data transfer, for machines for applying product security features, identification features, and security labels to products; recorded consultancy software for database management, recorded sales software for analyzing sales trends, and recorded software for managing interfaces and data transfer, for machines for applying product security features, identification features, and security labels to products, printed securities documents and banknotes; recorded software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating devices for transporting and storing printed matter, printing materials, printed material reels, paper, paper reels, plastics, plastics reels, metal, organic, and inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials, paper, plastics, metal, organic and inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; electronic data carriers, namely, radio frequency identification tags for use as product security features; RFID (radio frequency identification) systems comprised of RFID readers and RFID tags; encoded identification chips and cards for identifying particular users of computers; automated apparatus for the payment of goods, services and bills, namely, electronic payment terminals enabling customers to pay by themselves using payment means in the form of banknotes, coins, tokens of value, cashless payment by debit, credit loyalty cards, in particular contactless and contact cards and NFC (near field communication) apparatus, including in particular with
return of change; automated teller machines (ATM); money-receiving apparatus, namely, automated teller machines; money-
dispensing and -receiving apparatus, namely, automated teller machines; fittings for the aforesaid apparatus, namely, electronic
payment terminals and automated teller machines in particular cartridges for collecting payment means, in particular bank
notes and coins and tokens of value; electric apparatus, namely, data processing equipment for communication with recording
media, in particular for communication with recording media with integrated circuits and recording media with contactless
interfaces, and in particular data processing equipment for writing data in or on recording media, for reading data from or on
recording media and for displaying data from recording media on a display; data processing equipment for personalising
recording media; machine-readable recording media, in particular recording media with integrated circuits for storing,
encrypting and decrypting, processing and providing data and programs; blank electronic chip cards having an integrated
circuit, in particular cards having microprocessors for communication with external data processing devices or with mobile
radio terminals; magnetically encoded telecommunication cards; coded and uncoded digital recording media with contactless
interfaces, namely, magnetically encoded credit cards, blank magnetic data carriers; integrated circuits with characteristic
physical properties for protection against forgery; digital storage media, namely, computer memories for data processing
installations, in particular non-volatile memories; blank digital recording media containing computer memories for storage, in
particular non-volatile memories; electric apparatus for data processing, in particular encryption and decryption of data for
both online and offline operation; recorded software for computer network applications, in particular for internet, intranet and
extranet applications, namely, recorded software for operating network access servers; recorded data processing software, in
particular for enabling telecommunications with chip card-activated mobile telephones and in particular for operating
associated chip cards and mobile telephones, and recorded computer programs for activating, modifying, testing and displaying
data and software structures stored in these telecommunications cards; recorded software for the encryption and decryption and
the signing of data; recorded computer operating system software and application software for operation of digital recording
media with integrated circuits, in particular for hardware tokens and chip cards, and for operation of data processing equipment
for communication with these digital recording media; recorded computer programs for the development, management and
maintenance of software for operation of digital recording media with integrated circuits; digital recording media, namely, CD-
ROMS's featuring recorded software for operation of digital recording media with integrated circuits; electronically and
optically stored pre-recorded advertising and communications media in particular downloadable video recordings and optical
discs featuring particular films and videos about printing and graphics; inkjet printers for documents, in particular with one or
more inkjets, single-colour or multi-colour inkjet printers; encoding machines, in particular for the graphics sector, the
packaging sector and data processing
