For 3D spectacles; accelerometers; accumulators, electric; accumulators, electric, for vehicles; batteries, electric, for vehicles; acid hydrometers; acidimeters for batteries; acoustic sound alarms; acoustic conduits; acoustic couplers; actinometers; adding machines; aerometers; air analysis apparatus; alarm bells, electric; alarms sending a signal to devices with augmented reality; alcoholmeters; alidades; altimeters; ammeters; amplifiers; tube amplifiers; valve amplifiers; amemeters; downloadable animated cartoons for augmented or virtual reality; anode batteries; high tension batteries; answering machines; antennas; anticathodes; anti-glare glasses; anti-theft warning apparatus sending a signal to devices with augmented reality, namely, theft alarms excluding those for vehicles; optics goods, namely, apertometers; apparatus and installations for the production of X-rays, not for medical purposes; apparatus for editing cinematographic film; laboratory apparatus for fermentation in the nature of fermenters with process control in augmented reality, being the function of monitoring processes through instructions, messages, and hints in augmented reality; apparatus for measuring the thickness of skins, not for medical use; appliances for measuring the thickness of leather; asbestos clothing for protection against fire; asbestos gloves for protection against accidents; asbestos screens in the nature of safety screens for firemen that are able to work with augmented or virtual reality devices; audio- and video-receivers; audio interfaces; audio mixers; automated teller machines (ATM); automatic indicators of low pressure in vehicle tires; automatic indicators of low pressure in vehicle tyres; azimuth instruments; baby monitors; baby scales; bags adapted for laptops; steelyard balances; steelyard lever scales; steelyards, namely, lever scales; bar code readers; barometers; bathroom scales; batteries for electronic cigarettes; batteries for lighting; batteries, electric; battery boxes; accumulator boxes; battery chargers; battery jars; accumulator jars; beacons, luminous; warning devices, namely, bells; betatrons; binoculars; biochips, namely, biochips for research or scientific purposes, which send signals to devices with augmented reality; electronic data recorders, namely, electronic black boxes for recording data with the ability to work with augmented or virtual reality devices; blueprint apparatus, namely, blueprinting machines, with the ability to work with augmented or virtual reality devices; boiler control instruments; breathing apparatus for underwater swimming; breathing apparatus except for artificial respiration, namely, underwater breathing apparatus; bullet-proof clothing; bullet-proof vests; fibre optic cables; fiber optic cables; cabinets for loudspeakers; calculating machines; calorimeters; camcorders; photography cameras; capillary tubes for laboratory research use and not for medical use; carpenters' rules; rules; cases especially made for photographic apparatus and instruments; cases for smartphones; cash registers; cassette players; cathodes; cell phone straps; cellular phones; mobile telephones; cell phones; chargers for electric batteries; chargers for electronic cigarettes; charging stations for electric vehicles; chromatography apparatus for laboratory use; chronographs for use as specialized time recording apparatuses but not including watches; cinematographic cameras; cinematographic film, exposed; circuit breakers; circuit closers; circular slide rules; close-up lenses; clothing especially made for laboratories, namely, protective clothing; clothing for protection against accidents, irradiation and fire; clothing for protection against fire; garments for protection against fire; coaxial cables; coin-operated musical automata, namely, juke boxes; juke boxes, musical; commutators; compact disc players; comparators; compasses for measuring; recorded and downloadable computer game software capable of working with augmented or virtual reality devices; computer hardware; computer keyboards; computer memory devices, namely, memory cards for video game machines; computer operating programs, recorded; computer peripheral device being a computer mouse; computer screen saver software, namely, recorded.
and downloadable computer screen saver software; computers; condensers being capacitors; capacitors; conductors, electric; connections for electric lines; electric connectors; contact lenses; contacts, electric; containers for contact lenses; containers for microscope slides, namely, containers specially adapted for microscope slides for laboratory use but not for medical use; electricity control panels being electric control panels for use with augmented and virtual reality devices; converters, electric; copper wire, insulated; cordless telephones; optical correcting lenses in the nature of spectacles; counterfeit coin detectors for detecting fraudulent coins; electric meters; couplers being data processing equipment; couplings, electric; connections, electric; covers for electric outlets; covers for personal digital assistants (PDAs); covers for smartphones; covers for tablet computers; crash test dummies; crucibles being laboratory equipment; cupels being laboratory equipment; current rectifiers; cyclotrons; data processing apparatus; decompression chambers; decorative magnets; demagnetizing apparatus for magnetic tapes; densimeters; densitometers not for medical use; detectors in the nature of smoke detectors, which send signals to other devices with augmented reality; diagnostic apparatus not for medical purposes, namely, laboratory equipment in the nature of devices for scanning the internal areas of the body with the function of visualizing the results of scanning in augmented reality through augmented reality glasses, projections or monitors, which sends signals to other devices with augmented reality; diaphragms for scientific apparatus in the nature of scientific laboratory instruments that vibrate in response to electrical signals to produce sound waves, which are enabled with technology to work with augmented and virtual reality devices; dictating machines; diffraction apparatus for microscopy, namely, microscope with the function of working with augmented or virtual reality; digital photo frames; digital signs; digital weather stations; directional compasses; disk drives for computers; distance measuring apparatus; distance recording apparatus; apparatus for recording distance; distillation apparatus for scientific purposes; divers' masks; diving suits; DNA chips; dog whistles; dosage dispensers in the nature of dosimeters, which are enabled with technology to work with augmented and virtual reality devices; dosimeters; downloadable music files; downloadable ring tones for mobile phones; dressmakers' measures in the nature of electronic measuring tapes, which are enabled with technology to work with augmented reality devices; dosimeters; downloadable music files; downloading apparatus for musical instruments; electric apparatus for commutation; electric door bells; electric installations for the remote control of industrial operations; electrical adapters; electricity conduits; electrified fences; electrified rails for mounting spot lights; electro-dynamic apparatus for the remote control of railway points; electro-dynamic apparatus for the remote control of signals; electrolysers; electronic access control systems for interlocking doors; electronic agendas; electronic book readers; electronic collars to train animals; electronic interactive whiteboards; electronic key fobs being remote control apparatus; electronic notice boards; electronic numeric displays; visual display units, namely, electronic pens; electronic pocket translators; downloadable electronic publications, namely, magazines on the subject of genetic science, journals in the field of medicine, and journals in the field of computer technology, all enabled with technology to work with augmented and virtual reality devices; electronic sheet music, downloadable; electronic tags for goods; encoded identification bracelets, magnetic; encoded key cards, namely, magnetically encoded gift cards for use in purchasing augmented or virtual reality devices; epidiascopes; audio apparatuses being equalizers; ergometers not for medical purposes, which are enabled with technology to work with augmented and virtual reality devices; light exposure meters in the nature of photographic exposure meters; eyeglass cases; spectacle cases; eyeglass chains; spectacle chains; eyeglass cords; spectacle cords; eyeglass frames; spectacle frames; eyeglasses; spectacles; protective eyepieces with electronic signal transmitters for use with augmented and virtual reality computer devices; eyewear; facsimile machines; photography filters; filters for respiratory masks for non-medical purposes; filters for ultraviolet rays, for photography; finger sizers; fire alarms; fire
blankets; fire boats; fire engines; fire extinguishers; fire extinguishing apparatus; fire hose; fire hose nozzles; fire pumps; flash-bulbs for photography; luminous flashing signal lights for safety purposes; flashlights for use in photography; flowmeters; fluorescent screens; fog signals, non-explosive; food analysis apparatus, namely, diagnostic apparatus for testing food that contains recorded software enabling the apparatus to communicate with augmented reality and virtual reality devices; frames for photographic transparencies; frequency meters; furnaces for laboratory use; ovens for laboratory use; furniture especially made for laboratories; fuse wire; fuses; Galena crystals detectors for use in electronics, which feature recorded software enabling them to communicate with augmented reality and virtual reality devices; global positioning system (GPS) apparatus; gloves for divers; goggles for sports; grids for batteries; hand-held electronic dictionaries; hands-free kits for telephones; head guards for sports; headphones; heat regulating apparatuses in the nature of electrical controllers for heaters embedded with recorded software enabling them to communicate with augmented reality and virtual reality devices; heliographic apparatus; high-frequency apparatuses in the nature of high frequency mobile and sea-based communication antennas containing recorded software enabling them to communicate with augmented reality and virtual reality devices; holders for electric coils; holograms in the nature of hologram apparatuses; horns for loudspeakers; humanoid robots with artificial intelligence; hydrometers; hygrometers; identification sheaths for electric wires; identification threads for electric wires; identity cards, magnetic; electric igniters for igniting at a distance, which are used in connection with ballasts to start discharge lamps and which contain recorded software enabling them to communicate with augmented reality and virtual reality devices; incubators for bacteria culture; electrical inductors; infrared detectors; instruments containing eyepieces in the nature of microscopes, which contain recorded software enabling them to communicate with augmented reality and virtual reality devices; smart cards, namely, integrated circuit cards; smart cards in the nature of integrated circuit cards; integrated circuits; interactive touch screen terminals; intercommunication apparatuses in the nature of telephones, which contain recorded software enabling them to communicate with augmented reality and virtual reality devices; invoicing machines in the nature of automated billing machines for processing accounting information, which contain recorded software enabling them to communicate with augmented reality and virtual reality devices; ionization apparatuses for scientific and laboratory use that contain recorded software enabling them to communicate with augmented reality and virtual reality devices, but excluding those for the treatment of air or water; joysticks for use with computers, other than for video games; juke boxes for computers; electrical junction boxes; junction sleeves for electric cables; kilometer recorders for vehicles; mileage recorders for vehicles; knee-pads for workers; laboratory centrifuges; laboratory robots; laboratory trays; lactodensimeters; lactometers; laptop computers; lasers, not for medical purposes; lens hoods; lenses for astrophotography; letter scales; levelling instruments, namely, electronic liquid level sensors that contain recorded software enabling them to communicate with augmented reality and virtual reality devices; levelling staffs being surveying instruments; rods being surveying instruments; levels being surveying instruments for surveying horizontal areas, which contain recorded software enabling them to communicate with augmented reality and virtual reality devices; life belts; life buoys; life jackets; lifesaving apparatus and equipment, namely, lifesaving rafts, which contain computer hardware and recorded software enabling them to communicate with augmented reality and virtual reality devices; life-saving capsules for natural disasters; life-saving rafts; regulators being electric light dimmers; regulators in the nature of electric light dimmers; light-emitting diodes (LED); light-emitting electronic pointers; lighting ballasts; lightning conductors; electricity limiters; locks, electric; loudspeakers; magic...
lanterns; magnetic encoders; magnetic resonance imaging (MRI) apparatus, not for medical purposes; magnetic tape units for computers; magnets; optics, namely, magnifying glasses; marine compasses; marine depth finders; marking buoys; marking gauges for joinery purposes; masts for wireless aerials; material testing instruments and machines for use in testing metal strength, which contain computer hardware and recorded software enabling them to communicate with augmented reality and virtual reality devices; components for electrical mains in the nature of electric wires and cables; mathematical instruments in the nature of calculators, which contain recorded software for use in sending computations to augmented reality and virtual reality devices; measuring apparatus in the nature of lasers for measuring purposes, which contain recorded software for use in sending measurements to augmented reality and virtual reality devices; electric measuring devices in the nature of lasers for measuring purposes, which contain recorded software for use in sending measurements to augmented reality and virtual reality devices; measuring glassware; graduated glassware; electric measuring instruments in the nature of lasers for measuring purposes, which contain recorded software for use in sending measurements to augmented reality and virtual reality devices; measuring spoons; mechanical signs; mechanisms for coin-operated apparatus; megaphones; memory cards for video game machines; metal detectors for industrial or military purposes; meteorological balloons; meteorological instruments; metronomes; micrometer screws for optical instruments, which contain embedded recorded software enabling them to send signals to augmented reality and virtual reality devices; micrometers; micrometer gauges; microphones; microprocessors; microscopes; microtomes; mirrors for inspecting work; modems; money counting and sorting machines; monitoring apparatus other than for medical purposes, namely, a computer that contains embedded recorded software enabling it to send data to augmented reality and virtual reality devices; monitors being computer hardware; monitors being recorded computer programs for use in monitoring the performance of and ensuring the proper functioning of flight simulators for pilots and electronic games, where such computer programs use of augmented and mixed reality techniques, to superimpose augmented reality objects on other objects; pre-recorded video cassettes, pre-recorded audio-visual compact discs, downloadable audio-visual recordings, and high definition digital compact discs, all featuring three-dimensional (3D) motion picture films in the fields of augmented reality and virtual reality; computer mouse being a computer peripheral; mouse pads; mouth guards for sports; nautical apparatus and instruments in the nature of electronic compasses, transmitting heading devices being navigation apparatuses for boats, global navigation satellite system compasses, electronic chart display and information system (ECDIS) primarily comprised of a navigation apparatus for boats, and echo sounding devices, which contain embedded recorded software enabling them to send data to augmented reality and virtual reality devices; naval signalling apparatus in the nature of electric navigational instruments that emit electronic signals, ship's automatic telephone exchange (PBX), ship's loudspeaker system, machine telegraph, loud call bells, ship's signal bells, megaphone, wearable VHF radio station relays, signaling whistles used by mouth, sound alarms about temperature rise, light alarms comprising rotating lights that turn on after detecting a temperature rise, smoke alarms, electronic detectors for detecting water intake on a ship, which contain embedded recorded software enabling them to send data to augmented reality and virtual reality devices; navigation apparatus for vehicles being on-board computers; navigational instruments, namely, electric navigational instruments tailored to work with augmented and virtual reality electronic devices; needles for record players; styli for record players; needles for surveying compasses; neon signs; nets for protection against accidents; nose clips for divers and swimmers; notebook computers; observation instruments in the nature of observation rockets, which contain embedded recorded software enabling them to send data to augmented reality and virtual reality devices; octants; ohmmeters; optical character readers; optical condensers; optical fibers being light conducting filaments; optical fibres in the nature of light conducting filaments; optical glass; optical lamps; optical lanterns; optical lenses; oscillographs; oxygen transvasing apparatuses being scientific and laboratory instruments for
analyzing air, which contain embedded recorded software enabling them to send data to augmented reality and virtual reality devices; ozonisers being ozonators; parking meters; particle accelerators; pedometers; peepholes being magnifying lenses for doors; periscopes; personal digital assistants (PDAs); personal stereos; petri dishes; photocopiers, namely, photographic, electrostatic, and thermic photocopiers; photometers; phototelegraphy apparatus; photovoltaic cells; pince-nez; pitot tubes; plane tables being surveying instruments; planimeters; plates for batteries; plotters; electrical plug connectors, electric sockets, and electric contacts; plumb bobs; plumb lines; pocket calculators; polarimeters; portable media players; precision balances; precision leasers for measuring purposes, which contain embedded recorded software enabling them to send data to augmented reality and virtual reality devices; pressure gauges; manometers; pressure indicator plugs for valves; pressure indicators; pressure measuring apparatus; printed circuit boards; printed circuits; computer printers for printing documents, which contain embedded recorded software enabling them to send data to augmented reality and virtual reality devices; probes for scientific purposes; processors being central processing units; processors, namely, central processing units; projection apparatuses in the nature of photograph projection apparatuses, which contain embedded recorded software enabling them to send data to augmented reality and virtual reality devices; projection screens; protection devices against X-rays not for medical purposes, namely, gloves for protection against x-rays for industrial purposes, with the function of working with augmented or virtual reality; protection devices for personal use against accidents in the nature of protective body armor, namely, ballistic, bullet, blast, slash and stab resistant vests, with the function of working with augmented or virtual reality; protective films adapted for computer screens; protective films adapted for smartphones; protective helmets; protective helmets for sports; protective masks; protective suits for aviators; protractors being measuring instruments; punched card machines for offices; pyrometers; quantity indicators, namely, Geiger counters that contain embedded recorded software enabling them to send data to augmented reality and virtual reality devices; radar apparatus; radio pagers; radiology screens being radiation shields for electronic products for industrial purposes, which contain embedded recorded software enabling them to send data to augmented reality and virtual reality devices; radios; radiotelegraphy sets; radiotelephony sets; railway traffic safety appliances being flashing safety lights, which contain embedded recorded software enabling them to send data to augmented reality and virtual reality devices; range finders for golf and for cameras, which contain embedded recorded software enabling them to send data to augmented reality and virtual reality devices; telemeters; readers being data processing equipment; rearview cameras for vehicles; record players; reflective articles for wear, for the prevention of accidents; reflective safety vests; refractometers; luminare refractors that contain embedded recorded software enabling them to send data to augmented reality and virtual reality devices; electric voltage regulators that contain embedded recorded software enabling them to send data to augmented reality and virtual reality devices; relays, electric; remote controls for controlling household appliances, lighting, doors, gates, security cameras, and car alarms, which contain embedded recorded software enabling them to send data to augmented reality and virtual reality devices; rescue laser signalling flares; resistances, electric; respiratory masks for non-medical purposes, namely, respiratory masks other than for artificial respiration; resuscitation mannequins being teaching apparatuses; resuscitation training simulators; revolution counters being electronic tire testing equipment that counts tire revolutions and contain embedded recorded software enabling them to send data to augmented reality and virtual reality devices; rheostats; riding helmets; ring sizers; road signs, luminous or mechanical; rods for water diviners; measuring instruments, namely, rulers; measuring instruments, namely, rules; saccharometers; safety nets; life nets; safety restraints, other than for vehicle seats and sports equipment, all being safety restraints for non-medical purposes; safety tarpaulins; salinometers; satellite finder meters; satellite navigational systems in the nature of global positioning systems containing
embedded recorded software enabling them to send data to augmented reality and virtual reality devices; satellites for scientific purposes; scales; scales with body mass analysers; scales with body mass analyzers; scanners being data processing equipment; screw-tapping gauges; security surveillance robots; selfie lenses, namely, mobile zoom lens for cameras, monoculars, lenses sold as integral component parts of cameras with the function of working with augmented or virtual reality; hand-held monopods, namely, selfie sticks; semi-conductors; sextants; sheaths for electric cables; shoes for protection against accidents, irradiation and fire; shutter releases for cameras; photography shutters; sighting telescopes for firearms; telescopic sights for firearms; signal bells; signal lanterns in the nature of flashing and steady safety lights that send a signal to devices with augmented reality; signalling buoys; luminous and mechanical signalling panels being panels of flashing and steady safety lights that communicate with augmented and virtual reality devices; signalling whistles; signs, luminous; simulators for the steering and control of vehicles; sirens; sleeves for laptops; slide calipers; slide projectors; transparency projection apparatus; slide-rules; slope indicators; clinometers; gradient indicators; inclinometers; smart rings; smartglasses; smartphones; smartwatches; smoke detectors; snorkels; solar batteries; solar panels for the production of electricity; solderers' helmets; solenoid valves being electromagnetic switches; sonars; spectroscopes; speed checking apparatus in the nature of speedometers for vehicles that contain software for use in sending speed data to electronic augmented reality devices and electronic virtual reality devices; speed indicators; speed measuring apparatus used in photography; speed regulators for record players; spherometers; spirit levels; sports whistles; sprinkler systems for fire protection; square rulers for measuring; squares for measuring; stands for photographic apparatus; automatic steering apparatus, namely, simulators for the steering and control of vehicles for training novice drivers; step-up transformers; stereoscopes; stereoscopic apparatus, namely, stereoscopes featuring recorded computer software for use in transmitting data to electronic augmented reality devices and electronic virtual reality devices; stilts for laboratory experiments; stroboscopes; subwoofers; sulfitometers; sunglasses; surveying apparatus and instruments; surveying chains; surveying instruments; surveyors' levels; switchboards; electrical switchboxes; switches, electric; tablet computers; tachometers; tape recorders; taximeters; teaching robots; telegraph wires; telegraph apparatuses, namely, telegraphs; telephone apparatus; telephone receivers; telephone transmitters; telephone wires; teleprinters; teletypewriters; telexprinters; telescopes; telescopic sights for artillery; temperature indicator labels, not for medical purposes; temperature indicators; test tubes; testing apparatus not for medical purposes, namely, testing equipment for testing electrical stimulation and exoskeletons; theodolites; thermal imaging cameras; thermionic tubes; thermionic valves; thermo-hygrometers; thermometers, not for medical purposes; thermostats; thermometers for vehicles; thin client computers; thread counters; time clocks being time recording devices; time recording apparatus; time switches, automatic; tone arms for record players; toner cartridges, unfilled, for printers and photocopiers; safety traffic cones; traffic-light apparatus; telecommunication transmitters; transmitters of electronic signals; photography transparencies; transponders; triodes; tripods for cameras; T-squares for measuring; urinometers; vacuum gauges; vacuum tubes for radios; variometers; vehicle breakdown warning triangles; vehicle radios; verniers; video baby monitors; video game cartridges; video recorders; video screens; video telephones; viewfinders, photographic; viscometers; visors for helmets; voltage regulators for vehicles; voltage surge protectors; voltmeters; voting machines; wafers for integrated circuits; walkietalkies; water level indicators; wavemeters; wearable activity trackers; wearable computers; wearable video display monitors; weighbridges; weighing apparatus and instruments; weighing machines; whistle alarms; wind socks for indicating wind direction; wire connectors; wires, electric; all the above goods/services not related to virtual reality and virtual visits of sporting events

For Screening machines for mineral processing; Crushing machines; conveying machines for mineral, metal, ore and waste processing; Grinding mills for grinding and comminuting metals, minerals and ore; Sizing machines for use in the field of mining, aggregates and metals refining industries; Flotation machines for separating particles in mineral processing industry; Separating machines for separating particles in mineral processing industry; Filtering machines for separating particles in mineral processing industry; Dewatering machines for mineral processing; Sedimentation machines for the sedimentation of minerals in mineral processing industry; briquetting pressing machines; Feeding machines for feeding minerals in mineral processing industry; Railcar and barge pulling machines; bin unloading machines; Cranes; Lifting apparatus for the transport of goods; Pelletizing and sintering machines for mineral processing; Railcar dumping and positioning machines for transporting and loading minerals in the field of mineral processing; Reclaimers being machines for transporting and loading minerals and materials in the field of mineral processing; Rotary breaker machines for crushing in the field of mineral processing; unloading and loading machines; ship trimmers and throwers being unloading and loading machines; stacker reclaimers being loading and unloading machines; Calcining machines for the conversion of the physical or chemical properties of a substance by the application of heat; Machines for grinding, crushing, shredding, shearing, pressing and cutting minerals, metal and waste; Valves being parts of machines; Valve seats being parts of machines; Pneumatic and hydraulic valve actuators and positioners being parts of machines; Pressure valves being parts of machines; Segment valves being parts of machines; Globe valves being parts of machines; Butterfly valves being parts of machines; Emergency shutdown valves being parts of machines; Tank car valves being parts of machines; Control valves being parts of machines; Regulating valves being parts of machines; Ball valves being parts of machines; Plug valves being parts of machines; Cartridges being parts of filtering machines; Envelope feeders being parts of machines; Filters being parts of crushing machines and engines; Heat exchangers being parts of machines; Water heaters being parts of machines; Boiler tubes being parts of machines; Drain cocks;
Grindstones being parts of machines; Millstones being parts of machines; Pump diaphragms; Tool bits being parts of machines; Casting machines for molten metal, upward continuous casting machines, casting wheels and take-off/bosh tank machines for anodes; Rolling machines for metal tubes, pipes, rods, wires, wirebars, slabs, billets, sheets, strips and foils; Machines for the preparation of starting sheets and anodes and unloading of anodes and cathodes, stacking machines for slabs and ingots, stripping machines for cathodes or starting sheets, venturi scrubbers for processing gases in mineral processing industry, and mixer-settler cells being machines for separating metals, minerals and ore; Machines for material treatment and forming, namely, grinding, crushing, cutting and conveying machines for mineral, metal, and ore processing; Machines for smelting concentrates, metals and materials; Machines for flash smelting and converting of concentrates, flotation and dispersion machines for mineral processing, and machines for preconcentration of ore; Machines for physical separation of ore and minerals; Machines for green anode plants and rodding shops for mineral, ore and metal processing; Machines and mills for grinding and comminuting materials; Machines for processing oil and mineral sands; Mineral processing machines for thickening and clarifying materials in mineral industries; Machines for briquetting, pelletizing and sintering of materials; Machines for direct smelting of iron ore; Machines for producing sulphuric acid; Machines for cleaning waste water; Machines for cleaning gases; chemical processing machines for calcining and leaching ores and minerals; Machines for ion exchange and solvent extraction of materials; Machines for treating, transferring and conveying of molten slag and molten metal; Machines for fire refining of ores and concentrates; Machines for drying ores and minerals

**International Classes**  7 - Primary Classes **US Classes**  13, 19, 21, 23, 24, 31, 34, 35  **International Class Title**  Machinery

**For**  Machines for cleaning gases

**International Classes**  11 - Primary Classes **US Classes**  13, 21, 23, 24, 31, 34  **International Class Title**  Environmental Control Apparatus

**For**  Rental of mineral processing machines; Retail and wholesale store services featuring machinery, apparatus, installations, spare parts and production plants in the mining field, enrichment and metallurgical industries, mineral process industry, metal forming technology industry, metal materials technology industry, and environmental protection fields

**International Classes**  35 - Primary Classes **US Classes**  100, 101, 102  **International Class Title**  Advertising and Business

**For**  Installation, maintenance and repair services of crushing, screening, conveying, feeding, grinding, separation, bulk materials handling, and metal and waste recycling machines; Installation, maintenance and repair services for valves, actuators, positioners, valve controllers, valve controls, limit switches, and solenoids; Installation, maintenance and repair services for data processing equipment and computer hardware; Building construction supervision; Maintenance, installation and repair services of industrial energy power plants and energy power plant equipment and machines; Advisory and consultancy services relating to maintenance, installation and repair of energy power plants and energy power plant machines; Construction and modification of mines, concentrators and plants for metallurgy, energy producing, environmental protection in the field of mineral processing, aggregates, metals refining, mining and recycling industries; Installation, maintenance, modification, and repair of machines, apparatus and appliances used in mining and mineral processing technology, metallurgy, metal processing technology, municipal engineering and energy production, metalworking, metal technique and forming, environmental protection, water purification in the field of mineral processing, aggregates, metals refining, mining and recycling industries
**International Classes** 37 - Primary Classes  **US Classes** 100, 103, 106  **International Class Title** Construction and Repair

**For**  Electronic and optical sensors and detectors; Electronic monitoring apparatus for crushing machines; Downloadable augmented reality software for planning, monitoring and controlling industrial plants, industrial processes related to minerals and mineral processing, aggregates crushing, screening and conveying machines, and metals refining, mining and recycling machines; Downloadable virtual reality software for planning, monitoring and controlling industrial plants and industrial processes related to minerals and mineral processing; Downloadable computer software for operating mineral processing machines; Electronic tags for goods; Cameras; Electronic valves for controlling gas or fluids; Electronic testing apparatus for testing fluids, slurries, solids and gas in the process industry; Dust measurement apparatus; Electrical power distribution units; Electronic and optical measurement apparatus for measuring fluids, slurries, solids and gas in the process industry; Electronic sensors, signal processors, switches and position transmitters for valves for controlling and monitoring the function and operation of valves; Electromagnetic safety solenoids in the nature of pneumatic and electronic solenoids; Radio-frequency identification tags and readers; Radio-frequency transmitters and receivers; Electronic control valves for controlling for controlling fluids, slurries, solids and gas; Electronic valve controllers for controlling for controlling and monitoring the function and operation of valves; Electronic, electro-pneumatic and electro-hydraulic valve actuators and positioners; Testing and analyzing equipment, namely, x-ray and gamma ray apparatus for industrial use, neutron-activated and electrochemical element analyzers; Electronic sensors for detecting and sensing metals and other materials in the process industry; Minicomputers and microprocessors for digital device for process control and management in mining and mineral technology, metallurgy and non-organic chemical industry; Superconductor cables, silicon wafers; Copper anodes and cathodes; Electric conductor components, conduits, cables, wires, coaxial cables, conductors, profiles, commutator rods and connectors of copper or copper alloys or tin alloys or nickel alloys; Electrostatic precipitators for cleaning gases

**International Classes** 9 - Primary Classes  **US Classes** 21, 23, 26, 36, 38  **International Class Title** Electrical and Scientific Apparatus

**For**  Treatment of materials in mineral processing, aggregates, metals refining, mining and recycling industries; Minerals processing; Waste recycling; Metal recycling; Providing information in the field of material treatment; Water treating; Production of energy; Consulting services in the field of metallurgy, energy production and metal and mineral working; Rental of mineral processing machines

**International Classes** 40 - Primary Classes  **US Classes** 100, 103, 106  **International Class Title** Material Treatment

**For**  Testing of the goods of others to assure compliance with industry standards; Testing and simulation of the goods of others to assure compliance with industry standards; Engineering research; Engineering testing; Technical testing, namely, testing of the goods of others to assure compliance with industry standards; Engineering design services; Drafting of plans and engineering drawings for others; Preparation of engineering reports; Civil engineering planning services; Conducting technical project engineering studies; Technical consultation in the field of environmental design for others in the field of energy engineering; Environmental research, testing, surveying, assessment, analysis and consultancy services; Technical support services, namely, monitoring of network systems; Providing process monitoring quality assurance services in the field of in the field of mineral processing, aggregates, metals refining, mining and recycling industries; Advanced product research in the field of artificial intelligence; Engineering services for assessing the efficiency of industrial processes; Technical modeling
services, namely, hydrologic and hydraulic modeling of storm drainage infrastructure; Engineering advisory services in the field of improvement of industrial and technical efficiency; Quality control, analysis, assessment, testing and consultancy services for others; Technical diagnostic services relating to industrial processes in mineral processing, aggregates, metals refining, mining and recycling industries, water treatment, energy production, energy distribution and power production in mineral processing, aggregates, metals refining, mining and recycling industries; Technological consulting services in the field of mining and mineral technology, metal technology, municipal engineering, material technique and forming technology, environmental protection technology and non-organic chemical technology; Technological consulting services related to technology used in the field of water purification; Design of new products and facilities for others in the nature of mines, concentrators and plants for metallurgy, energy producing, and environmental protection, and in the non-organic chemical industry.

**GOODS AND SERVICES INFORMATION**

**For**, Fuel dispensing machines; electric generators; gas-operated power generators; electricity generators; robots for use in industry; machines and machine tools for the treatment of materials and for manufacturing of hydrogen; pumps, compressors, and dispensers, all for liquid gas and for gas in gaseous form; installations for storing and dispensing of fuel, namely, fuel dispensing machines; electrolysis installations for production of hydrogen fuel being parts of machines; filling installations in the nature of fuel dispensing machines for liquid gas and for gas in gaseous form; fuel dispensing pumps; fuel dispensing pumps for service stations; hydrogen dispensing pumps for service stations; compressed air pumps; pumps being parts of machines, engines or motors; pumps for machines; self-regulating fuel pumps

**International Classes** 7 - Primary Classes | US Classes 13, 19, 23, 24, 31, 34, 35 | **International Class Title** Machinery

**For**, Liquid processing installations for filtering, purifying, heating, cooling, and distilling of water and liquid gases, comprised of component parts in the nature of storage tanks, compressors, pumps, pipelines, instrumentation, insulation and housings therefor; installations for purification of gas; water purification, desalination and conditioning installations; chemical processing equipment, namely, distillation apparatus, drying apparatus, evaporators, heat exchangers, recuperators, and steamers, all for chemical processing; gas scrubbing apparatus and gas purification apparatus; air treatment equipment, namely, apparatus for filtering, ionizing, purifying, sterilizing, and humidifying air; hydrogen generators

**International Classes** 11 - Primary Classes | US Classes 13, 21, 23, 24, 31, 34 | **International Class Title** Environmental Control Apparatus
For Gaseous and liquid industrial gases for use as industrial chemicals; hydrogen

**International Classes** 1 - Primary Classes **US Classes** 1, 5, 6, 10, 26, 46 **International Class Title** Chemicals

For Business management of fuel stations and service stations, electrolysis installations and filling installations for liquid gas and for gas in gaseous form; retail store services featuring gas and fuel for motor vehicles and for fuel cell vehicles; wholesale store services featuring gas and fuel for motor vehicles and for fuel cell vehicles; providing information and consultancy about the aforementioned services

**International Classes** 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Construction and maintenance of fuel stations and service stations, electrolysis installations and filling installations for liquid gas and for gas in gaseous form; installation, maintenance and repair of energy generating installations; installation and maintenance of gas generators, including hydrogen generators; vehicle service stations for refuelling and maintenance; fueling services for motor vehicles and fuel cell vehicles; fueling of hydrogen gas for vehicles; vehicle fueling services; building of renewable energy producing plants; construction, installation and maintenance of electrolyzers; providing information and consultancy about the aforementioned services

**International Classes** 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For Electrolysers; water electrolyzers; downloadable and recorded computer software for controlling and monitoring fuel production, storage, and dispensing equipment; computer hardware for use in fuel stations and filling installations; flow regulators, manometers, temperature sensors, flowmeters, and liquid level sensors, all for use in connection with the storage and tapping of compressed and liquefied gases; gas pressure indicators and gauges; electrolyzers being electrolytic cells; apparatus and instruments for accumulating, transforming and storing electricity; fuel cells; scientific research and laboratory apparatus and educational apparatus and simulators, namely, on-site hydrogen, nitrogen, dry and zero air generators, all for use in laboratories; gasifiers for laboratory use; gas mixers for laboratory use; air-gas producers for scientific experiments in laboratories

**International Classes** 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Distribution of energy; Transport and storage of fuel; fuel bunkering services being storage of fuel; storage of gaseous fuels; transport and storage of liquefied and solid gases and gases in gaseous form, supplying of liquefied and solid gases and gases in gaseous form; storage of gas and fuel for motor vehicles and fuel cell vehicles; energy distribution; fuel distribution services; gas supplying being distribution; providing information and consultancy about the aforementioned services

**International Classes** 39 - Primary Classes **US Classes** 100, 105 **International Class Title** Transportation and Storage

For Energy production; gas production services; production of hydrogen gas, including via electrolysis; fuel processing; treatment of liquefied and solid gases and gases in gaseous form; treatment of materials by means of electrolysis; rental of equipment for energy production; providing information and consultancy about the aforementioned services
For Fuel; fuel for motor vehicles and for fuel cell vehicles, including hydrogen; fuel gas; fuels in liquid or gas form; gas mixtures for use as fuels in combustion engines and fuel cells

For Development of technology for hydrogen infrastructure, electrolysis installations and filling installations for liquid gas and for gas in gaseous form; engineering services; providing technological information about environmentally-conscious and green innovations; technological consultancy in the fields of energy production and use; design and development of renewable energy generation systems; providing information and consultancy about the aforementioned services

MARK INFORMATION
Standard Character Claim  No  Mark Drawing Type  3 - AN ILLUSTRATION DRAWING WHICH INCLUDES
WORD(S)/ LETTER(S)  Description of the Mark  The mark consists of a square background with a black outline. The
square is filled in with various shades of green, white, and gray, and features extensive background designs in gray, white,
and green, which appear to resemble electronic computer circuitry. The gray wording
"NETWORTHYCONSULTING.COM" appears on the background. At the bottom of the square design is the black
wording "3-DIMENSIONS CIA TRIAD", to the left of which is the smaller black wording "NETWORTHY
CONSULTING", and to the right of which is the smaller black wording "VERSION 3.0". Above are multiple shapes,
stylized to appear three dimensional, all featuring wording. At the top is a horizontally-oriented, three-dimensional,
rectangular board-like design with a gray bottom, featuring the red wording "GROUP", "INDIVIDUAL", and
"OPERATING SYSTEM", and green sides, with the front side featuring the black wording "OWNER" and the gray
wording "NETWORTHYCONSULTING.COM". On the left and right of the broader square design are two vertically-
oriented, three-dimensional, rectangular board-like designs with the wider sides of the designs being gray, with the left
design featuring the red wording "CREATED", "AT REST", and "IN TRANSIT", and the right design featuring the red
wording "SAFETY", "DATABASE", and "NON-REPUDIATION", on the respective gray portions. Each of these
vertically-oriented rectangular designs is green on its more narrow side, with the left design featuring the black wording
"STATE" and the right design featuring the black wording "PURPOSE", on the respective green sides. In the middle of
the broader square design are additional cube-like designs, green in front, with the other sides being gray and extending

828
backwards. Two of the cubes feature the black wording "DATA", and two of the cubes feature the black wording "DATA SYSTEM". The largest cube, in the middle, features the black wording "(CIA) 3D TRIAD", with "3D" being shown as an exponent in superscript, against "(CIA)", below which are the three stacked black terms "CONFIDENTIALITY", "INTEGRITY", and "AVAILABILITY", below which is the gray wording "NETWORTHYCONSULTING.COM". Around this middle, largest cube are three circles, two of them are shaded in white on top and green on the bottom, separated by a black line, and one of them is shaded in white on top and gray on the bottom. The white portion of each circle features black wording; the partially green-shaded circles feature the wording "STATE" and "OWNER", respectively, and the partially gray-shaded circle features the wording "PURPOSE". **Color Claimed**: The color(s) green, gray, black, red, and white is/are claimed as a feature of the mark. **Disclaimer**: "CIA", "TRIAD", "CONFIDENTIALITY INTEGRITY AVAILABILITY", "OWNER", "STATE", "PURPOSE", "DATA SYSTEM", "DATA", "DATA SYSTEM", "DATA", "OWNER", "STATE", "PURPOSE", "INDIVIDUAL, GROUP, OPERATING SYSTEM", "CREATED, AT REST, IN TRANSIT", "SAFETY, DATABASE, NON-REPUDIATION", "CONSULTING", "CIA TRIAD", AND "VERSION 3.0"

Description of the Mark The mark consists of a shield with dark blue borders, a black outline, and a yellow interior outlined in black. The number "2021" appears in black in the top yellow interior portion. The upper half of the interior of the shield is divided from the bottom half of the interior of the shield by a blue border that starts on the left edge of the shield, approximately two thirds of the way down the left edge of the shield, and goes diagonally upward to the right and peaks in the middle of the shield, then goes diagonally down to the right and ends at a point on the right edge of the shield that is approximately two thirds of the way down the right edge of the shield. Within this interior blue border, there is a black chevron. The number "1821" appears in black three times in the center of the lower portion of the shield, stacked one on top of each other with the second and third instance of the number "1821" being wider than the first and second instance, respectively, such that the three instances of the "1821" numbers form a triangle. The top border of the shield includes a fleur-de-lis shape in the middle. Color Drawing Yes Color Claimed The color(s) blue, yellow and black is/are claimed as a feature of the mark.
