<td>The mark consists of the stylized wording &quot;FRESH SCENTS&quot;, &quot;360 SPRAY&quot;, &quot;CAUTION: BAD ODOR KILLER&quot; and the repeated word &quot;CAUTION&quot; as well as a circular design containing a bottle and surrounded by &quot;CAUTION&quot; tape. The wording &quot;FRESH SCENTS&quot; is in green text and outlined in black, separated by a green and black spray bottle. The cap of the spray bottle is green with black outlining and features three black dotted lines extending from the nozzle, giving the appearance of a sprayed liquid. The screw collar and reservoir of the spray bottle are black with a green rectangular shaped outline along the edges of the bottle. The wording &quot;360 SPRAY&quot; is in yellow text and outlined in black, appearing below the wording &quot;FRESH SCENTS&quot;. All of the foregoing are positioned on a circular shaped background with green to yellow gradients. A yellow arrow is on the top of the circular shape, with a green arrow on the bottom. The color black outlines the edges of the arrows, giving the appearance of depth. Four rolls of yellow tape, with the repeated wording &quot;CAUTION&quot; in black text, are located at the bottom of the mark, with the inner most tape rolls featuring a brown center resembling cardboard. An unraveled portion of the tape at the bottom of the mark features the stylized wording &quot;CAUTION: BAD ODOR KILLER&quot; in the center with the repeated wording &quot;CAUTION&quot; on either side, all of the foregoing text in black. The mark consists of a three-dimensional configuration of a bottle for the goods and accompanying bottle stopper. The bottle is a tall, slender, trapezoid shape that grows wider from the neck toward the base, and then curves inward to the base. The lower 20% of the bottle bears an irregular pattern of contiguous pentagons and hexagons of different sizes. The top of the bottle has an extruded lip. The bottle stopper is entirely faceted with a pattern of evenly spaced raised diamond shapes, with the exception of a thin, non-faceted rim at the stopper's base.

and devices making up industrial and chemical plants, building repair in the field of industrial and chemical plants;
maintenance and repair of machines, apparatus and devices making up industrial and chemical plants, building repair in the
field of industrial and chemical plants; maintenance services for machines and equipment within industrial plants; building
maintenance services, namely, performing container leak checks and container change-out services being container
replacement in the semiconductor industry; installation of industrial and chemical plants, namely, of machinery, equipment,
installations, apparatuses, that are used for storage, delivery, monitoring, analysis, usage, recovery and reuse and on-site
generation of chemicals, chemical compositions, gases and materials for the electronics, semiconductor and
microelectromechanical industries; maintenance and repair services for industrial and chemical plants, namely, of machinery,
equipment, installations, apparatuses, that are used for storage, delivery, monitoring, analysis, usage, recovery and reuse and
on-site generation of chemicals, chemical compositions, gases and materials for the electronics, semiconductor and
microelectromechanical industries; construction and installing services for equipment and lines for the storage, delivery and
supply of industrial and specialty gases for the electronics fabrication industry

For scientific, navigation, surveying, photographic, optical, weighing, measuring, signaling, checking, life-saving and
teaching apparatus and instruments, namely, semiconductor testing apparatus; apparatus and instruments for conducting,
switching, transforming, accumulating, regulating or controlling the distribution or use of electric current; apparatus for
recording, transmission or reproduction of sound and images; blank magnetic data carriers, blank record discs; blank compact
disks; compact discs featuring music; blank recordable DVDs; calculating machines; data processing equipment; computers;
downloadable computer software for monitoring, storing, delivering and managing gases and chemicals for the electronics,
semiconductor, and microelectromechanical industries and for monitoring, handling, delivering and dispensing chemicals,
chemical compositions, chemical mechanical planarization slurries, chemical residue removal solutions, gases and materials in
the electronics, semiconductor and microelectromechanical industries; downloadable computer operating programs, computer
operating software and computer operating systems; downloadable industrial process control software and computer operating
systems; downloadable industrial and downloadable industrial process control software and computer operating systems for
containing, storing, monitoring, delivering, and managing gases for the electronics, semiconductor, and
microelectromechanical industries; computer hardware, namely, electronic controllers and downloadable software for
monitoring, handling, delivering and dispensing chemicals, chemical compositions, chemical mechanical planarization slurries,
chemical residue removal solutions, gases and materials in the electronics, semiconductor and microelectromechanical
industries; electric installations for the remote control of industrial operations; gas testing instruments, electric; gauges
specifically adapted for use with gasometers; fluorescent screens; video screens; computer monitors; light emitting diodes;
solar batteries; solar cell panels for generating electricity; photovoltaic cells; industrial apparatus for blending of gases and
analyzing gases, namely, systems comprised of an automated, programmable control system for machines, pneumatic and
manual expansion valves for use in fluid control, and automatic pressure control instruments and pressure switches and sensors
for monitoring, controlling, and switching hydraulic or pneumatic systems; automated system comprising automatic electronic
controllers in the nature of electronic valves for controlling gas or fluids, namely, for controlling the transfer of chemicals, a
reservoir containment cabinet, chemical process piping, automatic valves, pressure indicating gauges and electronic monitoring
systems comprised of liquid level sensors, signaling alarms, namely, sound alarms, signal whistles for indicating a
malfunction, indicator lights, pressure sensors, and electronic process controllers for controlling the transfer of chemicals for generating digital data, for delivering chemicals from a reservoir outside a confined space under controlled environmental conditions to a process tool contained in said confined space or room, the foregoing being for use in electronics fabrication industry; telecommunication devices and apparatus, namely, devices for transporting and aggregating voice, data, and video communications across multiple network infrastructures and communications protocols; electromechanical, automatic pressure control machines and instruments, namely, controls for operating valves for dispensing chemicals from storage containers through a manifold to a semiconductor fabrication process; automated systems used to dispense chemicals comprised of automatic valves for controlling gas or fluids, and also comprised of containers of metal for chemicals, automatic control systems comprised of automatic valves for controlling gas or fluids, associated piping in the nature of stainless steel pipes and plastic pipes, and electronic monitoring system comprised of automatic valves for controlling gas or fluids; computer-based information handling network comprised of central control computers, display terminals in the nature of computer display screens, computer printers, document printers, bar code printers, photo printers, video printers, and 3D printers, interface and interconnecting means and instrument clusters for monitoring safety conditions and process parameters of gases and liquids, for gas, environments and hazards analysis and control in the nature of detectors, computers, interfaces for computers, audio interfaces, interfaces for pressure control machines and instruments; automatic liquid flow control valves, automatic temperature controllers for pressure control machines and instruments; apparatus for controlling the temperature of chemical being dispensed from a container, namely, a temperature sensor, and a process controller consisting of a temperature sensor, and a process controller, for operating the heater based upon operator set point entries and the signal from the temperature sensor; solar panel for electricity generation; laboratory apparatus made of metal for monitoring, handling, delivering, dispensing and post-spill containing of chemicals, chemical compositions, chemical mechanical planarization slurries, chemical residue removal solutions, gases and materials in the electronics, semiconductor and microelectromechanical industries, namely, Flow switches for monitoring and controlling the flow of gases or liquids, pre-packed columns for use in separation and purification, gauges specifically adapted for use with gasometers; laboratory equipment, namely, metal cabinets specially adapted for monitoring and dispensing pressurized industrial gases
