control devices, namely, wireless controllers to monitor and control the functioning of other electronic devices; regulation and control devices, namely, automatic fluid composition control machines and instruments; regulation and control devices, namely, automatic liquid flow control machines and instruments; regulation and control devices, namely, automatic liquid level control machines and instruments; regulation and control devices, namely, automatic pressure control machines and instruments; regulation and control devices, included in this class, namely, water heater controls; regulation and control devices, namely, electrical integrated control systems in the fields of drinking water and waste water treatment, air conditioning of buildings, heating of buildings and solar power generating; regulation and control devices, namely, electric mechanical controls for use in the fields of drinking and waste water treatment, air conditioning of buildings, heating of buildings and solar power generating; regulation and control devices, namely, electric control devices for heating and energy management, climate control systems consisting of digital thermostats, air conditioning, heating, ventilation and drying control devices; regulation and control devices, namely, data access parts for use with electrical control panels for connecting multiple data and electrical devices; electro technical instruments, namely, armatures for use in electrical apparatus, indicators for speed and temperature, electric installations for the remote control of industrial operations, electric distribution consoles and control panels, electro-dynamic apparatus for the remote control of signs, electric coils, electric sensors, electric connectors and electric monitoring apparatus and devices for plumbing applications; junction boxes and distribution boxes for electricity; sprinkler systems for fire protection; laboratory devices for measuring and evaluation of water quality, namely, decontamination levels and chemical levels; fuel cells; downloadable electronic publications for information purposes, namely, brochures, magazines and newsletters in the fields of heating, air conditioning, cooling, drainage, sewage and water supply; binary unit systems for data processing, consisting of hardware and software; software for use in monitoring and controlling of pumps and motors, for use in monitoring and controlling drinking water and waste water treatment systems, of mixing and steering systems, of air conditioning systems, of heating installations or of solar power systems; blank optical, magnetic and electronic data carriers; testing apparatus, not for medical purposes for testing the temperature, pressure, quantity and flow of liquids; connections for electric lines; electric batteries; camera films, exposed; observation instruments for use in connection with observing the functioning of electric, pneumatic and hydraulic pumps; magnetic encoders; encoded identity cards; encoded service cards; blank CDs for sound and video recording; computers; computer operating systems, stored; computer peripheral devices; computer programs, stored, for use in monitoring and controlling of pumps and motors, for use in monitoring and controlling drinking water and waste water treatment systems, of mixing and steering systems, of air conditioning systems, of heating installations or of solar power systems;
