heat generators with flash lamps; drying apparatus for drying and sintering, in particular with flash lamps and lighting systems using ultraviolet radiation; lighting systems and lighting devices for lighting systems for sterilizing media, surfaces and fluids, namely, with flash lamps or gas discharge lamps; lighting systems and lighting devices for lighting systems for sterilizing media, surfaces and fluids, namely, with flash lamps or gas discharge lamps for the emission of ultraviolet radiation; luminous tubes for lighting; discharge lamps; ultraviolet lamps not for medical purposes; LED lighting systems, namely, LED modules, power supplies, and wiring; electric lamps; excimer lighting apparatus; ultraviolet lamps used for irradiation; ultraviolet irradiators, namely, for surface cleaning; ultraviolet irradiators, namely, for reducing pumping time in vacuum chambers; lighting apparatus for industrial purposes; lighting apparatus made from quartz glass; heating elements, heating units and heating plates for industrial purposes; industrial heaters; infrared heating panels used for indoor heating purposes; electric infrared radiant heaters; infrared radiation units containing infrared radiation elements printed on black quartz glass; heat generators; lighting installations; arc lamps; gas lamps; gas purification machines; LED underwater lights; LED flashlights; LED luminaires; Ultraviolet lamps, not for medical purposes, for drying inks, conductive inks and coatings; ultraviolet lamps primarily comprising electric light bulbs and containing component parts, namely, reflective and refractive optics, interconnecting cables, optical coatings for use on ultraviolet lamps used therewith and AC electric plugs, used for ultra violet curing applications, sold as a unit; marine sewage holding tanks emitting UV and Vis-radiation, namely, for treating ballast water; infrared lamps and infrared heating systems; UV-lamps, for disinfecting purposes, surface finishing, drying, welding, cutting, drilling and marking of materials and substrates; ultraviolet curing lamps, not for medical purposes; infrared radiation units for industrial use; infrared radiation units for use in preparation of semiconducting materials; infrared light filters for use with lighting instruments; apparatus for lighting, heating, steam generating for use in printing, curing purposes

International Classes 11 - Primary Classes US Classes 13, 21, 23, 24, 31, 34

International Class Title Environmental Control Apparatus

For apparatus for recording, transmission or reproduction of sound or images; blank recordable optical discs; X-ray apparatus not for medical purposes; calibration devices for calibrating X-ray diagnostic apparatus other than for medical use; level electrical gauges; lasers for use in the fields of printing, bonding, polymerization, etching, welding, engraving, hardening, disinfecting, surface finishing or coating; electronic components comprising semiconductor diodes, resonator and laser pump source in the nature of sources for electromagnetic radiation, namely, for use in the fields of printing, bonding, polymerization, etching, welding, engraving, hardening, disinfecting, surface finishing or coating; LED driver; signal processors for ultraviolet lamps, namely, for controlling of ultraviolet lamps for drying inks, conductive inks and coatings; power supplies, namely, electric power supply units, and reflecting and refractive optics, interconnecting electric cables, sold as a unit; computer hardware and recorded software systems for the real-time on-board performance monitoring of radiation curing system and photon delivery system applications; computer hardware and recorded software systems for the real-time on-board performance monitoring of radiation in plant cultivation, printing, printing of conductive inks, disinfection processes, surface finishing system applications; data-processing apparatus; optoelectronic measuring devices for controlling special light sources in the fields of printing, welding, marking, bonding or coating in industrial and scientific applications; optical lanterns; optical filters and optical reflectors for electric lamps; electric ballasts, in particular for operating, regulating and controlling gas discharge lamps; measurement apparatus, in particular for measuring irradiance, namely, spectral irradiance, wavelength, intensity, and dose in the field of UV light; measurement apparatus, in particular for determining the change in resistance of a material on irradiation with ultraviolet UV radiation and for detecting a radiation dose; computer hardware and recorded
software systems for controlling lamps; computer hardware and recorded software systems for printing, curing, sterilizing, cleaning, and activating surfaces for the preparation of further process steps and modifying surface structure using ultraviolet UV radiation; electronic components for computers; lighting control apparatus, in particular components of controlling lighting systems, lighting ballasts, and control units, namely, wireless control units; apparatus, instruments, and cables for conveying, distributing, transforming, storing, regulating or controlling electric current; electronic and optical communications instruments and components, namely, optical transmitters for use in lamps, in particular excimer lamps, lamps emitting UV radiation for surface cleaning, surface finishing, etching, welding, or activation and modification for photochemical applications and for reducing pumping time in vacuum chambers; electric regulating apparatus, namely, apparatus and instruments for conveying, distributing, transforming, storing, regulating or controlling electric current; cathodes; infrared detectors; infrared sensors; infrared thermometers, not for medical purposes; filters for use in photography, namely, infrared filters; infrared cameras; super luminescent laser diodes; lasers for non-medical purposes, lasers for industrial use; lasers for measuring purposes; electrical circuits and circuit boards for controlling lamps and photon delivery systems; downloadable software being computer simulation software for modeling of chemical and physical models; light-emitting diodes; organic light emitting diodes; organic light emitting diodes for drying inks, adhesives and coatings; apparatus and instruments for controlling electricity; apparatus and instruments for accumulating electricity; apparatus and instruments for switching electricity; apparatus and instruments for transforming electricity

For Electric apparatus for the operation, control, remote-control and monitoring as well as for data input and command input and for information exchange between the user and industrial installations and machines for printing, lacquering/varnishing, coating, foiling, lamination coating, stamping, hot stamping and/or cold stamping; downloadable man-to-machine interface software; recorded man-to-machine interface software; ink-jet color printers for documents; laser document printers; thermal transfer printers; document printers and print heads therefor; automated digital controls for commercial and industrial machines and for industrial machine tools; scanners and digitizing scanners; digital graphic scanners; downloadable electronic documentations and publications in the nature of manuals, operating instructions, maintenance instructions, technical instructions and specifications, datasheets, books and magazines, each in the fields of operation of machines and of computer software and hardware, printing, varnishing, paper and packaging manufacturing, plastics and paper processing, product and packaging design, surface decoration and coating, product and document authentication and security; downloadable computer operating programs and recorded computer operating programs for machines, industrial installations and industrial processes and sequences for the fields of printing, lacquering/ varnishing, coating, foiling, lamination coating, stamping, hot stamping and/or cold stamping; downloadable software, firmware and control computer programs and recorded software, firmware and control computer programs for operating machines, industrial installations and industrial processes and sequences for the fields of printing, lacquering/varnishing, coating, foiling, lamination coating, stamping, hot stamping and/or cold stamping; electric components, namely, electric sensors, electric switches and relays; electric measuring and monitoring apparatus namely, apparatus comprising electric sensors for measuring and monitoring light, radiation, temperature, pressure, electric resistance, electric capacity, electric inductivity, length, width, thickness, humidity, optical transmission, optical reflectivity, for use in
industrial machines and processes

**International Classes**  9 - Primary Classes  **US Classes**  21, 23, 26, 36, 38  **International Class Title**  Electrical and Scientific Apparatus

**For**  Printing of materials, semi-finished goods and goods; printing; paper finishing, plastic finishing and surface finishing of printed products in the field of printing; bindery services for others in the field of printing in industrial printing processes, namely, folding, cutting and binding of printed materials; treatment of materials and processing of materials of paper, plastics, plastic-composite-materials, metal, glass and ceramics for third parties according to customer specifications, particularly and parts and semi-finished products thereof, by means of chemical treatments, mechanical treatments, thermal treatments and thermomechanical treatments, particularly by means of coating, lacquering/varnishing, cutting, trimming, punching, stamping, printing, marking, pressing, rolling, drawing, deep-drawing, forming/moulding, extruding, laminating, lamimation coating, foiling, blowing, casting, flow coating, injecting/extruding, gluing, soldering, welding, smoothing, polishing, etching, hardening/curing, cleaning, drying, burning/kilning, tempering, heating, cooling, laser machining; surface treatment, namely applying printings, coatings and/or foils, particularly stamping foils, laminating foils or transfer foils onto materials, work pieces, semi-finished products and goods of paper, cardboard, glass, metal and/or plastic; coating of materials, of semi-finished products and of goods with stamping foils or laminating foils; surface treatment and surface coating of materials, work pieces, semi-finished products and goods of paper, cardboard, glass, metal and/or plastic by means of chemical processes, mechanical processes, thermal processes and/or thermo-mechanical processes; plastics and foil processing and plastics and foil treatment for third parties; consulting with respect to the aforementioned services; providing of information concerning printing services

**International Classes**  40 - Primary Classes  **US Classes**  100, 103, 106  **International Class Title**  Material Treatment

**For**  Stamping foils, transfer foils and laminating foils of plastic for application to a substrate; stamping foils, transfer foils and laminating foils as well as foil strips, each primarily of plastics for application to a substrate; semi-finished products of plastics for use in manufacturing, namely, self-adhesive foils, sheets, plastic laminates, laminating foils, transfer foils and stamping foils; laminating foils primarily of plastics with or without a metal layer for application onto a substrate; semi-finished plastic goods for further manufacturing, namely, laminated, agglomerated goods of plastics; adhesive bands for technical and industrial purposes, particularly for use in the field of printing technology and stamping technology

**International Classes**  17 - Primary Classes  **US Classes**  1, 5, 12, 13, 35, 50  **International Class Title**  Rubber Goods

**For**  Technical consultancy concerning surface decoration and/or surface coating by means of stamping foils, transfer foils and laminating foils; technical development and consultation relating thereto concerning surface decoration, surface coating and surface finishing as well as transfer of printings, lacquering/varnishing, coatings, foils, patterns, decors, structures and/or functional surface structures; technical consultancy concerning plastics treatment and plastics processing; technical consultancy concerning paper processing; technical development and technical engineering and IT project management as well as technical consultation related thereto in the fields of industrial processes for manufacturing, treatment, surface treatment, decoration, coating, lacquering/varnishing, foiling, printing and finishing of materials, goods and semi-finished products, particularly of glass and/or metals and/or plastics and/or ceramics; technological consultancy in the technology field of the transfer of patterns, of decors, of structures and functional surface structures; technical development and technical consultancy related thereto in the fields of packaging machines, printing machines, and printing processes; technical development and
technical consultancy related thereto in the fields of glueing processes, coatings, coating processes, laminating processes, lamination coating processes, surface treatment processes and chemical processes; industrial design services; technical engineering consultancy in the fields of printing, lacquering/varnishing, coating, foiling, lamination coating, stamping, hot stamping and/or cold stamping; technical development and technical engineering and IT project management as well as technical consultation related thereto in the fields of set-up, installation, configuration, use and operation of machines for the graphic industry, stamping machines, foil processing machines, foil feeding mechanisms and foil carrying-off mechanisms, material feeding mechanisms and material carrying-off mechanisms, material preparation mechanisms, foil preparation mechanisms, foil overlaying machines, sealing machines, packaging machines, labelling machines, printing machines, lacquering/varnishing machines, laminating machines, lamination coating machines and assemblies and controls for machines; technical engineering consultancy in the fields of order-related customization and optimization of manufacturing processes, printing processes, lacquering/varnishing processes, stamping processes, coating processes, foiling processes, lamination coating processes and surface decoration processes

Mark Literal(s) SANTA MUERTE BARRIO
SANTO

CASE IDENTIFIERS
Serial Number  90139422 Application Filing Date  Aug. 26, 2020 Register  Principal Mark Type  Trademark
Publication Date  Jul. 05, 2022

MARK INFORMATION
Standard Character Claim  No  Mark Drawing Type  3 - AN ILLUSTRATION DRAWING WHICH INCLUDES
WORD(S)/ LETTER(S)  Description of the Mark  The mark consists of a black background, taller than it is wide,
upon which is depicted a skull with jaw appearing centrally facing straight ahead, which gives the perspective of the skull
being rested on its jaw and occipital plate (facing slightly upwards) as if set on an altar. The cheek of the skull to the
viewer's right has a tear below the orbit, the forehead of the skull is marked with a simple-lined christian cross, with
diagonal lines emanating from each corner of the joint. The skull has above and behind it a sacre coeur, the sacred heart,
which contains a cross at the top of it, stylized barbed wire around it, and flames emanating from behind the cross. The
sacre coeur is surrounded by lines emanating from behind it, giving the appearance of beams of light. Underneath the
entire graphic are the words "SANTA MUERTE" which have below them, in a printed gang-graffiti-like script, the words
"BARRIO SANTO" which have customized elements such as an oversized "B" starting "Barrio" and "O" ending "Santo"
which appear to bookend the words above them, as well as vertical lines within spaces inside the "B", the "R"s and the
"O"s, and the "I"s dotted with an "x". Color Drawing  Yes  Color Claimed  The color(s) black, white, and gray scale
is/are claimed as a feature of the mark. Translation  The English translation of "SANTA MUERTE BARRIO SANTO"
in the mark is "HOLY DEATH HOLY NEIGHBORHOOD".
