CASE IDENTIFIERS
Serial Number  97426374 Application Filing Date  May 24, 2022 Register  Principal Mark Type  Trademark
Publication Date  Jul. 26, 2022

MARK INFORMATION
Standard Character Claim  No Mark Drawing Type  3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) Description of the Mark  The mark consists of The EL DESAHAGO stylized mark features a large agave plant outlined and shaded in black with 5 leaves, 2 on the left side, the leaf closest to the top leaf curving approximately 270 degrees to the left, the leaf below the top left leaf curving approximately 150 degrees, one center leaf pointing straight up 180 degrees, and 2 leaves on the right side, the top right leaf closest to the center leaf curving approximately 45 degrees to the right, and the bottom right leaf curving approximately 90 degrees to the right. The logo features 8 small black shaded in circles dotting the outside of the bottom left leaf, and 8 small black shaded in circles dotting the outside of the bottom right leaf. The bottom right leaf also features a cricket which is shaded in black and outlined in black with no distinct features besides the outline of its shape perched on the top near the point of the bottom right leaf. The bottom left leaf features a yellow dot which is partially cut off, showing only the center of the dot, due to its position at the point of the leaf, then there is a small green circle below the yellow cut off which is fully visible, then there is a mustard yellow flower shape with 6 points and inside the shape there is a pink shading to complement the yellow border, and there is a neon green circle in the dead center of the shape and there is a small purple circle in the center of the neon green circle. Only the top point, the bottom point, and the bottom left point are visible, and the other three points are cut off by the border. Below the yellow flower there is a red semi-circle, and below the red semi-circle there is a bean shape red semi-circle, both red shapes appear to be parts of flowers that have been cut off by the border of the leaf. Below the red bean shape there is a curved reddish-purple branch which drops to the left side and is adorned with a small mustard yellow circle on the end of the branch. Below that half of another branch is visible in the same reddish-purple tone. Below that there is a green leaf with a small cutout halfway down the green leaf to delineate two separate petals on the leaf. Below that there is a red flower petal and below that there is a red flower, only the right side of which is visible, with 4 flower petals and inside the shape there is a mustard yellow shading to complement the red border, and half of the center of the flower is visible with three yellow semi circles and within that two smaller black semi-circles which appear to be like the "seeds" on the inside of a flower. The upper left leaf features one half blue semi-circle facing to the left and below that one blue semi-circle facing to the left at the uppermost point of the leaf. Below that there is a large purple flower with
8 points which is purple with a small green sunburst interior and a smaller purple circle within the green sunburst interior. Most of the leaves are cut off by the border but the bottom purple leaf of the flower is visible fully. Below that to the left is a small purple circle and to the right there is a green leaf with a small cutout halfway down the green leaf to delineate two separate petals on the leaf. Below the leaf to the left there is a small blue petal swirl that is shaped like a flower petal curving leftward and below that to the right there is a small red circle. Below the small red circle there is a small green swirl shaped like a flower petal to the left curving leftward. Below that there is a small blue swirl shaped like a flower petal to the left curving leftward, with a small red circle below it, a small blue swirl shape like a flower petal curving on a downward angle in the center, and a small blue swirl shaped like a flower petal curving on a 90-degree angle on the right facing left. To the left below that there is a unique shape with a small purple circle situated on the top right with a curving backwards red "c" which flows into a long line extended to the left and curves back around to connect with a small backwards c again curving to the left. There are two small purple dots which sit adjacent outside of the shape and mark it one on top of another on an approximately 45-degree angle. Below that there is a large purple circle and a smaller purple circle underneath that curved on an approximately 70-degree angle facing rightwards. Above that there is a large purple swirl that curves up on the left and circles around to the center, stopping halfway into the circle. Outside of the purple swirl there are seven small green bean-like shapes that begin as a small green dot and grow in size the further down the swirl goes and decorate the purple swirl shape from approximately halfway down. Below the hanging green shapes there are two green bean-like shapes, both with tips at the top and curved slightly to the left, the one closest to the outside of the shape is smaller and fatter and the one closest to the inside of the shape is skinnier and longer. There is also a blue line at the direct inside of the shape that is semi-thick and lines the innermost side next to the skinnier and longer green bean swirl shape. Below the smaller and fatter green shape to the left there is a large tree frog shape facing the outside left of the shape. The tree frog has a red top with green eyes and a green mouth with six tiny white dots lining the tree frog's mouth on the upper right side. The frog has two arms which extend out to the left but the webbed hands are cut off. The frog's back and belly feature one green stripe on the top of the back, and below that a red line, and below that a blue line which is cut off by a green circle that lines the frog's back. Inside that circle there is a red thick line and below that there is a blue swirl and inside the blue swirl there is a small skinny white swirl. The green swirl supersedes the blue line and the red body of the frog so on the right side of it only a small portion of the blue on top of the red is visible. The frog's leg is green and slightly blue and features 3 semi circles on the end of the leg which serve as "toes" for its foot. Behind the frog there is a small green line visible on the left side of the arm and in between the leg and the body there is a small green portion visible from the green branch. Above the frog's back there is a small skinny purple half circle curving to the right and the inside of the plant leaf. Below the frog there is a green leaf extending from the bottom of the leaf and curving to the right with a small cutout halfway up the green leaf to delineate two separate petals on the leaf, a small purple circle at the top, and another thicker green leaf extending from the bottom of the leaf and curving to the right with a small cutout halfway up the green leaf to delineate two separate petals on the leaf. Next to the left on the right there is a red thick line that curves slightly to the left, and next to that there are three small petals on the bottom of the leaf getting thicker towards the right which are partially cut off and hidden by the upper left front leaf. At the top of the center leaf at the point there is a thin purple semi-circle facing to the right. Below that there is a red swirl with one branch-off forming a thin red semi-circle c facing upwards with a small yellow circle on the pointed end. Connected to the initial red swirl further down to the right there is a thin longer red semi-circle facing to the left with a small yellow circle on the pointed end. The third branch
of the red swirl is cut off and part of a small yellow circle is visible to the right of the second branch. Below the red swirl there is a small purple bean-like petal shape curving like an upwards comma to the right, and below that there is a small blue half-circle on the outer left side of the center leaf facing to the left. Below that there is a large blue flower facing outward with 8 petals and only 6 are visible. Each of the blue petals contains a slight purple shading and the center of the flower is a pink burst which shades over the blue petals to make the interior look like purple and ombre fades to a brighter pinkish purple with 16 tiny whitish bean-shaped circles in a clock shape. The very center of the flower is a small whitish yellow sunburst. Below the flower to the left is a small yellow circle and below the yellow circle to the right there is another small yellow circle. Below the small yellow circle there is a large blue petal curved to the left, a smaller blue petal to the left of that curved to the left, and an even smaller blue petal to the left of that curved to the left. Below that there is a small yellow circle and below that there are two red small skinny branches facing one to the left adorned with a small yellow circle and one to the right with a small yellow circle on the end of the branch. Below that there is another small yellow circle and below that there is a quarter of a red branch visible and a small yellow circle on the right end of the red branch. To the left of the red branch there is a large yellow and blue striped scalloped fish facing to the left with a zigzag mouth and a red line for its mouth. The head of the fish is yellow and it has a purple circle eye with a small white circle around it and a small red scallop border for the eye on the outside of the white with 8 scallops. There is a fin on the top of the fish which is purple with five skinny yellow lines inside of the fin. The striped scalloped pattern on the fish goes blue yellow blue yellow blue, with the last small blue section being the tiniest at the bottom by its tail. The tail has a pattern, the innermost portion of the tail is purple with a branch like pattern split in two, and the outside of the purple is a mustard yellow thick border in the same pattern as the branch split, and outside the yellow thick border is a red border in the same pattern of the branch split. A fin is on the right side and is purple with 3 scallops, only the right and middle scallop are visible and there are 3 teardrops adorning the scallops with a hollowed-out middle to see the purple. Next to the fish body to the left there is a medium sized yellow circle and below that to the right there is a very small yellow circle next to which is a thick yellow circle on the end of the leaf with a tiny purple smushed blob slightly visible and below that to the left there is a same size yellow circle and below that the tiniest semi-circle facing to the right in a whitish-purple color that is only partially visible. Below the fish on the bottom there is three blue spikes facing upwards, one that is skinny and curving to the left, one to the right of that which is skinnier and smaller, and one to the left of that of which a quarter (the tip) is the only visible portion. Next to the fish to the left there is a large purple leaf curving slightly at the tip to the right with a tiny black skinny line in the center of the leaf. The top right leaf features a tiny green semicircle to the left, and below that there is a larger blue circle 75% visible facing to the right. Below that there is a flower on the left side of the leaf of which only the left side is visible featuring four large blue semicircles/scallop. Below that there is a green bean-like comma shape sloping upwards to the right and next to that there is a small green semi-circle facing outwards to the right. Directly below that green semicircle there is a purple bean petal shape that is cut off on the bottom, and to the left of that purple bean petal shape there is another larger purple bean petal shape that has its tip cut off. Directly below that shape to the right there is a small shape with one blue candy cane like curve to the left with a small yellow circle on the tip, and the second blue branch off of the first candy cane like shape is cut off a quarter of the way up the line, but a small yellow circle is visible where presumably would be at the tip of that side of the branch. To the left of that shape there is a large yellow flower with 8 skinny petals and features a purple shading on the inside of the petals. Only 6 of the petals are visible as the rest are cut off by the border of the leaf and the flower slants leftwards. Inside the flower and the purple shading there is a neon green circle overlayed to highlight a brighter purple middle to the flower. To the left of the flower
there is a green leaf facing to the left with a skinny black line dividing the shape into two leaves. Below the leaf to the left there is a small yellow circle, and next to that there is a green bean comma shape with a thicker top half and a skinnier bottom half facing to the right, and below that there is a green bean comma shape with a thicker top half and a skinnier bottom half facing to the right, and to the left of these two there is a blue flower shape with 8 petals, but the flower is cut off by the border of the leaf so only 4 of the petals are visible facing towards the left. Inside the blue flower there is small mustard shading on each of the petals and the center of the flower is a scalloped sunburst with only four scallops showing with a thick yellow border and a red and purple interior. Below the flower to the left there is a large mustard yellow circle and below that to the left there is a smaller mustard yellow circle. Next to the aforementioned green bean comma shape with a thicker top half and a skinnier bottom half facing to the right there is another large blue flower shape with 8 petals, but the flower is cut off by the border of the leaf so only 4 of the petals are visible facing towards the right. Inside the blue flower there is small mustard yellow shading on each of the petals and the center of the flower is a scalloped sunburst with only four scallops showing with a thick yellow border and a red and purple interior and a white circle in the middle bordered by a purple circular line. Below that there is a purple bull facing to the left with two horns striped green yellow green yellow, and 3 yellow v shapes down the center between its eyes, a small circular yellow circle for a nose, and a yellow line for its mouth. The only visible eye is its left with a green pupil and yellow surrounding it in an almond shape. Below the eye there is a yellow swoosh as a border that is thicker towards the horn and skinnier towards its mouth. Below the horn there is a lemon shape that has a yellow border and green interior, and the back contains 3 upside down triangles with yellow interior and a green border, two smaller with a larger yellow one in the middle. The bull's left hind leg contains a swirl circular pattern of a green border, with a purple border inside, with a yellow border inside that, with a green center. Each of the bull's hooves is mustard yellow with a small purple slit in the hoof. To the left of the bull there is a purple swirl image that curves to the left and is thicker on the inside of the swirl and there is a small yellow circle on the end of the swirl. Below that swirl there is a large yellow circle and below that there is a large blue bean comma shape that slants to the right and is thick on the bottom, and below that to the left there is a medium sized green circle, and next to that on the right there is a large blue bean comma shape that slants to the right. Below that shape there is a small yellow circle and next to that on the left there is a slightly larger small yellow circle and next to that on the right there is another smaller blue bean comma shape and its tip only slants slightly to the right. Next to that there is a large green leaf shape with a skinny black line up the center to divide the leaf into two and the tip slants to the right. Below that there is another small blue comma bean like shape but this slants downwards and its tip is on a ninety degree angle facing leftward. On the other side of the large green leaf shape to the right there is a small yellow mustard circle towards the bottom, and next to that above it on the right there is another purple swirl image that curves to the left and is thicker on the inside of the swirl and there is a small yellow circle on the end of the swirl, but it is less loosely wrapped than the previous purple swirl image. Finally at the bottom next to the blue comma on the ninety degree angle there is a blue figure with two lines that diverge, one extending to the left with a small yellow circle on its end and one diverging to the right that is smaller with only a small yellow circle a quarter of a way up its line in comparison to the line on the other side of the divergence, facing rightward. The bottom right leaf has a shaded outline of a black cricket with one raised left leg facing towards the right on the tip of the leaf, and the leaf is slightly shaded yellow at the tip, below that there is a half circle facing the border of the leaf to the right which is a skinny red line, and below that there is a blue Saber-tooth like shape facing downward on the left and slightly slanted to the left, and next to that there is a tiny blue triangle facing
downwards and sloping to the left, and below that there is a thick red semi circle line facing to the right and underneath that a small red semi circle facing to the right with a slight white half circle inside the red semi circle. Below that to the left there is a yellow circle that is on the left side of the left leaf border and is slightly cut off by the black border. Below that there is one large flower petal oval that is blue with a green thick line in the middle and a large yellow circle that is only fifty percent visible, all facing to the left. Below that there are two blue comma bean like shape, one is larger and thicker at the top and slanting to the left, and another blue comma bean like shape to the right of that slanted to the left. To the left of the large blue comma there is another oval flower petal that is only partially (approximately forty percent) visible and is cut off by the left border of the leaf that slants downward to the right and is blue with a thick green line in the middle. Diagonally below that there is another green leaf shape that is only half visible and the tip of which slants to the right and is slightly diverged by a thin small black line and above that there is the smallest little half circle that is a yellowish white facing toward the right side of the leaf border. Adjacent to the green leaf on the left there is a green leaf of which the two diverged tips are only visible and that are slanted downwards to the left and diverged by a skinny black line. Below that there are three small red comma bean shapes in a row that are thicker at the top and the tip at the bottom and are slanted to the left, and below that there is a thick mustard yellow line and below that there is a small blue triangle which faces to the left and is on an approximately forty-five degree angle sloping upwards to the left. The words "EL DESAHOGO" are below the image in a thin black paintbrush like font in all caps. **Color Drawing**: Yes **Color Claimed**: The color(s) black, white, yellow, purple, blue, red, pink, green, and white is/are claimed as a feature of the mark. **Translation**: The English translation of the wording "EL DESAHOGO" in the mark is "the relief".

Mark Literal(s)  EL DESAHOGO

Mark Drawing Type  3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) Description of the Mark  The mark consists of The EL DESAHOGO stylized mark features a large agave plant outlined in black and shaded in different colors with 5 leaves, 2 on the left side, the leaf closest to the top leaf curving approximately 270 degrees to the left, the leaf below the top left leaf curving approximately 150 degrees, one center leaf pointing straight up 180 degrees, and 2 leaves on the right side, the top right leaf closest to the center leaf curving approximately 45 degrees to the right, and the bottom right leaf curving approximately 90 degrees to the right. The logo features 8 small black shaded in circles dotting the outside of the bottom left leaf, and 8 small black shaded in circles dotting the outside of the bottom right leaf. The bottom right leaf also features a cricket which is shaded in black and outlined in black with no distinct features besides the outline of its shape perched on the top near the point of the bottom right leaf. The bottom left leaf is shaded in blue and features a yellow dot which is partially cut off, showing only the center of the dot, due to its position at the point of the leaf, then there is a small green circle below the yellow cut off which is fully visible, then there is a mustard yellow flower shape with 6 points and inside the shape there is a red shading to complement the yellow border, and there is a neon green circle in the dead center of the shape and there is a small purple circle in the center of the neon green circle. Only the top point, the bottom point, and the bottom left point are visible, and the other three points are cut off by the border. Below the yellow flower there is a red semi-circle, and below the red semi-circle there is a bean shape red semi-circle, both red shapes appear to be parts of flowers that have been cut off by the border of the leaf. Below the red bean shape there is a curved reddish-purple branch which drops to the left side and is adorned with a small mustard yellow circle on the end of the branch. Below that half of another branch is visible in the same reddish-purple tone. Below that there is a green leaf with a small cutout halfway down the green leaf to delineate two separate petals on the leaf. Below that there is a red flower petal and below that there is a red flower, only the right side of which is visible, with 4 flower petals and inside the shape there is a mustard yellow shading to complement the red border, and half of the center of the flower is visible with three yellow semi circles and within that two smaller black semi-circles which appear to be like the "seeds" on the inside of a flower. The upper left leaf is shaded in yellow and features one half blue semi-circle facing to the left and below that one blue semi-circle facing to the left at the uppermost point of
the leaf. Below that there is a large purple flower with 8 points which is purple with a small green sunburst interior and a smaller purple circle within the green sunburst interior. Most of the leaves are cut off by the border but the bottom purple leaf of the flower is visible fully. Below that to the left is a small purple circle and to the right there is a green leaf with a small cutout halfway down the green leaf to delineate two separate petals on the leaf. Below the leaf to the left there is a small blue petal swirl that is shaped like a flower petal curving leftward and below that to the right there is a small red circle. Below the small red circle there is a small green swirl shaped like a flower petal to the left curving leftward. Below that there is a small blue swirl shaped like a flower petal to the left curving leftward, with a small red circle below it, a small blue swirl shape like a flower petal curving on a downward angle in the center, and a small blue swirl shaped like a flower petal curving on a 90-degree angle on the right facing left. To the left below that there is a unique shape with a small purple circle situated on the top right with a curving backwards red "c" which flows into a long line extended to the left and curves back around to connect with a small backwards c again curving to the left. There are two small purple dots which sit adjacent outside of the shape and mark it one on top of another on an approximately 45-degree angle. Below that there is a large purple circle and a smaller purple circle underneath that curved on an approximately 70-degree angle facing rightwards. Above that there is a large purple swirl that curves up on the left and circles around to the center, stopping halfway into the circle. Outside of the purple swirl there are seven small green bean-like shapes that begin as a small green dot and grow in size the further down the swirl goes and decorate the purple swirl shape from approximately halfway down. Below the hanging green shapes there are two green bean-like shapes, both with tips at the top and curved slightly to the left, the one closest to the outside of the shape is smaller and fatter and the one closest to the inside of the shape is skinnier and longer. There is also a little blue line at the direct inside of the shape that is semi-thick and lines the innermost side next to the skinnier and longer green bean swirl shape. Below the smaller and fatter green shape to the left there is a large tree frog shape facing the outside left of the shape. The tree frog has a red top with green eyes and a green mouth with six tiny white dots lining the tree frog's mouth on the upper right side. The frog has two arms which extend out to the left but the webbed hands are cut off. The frog's back and belly feature one green stripe on the top of the back, and below that a red line, and below that a blue line which is cut off by a green circle that lines the frog's back. Inside that circle there is a red thick line and below that there is a blue swirl and inside the blue swirl there is a small skinny white swirl. The green swirl supersedes the blue line and the red body of the frog so on the right side of it only a small portion of the blue on top of the red is visible. The frog's leg is green and slightly blue and features 3 semi circles on the end of the leg which serve as 'toes" for its foot. Behind the frog there is a small green line visible on the left side of the arm and in between the leg and the body there is a small green portion visible from the green branch. Above the frog's back there is a small skinny purple half circle curving to the right and the inside of the plant leaf. Below the frog there is a green leaf extending from the bottom of the leaf and curving to the right with a small cutout halfway up the green leaf to delineate two separate petals on the leaf, a small purple circle at the top, and another thicker green leaf extending from the bottom of the leaf and curving to the right with a small cutout halfway up the green leaf to delineate two separate petals on the leaf. Next to the left on the right there is a red thick line that curves slightly to the left, and next to that there are three small petals on the bottom of the leaf getting thicker towards the right which are partially cut off and hidden by the upper left front leaf. The center leaf is shaded in green and at the top of the center leaf at the point there is a thin purple semi-circle facing to the right. Below that there is a red swirl with one branch-off forming a thin red semi-circle c facing upwards with a small yellow circle on the pointed end. Connected to the initial red swirl further down to the right there is a thin longer
red semi-circle facing to the left with a small yellow circle on the pointed end. The third branch of the red swirl is cut off and part of a small yellow circle is visible to the right of the second branch. Below the red swirl there is a small purple bean-like petal shape curving like an upwards comma to the right, and below that there is a small blue half-circle on the outer left side of the center leaf facing to the left. Below that there is a large blue flower facing outward with 8 petals and only 6 are visible. Each of the blue petals contains a slight purple shading and the center of the flower is a red burst which shades over the blue petals to make the interior look like purple and ombre fades to a brighter purple with 16 tiny whitish bean-shaped circles in a clock shape. The very center of the flower is a small whitish yellow sunburst. Below the flower to the left is a small yellow circle and below the yellow circle to the right there is another small yellow circle. Below the small yellow circle there is a large blue petal curved to the left, a smaller blue petal to the left of that curved to the left, and an even smaller blue petal to the left of that curved to the left. Below that there is a small yellow circle and below that there are two red small skinny branches facing one to the left adorned with a small yellow circle and one to the right with a small yellow circle on the end of the branch. Below that there is another small yellow circle and below that there is a quarter of a red branch visible and a small yellow circle on the right end of the red branch. To the left of the red branch there is a large yellow and blue striped scalloped fish facing to the left with a zigzag mouth and a red line for its mouth. The head of the fish is yellow and it has a purple circle eye with a small white circle around it and a small red scallop border for the eye on the outside of the white with 8 scallops. There is a fin on the top of the fish which is purple with five skinny yellow lines inside of the fin. The striped scalloped pattern on the fish goes blue yellow blue yellow blue, with the last small blue section being the tiniest at the bottom by its tail. The tail has a pattern, the innermost portion of the tail is purple with a branch like pattern split in two, and the outside of the purple is a mustard yellow thick border in the same pattern as the branch split, and outside the yellow thick border is a red border in the same pattern of the branch split. A fin is on the right side and is purple with 3 scallops, only the right and middle scallop are visible and there are 3 teardrops adorning the scallops with a hollowed-out middle to see the purple. Next to the fish body to the left there is a medium sized yellow circle and below that to the right there is a very small yellow circle next to which is a thick yellow circle on the end of the leaf with a tiny purple smushed blob slightly visible and below that to the left there is a same size yellow circle and below that the tiniest semi-circle facing to the right in a whitish-purple color that is only partially visible. Below the fish on the bottom there are three blue spikes facing upwards, one that is skinny and curving to the left, one to the right of that which is skinnier and smaller, and one to the left of that of which a quarter (the tip) is the only visible portion. Next to the fish to the left there is a large purple leaf curving slightly at the tip to the right with a tiny green skinny line in the center of the leaf. The top right leaf is shaded in red and features a tiny green semicircle to the left, and below that there is a larger blue circle 75% visible facing to the right. Below that there is a flower on the left side of the leaf of which only the left side is visible featuring four large blue semicircles/scallops. Below that there is a small green like comma shape sloping upwards to the right and next to that there is a small green semi-circle facing outwards to the right. Directly below that green semicircle there is a purple bean petal shape that is cut off on the bottom, and to the left of that purple bean petal shape there is another larger purple bean petal shape that has its tip cut off. Directly below that shape to the right there is a small shape with one blue candy cane like curve to the left with a small yellow circle on the tip, and the second blue branch off of the first candy cane like shape is cut off a quarter of the way up the line, but a small yellow circle is visible where presumably would be at the tip of that side of the branch. To the left of that shape there is a large yellow flower with 8 skinny petals and features a purple shading on the inside of the petals. Only 6 of the petals are visible as the rest are cut off by the border of the leaf and the flower slants leftwards. Inside the flower and the purple shading there is a
shape facing downward on the left and slightly slanted to the left, and next to that there is a tiny blue triangle facing downwards and sloping to the left, and below that there is a thick red semi circle line facing to the right and underneath that a small red semi circle facing to the right with a slight white half circle inside the red semi circle. Below that to the left there is a yellow circle that is on the left side of the left leaf border and is slightly cut off by the black border. Below that there is one large flower petal oval that is blue with a green thick line in the middle and a large yellow circle that is only fifty percent visible, all facing to the left. Below that are two blue comma bean like shape, one is larger and thicker at the top and slanting to the left, and another blue comma bean like shape facing to the right of that slanted to the left. To the left of the large blue comma there is another oval flower petal that is only partially (approximately forty percent) visible and is cut off by the left border of the leaf that slants downward to the right and is blue with a thick green line in the middle. Diagonally below that is another green leaf shape that is only half visible and the tip of which slants to the right and is slightly diverged by a thin small purple line and above that there is the smallest little half circle that is a yellowish white facing toward the right side of the leaf border. Adjacent to the green leaf on the left there is a green leaf of which the two diverged tips are only visible and that are slanted downwards to the left and diverged by a skinny purple line. Below that are three small red comma bean shapes in a row that are thicker at the top and the tip at the bottom and are slanted to the left, and below that is a thick mustard yellow line and below that is a small blue triangle which faces to the left and is on an approximately forty-five degree angle sloping upwards to the left. The words "EL DESAHOGO" are below the image in a thin black paintbrush like font in all caps. **Color Drawing** Yes **Color Claimed** The color(s) black, yellow, purple, blue, green, red, and white is/are claimed as a feature of the mark. **Translation** The English translation of "EL DESAHOGO" in the mark is "the relief".

Mark Literal(s) EL DESAHOGO

Mark Information

Standard Character Claim No

Mark Drawing Type 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) Description of the Mark

The mark consists of The EL DESAHOGO stylized mark features a large agave plant outlined in black and shaded in different colors with 5 leaves, 2 on the left side, the leaf closest to the top leaf curving approximately 270 degrees to the left, the leaf below the top left leaf curving approximately 150 degrees, one center leaf pointing straight up 180 degrees, and 2 leaves on the right side, the top right leaf closest to the center leaf curving approximately 45 degrees to the right, and the bottom right leaf curving approximately 90 degrees to the right. The logo features 8 small black shaded in circles dotting the outside of the bottom left leaf, and 8 small black shaded in circles dotting the outside of the bottom right leaf. The bottom right leaf also features a cricket which is shaded in black and outlined in black with no distinct features besides the outline of its shape perched on the top near the point of the bottom right leaf. The bottom left leaf is shades of blue with a u shape facing rightward with three ovals inside of each U shape and there are 7 on the leaf. The first shape toward the tip of the leaf features only a slight line shape as visible and the second shape is a small semicircle facing the right side of the leaf, the next shape has one oval inside the semicircle partially visible and one one-line shape as slightly visible, the next three semicircle shapes down the leaf are fully visible with all three ovals visible and the semicircle below that features only two ovals that are visible. There is then a divider on the leaf, a thick navy-blue line featuring seven turquoise circles inside, the circles are largest towards the bottom of the image and are four large circles and then three smaller circles towards the top of the image. On the bottom of the leaf there are 13 blue alternating dark and light blue stripes with skinny black lines in between to separate the sections. The last seven lines are hidden by the top left leaf so they are only partially, about a quarter of a length of a line, visible. On the inner upper line of the bottom left leaf there are 6 black spiked triangles, the points of which curve towards the left. The top left leaf is mustard yellow featuring a zig-zag pattern. The main zig zag, which features 7 points on the top and 7 points on the bottom, is red and thinnest towards the top of the leaf and increases in size and thickness moving down the leaf. There is a yellow zig zag which also features 7 points on the top and 7 points on the bottom and falls in between the red zig zags. The yellow and red lines form a diamond shape, and the inside of the diamond shape is a light pink diamond. The zig zags are also bordered by small black circles which are clustered in groups of three towards the tip of the leaf and
border the zig zag in a straight line down towards the base of the leaf. The center leaf is green featuring a pattern. The tip of the leaf is a solid green triangle and below that is a diagonal line pattern slanting downwards to the left with a darker green to contrast the lighter green. Then there is a thick green line bordered by two skinny black lines as a border and below that three black circle dots in a line and below that four visible small green circles in a line. Below that there is a hot pink thick line and below that there is a darker green section of the leaf featuring one green semi circle facing up on the bottom of the hot pink line, another green semi circle to the right of that also facing up on the bottom of the hot pink line, and a dark purple zig zag followed by a bright green zig zag directly underneath and two light greenish yellow semi circles within the bottom zig zag situated on the light purple line below the zig zag and facing downward, separated by a purple zig zag. Below that there is a diagonal line pattern slanting downwards to the left with a darker green to contrast the lighter green. Then there is a thick green line bordered by two skinny black lines as a border and below that nine black circle dots in a line and below that ten visible small green circles in a line. Below that there is a hot pink thick line and below that there is a darker green section of the leaf featuring one green semi circle facing up on the bottom of the hot pink line, another green semi circle to the right of that also facing up on the bottom of the hot pink line, and a dark purple zig zag followed by a bright green zig zag directly underneath and two light greenish yellow semi circles within the bottom zig zag situated on the light purple line below the zig zag and facing downward, separated by the purple zig zag. Below that there is a diagonal line pattern slanting downwards to the left with a darker green to contrast the lighter green. Then there is a thick green line bordered by two skinny black lines as a border and below that fourteen black circle dots in a line and below that fifteen visible small green circles in a line. Below that there is a neon green thick line and below that there is a darker green section of the leaf featuring four green semi circles facing up on the bottom of the neon line, and a dark purple zig zag followed by a bright green zig zag directly underneath filling in triangles. Below that there is a diagonal line pattern slanting downwards to the left with a darker green to contrast the lighter green. Then there is a thick green line bordered by two skinny black lines as a border and below that sixteen black circle dots in a line and below that eleven visible small green circles in a line. Below that there is a hot pink thick line and below that there is a darker green section of the leaf featuring two green semi circle facing up on the bottom of the hot pink line and a dark purple zig zag followed by a bright green zig zag directly underneath and one visible light yellowish green semi circle within the bottom zig zag situated on the light purple line below the zig zag and facing downward, and the rest of the leaf is blocked by the other leaves. The upper left leaf is red and features twenty-three circular shapes, not all of which are completely visible. The shape closest towards the tip of the leaf only the middle of the circle is visible and below that there are two shapes only the sides of which are visible, one on the left and one on the right, the image below that is totally visible and then there are two shapes, one to the left and one to the right, which are half visible, and below that there are 12 shapes that are totally visible, about halfway down the leaf there is another shape to the left side of the leaf which is half visible and on the right side slightly further down only a quarter of the shape is visible to the right of the leaf, and at the very bottom of the image one half of the shape is visible on the right and three-quarters of the shape is visible on the left. Inside each semi-circle shape there is a red thick line with small white vertical lines lining it, then a thin black line, then one big red circle in a peach colored circle with tiny red circles surrounding it. The bottom right leaf is shaded in purple and has a shaded outline of a black cricket with one raised left leg facing towards the right on the tip of the leaf, featuring four visible black triangle spikes, the tips of which are slanted to the right. Inside the leaf there are three sections, a purple left side with four visible donut shapes and three semi circle shapes that are a dark purple with black centers, a thin pink middle section of the leaf with
 alternating light pink and hot pink chevron with a light pink section at the tip, and another purple section to the right with six visible donut shapes that are dark purple with a black circular center with some only visible as semi-circles on the right side of the leaf. The words "EL DESAHOGO" are below the image in a thin black paintbrush like font in all caps. **Color Drawing**  Yes  **Color Claimed**  The color(s) blue, yellow, black, red, pink, green, purple and black is/are claimed as a feature of the mark.  **Translation**  The English translation of "EL DESAHOGO" in the mark is "the relief".

recognition computer hardware; voice response equipment, namely, voice recognition software, voice recognition computer hardware; sensing apparatus other than for medical use, namely, temperature sensors, sound sensors, proximity sensors, pollution sensors; electrochemical cells for sensing gas; electrodes for chemical sensing; electronic apparatus, namely sensors, for sensing electrostatic fields; electronic guidance controls for breathing apparatus not for medical purposes, for pollution sensing, for use with rebreathers and respiratory masks used to prevent the inhalation of noxious substances; gas sensing devices, namely, devices for measuring and sensing the presence of gas; ultrasonic measuring apparatus, other than for medical use, namely, ultrasonic sensors; accumulator chargers; accumulator battery chargers; call charging apparatus for use with telecommunications apparatus, namely, cell phone battery chargers; charging apparatus, namely, battery chargers; charging counters, namely, electronic devices for measuring the amount of battery charge present in consumer electronic devices; charging recorders, namely, electronic devices for measuring the amount of battery charge present in consumer electronic devices; charging systems for battery operated appliances, namely, battery chargers; electric apparatus for charging batteries, namely, battery chargers; apparatus for measuring and recording the levels of humidity; humidity meters; humidity sensors; humidity switches, namely, electronic switches for switching off electronic devices when high humidity is detected; air temperature sensors; apparatus for measuring temperature, namely temperature meters, other than for medical purposes; temperature controllers for breathing apparatus not for medical purposes, namely, for rebreathers and respiratory masks used to prevent the inhalation of noxious substances and pollution; batteries; monitors, testers and systems used for measuring, recording and transmitting data, namely, transmitters of electronic signals; downloadable computer software, computer programs and computer applications for controlling breathing apparatus not for medical purposes; downloadable webcasts in the field of breathing apparatus not for medical purposes, namely, in the field of rebreathers and respiratory masks, used to prevent the inhalation of noxious substances and pollution; downloadable electronic publications, namely, book, magazine, manual, journal featuring breathing apparatus not for medical purposes, namely, featuring rebreathers and respiratory masks, used to prevent the inhalation of noxious substances and pollution; apparatus for recording digital information, namely, digital voice recorders; audio recordings featuring instructional guidance for the proper use of breathing apparatus not for medical purposes; cases specially adapted for electric circuits; cases specially adapted for electronic circuits; cases specially adapted for electronic components, namely for electronic circuit boards; cases specially adapted for electronic equipment, namely for radios; cases adapted specially for power supplies; cases specially adapted for semiconductors; articles of protective clothing made of rubber to prevent accident; articles of protective clothing specifically adapted for the prevention of accident; articles of protective footwear specifically adapted for protection against accident; breathing apparatus for protective purposes, namely, rebreathers and respiratory masks, used to prevent the inhalation of noxious substances and pollution; protective articles for sporting purposes, other than sporting articles or parts of sports suits, specifically adapted for the prevention of accident or injury, namely, goggles for sports; lenses for protective masks for workmen; protective breathing masks other than for artificial respiration; protective breathing masks made of non-woven materials other than for medical or surgical use; protective clothing for use in cleanrooms for the prevention of accidents; protective clothing for use in controlled environments for the prevention of accident; protective clothing of plastics specifically adapted for protection against accident; protective clothing specifically adapted for the prevention of accident; protective devices specifically adapted for protection against accident, namely safety helmets; protective eye pieces; protective eye shields for welders; protective eye wear; protective eye wear for sports; protective face shields for workers for the prevention of accident; protective footwear specifically adapted for the prevention of accident; protective glasses and spectacles; protective goggles; protective hats specifically adapted for the prevention of accident; protective helmets; protective masks; protective outer clothing specifically adapted for protection
against accident; protective paddings, other than adapted for use in sports for protection against injury, namely, protective
padded clothing for protection against bodily harm and blunt force trauma; cold-protective clothing for protection against
accident; heat-protective clothing for protection against accident; workmen's protective face-shields; protective goggles for
industrial safety; industrial safety eye protection articles, namely, protective eyewear; industrial safety glasses; industrial safety
goggles; industrial safety helmets; industrial safety instruments for the protection of workmen against accident; industrial
safety instruments for the protection of workmen against injury; inflatable safety clothing, namely life vests; lenses for safety
goggles; safety boots for use in industry, specifically adapted for protection against accident; safety clothing specifically
adapted for protection against accident; protective paddings, other than adapted for use in sports for protection against injury, namely, protective
padded clothing for protection against bodily harm and blunt force trauma; cold-protective clothing for protection against
accident; heat-protective clothing for protection against accident; workmen's protective face-shields; protective goggles for
industrial safety; industrial safety eye protection articles, namely, protective eyewear; industrial safety glasses; industrial safety
goggles; industrial safety helmets; industrial safety instruments for the protection of workmen against accident; industrial
safety instruments for the protection of workmen against injury; inflatable safety clothing, namely life vests; lenses for safety
goggles; safety boots for use in industry, specifically adapted for protection against accident; safety clothing specifically
adapted for protection against accident; optical safety glasses; safety glasses for protecting the eyes; safety gloves specifically
adapted for protection against accident; safety hats, namely, protective helmets; safety helmets; safety helmets incorporating
breathing apparatus; apparatus for breathing purposes, other than artificial respiration, namely, rebreathers and respiratory
masks, used to prevent the inhalation of noxious substances and pollution; breathing masks, namely rebreathers and respiratory
masks, used to prevent the inhalation of noxious substances and pollution; compressed air breathing apparatus namely,
rebreathers and respiratory masks, used to prevent the inhalation of noxious substances and pollution; connections specially
adapted for use with breathing apparatus other than for artificial respiration, namely, for use with rebreathers and respiratory
masks used to prevent the inhalation of noxious substances and pollution; inserts specially adapted for breathing apparatus
namely, for rebreathers and respiratory masks used to prevent the inhalation of noxious substances and pollution, other than for medical or surgical use; inserts for breathing masks, namely, for rebreathers and respiratory masks used to prevent the
inhalation of noxious substances and pollution, other than for medical or surgical use; portable breathing apparatus other than
for artificial respiration, namely, rebreathers and respiratory masks, used to prevent the inhalation of noxious substances and pollution; self-contained breathing apparatus, other than for artificial respiration, namely, rebreathers and respiratory masks,
used to prevent the inhalation of noxious substances and pollution; ventilator breathing apparatus other than for artificial
respiration, namely, rebreathers and respiratory masks, used to prevent the inhalation of noxious substances and pollution;
anti-pollution masks for respiratory protection; filters for respiratory masks; respiratory apparatus, other than for medical use,
namely, rebreathers and respiratory masks, used to prevent the inhalation of noxious substances and pollution; respiratory gas
blending apparatus, other than for medical use, namely, rebreathers and respiratory masks, used to prevent the inhalation of noxious substances and pollution; non-medical respiratory monitoring apparatus, namely, rebreathers and respiratory masks, used to prevent the inhalation of noxious substances and pollution; non-medical respiratory protection apparatus, namely, rebreathers and respiratory masks, used to prevent the inhalation of noxious substances and pollution; respirators other than for artificial respiration; ventilator exhalation valves specially designed for use with respirators other than for artificial respiration; compressed air emergency respirators other than
for artificial respiration; respirators for filtering air other than for artificial respiration; laboratory purification apparatus,
installation and machines, other than medical, for use in air purification; ventilation suits, namely, survival suits, biohazard
suits, protective suits against accident or injury

unloading machines and apparatus, mining machines and apparatus, agricultural machines and implements, forest machines and apparatus; recorded computer programs for managing position and battery, operational status and maintenance information of metalworking machines and apparatus, construction machines and apparatus, loading-unloading machines and apparatus, mining machines and apparatus, agricultural machines and implements, forest machines and apparatus; tablet computers, and their structural parts and accessories; tablet computers to measure the operation status of machine tools and to collect the operation data of machine tools by installing to the machine tools, and their parts and accessories; electrical control, testing and monitoring apparatus, and their structural parts and accessories for regulating and monitoring position and battery, operational status and maintenance information of metalworking machines and apparatus, construction machines and apparatus, loading-unloading machines and apparatus, mining machines and apparatus, agricultural machines and implements, forest machines and apparatus; batteries and electrical cells; battery boxes; capacitors; batteries as accumulators; battery terminal; vehicle batteries; battery chargers for battery vehicles, and their structural parts and accessories; measuring or testing machines and instruments, and their structural parts and accessories for regulating and monitoring position and battery, operational status and maintenance information, and wear of underbody components of metalworking machines and apparatus, construction machines and apparatus, loading-unloading machines and apparatus, mining machines and apparatus, agricultural machines and implements, forest machines and apparatus; measuring or testing machines and instruments, namely, tire pressure gauges, tire pressure measurers, and vehicle safety equipment, namely, electronic tire pressure monitors; surveying machines and instruments, and their structural parts and accessories; power-line distribution or control machines and apparatus; LCD monitors; computer monitors; touchscreen monitors; computer tablet monitors; electroluminescent display panels; computer display monitors; electronic numeric displays; electrical controlling devices; electrical charge controllers; electronic power controllers; electronic speed controllers; pressure sensors; condensers; capacitance boxes; recorded computer operating software; electrical connectors; electronic circuit connectors; electric wires and cables; cables, electric; sensors for measuring position and battery power level, operational status and maintenance information of metalworking machines and apparatus, construction machines and apparatus, loading-unloading machines and apparatus, mining machines and apparatus, agricultural machines and implements, forest machines and apparatus; optical sensors; humanoid robots with artificial intelligence; remote control telemetering machines and instruments for industrial robots; rotary converters; electric buzzers; electrodes, other than welding electrodes or medical electrodes; magnetic cores; resistance wires; photographic machines and structural apparatus, namely, cameras and digital cameras; cinematographic machines and apparatus; anti-theft warning apparatus, not for vehicles; protective helmets; simulators for the steering and control of vehicles; electronic sports training simulators; tire pressure and tire temperature monitoring and measuring instruments, namely, tire pressure gauges, tire temperature sensors, tire pressure sensors, electronic data transmitters for transmitting tire pressure and temperature data, electronic data receivers for processing tire pressure and temperature data, data processors for processing tire pressure and temperature data, antennas for transmitting and receiving tire pressure and temperature data, and electronic display panels for displaying tire information and temperature information; bicycle speedometers; terminal devices, namely, computer terminals for collecting information, for saving data measured by remote monitoring, and for transmitting saved data on demand; data transmitting apparatus for telecommunication; electronic tire pressure and temperature monitors for measuring, monitoring and transmitting tire pressure and tire temperature; downloadable and recorded computer programs for managing information regarding tires and vehicles; downloadable and recorded computer programs for managing information regarding belts for conveyors; downloadable and recorded computer programs for providing vehicle drive information, vehicle kinetic information and tire pressure information; downloadable and recorded computer programs for providing visualization tools for business solution effectiveness, such as
improvement of productivity, optimization of inventory and improvement of efficiency; protective eyewear for cycling; bicycle helmets; computers for vehicles with autonomous driving functions or autonomous driving assistance functions; computers for vehicles with automated driving functions or automated driving assistance functions; downloadable and recorded computer programs for providing vehicles with autonomous driving functions or autonomous driving assistance functions; autonomous driving or automated driving devices for automobiles comprised of telecommunication transmitters, receivers, computers, electrical and electronic controllers, remote controls, cameras, radar apparatus, scanners, video cameras, related electric sensors and alarms; telecommunication machines and apparatus, namely, computers and telecommunication transmitters and receivers, for use in autonomous driving or automated driving of automobiles; electrical and electronic control apparatus and instruments, namely, computers and electronic controls for motors, power steering, brake by wire, active suspension and electric compressors, for autonomous driving or automated driving of automobiles; remote controls for autonomous driving or automated driving of automobiles; photographic machines and apparatus, namely, cameras and video cameras, for use in autonomous driving or automated driving of automobiles; autonomous parking or automated parking devices for automobiles comprised of telecommunication transmitters and receivers, computers, electrical and electronic controllers, remote controls, cameras, radar apparatus, scanners, video cameras, related electric sensors, and alarms; telecommunication machines and apparatus, namely, computers, telecommunication transmitters and receivers, for autonomous parking or automated parking of automobiles; electrical and electronic control apparatus and instruments in the nature of computers for autonomous parking or automated parking of automobiles; remote controls for autonomous parking or automated parking of automobiles; photographic machines and apparatus for autonomous parking or automated parking of automobiles, namely, cameras and video cameras; radar apparatus, scanners, cameras, video cameras, alarms, electric sensors other than for medical use; structural parts of document printers, facsimile machines and photocopying machines, namely, transfer rollers, toner rollers, toner supply rollers and development rollers; thread gauges for measuring the thread size of fasteners, pipes and other threaded hardware; apparatus and instruments, namely, pressure test connectors for testing pressure of fluids in hydraulic industrial hoses; hydraulic pressure measuring apparatus and instruments, namely, measuring couplings for measuring pressure of fluids in hydraulic systems; pressure measuring apparatus; instruments for measuring length; slide calipers; downloadable computer software for remote monitoring and analyzing of vehicle drive information, vehicle kinetic information and tire pressure information of vehicles; navigational apparatus for automobiles

**International Classes** 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38  
**International Class Title** Electrical and Scientific Apparatus

**For**  
Transportation information, namely, providing information regarding operational control and operational status of cars and dump trucks; providing GPS and GNSS (Global Navigation Satellite System) information regarding the location of cars and dump trucks; transport of cars and dump trucks and providing information relating thereto; providing GPS and GNSS (Global Navigation Satellite System) information regarding the location of land vehicles; physical storage of electronic media containing data, drawings, texts, digital photographs, music, images, video and electronic data; warehousing services; advisory services relating to the storage and transportation of goods, freight or cargo; freighting services; rental of warehouse space; rental of land vehicles; advisory, consultancy and information services relating to transportation; providing road and traffic information; vehicle-driving services; providing information relating to towing and transportation of cars due to breakdowns; supply chain logistics and reverse logistics services, namely, storage, transportation and delivery of tires and wheels for others
by air, rail, ship or truck, and providing information relating thereto

**International Classes**  39 - Primary Classes **US Classes**  100, 105 **International Class Title**  Transportation and Storage

**For**  Non-metal seals for use in vehicle bodies including doors and lamps; hydraulic hoses made of rubber; non-metal hoses for fluids, namely, coolant hoses; valves of rubber or vulcanized fiber, not including machine elements; pipe gaskets; non-metal gaskets for vehicles and disks for computers; pipe joints of synthetic resin; non-metal pipe couplings and joints; insulating materials, namely, urethane foams; urethane foam for use in the manufacture of gaskets, mattresses, cushions, sound absorbers, sponges; sound absorbers in the nature of sponges which function to control sound for automobile tires; semi-worked synthetic plastic as semi-finished products in the form of pellets, rods, foams, fibers, films and sheets; foam rubber, being semi-finished products; sound absorbers made of rubber or resin which function to control sound for automobile tires; sound absorbers made of rubber or resin in the form of plates which function to control sound for automobile tires; rubber for retreading and repairing tires; rubber for repairing tire inner tubes; rubber materials for recapping tires; raw or semi-worked rubber; packing materials of rubber or plastics for cushioning and stuffing; washers of rubber or vulcanized fibre; flexible pipes of resin; flexible pipes and tubes of plastic; high-pressure rubber hoses for industrial applications; rubber hoses for industrial use; polymer films for use in manufacturing; polymer resins in the form of sheets or films for use in manufacturing; flexible tubes, not of metal; hose fittings, not of metal; anti-vibration rubber buffers for industrial machinery; insulating materials

**International Classes**  17 - Primary Classes **US Classes**  1, 5, 12, 13, 35, 50 **International Class Title**  Rubber Goods

**For**  Computer software design, computer programming and maintenance of computer software; design and development of computer operating software for accessing and using a cloud computing network; computer programming for information management; providing computer programs on data networks, namely, providing software as a service featuring software for controlling and programming metalworking machines and tools, construction machines and apparatus, loading-unloading machines and apparatus, mining machines and apparatus, machines and apparatus for use in forestry, agricultural machines and agricultural implements other than hand-operated, waste compacting machines and apparatus, waste crushing machines and apparatus, waste and trash separator machines, snow ploughs, measuring or testing machines and instruments, automobiles, and industrial robots; providing on-line non-downloadable computer programs for use in database management on data networks; cloud computing, namely, providing software as a service featuring software for controlling and programming metalworking machines and tools, construction machines and apparatus, loading-unloading machines and apparatus, mining machines and apparatus, machines and apparatus for use in forestry, agricultural machines and agricultural implements other than hand-operated, waste compacting machines and apparatus, waste crushing machines and apparatus, waste and trash separator machines, snow ploughs, measuring or testing machines and instruments, automobiles, and industrial robots; rental of computer operating software for accessing and using cloud computing network; electronic data storage and data back-up services; electronic storage of data, drawings, texts, digital photographs, music, images, video and other electronic data by cloud computing; technical data analysis services, namely, data mining, computer programming and computer modelling for data analysis; surveying and engineering services; materials testing, analysing, and measuring in the nature of calibration in the field of civil engineering and building construction; testing, data-analysing and measuring regarding civil engineering and building construction, namely, providing quality control of civil engineering and building construction projects; construction
drafting of buildings; construction drafting of civil engineering structures; construction drafting of underground structures; construction drafting consultancy relating to buildings, civil engineering structures, and underground structures; technical project planning, namely, urban design planning services; testing and research services, namely, quality control for others relating to machines, apparatus and instruments; designing of new products in the field of machines, apparatus, instruments, including their parts and systems composed of such machines, apparatus and instruments; design and development of computer hardware, software and databases; technical advice relating to operation of computer software in machines; technical advice relating to operation of machines comprised of computer hardware; technical advice relating to operation of computer programs; technological advice relating to the operation of computers, the operation of computers in automobiles, and the operation of computers in industrial machines; consultancy in the fields of energy measurement to improve energy efficiency of consumed fuel of metalworking machines and tools, construction machines and apparatus, loading-unloading machines and apparatus, mining machines and apparatus, machines and apparatus for use in forestry, agricultural machines and agricultural implements other than hand-operated, waste compacting machines and apparatus, waste crushing machines and apparatus, waste and trash separator machines, snow ploughs, measuring or testing machines and instruments, automobiles, and industrial robots; consultancy in the fields of energy measurement to improve energy efficiency of consumed power of metalworking machines and tools, construction machines and apparatus, loading-unloading machines and apparatus, mining machines and apparatus, machines and apparatus for use in forestry, agricultural machines and agricultural implements other than hand-operated, waste compacting machines and apparatus, waste crushing machines and apparatus, waste and trash separator machines, snow ploughs, measuring or testing machines and instruments, automobiles, and industrial robots; engineering consultancy in the field of energy efficiency; engineering consultancy in the field of energy-saving; designing of tires, other than for advertising purposes; designing, programming and maintenance of computer programs for managing information of belts for conveyors; designing, programming and maintenance of computer programs for simulation relating to tires and road surface condition; designing, programming and maintenance of computer programs relating to visualization tools for solution effectiveness, such as improvement of productivity, optimization of inventory and improvement of efficiency; technical advice relating to specialized knowledge as to tire usage and non-safety inspection of tires; rental of computers; providing temporary use of online non-downloadable computer programs for providing vehicle drive information, vehicle kinetic information and tire pressure information; providing temporary use of online non-downloadable computer programs for managing information of belts for conveyors; providing temporary use of online non-downloadable computer programs for simulation relating to tires and road surface condition; providing temporary use of online non-downloadable computer programs for visualization tools for solution effectiveness, namely, for improvement of productivity, optimization of inventory and improvement of efficiency; product safety testing in the field of tires; research on tires and road surface condition and information services relating thereto; providing temporary use of online non-downloadable computer programs for managing inventory and sales incentives for retail stores and wholesale stores; monitoring of computer systems by remote access to ensure proper functioning; remote electronic monitoring of data from in-vehicle systems using computers and sensors; software as a service featuring computer programs relating to visualization tools for solution effectiveness, namely, for improvement of productivity, optimization of inventory and improvement of efficiency; testing to assure compliance with industry standard of vehicles and their parts and fittings with autonomous driving functions or autonomous driving assistance functions and information services relating thereto; research in the field of vehicles and their parts and fittings with autonomous driving functions or autonomous driving assistance functions and information services relating thereto; testing to assure compliance with industry standard of next-generation streetcars and their parts and fittings and information services
relating thereto; research in the field of next-generation streetcars and their parts and fittings and information services relating thereto; testing to assure compliance with industry standard of new transportation system vehicles such as automated guideway transit (AGT), dual mode bus (DMB), bus rapid transit (BRT) and Dual Mode Vehicle (DMV), and their parts and fittings and information services relating thereto; research in the field of new transportation system vehicles such as automated guideway transit (AGT), dual mode bus (DMB), bus rapid transit (BRT) and Dual Mode Vehicle (DMV), and their parts and fittings and information services relating thereto; providing temporary use of online non-downloadable computer programs connected with customers' systems for improving customers' productivity by inventory management and quality management of tires; material testing and quality control of tires and inner tubes; architectural design of business premises such as retail stores and wholesale stores for the tire trade; development, design, and maintenance of software, mobile applications, databases and web sites; design, development and maintenance of software, mobile applications, databases and web sites; providing temporary use of on-line non-downloadable software for publishing; providing search engines for obtaining data via communications networks; conducting technical project feasibility studies in the field of developing new technologies; scientific research in the field of waste disposal; providing temporary use of online non-downloadable computer programs for providing information related to tire pressure and internal tire temperature; technical engineering analysis and engineering consulting services related to the selection or maintenance of rubber bearings for seismic isolation of buildings; technical engineering analysis and engineering consulting services related to the selection or maintenance of belts for conveyors, and their parts and fittings; technical engineering analysis and engineering consulting services related to the selection or maintenance of rubber tracks for use with crawlers, and their parts and fittings; consulting services in the field of environmental assessment in the field of measurement of concentration of sludge in pipes; providing temporary use of non-downloadable software for managing inventory; providing temporary use of non-downloadable computer software for analysis and monitoring of vehicle drive information, vehicle kinetic information and tire pressure information by remote access; construction planning services

For Electronic monitoring apparatus, other than for medical use, namely, wireless controllers to monitor the level, pressure
and other physical parameters of stored solids, liquids and gases; electronic temperature monitors, other than for medical use;
gauges for monitoring the liquid content of storage tanks; indicators for the optical monitoring of pressure of gases; indicators
for the optical monitoring of pressure of liquids; liquid level monitoring apparatus; electronic monitoring units for monitoring
the level, pressure and other physical parameters of stored solids, liquids and gases; portable gas monitoring instruments; water
pressure monitors, other than for medical use; remote monitoring apparatus in the nature of monitoring the level, pressure and
other physical parameters of stored solids, liquids and gases; temperature monitors for industrial use; alarm signaling
apparatus; alarm signaling transmitters; apparatus for digital signal processing; apparatus for signaling in the nature of
remotely reporting the level, pressure and other physical parameters of stored solids, liquids and gases; apparatus for
transmitting signals; coded signaling apparatus; electronic signal generating apparatus; electronic signal processing apparatus;
electronic signal transmitters; instruments for use in reception of electronic signals; signal processing apparatus; signal
transmission apparatus; signaling apparatus in the nature of remotely reporting the level, pressure and other physical
parameters of stored solids, liquids and gases; signaling instruments in the nature of remotely reporting the level, pressure and
other physical parameters of stored solids, liquids and gases; telecommunications apparatus for use with digital signals,
namely, sensor measurement and data encoding; transmitters for the transmission of electric signals; transmitters for the
transmission of electronic signals; transmitters of electronic signals; gauges for measuring the liquid content of storage tanks;
liquid level indicators for liquid fuel storage tanks; downloadable computer programs for scientific data analysis; diagnostic
starting installation analyzers, namely, gas and liquid level and pressure; digital analyzers in the nature of analysis of the level, pressure and other physical parameters of stored solids, liquids and gases; electrical apparatus for analysis, other than for medical use, namely, analysis of the level, pressure and other physical parameters of stored solids, liquids and gases; physical analyzing apparatus, other than for medical use, namely, analysis of the level, pressure and other physical parameters of stored solids, liquids and gases; scientific apparatus for use in analytical tests, other than medical, namely, analysis of the level, pressure and other physical parameters of stored solids, liquids and gases; apparatus for receiving data, namely, computers for monitoring, analyzing and reporting of the level, pressure and other physical parameters of stored solids, liquids and gases; apparatus for remote data transmission; apparatus for the conversion of data; downloadable computer programs for data processing; downloadable computer programs for processing data; downloadable computer programs for providing a graphical presentation of data; downloadable computer programs for use in database management; data acquisition apparatus in the nature of monitoring, logging and reporting of the level, pressure and other physical parameters of stored solids, liquids and gases; data processing apparatus; data processing devices; downloadable data processing computer programs; downloadable data processing software; downloadable data processing software for making graphic representations of data; data processing systems comprised of embedded microcontrollers, memory, computer servers, and recorded relational databases in the field of level, pressure and other physical parameters of stored solids, liquids and gases; data receiving apparatus in the nature of cellular, satellite and low power radio networked devices, namely, cellular, radio, satellite and low power radio networked devices; data recorded in electronic form, namely, electronic database in the field of level, pressure and other physical parameters of stored solids, liquids and gases recorded on computer media; data transmission apparatus; electric apparatus for data processing; electric apparatus for storing computer data, namely, computer servers; electrical apparatus for data acquisition, namely, for the control, monitoring and recording of level, pressure and other physical parameters of stored solids, liquids and gases; electrical apparatus for the input of data, namely, for the control and monitoring of level, pressure and other physical parameter sensors; electrical apparatus for the output of data, namely, human interface displays for network data transmission; electrical devices for storage of data, namely, blank embedded microcontroller memory, computer servers; electronic apparatus for the transmission of data; electronic data input apparatus, namely, sensors for control and monitoring of level, pressure and other physical parameters; electronic data output apparatus, namely, human interface displays for network data transmission; electronic devices for data processing; electronic devices for transmitting data; electronic instruments for the receiving of data, namely, monitoring, analyzing and reporting equipment in the nature of computers; recorded encoded computer programs for the operation of data processing apparatus; image data capture devices, namely, cameras, scanners; information storage devices for use in data processing apparatus, namely, blank embedded microcontroller memory, computer servers; downloadable instruction computer programs for the input of data; downloadable instruction computer programs for the output of data; downloadable instruction computer programs for the processing of data; instruments for electronic data processing, namely, computers for monitoring, analyzing and reporting; instruments for the recording of data, namely, computers for monitoring, analyzing and reporting; optical apparatus for the reception of data; downloadable computer programs for data-processing; remote data gathering apparatus for monitoring, logging and reporting of the level, pressure and other physical parameters of stored solids, liquids and gases; remote data processing apparatus; scientific apparatus for the receiving of data, namely, monitoring, logging and reporting of the level, pressure and other physical parameters of stored solids, liquids and gases; level, pressure and other physical parameter sensors for real time data input apparatus; level, pressure and other physical parameter sensors for real time data output; telecommunications apparatus
in the nature of cellular, satellite and low power radio networked devices for transmitting data for use with computers; apparatus for metering levels of liquids from containers; apparatus for metering levels of liquids from vessels; apparatus for remote meter reading, namely, for flow metering of liquids and gases, pressure monitoring of gases; computer apparatus for remote meter reading; flow and pressure fluid metering apparatus; fluid level meters; fuel consumption meters; gas flow meters; instruments for the processing of data for utility flow meters; liquid level meters; liquid level meters; liquid metering apparatus; meters for measuring gaseous flow; water pressure meters; temperature meters for household use; temperature meters for industrial use

GOODS AND SERVICES INFORMATION
For Printing products being printed matter, namely books, manuals, operating instructions and information documents in the field of machinery, especially in the field of packaging technology; labels of paper or cardboard; humidity control sheets of paper or plastic for foodstuff packaging; paper filtering materials for the filtering of food, beverages and pharmaceutical products; filter paper; plastic foils for packaging; sheets of reclaimed cellulose for wrapping; plastic films and bags for packaging and wrapping; printed manuals in the field of packaging technology; plastic film for packaging; airtight packaging of cardboard or paper; paper and cardboard; packaging containers of cardboard; padding materials of paper or cardboard; absorbent sheets of paper or plastic for foodstuff packaging; boxes made of cardboard or paper; bags, small bags and articles for wrapping, packaging and storing, made of paper, cardboard and plastic; packaging bags made of paper or plastic for packaging, boxes made of paper, cardboard or plastic for packaging and multi-component in the nature of paper and plastic boxes for packaging and packaging material of paper, cardboard and plastic; pouches, envelopes, bags of paper and of plastic materials for packaging; packaging films of plastic; packaging films of synthetic materials being made of synthetic and natural polymers and inorganic materials; plastic films for food packaging; cardboard for packaging; adhesive tapes for packaging, namely, sealing tape for paper carton and other packaging materials; plastic materials for packaging, not included in other classes, namely, plastic films for packaging; packaging material made of starches, namely packaging and containers comprised of starch-based materials in the nature of a paper or plastic substitute for food, beverage, consumer products and pharmaceutical products; packaging materials of paper or cardboard, namely, paper and cardboard boxes; packing paper; viscose sheets for wrapping
Three-dimensional printers; filling machines; distribution machines, namely, distribution machines, other than hand-operated implements, for use with packaging machines for distributing products; coating machines, namely, coating machines, other than hand-operated implements, for coating of pharmaceutical products; printing and bookbinding machines for industrial purposes; compressed air machines; printing machines for printing packaging; packing machines; ejectors being aspirator jet pumps; electric brushes being parts of machines; electric welding apparatus, namely, electric welding machines; electric welding apparatus in the nature of electric welding machines for plastic packaging; electric welding machines; electromechanical apparatus for beverage preparation namely, electromechanical machines for beverage preparation; electromechanical food preparation machines; electromechanical machines for the chemical industry; degreasing machines for use with packaging machines for degreasing products and packaging materials; discharging hoppers being parts of machines; labeling machines, namely, label printing machines and automatic industrial labeling machines for applying labels to containers and bottles for commercial and industrial use; machines for applying paint; filtering machines, separators and centrifuges, namely, filtering machines, separators and centrifuges for processing goods, namely, chemical and pharmaceutical products and food; bottle sealing machines; bottle-rinsing machines; bottle sealing machines being machines for affixing caps; meat choppers being machines for chopping meat; conveyor installations in the nature of aero-mechanical conveyor, automotive conveyor, belt conveyor, belt-driven live roller conveyor, bucket conveyor, chain conveyor, chain-driven live roller conveyor, drag conveyor, dust-proof conveyor, electric track vehicle system, flexible conveyor, gravity conveyor, gravity skatewheel conveyor, lineshaft roller conveyor, motorized-drive roller conveyor, overhead I-beam conveyor, overland conveyor, pharmaceutical conveyor, plastic belt conveyor, pneumatic conveyor, screw or auger conveyor, spiral conveyor, tubular gallery conveyor, vertical conveyor, vibrating conveyor and wire mesh conveyor and belts for conveyors; belts for conveyors; conveyors being machines; conveyors being machines for use with any of the aforesaid goods; compression and injection molding machines; milling and compression and injection molding machines; bottle filling machines; embossing machines; bellows being machines; apparatus for carbonating beverages; apparatus for carbonating water; lifting apparatus, namely, lifting installation for the transport of goods; lifting and hoisting apparatus, namely, lifting and hoisting installation for the transport of goods; industrial robots; blades being parts of machines; kneading machines for industrial purposes; washing scrubbers being machines, namely, machines for washing goods; condensing installations, namely, mechanical condensators and air-cooled condensers; punches and dies, all for use with machines, namely, punching presses for packaging machines; punching dies; sugar making machines; machines and installations for the production, processing, shaping and packaging of foodstuff; machines and apparatus for food and beverage processing and preparation; machines and presses for forming and shaping of metal sheets; machines and machine tools for processing materials and for the manufacturing sector; machines for placing sealing rings on corks for bottles; machines for filling packaging containers; machines for making container covers; glass washing machines; machines for cleaning packaging containers; machines for cleaning, filling and closing bottles, jugs, cans and containers; machines for closing packaging containers; machines for packing and unpacking boxes; machines for manufacturing and packaging of chemicals; cord making machines; machines for the production of lace; electric machines for making pasta; machines for making sausages; machines for the mineralization of drinking water; machines for the processing of plastics; machines for the packaging of pharmaceuticals; machines for the manufacture of packaging; machines, machine tools and mechanical tools, namely, packaging machines and parts thereof; machine parts for packaging technology, namely,
transport, supply and conveying devices for packaged goods and goods for packaging being parts of machines; machines for
the production and processing of materials; mechanical handling machines, namely, mechanical handling machines for
packaging materials and packaged goods; milk centrifuges; mixing machines; mixers being machines; mills being machines;
mills and grinding machines; papermaking machines; pumps being of machines; automated packaging machines; air suction
machines; rinsing machines for rinsing goods, especially bottles and other packaging materials; automatic stamping machines;
removal and handling apparatus, namely, removal and handling machines for packaging materials and packaged goods;
vacuum pumps; stoppering machines, namely, stoppering machines for stoppering bottles, vials, syringes and other packaging
materials; bottle stoppering machines; packaging installations, namely, packaging machines; packaging apparatus being
machines; packaging machines; packaging machines being wrapping machines; tools for packaging being packaging
machines; closing machines, namely, machines for closing and sealing packaging materials; centrifugal mills; centrifugal
pumps; centrifugal machines; grinding machines for industrial purposes; cutting machines; parts and accessories for all the
aforesaid goods, namely, replacement parts for the aforesaid goods

**International Classes** 7 - Primary Classes **US Classes** 13, 19, 21, 23, 24, 31, 34, 35

**For** Tanks not of metal nor masonry, namely, plastic and wood storage tanks; non-metallic and non-paper receptacles for
storage or transport; closures, not of metal, for containers; boxes of wood or plastic; containers, not of metal for storage and
transport; labels of plastic; barrels not of metal; barrels, casks, not of metal; cork and general stoppers for bottles, namely, cork
bottle stoppers, stoppers for bottles, not of glass, metal or rubber; bottle casings of wood, namely, wood storage tanks for
bottles; bottle closures, not of metal nor rubber; boxes, cases not of metal, namely, wood and plastic boxes; baskets, not of
metal, namely, non-metal baskets for transporting food, goods for commercial purposes and pharmaceutical products; corks;
plastic trays for packaging foodstuff; plastic components for packaging containers for foodstuff, confectionery, medicines,
chemicals and other non-food products, namely, dispensing and closable pour spouts and container and carton closures;
closures of plastic materials for packaging; wooden packaging containers; packaging containers of plastic; packaging
containers, mainly of plastic; plastic clips for sealing bags; stoppers, not of metal nor rubber

**For** Installations and apparatus for pasteurizing, sterilizing, cooling and freezing food, beverages and pharmaceutical
products; Steam production installations; disinfectant apparatus for goods and packaging materials; distillation columns not for
scientific purposes; distillation apparatus not for scientific purpose; Distillation apparatus for industrial use; Distillation
apparatus for chemical processing; devices and installations for lighting, heating, cooling, steam generating, cooking, drying,
ventilating and water supply to be used in respect with packaging machines for lighting, heating, cooling, cooking and drying
of food, beverages and pharmaceutical products in the nature of dryers for food, beverages and pharmaceutical products;
apparatus for cooking, reheating, cooling and storage of food and beverages, namely, cooking ovens, refrigerators and freezers;
heating installations; cooking apparatus and installations, namely, cooking ovens; kilns; heating and cooling apparatus for
heating and cooling of food, beverages and pharmaceutical products; cooling installations and machines for cooling food,
beverages and pharmaceutical products; cooling apparatus and installations for cooling food, beverages and pharmaceutical
products; refrigerators, cooling apparatus and freezers for medical storage; cooling containers, namely, refrigerators;
refrigerating cabinets; air filtering installations; air-purifying apparatus and machines; germicidal lamps for purifying air; air
sterilizers; multi-cookers; cooking stoves; pasteurizers for use in the food, beverage, pharmaceutical industry; pasteurizing machines for use in the food, beverage, pharmaceutical industry; sterilizers; sterilizing devices for sterilizing food, beverages and pharmaceutical products and packaging materials; freezing apparatus and installations, namely, freezers; drying installations, namely, apparatus for drying food and pharmaceutical products; desiccating apparatus for desiccating food and pharmaceutical products; Drying apparatus and installations, namely, apparatus for drying food and pharmaceutical products; drying apparatus and systems comprising heating apparatus and ventilation system for producing powder and granular products out of food and for producing pharmaceutical products in form of powder and granular products; dryer devices, namely, apparatus for drying food and pharmaceutical products; water distillation devices; parts and accessories for all the aforesaid goods, namely, replacement parts of the aforesaid goods
