services, namely, troubleshooting in the nature of diagnosing computer hardware problems; computer programming; hosting of
digital content on global computer networks, wireless networks, and electronic communications networks; platform as a
service (PAAS) featuring computer software platforms to allow users to search, request and receive content, text, visual works,
audio works, audiovisual works, literary works, data, files, documents, and electronic works; providing temporary use of non-
downloadable computer software and hosting online web facilities, which both enable users to access and download computer
software; providing temporary use of online non-downloadable computer software that generates customized recommendations
of software applications based on user preferences; Software as a Service (SaaS) services featuring software for subscribing to
audio, video and digital content and to make one-time purchases of audio, video and digital content, namely, for allowing users
to pay for and create content; computer services, namely, providing temporary use of an on-line non-downloadable software
application that filters internet searches and separates desired results from unwanted and inappropriate websites; providing
temporary use of a non-downloadable web application that features a parental control function on obscene and inappropriate
websites during internet searches and parental control of emails; providing an online network environment that features
technology that enables users to access and share content, text, visual works, audio works, audiovisual works, literary works,
data, files, documents, and electronic works; providing on-line network environments that enable users to share content,
photos, videos, text, data, images, and other electronic works; providing on-line non-downloadable communications software
allowing users to cache, access, receive, download, stream, broadcast, share, display, format, and transfer text, images, audio,
video, and data via telecommunications networks, wireless communications networks, and the Internet; providing temporary
use of on-line, non-downloadable software in the field of text, image, and sound transmission; providing temporary use of on-
line, non-downloadable computer software programs for the integration of text, audio, graphics, still images and moving
pictures into an interactive delivery for multimedia applications; providing temporary use of on-line, non-downloadable
computer software for use in browsing and exploring electronic publications and books; providing temporary use of on-line,
non-downloadable computer software for searching, locating, compiling, indexing, correlating, navigating, obtaining,
downloading, receiving, encoding, decoding, playing, storing, and organizing text, data, images, graphics, audio, and video on
a global computer network; providing temporary use of on-line, non-downloadable Internet browser software; providing
temporary use of on-line, non-downloadable Internet web browser software for use with mobile communications devices;
providing temporary use of on-line, non-downloadable computer software to enhance mobile access to the internet via
computers, mobile computers, and mobile communications devices; providing temporary use of on-line, non-downloadable
computer software for use in operating mobile computers and mobile communications devices; providing temporary use of on-
line, non-downloadable software computer and mobile device software for enhancing uploading and downloading capabilities
on computers, mobile computers, and mobile communications devices; providing temporary use of on-line, non-downloadable
computer software for enabling content, text, visual works, audio works, audiovisual works, literary works, data, files,
documents and electronic works to be downloaded to and accessed on a computer or other portable consumer electronic
device; providing temporary use of on-line, non-downloadable desktop publishing software; providing temporary use of on-
line, non-downloadable computer software for computer system and application development, deployment, and management;
providing temporary use of on-line, non-downloadable computer software for transmitting, sharing, receiving, downloading,
streaming, displaying, and transferring content, text, visual works, audio works, audiovisual works, literary works, data, files,
documents, and electronic works via portable electronic devices and computers and global computer and communications
networks; providing temporary use of on-line, non-downloadable computer software for formatting and converting content,
text, visual works, audio works, audiovisual works, literary works, data, files, documents, and electronic works into a format
compatible with portable electronic devices and computers; providing temporary use of on-line, non-downloadable parental control software; providing information, news, and commentary in the field of testing, analysis, and evaluation of educational institutions to determine conformity with established accreditation standards; computer security services, namely, monitoring of computer systems for protecting data and information from unauthorized access; computer software repair consultation
