GOODS AND SERVICES INFORMATION
For  Diagnostic preparations for medical use for sale in kit form composed of diagnostic test strips for measuring the properties of bodily fluids in particular blood, urine, saliva and mucous; medical consumables, namely, disposable diagnostic test strips for measuring the properties of bodily fluids in particular blood, urine, saliva and mucous and for measuring liquid control reagents; medical diagnostic test strips for use in electrochemical monitoring of analytes in biological fluids for medical use; pharmaceutical and veterinary preparations, namely, diagnostic reagents for medical purposes; diagnostic medical preparations for measuring the properties of bodily fluid samples, in particular, blood, urine, saliva and mucous samples and for measuring liquid control reagents
International Classes  5 - Primary Classes  US Classes  5, 6, 18, 44, 46, 51, 52  International Class Title  Pharmaceuticals
For  Medical and veterinary apparatus and instruments, namely, meters and sensors for the purpose of electrochemical sensing or monitoring of analytes in biological fluid samples for medical purposes; apparatus and instruments for medical diagnostic purposes in the nature of meters and sensors for the purpose of electrochemical sensing or monitoring of analytes in biological fluid samples for medical purposes; medical diagnostic devices for measuring the properties of bodily fluids in particular blood, urine, saliva and mucous; veterinary apparatus and instruments for measuring the properties of bodily fluids; medical diagnostic testing apparatus and instruments for point-of-care professional and home use for measuring, sensing, or monitoring analytes in fluid samples; Medical device, namely, blood coagulation analysers; medical device, namely, blood glucose monitoring and testing apparatus for human and veterinary use; electrochemical sensor platform medical device in the
nature of integrated electrochemical sensors that detect analytes in fluids, for medical purposes; hand held medical diagnostic
devices for measuring, testing and analysing various fluid sample types; apparatus for use in laboratories for medical
diagnostic purposes, namely, electrochemical meters or sensors for measuring or monitoring analytes in fluid samples in
particular blood, urine, saliva and mucous samples; sensors for medical use, namely, electrochemical sensors for
electrochemical sensing or monitoring of analytes in biological fluid samples

**International Classes** 10 - Primary Classes **US Classes** 26, 39, 44 **International Class Title** Medical Apparatus

**For** Scientific, research, detecting and testing apparatus and instruments, namely, electrochemical meters and sensors for
determination of analyte concentrations in fluid samples for non-medical purposes; scientific apparatus and instruments for
measuring and testing bodily fluids in particular blood, urine, saliva and mucous, and for measuring and testing food and
beverage samples, wine samples, and agricultural samples; wine analysers in the nature of electrochemical meters and sensors
for the purpose of electrochemical sensing or monitoring of free analytes in wine; electrochemical testing and measuring
apparatus and instruments in the nature of electrochemical meters and sensors for sensing or monitoring of analytes in fluid
samples, namely, of food and beverage samples, of environmental samples and of agricultural samples; downloadable
databases in the field of electrochemical sensing or monitoring of analytes in fluid samples; downloadable computer software
for use with electrochemical sensors or meters, and computer hardware; downloadable software applications for
electrochemical sensing or monitoring of analytes in fluid samples; electrochemical testing and measuring apparatus and
instruments containing computer hardware and downloadable software for use in measuring and testing of human and animal
bodily fluids, food and beverage samples, wine samples, and agricultural samples; electrochemical sensor platform device in
the nature of integrated electrochemical sensors that detect analytes in fluids, not for medical purposes; handheld scientific
apparatus and instruments for measuring, testing and analysing various fluid sample types; electronic equipment for testing and
measuring environmental conditions; measuring apparatus for scientific research in laboratories, not for medical purposes,
namely, electrochemical meters; laboratory instruments in the nature of electrochemical meters and sensors for sensing or
monitoring analytes in fluid samples, not for medical purposes; electrochemical bio-sensors for sensing or monitoring analytes
in fluid samples not for medical purposes, namely, of food and beverage samples, of environmental samples and of agricultural
samples; measuring sensors for sensing or monitoring of analytes in fluid samples, other than for medical use

**International Classes** 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and
Scientific Apparatus

**For** Medical research and development services in the field of diagnostics; research and development of products in
particular new products for the healthcare, veterinary, food, wine, environmental and agricultural industries; environmental
inspection services, namely, electrochemical monitoring of analytes fluid environmental samples for quality control purposes
or to assure compliance with industry standards; scientific research into the development of new products; research and
development of electrochemical cells used to measure markers in various sample types; provision of information relating to
scientific research; provision of scientific information in the field of electrochemical sensing and monitoring of analytes in
various sample types; scientific and technical analysis in the field of electrochemical sensing and monitoring of analytes in
various sample types; medical and scientific laboratory services; laboratory research and analysis services in the field of
electrochemical sensing and monitoring of analytes in various sample types; information, advisory and consultancy services
relating to all of the foregoing services

GOODS AND SERVICES INFORMATION
For  Diagnostic preparations for medical use for sale in kit form composed of diagnostic test strips for measuring the properties of bodily fluids in particular blood, urine, saliva and mucous; medical consumables, namely, disposable diagnostic test strips for measuring the properties of bodily fluids in particular blood, urine, saliva and mucous and for measuring liquid control reagents; medical diagnostic test strips for use in electrochemical monitoring of analytes in biological fluids for medical use; pharmaceutical and veterinary preparations, namely, diagnostic reagents for medical purposes; diagnostic medical preparations for measuring the properties of bodily fluid samples, in particular, blood, urine, saliva and mucous samples and for measuring liquid control reagents

International Classes  5 - Primary Classes US Classes  5, 6, 18, 44, 46, 51, 52 International Class Title Pharmaceuticals

For  Medical and veterinary apparatus and instruments, namely, meters and sensors for the purpose of electrochemical sensing or monitoring of analytes in biological fluid samples for medical purposes; apparatus and instruments for medical diagnostic purposes in the nature of meters and sensors for the purpose of electrochemical sensing or monitoring of analytes in biological fluid samples for medical purposes; medical diagnostic devices for measuring the properties of bodily fluids in particular blood, urine, saliva and mucous; veterinary apparatus and instruments for measuring the properties of bodily fluids; medical diagnostic testing apparatus and instruments for point-of-care professional and home use for measuring, sensing, or monitoring analytes in fluid samples; Medical device, namely, blood coagulation analysers; medical device, namely, blood glucose monitoring and testing apparatus for human and veterinary use; electrochemical sensor platform medical device in the
nature of integrated electrochemical sensors that detect analytes in fluids, for medical purposes; hand held medical diagnostic
devices for measuring, testing and analysing various fluid sample types; apparatus for use in laboratories for medical
diagnostic purposes, namely, electrochemical meters or sensors for measuring or monitoring analytes in fluid samples in
particular blood, urine, saliva and mucous samples; sensors for medical use, namely, electrochemical sensors for
electrochemical sensing or monitoring of analytes in biological fluid samples

**International Classes**  10 - Primary Classes  **US Classes**  26, 39, 44  **International Class Title**  Medical Apparatus

**For**  Scientific, research, detecting and testing apparatus and instruments, namely, electrochemical meters and sensors for
determination of analyte concentrations in fluid samples for non-medical purposes; scientific apparatus and instruments for
measuring and testing bodily fluids in particular blood, urine, saliva and mucous, and for measuring and testing food and
beverage samples, wine samples, and agricultural samples; wine analysers in the nature of electrochemical meters and sensors
for the purpose of electrochemical sensing or monitoring of free analytes in wine; electrochemical testing and measuring
apparatus and instruments in the nature of electrochemical meters and sensors for sensing or monitoring of analytes in fluid
samples, namely, of food and beverage samples, of environmental samples and of agricultural samples; downloadable
databases in the field of electrochemical sensing or monitoring of analytes in fluid samples; downloadable computer software
for use with electrochemical sensors or meters, and computer hardware; downloadable software applications for
electrochemical sensing or monitoring of analytes in fluid samples; electrochemical testing and measuring apparatus and
instruments containing computer hardware and downloadable software for use in measuring and testing of human and animal
bodily fluids, food and beverage samples, wine samples, and agricultural samples; electrochemical sensor platform device in
the nature of integrated electrochemical sensors that detect analytes in fluids, not for medical purposes; handheld scientific
apparatus and instruments for measuring, testing and analysing various fluid sample types; electronic equipment for testing and
measuring environmental conditions; measuring apparatus for scientific research in laboratories, not for medical purposes,
namely, electrochemical meters; laboratory instruments in the nature of electrochemical meters and sensors for sensing or
monitoring analytes in fluid samples, not for medical purposes; electrochemical bio-sensors for sensing or monitoring analytes
in fluid samples not for medical purposes, namely, of food and beverage samples, of environmental samples and of agricultural
samples; measuring sensors for sensing or monitoring of analytes in fluid samples, other than for medical use

**International Classes**  9 - Primary Classes  **US Classes**  21, 23, 26, 36, 38  **International Class Title**  Electrical and
