GOODS AND SERVICES INFORMATION
For Administration of websites for third parties; Advanced product research in the field of artificial intelligence; Advice relating to the design of computer hardware; Advisory services in the field of product development and quality improvement of software; Advisory services relating to computer software; Advisory services relating to material testing; Animation and special-effects design for others; Application service provider (ASP) featuring e-commerce software for use as a payment gateway that authorizes processing of credit cards or direct payments for merchants; Application service provider (ASP) featuring software for use in conformity science systems management, quality management, and risk management in the fields of business continuity, government, commerce and finance; Application service provider (ASP) featuring software using artificial intelligence for use in conformity science systems management, quality management, and risk management in the field of business continuity, government, commerce and finance; Application service provider (ASP), namely, hosting computer software applications of others; Application service provider featuring application programming interface (API) software; Application service provider, namely, hosting, managing, developing, analyzing, and maintaining applications, software and web sites of others in the fields of in conformity science, quality management, risk management, business continuity, government, management, commerce and finance; Application service provider, namely, hosting, managing, developing, analyzing, and maintaining applications, software, and web sites, of others in the fields of advertising and marketing; Application service provider, namely, hosting, managing, developing, analyzing, and maintaining applications, software, and web sites, of others in the fields of healthcare, benefits programs, employee productivity, risk management; Application service provider, namely, hosting, managing, developing, and maintaining applications, software, and web sites, in the fields of personal productivity, wireless communication, mobile information access, and remote data management for wireless delivery of content to handheld computers, laptops and mobile electronic devices; Authenticating banknotes; Authenticating coins; user authentication services using single sign-on technology for accessing online software applications in the fields of conformity science, quality management, risk management, business continuity, government, operations management, commerce and finance; Authentication, issuance and validation of digital certificates; Biotechnology research;
Business card design; Business technology software consultation services; Calibration; Calibration services; Cartography and mapping; Cartography services; Charitable services, namely, providing a website that features technology that enables children of a school district to communicate with a charity of their choice; Charitable services, namely, providing computer equipment to schools; Charitable services, namely, providing facilities and equipment for computer programming; Charitable services, namely, providing facilities and equipment for graphic design; Charitable services, namely, providing facilities and equipment for video game development; Charitable services, namely, providing web site design for others; cloud computing featuring software for use in database management, for use as a spreadsheet, for word processing, for dynamic provisioning, for virtualization and consumption metering of computer resources, for moving virtual machines into Infrastructure as a Service environments in a private, public or hybrid cloud environment, for management of user identity authentication and access privileges to aid in compliance with regulatory and industry data protection requirements, for user provisioning, role management, policy automation, access certification short message service (SMS), and voice one time password, biometric software and hardware for providing computer and mobile device user identity authentication, for monitoring and improving the security of, and detecting, reporting, analyzing and protecting against cyber-attacks and threats directed at computers, computer systems, networks, computer and network hardware, software applications, digital devices, digital data, and mobile devices, for providing operational intelligence, business analytics, security information, troubleshooting, and monitoring of network security, for producing reports, dashboards, metrics and alerts related to computer, network and data security incidents, for risk, quality and compliance management, enterprise and operational risk management, internal audit management, automating business continuity, crisis management and disaster recovery planning and execution, managing technology and security related risks, cataloging third parties, contracts, engagements and related risks, and managing regulatory, governmental and corporate compliance, for electronic fraud and identity theft detection and prevention, for detecting, monitoring, managing and preventing fraud, financial crime, cybercrime, cyber threats, cyber-attacks, security attacks and intrusions, for real-time internet, mobile and e-commerce fraud detection, protection, management, analytics and reporting, for managing user identity authentication and access privileges to aid in compliance with regulatory requirements, for identity and access management software for computer and mobile device user identity authentication and management, password authentication, sign-on control, intrusion prevention and for governing, authenticating, enforcing, restricting, controlling and managing access privileges of users to data, managed workspaces and privileged access management, software applications and cloud, mobile and network resources, for automating authentication and governance of identity over the internet and other computer networks, all in the fields of conformity science systems management, quality management, and risk management in the areas of business continuity, government, commerce and finance; Coin grading services; Collaborative computer programming for others in the nature of hackathons; Combustion engine systems design services; computer co-location services, namely, providing facilities for the location of computer servers with the equipment of others; computer code conversion for others; computer compatibility services, namely, data mapping; computer diagnostic services; computer disaster recovery planning; computer forensic services; computer graphics services; computer hardware development; computer modeling services; computer monitoring service which tracks application software performance, performs periodic maintenance and provides reports and alerts concerning such performance; computer monitoring service which tracks hardware performance and processes and sends out historical reports and alerts; computer network configuration services; computer network design for others; computer programming; computer programming for others; computer programming in the medical field; computer programming of computer games; computer programming of video games; computer programming services for commercial analysis and reporting; computer programming services for creating augmented reality videos and
games; computer programming services for customers that enables the customer's digital devices to process natural language queries from end users; computer programming services for others in the field of software configuration management; computer programming services, namely, content creation for virtual worlds and three dimensional platforms; computer project management services; computer project management services in the field of telecommunications; computer security consultancy; computer security consultancy in the field of scanning and penetration testing of computers and networks to assess information security vulnerability; computer security consultancy in the fields of conformity science, quality management, risk management, business continuity, government, management, commerce and finance; computer security service, namely, hard drive erasure; computer security service, namely, restricting access to and by computer networks to and of undesired web sites, media and individuals and facilities; computer security services in the nature of administering digital certificates; computer security services in the nature of administering digital keys; computer security services in the nature of providing authentication, issuance, validation and revocation of digital certificates; computer security services, namely, enforcing, restricting and controlling access privileges of users of computing resources for cloud, mobile or network resources based on assigned credentials; computer security services, namely, restricting unauthorized access to computer conformity networks, blockchain networks, computer networks, commercial confidential information networks (CCI), personally identifiable information networks (PII); computer security services, namely, restricting unauthorized network access by actors without appropriate credentials, malicious cyber actors and users without credentials in order to detect and prevent fraud during financial transactions; computer services in the nature of customized web pages and other data feed formats featuring user-defined information; computer services, namely, acting as an application service provider in the field of knowledge management to host computer application software for the purpose of collection, editing, organizing, modifying, book marking, transmission, storage and sharing of data and information; computer services, namely, cloud hosting provider services; computer services, namely, computer system administration for others; computer services, namely, creating an on-line community for registered users to participate in discussions, get feedback from their peers, enable online discussions, form virtual communities, and engage in social networking services, engage in peer-to-peer finance activities, and engage in peer-to-peer commercial activities; computer services, namely, creating an on-line community for registered users to participate in discussions, get feedback from their peers, enable online discussions, form virtual communities, and engage in social networking services, peer-to-peer finance services, and peer-to-peer commercial services; computer services, namely, creating an on-line virtual environment for creation, development, distribution and control of computer software and conformity science blockchain applications for quality management, risk management, business continuity, government, operations management, commerce and finance; computer services, namely, creating computer network-based indexes of information, websites and resources; computer services, namely, creating, maintaining, designing and implementing web sites for others; computer services, namely, domain forwarding services; computer services, namely, electronic detection of plagiarized content; computer services, namely, electronic digitizing of paper documents, contracts, escrow documents, land titles documents, asset title documents; computer services, namely, encrypted data recovery services; computer services, namely, filtering of unwanted e-mails; computer services, namely, hosting an interactive web site that allows users to upload, store and maintain automotive repair records, manage online records of services performed on their vehicles, and receive automated service reminders, safety alerts, recall alerts, and special discount offers; computer services, namely, hosting on-line interactive public calendars that allow multiple participants to share event schedules and facility reservations; computer services, namely, hosting on-line web facilities for others for organizing and conducting online meetings, gatherings, and interactive discussions;
computer services, namely, integration of computer software into multiple systems and networks; computer services, namely, integration of private and public cloud computing environments; computer services, namely, interactive hosting services which allow the users to publish and share their own content and images on-line; computer services, namely, internet protocol address management; computer services, namely, managing on-line waitlists and automating the on-line waitlist process for others; computer services, namely, managing web sites for others; computer services, namely, monitoring and reporting on the performance, availability, and errors of web sites of others; computer services, namely, monitoring the web sites of others to improve their scalability and performance; computer services, namely, monitoring, testing, analyzing, and reporting on the Internet traffic control and content control of the web sites of others; computer services, namely, on-line scanning, detecting, quarantining and eliminating of viruses, worms, trojans, spyware, adware, malware and unauthorized data and programs on computers and electronic devices; computer services, namely, operating computer systems and computer networks featuring broadband transmission and energy transmission software for public utilities and others; computer services, namely, providing a web site for others that automates party and entertainment events management information consisting of guest lists, guest information, restaurant information, gift registry information, hotel information, venue information, and invitation RSVPs; computer services, namely, providing an interactive web site featuring technology that allows users to collect, store, manage, deliver and showcase electronic and paper-based content; computer services, namely, providing an interactive web site featuring technology that allows users to create their own books; computer services, namely, providing customized web pages featuring user-defined information; computer services, namely, providing search engines for obtaining data on a global computer network; computer services, namely, providing virtual and non virtual application servers, web servers, file servers, co-location servers, load balancing servers, redundancy servers, media servers and database servers of variable capacity to third party computing and data storage facilities; computer services, namely, providing cloud based servers, virtual servers, artificial intelligence (AI) servers, blockchain-based quantum computer services, and classical computer servers to others; computer services, namely, redirecting electronic mail to changed personal electronic address; computer services, namely, remote management of the information technology (IT) systems of others; computer site design; computer software design, computer programming, and maintenance of computer software; computer system analysis; computer system design services; computer systems analysis; computer systems integration services; computer technical support services, namely, 24/7 service desk or help desk services for IT infrastructure, operating systems, database systems, and web applications; computer technology support services, namely, help desk services; computer time-sharing services; computer virus protection services; computer-aided engineering services for others; Conducting clinical trials for others; Conducting clinical trials for others in the field of governance, operations management and commerce systems built on conformity science; Conducting engineering surveys; Conducting of feasibility studies in the field of new technologies; Conducting scientific feasibility studies; Construction drafting; Consultancy in the design and development of computer hardware; Consultancy in the field of software design; Consultation in the field of ergonomics, namely, designing workplace facilities and equipment to optimize efficiency and safety; Consultation in the field of health risk assessment, namely, prediction and assessment of health risks to public and private agencies, facilities, individuals and locations following an accidental or terrorist caused release of chemical, biological, radiological or nuclear materials; Consulting in the field of acoustics, sound, noise, and vibration for scientific purposes; Consulting in the field of auxiliary design for computer systems in the fields of conformity science systems, quality management applications, and blockchain-based, governance, management and operation systems applications; Consulting in
the field of configuration management for computer hardware and software; Consulting in the field of information technology; Consulting in the field of telecommunications technology; Consulting in the field of virtualization technologies for enterprises and businesses; consulting on root cause analysis in the field of quality management software applications and block-chain based software applications used in business and government organization management for the conformity science industry; Consulting services in the design and implementation of computer-based information systems for businesses; Consulting services in the field of cloud computing; Consulting services in the field of collection of evidence for forensic purposes; Consulting services in the field of design and development of engineering processes; Consulting services in the field of design of newsletters; Consulting services in the field of design, selection, implementation and use of computer hardware and software systems for others; Consulting services in the field of designing engines to be more efficient; Consulting services in the field of environmental assessment and planning; Consulting services in the field of graphic design of advertising materials; Consulting services in the field of home automation; Consulting services in the field of hosting computer software applications; Consulting services in the field of office and workplace automation; Consulting services in the field of providing online, non-downloadable software and applications; Consulting services in the field of quantum computing; Consulting services in the field of software as a service (SAAS); Consulting services in the field of testing of electronic components and electronic systems; Consulting services in the fields of forensic science; Consulting services in the fields of selection, implementation and use of computer hardware and software systems for others; Consumer product safety testing; Consumer product safety testing consultation; Conversion of data or documents from physical to electronic media; Copying of computer software; Creating an on-line community for elected or appointed government officials, legislators and regulators, professionals in business, technology, science, education, for the purpose of developing, sharing, discussing, and advancing knowledge in the fields of leadership, change and conformity science; Creating an on-line community for registered users for the purpose of discussing conformity science, principles of blockchain, quality management, entrepreneurship, organizational transformation, personal transformation, personal empowerment, leadership development, healing, solidarity, social justice and issues affecting social justice leaders, non-profit leaders and other people of color, leadership development, healing, solidarity, social entrepreneurship and social justice; Creating and designing website based indexes of information for others using information technology; Creating and maintaining weblogs for others; Creating of computer programs; Creating website based indexes of information for others using information technology; Creating, maintaining, and modernizing computer software; Creation of control programs for automated measurement, assembly, adjustment, and related visualization; Creation of control programs for electric operation control and drive modules; Cross-platform conversion of digital content into other forms of digital content; custom design and engineering of conformity science computer systems, quality management and blockchain computer systems and global computer network systems; Custom design of computer software; Customizing computer software; customizing computer software by adding fields and workflows to enable the management of implementation trials for the purpose of conducting risk based monitoring, data conversion of computer program data or information, and performance testing and optimization; Cybersecurity services in the nature of restricting unauthorized access to computer systems; Data automation and collection service using proprietary software to evaluate, analyze and collect service data; Data conversion of computer program data or information, other than physical conversion; Data conversion of electronic information; Data decryption services; Data encryption and decoding services; Data encryption services; Data encryption services for providing security and anonymity for electronically transmitted credit card transactions; Data migration services; Data mining; Data security consultancy; Data warehousing; Data-acquisition and collection for calibration and coordinate-
measurement purposes; Database development services; Debugging computer software for others; Design and development of computer firmware; Design and development of computer game software and virtual reality software; Design and development of computer software for the improvements of purchasing functions of business; Design and development of computer software for conformity science systems, quality management applications, blockchain-based, governance, management and operation systems applications; Design and development of computer software in the field of tablet applications; Design and development of software and hardware for producing, recording and processing digital and analogue signals; Design and development of software and hardware for signal amplification and transmission; Design and development of virtual reality software; Design and development of visualization technologies for advertisement of real-estate, commercial product and business of others; Design and development of wireless computer networks; Design and implementation of software and technology solutions for the purpose of product and document authentication and tracking, and brand monitoring and protection, to protect against counterfeiting, tampering, and diversion, and to ensure the integrity of genuine products and documents; Design and maintenance of computer sites for third parties; Design and testing for new product development; Design and testing of new products for others; Design and writing of computer software; design for others in the field of computer networks, software, and engineering for the computer software development operations, computer network infrastructure, and application development support industries; Design for others in the field of computer software; Design for others in the field of graphic arts; Design for others in the field of machinery; Design for others of integrated circuits and integrated circuit cores for use in wireless communications and wireless communication equipment and apparati and digital signal processors (DSP); Design of computer hardware, integrated circuits, communications hardware and software and computer networks for others; Design of computer machine and computer software for commercial analysis and reporting; Design of computer networks and software for others for the engineering of cloud storage platforms, cloud application development, new platform development, blockchain-based systems and application development, and upgrading of existing platforms; Design of computers; Design of computers for others; Design of home pages and web sites; Design of information graphics and data visualization materials; Design of integrated circuits; Design of mechanical and micromechanical components; Design of specialty interior and exterior environment settings; Design of telecommunications apparatus and equipment; Design of unified communications services; Design, deployment and management of wireless computer networks for others; Design, development, installation and maintenance of computer software; Designing and creating web sites for others; Designing and developing computer game software and video game software for use with computers, video game program systems and computer networks; Designing and developing websites in the field of conformity science for leaders, elected or appointed officials, legislators, policymakers, regulators, technical experts, scientists, members of organization Top Management, global professional liability insurers, corporate risk insurers, legal professionals, law enforcement, business persons, promoters, consultants, investors and students; Designing and modifying computer programs and video games for others; Designing computer software for controlling self-service terminals; Designing of machines, apparatus, instruments or systems composed of such machines, apparatus and instruments; Designing of packaging and wrapping materials; Designing theme graphics and multimedia shows for conventions, product launches, trade shows, key note addresses and award ceremonies for others; Designing website based indexes of information for others using information technology; Designing
websites for advertising purposes; Developing accreditation standards for defense-level, military-grade quality management systems and blockchain based conformity management systems for use in governance, management and operations to the order and specification of others; Developing and hosting a server on a global computer network for the purpose of facilitating e-commerce via such a server; Developing and managing application software for delivery of multi-media content provided by museums and other tour venues for use on multiple types of wireless mobile devices; Developing customized software in the field of applied conformity science for others; Developing customized web pages and other data feed formats featuring user-defined information; Developing of driver and operating system software; Developing programs for simulating experiments or series of experiments in a virtual optical laboratory; Developing quality control standards for conformity science and blockchain-based systems, technology, services and products; Development and creation of computer programs for data processing; Development and establishment of testing specifications and procedures for the aviation engineering, automotive engineering, bioscience, wind engineering and industrial aerodynamics, petroleum engineering, and military technology industries; Development and establishment of testing specifications and procedures in the field of conformity science, blockchain engineering, blockchain quality managements systems and defense, and military systems and technology; Development and implementation of software, hardware and technology solutions for the purpose of productization of electronic components and electronic systems; Development and implementation of software, hardware and technology solutions for the purpose of testing of electronic components and electronic systems; Development of computer hardware for computer games; Development of computer programs for simulating laboratory experiments; Development of customized software for others for use in risk assessment, information security, business analysis, audit and audit planning, and sales management; Development of data processing programs by order of third parties; Development of new technology for others in the field of conformity science, quality management systems, systems-level artificial intelligence, systems-learning artificial intelligence, management systems and computing systems for use in government, management, commerce and finance; Development of security systems and contingency planning for information systems; Development of software for secure network operations; Development of voluntary standards for applications of conformity science, systems-level artificial intelligence, systems-learning artificial intelligence, management systems, and computing systems for use in government, management and commerce; Development, maintenance and updating of a telecommunication network search engine; Development, updating and maintenance of software and database systems; digital compression of financial processing computer data and quality management system computer data; Digital image correction services of videos; Digital image correction, restoration and enhancement of images and videos, graphic designs, graphic arts designs; Digital watermarking; Digitization of documents; Displaying the web sites and images of others on a computer server; Domain name search services, namely, conducting online computerized searches for the availability of domain names; Domain registry operator services; Drafting of plans and engineering drawings for others; Duplication of computer programs; E-mail system design and implementation for others; Elaboration and maintenance of web sites for third parties; Electrical engineering; Electronic and electrical systems design services; Electronic data storage; Electronic monitoring of credit card activity to detect fraud via the internet; Electronic monitoring of personally identifying information to detect identity theft via the internet; Electronic signature verification services using technology to authenticate user identity; Electronic site authoring; Electronic storage of documents and archived e-mails; Electronic storage of electronic media, namely, images, text and audio data; Electronic storage of files and documents; Electronic storage services for archiving databases, images and other electronic data; Electronic storage services for archiving
electronic data; Encoding of magnetic cards; Energy auditing; Engineering; Engineering design services; Engineering drawing services; Engineering services for building and property condition assessment; Engineering services for building and property condition assessment, facility management, repair and restoration and building instrumentation; Engineering services in the field of environmental compliance; Engineering services in the field of extending engine maintenance intervals; Engineering services in the field of reducing operational costs of engines; Engineering services in the field of reducing operational costs of industrial machinery; Engineering services in the field of reduction of operating costs, fuel blending, waste handling, quality performance of co-products and by-products, and chemical distribution; Engineering services, namely, engineering for the field of network-connected devices, conformity science networks, blockchain networks, systems-level artificial intelligence and systems-learning artificial intelligence; Engineering services, particularly technical project planning and design engineering of lines for the processing of web products; Engineering surveying; Environmental engineering, testing and inspection services; Environmental testing and inspection services; Evaluating and testing the environmental qualities and impact of consumer products of others; Evaluating organizations to determine whether the organizations conform to an established accreditation standard; Evaluation and testing of real estate for the presence of hazardous material; Evaluation of the home building and remodeling services of home builders and remodelers to determine conformity with certification standards other than for governmental regulatory purposes during construction; File sharing services, namely, providing a website featuring technology enabling users to upload and download electronic files; Fire escape inspection services; Franchising services, namely, planning and design of information technology systems for business franchises; General health physics consulting services; Graphic design of advertising banners and signs; Graphic design of advertising brochures for others; Graphic design of advertising materials; Graphic design of business surveys; Graphic design of insurance policies for others; Graphic design of internet advertising; Graphic design of marketing surveys; Graphic design of promotional materials; Graphic design of public opinion surveys; Graphic design services; Handwriting analysis; Home inspection services for purposes of purchase, repair, restoration or redevelopment; Home inspections; Home staging consultation, namely, temporary interior and exterior home decoration consultation for the purpose of making homes more appealing to prospective buyers; Hosting an online community website featuring shared communications between community members interested in personal and small business computer information security; Hosting the software, websites and other computer applications of others on a virtual private server; Hosting the web sites of others; Industrial design; Industrial research in the field of conformity science, quality management, blockchain engineering, blockchain networks, quantum computing systems, systems-level artificial intelligence systems and systems-learning artificial intelligence systems for the purpose of promoting growth, expansion and professionalism within said fields; Information technology consulting services; Innovation consulting services, namely, advising others in the areas of product development; computer network and software inspection services for purpose of detection of leaks in data integrity in the field of conformity computer networks, blockchain computer networks, computer networks, intellectual property computer networks, commercially confidential information computer networks (CCI) or personally identifiable information (PII) computer networks; Installation and maintenance of computer software; Installation and repair of computer software, including mobile performance of such services on customer premises; Installation of computer software; Installation of regulatory-integrated, blockchain-based, organization conformity meta-operating systems computer software; Installation, maintenance and repair of regulatory-integrated, blockchain-based, organization conformity meta-operating systems computer software; Installation, repair and maintenance of computer software; Integration of computer systems and networks; Intelligent natural language understanding services using cloud-based software technology; Internet Protocol (IP) address verification services; Internet-based application service provider, namely, hosting, managing, developing,
analyzing, and maintaining the code, applications, and software for web sites of others; Internet-based service for the secure electronic storage of multi-lingual documents featuring an ability to track and report all user interactions with the service; IT consulting services; IT integration services; Land title surveying; Land use planning services; Layout design services for clean room environments; Leasing computer facilities; Leasing of computer programs; Leasing of computers; Letterhead design services; Maintenance and upgrading of computer software; Maintenance assessment of the performance and reliability of alarm systems; Maintenance of computer software; Maintenance of computer software relating to computer security and prevention of computer risks; Maintenance of computer software used for operating filling apparatus and machines; Maintenance of computer software used for conformity systems management, quality management, blockchain engineering, process automation, document management and records management; Maintenance of on-line databases for others; Maintenance of software for Internet access; Mapping services; computer services, namely, mapping services featuring software programming concept maps in the field of manual and hybrid, systems-level artificial intelligence and systems-learning artificial intelligence; measurement evaluations for conformity to standards in the fields of conformity science, quality management and blockchain-based systems, technology, services, products; Measuring television audience size and composition for others via electronic data collection; Mechanical engineering; Media duplication of data and digital information; medical and scientific research information in the field of human efficiency; Medical and scientific research, namely, conducting clinical trials for others; Metering and monitoring electric power consumption by third parties for electric power providers; Mobile media services in the nature of electronic storage of entertainment media content; Monitoring of computer systems by remote access to ensure proper functioning; Monitoring of computer systems for detecting unauthorized access or data breach; Monitoring of computer systems to detect breakdowns; Monitoring organization governance, management and operations infrastructures and blockchain infrastructures, conformity networks, blockchain networks, computer networks, intellectual property networks, commercially confidential information networks (CCI) and personally identifiable information (PII) networks to ensure proper functioning; Off-site data backup; On-line batch computer services, namely, configuration of multiple files into a single group; On-line web site that enables the management of print systems of others by providing technical maintenance and performance reports based on data provided by users; Online computer services, namely, providing spam filtering services to protect websites and online applications from receiving unsolicited messages; Online plagiarism detection services, namely, electronic detection of plagiarized content via the Internet; Outsource service provider in the field of information technology consulting; Outsource service providers in the field of information technology; Parking domain names for others, namely, providing computer servers for electronic storage of domain name addresses; Peer-to-browser photo sharing services, namely, providing a website featuring technology enabling users to upload, view, and download digital photos; Periodic upgrading of computer software for others; Planning and development of electronic communications networks; Planning, design and implementation of computer technologies for others; Planning, design and management of information technology systems; Planning, design, development and maintenance of online websites for third parties; Platform as a service (PAAS) featuring computer software platforms for monitoring organization governance, management and operations infrastructures and blockchain infrastructures, conformity networks, blockchain networks, computer networks, intellectual property networks, commercially confidential information networks (CCI) and personally identifiable information
(PII) networks; Preparation, update, installation and maintenance of computer software; Processing of video data, namely, interpreting video content and identifying segments that contain predefined key events; Product development consultation; product development consulting in the field of software and computer networks in the areas of conformity science, blockchain systems, quality management systems, systems-level artificial intelligence, systems-learning artificial intelligence, blockchain conformity management systems, quantum computing systems for use in government, management and commerce; Product failure analysis services; Product quality evaluation; Product quality testing; Product quality testing services; Product research; Product research and development; Product safety testing; Product safety testing services; Professional computer services, namely, network analysis, LAN/WAN design, wireless engineering, virtualization and computer project management; Programming of multimedia applications; Programming virtual financial instruments for use in online virtual worlds; Providing a members-only website featuring technology which provides members with the ability to access multiple databases and automobile industry services for the purpose of conducting automobile purchase and sale transactions; Providing a members-only website featuring technology which provides members with the ability to market, promote and trade non-bank, non-institutional, non-syndicated, non-regulated or regulatory exempt, free trading securities and related financial instruments and peer-to-peer (also known as p2p) securities and related financial instruments, private securities and related financial instruments, crypto securities and related financial instruments, secret banking securities and related financial instruments, shadow banking securities and related financial instruments within a BlockChain system; Providing a secure electronic online system featuring technology which allows vendors to submit electronic invoices to sales representative agencies for importing and processing of electronic invoices to save time and improve accuracy; Providing a secure, web-based service featuring technology that enables individuals to remotely create and manage their own accounts so that whatever private content they upload now can be encrypted, then delivered to their intended recipients, at the time and in the manner requested; Providing a secured-access website that gives registered Internet networked institutions the ability to upload, view, copy, print, download and share documents and images for the purposes of conducting consumer-driven transactions; Providing a secured-access, members only website featuring technology that gives registered Internet networked dental professionals the ability to communicate and share data for the purposes of designing and manufacturing dental restorations; Providing a social networking website which features technology that enables users to give charitable financial gifts to others; Providing a web site allowing users to upload on-line videos for sharing with others for motivational and inspirational purposes; Providing a web site featuring technology enabling physicians to access resources in clinical medicine; Providing a web site featuring technology that enables companies and organizations to administer and manage employee incentive award programs and to promote employee productivity, performance, recognition and morale; Providing a web site featuring technology that enables internet users to create, bookmark, annotate, and publicly share data; Providing a web site featuring technology that enables internet users to create, bookmark, annotate, and publicly share fitness-related data, as well as providing health and fitness professionals with a subscription-based client management system; Providing a web site featuring technology that enables internet users to share documents, images and videos; Providing a web site featuring technology that enables internet users to submit comments of personal recognition; Providing a web site featuring technology that enables physicians to generate, manage and exchange medical information and documents regardless of medical organization or geographic location; Providing a web site featuring technology that enables recruiters and hiring managers to manage the entire candidate attraction and selection process, including administration of back ground checks, assessments and skills tests, as well as compiling data that facilitates the continuous improvement of the process; Providing a web site featuring technology that enables users to connect with other people in their neighborhood or city for any number of user-specified reasons, including providing a service
or organizing an event; Providing a web site featuring technology that enables users to create a chronological schedule of events; Providing a web site featuring technology that enables users to present products, services, and proposals to others for comment, and gather feedback from those others about those products, services, and proposals; Providing a web site featuring technology that enables users to request and record ideas, suggestions, and comments from other users in any field of business or general interest; Providing a web site featuring technology that enables users to share, bookmark, index, store, collect and showcase content, articles, images, calendars, products, projects, and other information resources in electronic form in field of research, innovation, science, technology, engineering, arts, mathematics, Socio-economic, cultural and ecological development; Providing a web site that features information on computer technology and programming; Providing a web site that gives computer users the ability to upload and share user-generated videos, essays and articles on a wide variety of topics and subjects; Providing a web site that gives computer users the ability to upload and share video-based scientific protocols and other scientific-based videos; Providing a web site that gives computer users the ability to upload and share videos providing inspiration and motivation for women; Providing a web site that gives multiple computer users simultaneously the ability to upload, create and edit documents, printed publications, online publications, photographs, product packaging and advertisements; Providing a web-based service featuring technology that enables users to manage the production and publication of electronic books (e-books) and related digital content and offer them for sale to the general public; Providing a website featuring a media aggregator and search engine for internet content; Providing a website featuring a search engine for conformity science systems, quality management systems, systems-level artificial intelligence, systems-learning artificial intelligence, blockchain conformity management systems, quantum computing systems for use in government, operations management, commerce and finance; Providing a website featuring a searchable on-line quality evaluation of rarities for the purpose of measuring the scarcity of rare collectible objects; Providing a website featuring non-downloadable software using artificial intelligence for management of systems level, systems learning, machine learning, deep learning, big data analysis, small data analysis and conformity to statutory, regulatory, governance, management, operation, shareholder or customer requirements; Providing a website featuring on-line non-downloadable software that enables users to trade in regulatory-integrated, non-bank, non-institutional, non-syndicated, non-regulated or regulatory exempt, free trading securities and related financial instruments and peer-to-peer (P2P) securities and related financial instruments, Private securities and related financial instruments, crypto securities and related financial instruments, secret banking securities and related financial instruments, shadow banking securities and related financial instruments; Providing a website featuring technology enabling users to remotely view, monitor, program, operate and control large and small appliances, electrical systems and security systems in homes, offices and vehicles; Providing a website featuring technology that enables inventors to search for investors; Providing a website featuring technology that enables subscribers to transfer files to and from a file transfer protocol server; Providing a website featuring technology that enables users to organize and manage postmarked e-mails; Providing a website featuring technology that enables users to upload and share user-generated videos on a wide variety of topics and subjects; Providing a website that features technology that enables the secure exchange of information by users; Providing a website that gives computer users the ability to subscribe to online publications permitting searches of building codes and standards; Providing a website that gives users the ability to create customized web pages featuring user-defined profiles; Providing a website that gives users the ability to review various print, photographic, graphic image, and audio and video content and utilize a custom template to provide input, likes, dislikes, edits, changes, modifications, opinions, suggestions, and comments and engage in social, business and community networking; Providing an interactive web site featuring technology that enables users to enter,
access, track, manage, monitor, and generate information and reports regarding their in-house building cleaning programs; Providing an interactive website featuring technology that allows users to enter, access, and synthesize information and generate reports for use in consulting with executives and businesses; Providing an interactive website featuring technology that allows users to upload, download, share and sell custom and branded digital publications; Providing an on-line network environment featuring technology that enables users to share data in the field of artificial intelligence, virtual and augmented reality, decentralized autonomous organization networks and systems, robotics, blockchain, crowd funding, digital media, royalty-tracking; Providing an online non-downloadable Internet-based system application featuring technology enabling users to enter into contracts and smart contracts, buy, sell and trade peer-to-peer (P2P), also known as private financial securities, crypto financial securities, secret banking financial securities or shadow banking financial securities, and buy, sell and pay for goods and services using peer-to-peer (P2P), also known as private financial securities, crypto financial securities, secret banking or shadow banking financial securities; Providing an online website for creating and hosting micro websites for businesses; Providing computer programming services to customers that enables the customer's website to process natural language queries; Providing customer-defined generated content and content of others automatically selected and customized based on the known or estimated geographical location of an Internet, mobile telephone or other wired or wireless digital network based customer; Providing customized computer searching services, namely, searching and retrieving information at the customer's specific request via the Internet; Providing customized on-line web pages and data feeds featuring user-defined information, which includes blog posts, new media content, other on-line content, and on-line web links to other websites; Providing customized on-line web pages featuring user-defined information, which includes search engines and on-line web links to other web sites; Providing electronic verification of on-line orders of digital content and generating electronic permission codes which then allow users to access said digital content; Providing graphic and multimedia design services for the purpose of promoting the goods and services of others; Providing information in the fields of technology and software development via an on-line website; Providing information relating to computer technology and programming via a website; Providing information relating to electronic data storage services; Providing information relating to on-line non-downloadable software to facilitate electronic communication between individuals provided via the Internet; Providing internet based data capture services that enable the exchange of information via the internet from residential mortgage borrowers to institutions for use in loan workouts; Providing medical and scientific research information in the field of clinical trials; Providing on-line non-downloadable software using artificial intelligence for organizing governance, management and operations of government, not-for-profit, beneficial, privately held and publicly traded organizations; providing customized computer searching services, namely, searching and retrieving information at the customer's specific request via global computer networks; Providing periodic updates to subscribers of web feeds pulled from websites selected by the subscriber by means of electronic mail; Providing planning and engineering services in the field of information and communications networks; Providing quality assurance services in the field of governance and finance; Providing quality control services for the mortgage industry; Providing scientific information in the field of conformity science, blockchain systems, quality management systems, systems-level artificial intelligence, systems-learning artificial intelligence, blockchain conformity management systems, quantum computing systems for use in government, management and commerce; Providing scientific information, advice and consultancy relating to carbon offsetting; Providing search engines for the internet; Providing technical information updates of industrial process control computer software via the global computer network; Providing technological information about environmentally-conscious and green innovations; Providing technology consulting in the field of social media; Providing technology information in the field of conformity science, blockchain systems, quality management systems, systems-level
artificial intelligence, systems-learning artificial intelligence, blockchain conformity management systems, quantum computing systems for use in government, management and commerce; Providing technology information updates for home security systems via the global computer network; Providing temporary use of non-downloadable cloud-based software for connecting, operating, and managing networked blockchain based systems in the internet of things (IoT); Providing temporary use of non-downloadable cloud-based software for developing and testing innovative governance, and financial and business ideas within a regulatory sandbox environment; Providing temporary use of non-downloadable cognitive stimulation computer programs that help maintain an active brain and thus improve memory, speed of processing, and that provide a variety of cognitive benefits that positively impact quality of life; Providing temporary use of non-downloadable computer software for preparing shipping documents over computer networks, intranets and the internet; Providing temporary use of non-downloadable computer software for shipment processing over computer networks, intranets and the internet; Providing temporary use of non-downloadable software for selecting electronic cards, personalizing them with users own messages and sending them via e-mail; Providing temporary use of non-downloadable web-based decentralized applications (DApps) for providing regulatory-integrated organization governance, management and operation and compiling artificial intelligence, virtual and augmented reality, decentralized autonomous organization networks and systems, robotics, blockchain, crowdfunding, digital media, royalty-tracking, securities; Providing temporary use of on-line non-downloadable cloud computing software for trading regulatory-integrated, non-bank, non-institutional, non-syndicated, non-regulated or regulatory exempt, free trading securities and related financial instruments and peer-to-peer (P2P) securities and related financial instruments, private securities and related financial instruments, crypto securities and related financial instruments, secret securities and related financial instruments, shadow securities and related financial instruments; Providing temporary use of on-line non-downloadable cloud computing software using artificial intelligence for auditing of governance, management and operation of regulatory-integrated organizations; Providing temporary use of on-line non-downloadable software development tools; Providing temporary use of on-line non-downloadable software development tools for deploying conformity science systems, quality management systems, systems-level artificial intelligence, systems-learning artificial intelligence, blockchain conformity management systems, quantum computing systems for use in government, management, commerce and finance; Providing temporary use of online non-downloadable middleware for providing an interface between web browser and legacy systems; Providing temporary use of online non-downloadable simulation software for modeling blockchain-based government, regulatory, commercial and financial systems, technology, services and products; Providing user authentication services using biometric hardware and software technology for e-commerce transactions; Providing user authentication services using biometric hardware and software technology for trading in blockchain-based government, regulatory, commercial and financial systems, technology, services and products; Providing user authentication services using single sign-on technology for online software applications; Providing user authentication services using cryptographic or biometric hardware and software technology for e-commerce transactions; Providing virtual computer systems and virtual computer environments through cloud computing; Provision of search engines for the Internet; Psychological research; Public document retrieval; Quality control for others; Quality control of goods and services; Quality management services, namely, quality evaluation and analysis, quality assurance, and quality control, in the field of conformity science, quality management systems, systems-level artificial intelligence, systems-learning artificial intelligence, blockchain conformity management systems, quantum computing systems for use in government, management, commerce and finance; Reconstruction of database
systems for others; Recovery of computer data; Remote diagnosis of medical diagnostic imaging, clinical and biomedical equipment for determining the need for repair; Remote monitoring of printers for others; Remote monitoring services of heating, ventilating and air conditioning apparatus; Remote online backup of computer data; Rental of a database server to third parties; Rental of application software; Rental of computer software, data processing equipment and computer peripheral devices; Rental of computers and software; Rental of computers relating to computer security and prevention of computer risks; Rental of humanoid robots with artificial intelligence; Rental of load banks for testing electrical power sources; Rental of measuring apparatus; Rental of software for Internet access; Rental of space in a computer co-location facility for containerized data centers of others; Rental of technical drawing instruments; Rental of web servers; Repair of computer software; Repair of damaged computer programs; Repair of software; Research and development and consultation related thereto in the field of conformity science, quality management systems, systems-level artificial intelligence, systems-learning artificial intelligence, blockchain conformity management systems, quantum computing systems for use in government, management, commerce and finance; Research and development in the field of conformity science, quality management systems, systems-level artificial intelligence, systems-learning artificial intelligence, blockchain conformity management systems, quantum computing systems for use in government, management, commerce and finance; Research and development of 3D content, 3D technology and processes, stereoscopic 3D projection, 3D animation technology, 3D processing power, 3D techniques, and flexible forward projection; Research and development of advanced learning technologies and teaching methods; Research and development of environmentally friendly forms of energy and power; Research and development of new products for others; Research and development services in connection with physics; Research in the area of semiconductor processing technology; Research in the field of artificial intelligence; Research in the field of climate change; Research in the field of physics; Research in the field of telecommunications technology; Research in the field of conformity science, quality management systems, systems-level artificial intelligence, systems-learning artificial intelligence, blockchain conformity management systems, quantum computing systems for use in government, management, commerce and finance; Research in the reduction of carbon emissions; Research on machines; Research relating to mechanical engineering; Research services in the field of information and telecommunications technology; Residential building design; Residential insurance inspections featuring property condition reports; Retrieving public documents; Room design consisting of selection of artwork, lighting, and furnishings for an environment designed to help achieve mental wellness, including stress management and relaxation, using computer controlled advanced sound wave technology; Safety auditing to improve safety of construction workers on residential construction sites; Satellite telecommunications technology service to allow efficiencies of the carrier by creating efficient use of bandwidth on a satellite transponder; Scientific and technological research in the field of natural disasters; Scientific and technological research relating to patent mapping; Scientific and technological services, namely, research and design in the field of integrated system architecture that allows for the rapid development of highly interactive and customizable learning applications; Scientific and technological services, namely, research and design in the field of conformity science, quality management systems, systems-level artificial intelligence, systems-learning artificial intelligence, blockchain conformity management systems, quantum computing systems for use in government, management, commerce and finance; Scientific research; Scientific research and development; Scientific research in the field of conformity science, quality management systems, systems-level artificial intelligence, systems-learning artificial intelligence, blockchain conformity management systems, quantum computing systems for use in government, management, commerce and finance; Scientific study and research in the fields of conformity science, quality management systems, systems-level artificial intelligence, systems-learning artificial intelligence, blockchain conformity management systems, quantum computing systems for use in
government, management, commerce and finance; Searching and retrieving information, sites, and other resources available on computer networks for others; Server hosting; Services for maintenance of computer software; Services for renting computers; Services for reproducing computer programs; Services for updating computer software; Sewer system monitoring services; Software as a service (SAAS) services featuring software for managing conformity science, quality management systems, systems-level artificial intelligence, systems-learning artificial intelligence, blockchain conformity management systems, quantum computing systems for use in government, management, commerce and finance; Software as a service (SAAS) services featuring software using artificial intelligence for managing conformity science, quality management systems, systems-level artificial intelligence, systems-learning artificial intelligence, blockchain conformity management systems, quantum computing systems for use in government, management, commerce and finance; Hosting software for use by others for managing conformity science, quality management systems, systems-level artificial intelligence, systems-learning artificial intelligence, blockchain conformity management systems, quantum computing systems for use in government, management, commerce and finance; Software authoring; Software development for others in the field of software configuration management; Software development in the framework of software publishing; Software porting; Surveying; Technical advice relating to operation of computers; Technical advisory services relating to computer programs; Technical consultation in the field of environmental science, engineering services, design for others in the field of environmental engineering, designing and testing of new environmentally friendly products for others; Technical consultation in the field of power plant engineering, namely, testing and evaluation of power plant equipment to improve performance and efficiency of such equipment; Technical consulting services in the fields of datacenter architecture, public and private cloud computing solutions, and evaluation and implementation of internet technology and services; Technical support services, namely, 24/7 monitoring of network systems, servers and web and database applications and notification of related events and alerts; Technical support services, namely, installation, administration, and troubleshooting of web and database applications; Technical support services, namely, migration of datacenter, server and database applications; technical support services, namely, troubleshooting in the nature of remote and in-house diagnosing problems with software applications and computer hardware used in hosted datacenters; Technical support services, namely, remote and on-site infrastructure management services for monitoring, administration and management of public and private cloud computing IT and application systems; Technical support services, namely, technical administration of servers for others and troubleshooting in the nature of diagnosing server problems; Technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems; Technical support services, namely, troubleshooting of computer software problems; Technical support services, namely, troubleshooting of industrial process control computer software problems; Technical support, namely, providing backup computer programs and facilities; Technical support, namely, providing computer facilities for the electronic storage of digital data; Technical surveying; Technical writing; Technical writing for others; Technological advisory services relating to machine engineering analysis; Technological consultation in the technology field of conformity science, quality management systems, systems-level artificial intelligence, systems-learning artificial intelligence, blockchain conformity management systems, quantum computing systems for use in government, management, commerce and finance; Technological consulting services in the field of alternative energy generation; Technological planning and consulting services in the field of conformity science, quality management systems, systems-level artificial intelligence, systems-learning artificial intelligence, blockchain conformity management systems, quantum computing systems for use in government, management, commerce and finance; Technology advice provided to Internet users by means of a support hotline;
Technology consultation and research in the field of conformity science, quality management systems, systems-level artificial intelligence, systems-learning artificial intelligence, blockchain conformity management systems, quantum computing systems for use in government, management, commerce and finance; Technology consultation in the field of conformity science, quality management systems, systems-level artificial intelligence, systems-learning artificial intelligence, blockchain conformity management systems, quantum computing systems for use in government, management, commerce and finance; Technology specification, namely, analyzing technology requirements and developing recommendations for the computer software and systems and other technology needed to meet those requirements, in the field of conformity science, quality management systems, systems-level artificial intelligence, systems-learning artificial intelligence, blockchain conformity management systems, quantum computing systems for use in government, management, commerce and finance; Technology supervision and inspection in the field of conformity science, quality management systems, systems-level artificial intelligence, systems-learning artificial intelligence, blockchain conformity management systems, quantum computing systems for use in government, management, commerce and finance; Telecommunications engineering consultancy; Telecommunications technology consultancy; Telephone number mapping services for unifying the telephone number system with Internet addressing and identification systems; Temporary electronic storage of information and data; Temporary interior and exterior home decoration consultation, namely, home staging consultation for the purpose of making homes more appealing to prospective buyers; Testing and evaluating accreditation standards for conformity science systems, quality management systems, systems-level artificial intelligence, systems-learning artificial intelligence, blockchain conformity management systems, quantum computing systems for use in government, management, commerce and finance; Testing of computer programs; Testing of computer software; Testing of computer software for conformity science systems, quality management systems, systems-level artificial intelligence, systems-learning artificial intelligence, blockchain conformity management systems, quantum computing systems for use in government, management, commerce and finance; Testing of computers; Testing of computers for conformity to statutory, regulatory, conformity management systems, quality management systems, business continuity, shareholder and customer requirements; Testing of filters; Testing of security systems; Testing or research on civil engineering; Testing or research on electricity; Testing the functionality of apparatus and instruments; Testing the functionality of machines; Testing the functionality of machines in the field of conformity science and blockchain systems; Testing, analysis and evaluation of service providers to determine conformity with established accreditation standards; Testing, analysis and evaluation of the goods and services of others to determine conformity with certification standards; Testing, analysis and evaluation of the goods and services of others to determine conformity with certification standards; Testing, analysis and evaluation of the services of others to determine conformity with certification standards; testing, analysis and evaluation of the goods of others to assure compliance with industry standards; Testing, analysis, and evaluation of the knowledge, skills and abilities of others in the field of conformity science, quality management systems, systems-level artificial intelligence, systems-learning artificial intelligence, blockchain conformity management systems, quantum computing systems for use in government, management, commerce and finance to determine conformity with certification standards; Testing, analysis, and evaluation of the knowledge, skills, and abilities of others to the order and specification of others; Testing, analysis, and evaluation of the knowledge, skills, and abilities of others to the order and specification of others; Testing, analysis, and evaluation of the goods or services of others to the order and specification of regulators, top management, directors, risk insurance underwriters, shareholders and customers; Testing, analysis, and evaluation of the goods of others to assure compliance with industry standards; Testing, analysis, and evaluation of the knowledge, skills and abilities of others in the field of conformity science, quality management systems, systems-level artificial intelligence, systems-learning artificial intelligence, blockchain conformity management systems, quantum computing systems for use in government, management, commerce and finance to determine conformity with certification standards; Testing, analysis, and evaluation of the knowledge, skills, and abilities of others to the order and

**MARK INFORMATION**

**Mark Literal(s)** TOOLS I

**Description of the Mark**
The mark consists of the styled wording "TOOLS" with the letters "T", "L" and "S" in black. The letters "OO" in "TOOLS" are created by two white, blue, black, and gray eyes with black eyebrows and black eyelashes. Inside one of the eyes is a stylized white letter "I". Next to the wording is the design of a black outlined electronic device with a green check mark superimposed. The remaining color white represents background, outlining, shading, and/or transparent area and is not part of the mark.

**Color Drawing** Yes

**Color Claimed** The color(s) black, white, gray, blue, and green is/are claimed as a feature of the mark.

**Disclaimer** "TOOLS"

**GOODS AND SERVICES INFORMATION**

<td>Description of the Mark</td>
<td></td>
<td></td>
<td>The mark consists of the literal element 'iceWell' in black large sans serif bold font, with the literal element 'CHICAGO' in all caps in a smaller black bold sans serif font centered below. Below is the image of a flag that displays the literal element 'IceWELL' in black sans serif font centered with the lowercase letter 'i' connecting with the lowercase letter 'c' which intertwines with a lowercase letter 'e' that is rotated forward at a 90 degree angle cascading toward the 'WELL' located directly beneath appearing in all caps with the letters 'E' 'L' 'L' coinciding as one unit. In a smaller font the literal element 'CHICAGO' appears in all black caps centered below. The background consists of 3 unequal horizontal stripes of Icy Aqua Blue, Coral Red, and Icy Aqua Blue. Below is the literal element 'Icemell- more than a brand, it's koldhearted' in black bold sans serif font. Below is the image of a large black heart with two large white snowflakes appearing as eyes, and a smaller white snowflake as a nose, with the literal element 'KOLDHEARTED' in all black caps appearing in the shape of the heart's mouth, with white icicles hanging from the letters. The heart has white snow at the top of the heart and icicles at the bottom of the image. Below is the literal element 'Icemell is kold blooded drip Icemell bloody the ice.' in black bold sans serif font. Below is the literal element 'ice up' in black bold sans serif font, with the lowercase letter 'i' connecting with the lowercase letter 'c' which intertwines with a lowercase letter 'e' that is rotated forward at a 90 degree angle cascading toward the literal element up, which is located above and to the right. The literal element 'W' in black large font has a white outlined circle in the center with a bar extending down. To the right is the literal element 'ice 'em' in black with the lowercase letter 'i' connecting with the lowercase letter 'c' which intertwines with a lowercase letter 'e' that is rotated forward at a 90 degree angle, with the literal element 'em' in a smaller font located to the bottom right. The remainder of the white represents background and/or transparent areas and is not part of the mark. Color Drawing</td>

**Mark Information**

- **Standard Character Claim**: No
- **Mark Drawing Type**: 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S)
- **Description of the Mark**: The mark consists of an upper and a lower section with the lower section divided into two sections. The upper section consists of the word "DORFMAN" in all caps. The lower section consists of a rectangular shape with a dark background separated by a vertical line of dots into two unequal sections. On the shorter left side of the dots is a stylized character similar to the letter "H" with curved edges on both sides and directly in between a stylized character similar to a backwards-facing letter "C" that represents a stemless letter "D" on the left and a stylized character similar to a forward-facing letter "C" on the right. On the longer right side of the dots is the wording "HAT Co" with the letter "o" lifted and stylized to include a short line directly underneath. **Disclaimer**: "HAT CO"

**Goods and Services Information**

Mark Literal(s) DPHN DIRECTORS OF PUBLIC HEALTH NURSING

CASE IDENTIFIERS
Serial Number: 90844482 Application Filing Date: Jul. 23, 2021 Register: Principal Mark Type: Service Mark
Publication Date: Dec. 06, 2022

MARK INFORMATION
Standard Character Claim: No Mark Drawing Type: 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S)
Description of the Mark: The mark consists of an outline of the state of California. The interior of the shape of California is filled with 4 different images, with each overlapping the end of one into the beginning of the next. The first image is a mountain scene with seven trees against a background of mountains with clouds. The next image is light and dark contrasting vertical line sections with the right side of the darker sections being rigid. The third image is a silhouette of city scape and the fourth image inside of the shape is a wave crest. There is a sunburst coming from the smooth right side of the state outline that transitions from light to dark across 80% of the full length of the state. In the lower left corner aligned with the top left side of the state and the bottom side of the state are the letters DPHN in bold and underlined with the words "DIRECTORS OF PUBLIC HEALTH NURSING" and THE DESIGN OF THE STATE OF CALIFORNIA

Disclaimer: "DIRECTORS OF PUBLIC HEALTH NURSING" AND THE DESIGN OF THE STATE OF CALIFORNIA

GOODS AND SERVICES INFORMATION
For Educational services in the nature of public health nursing thought workshops and conferences relating to current trends in the practice of public health nursing

For Business administration services related to public health nursing including; surveying counties, educational institutions and others vested in the practice of public health nursing; organizing conferences regarding current trends in public health nursing; facilitating collaboration efforts on behalf of public health nurses; and organizing and distributing communications regarding public health nursing

Mark Literal(s) LE MONÉ

The mark consists of the term "LE MONÉ". The letter "E" in "LE" is depicted in a font size smaller than the other letters in the mark with the top of the "E" in line with the top of the other letters and the bottom of the "E" ending slightly above the tip of the "L". The "O" in "MONÉ" is in the shape of a hollow lemon tilted to the right. There is an acute accent above the "E" in "MONÉ". The term "LE MONÉ" is superimposed on top of the profile image of half of a lemon. There is a filled-in circle on the bottom right side of the lemon, located below the "N" in the term "MONÉ," with a diameter slightly greater than half the width of the letter "N". The top half of an asterisk is superimposed above the middle of the image of the lemon and runs parallel to the term "LE MONÉ" with a width extending from just left of the "M" in "MONÉ" and ending just above the "O".

For Alcoholic beverages except beers; Alcoholic wines; Aperitif wines; Ready-to-drink alcoholic beverages, other than beer-based; Wine-based aperitifs
