

# United States of America

## United States Patent and Trademark Office

# STOSIGNATURE

**Reg. No. 6,161,998**

**Registered Sep. 29, 2020**

**Amended Mar. 21, 2023**

**Int. Cl.: 2, 17, 19, 37, 41, 42**

**Service Mark**

**Trademark**

**Principal Register**

STO SE & CO. KGAA (GERMANY Limited Partnership )  
EHRENBACHSTRASSE 1  
STUEHLINGEN, FED REP GERMANY D-79780

CLASS 2: Paints, varnishes, lacquers, glazes; sealer coatings for use on concrete, masonry, stucco finishes, EIFS finishes, fiber cement board, wood and drywall, Primers, intermediate coat and top coat paints, paints and paints with added pigments; colouring matters, namely, paints, dyestuffs; Primer paints and pigmented primers for building construction, in particular for masonry and concrete; Floor paints, in particular for concrete, plaster and screed surfaces; Epoxy resin lacquers for coating floors; Paints for coating floors, consisting of polyurethane and epoxy resins; Anti-static paints; Impregnating preparations, namely, primers for preparing surfaces to be painted, stone preservatives, namely, stone sealer coatings; Paints for use on traffic areas of all kinds, preservatives against rust and anti-corrosive preparations, in particular for the anti-corrosive protection of concrete and concrete maintenance, namely, anti-corrosive coatings and rust preventatives in the nature of a coating; Pigmented protective agents for stone, namely, exterior surface protective coatings; paint thinners; Preparations for preventing the deterioration of wood, namely, wood preservatives; Wood preservatives, all also coloured; Antifungal varnish; Raw natural resins; Metal foils and metals in powder form for use in painting; Elastomeric-based coatings with rigid foam granules for use on ceilings and walls; Floor coatings based on cement, screed, mortar or concrete, including in combination with epoxy resins and polyurethanes

CLASS 17: Plastics in extruded form for use in further manufacturing; Plastic seals for use in building construction; Insulating materials produced from plastics; Plastic film for insulating purposes; Stuffing materials of plastics; Plastics in extruded form used in production; Plastic foam in the form of sheets and blocks for use in further manufacturing; Synthetic plastic as semi-finished products in form of double profiles and expansion profiles; Fibreglass fabrics, Glass mesh fabric, glass-fibre nonwovens for insulation; Glass insulating sheets of all kinds, Acoustical insulation barrier panels; Packing, stopping and insulating materials, in particular thermal insulating materials for insulating buildings and for facades of buildings; Insulating materials of all kinds; Elasticised insulating materials; Sound absorbing, sound control and sound reflecting building materials, namely, sound absorbers and diffusers in the form of decorative display panels composed primarily of non-metal materials which function to control sound; Insulating panels in the form of heat insulation materials of rigid foam, [ rock wool ] \* mineral wool \*, glass wool, mineral fibres, mineral foam, Polyurethane (PU)

*Katherine Kelly Vidal*

Director of the United States  
Patent and Trademark Office

foam, Polyisocyanurate (PIR) foam, phenolic resin, cork, hemp, softwood fibres; sealing profiles, namely, polyurethane film for use in sealing and insulating buildings; joint packings and joint closures, namely, sealing and insulating materials; Sealants for buildings; Polymer-based patching and sealing compounds for masonry and wood; Crack filling compounds, namely, sealing and insulating materials; Sealants for joints; Flexible pipes, not of metal; Sealing and adhesive tapes for use in building; Adhesive tape for industrial and commercial use; Adhesive masking tapes; Fabric expansion joints for piping and rigid ducting; sealing and joint tapes, namely, wallboard joint tape; structural parts, profiles and rails of plastic for installation in thermal insulation composite devices; Woven fabrics in rolls, pieces or prefabricated forms for use in building, including fabric angles and corners, namely, fiberglass fabrics for building insulation; Filling foam insulation for use in building and construction

CLASS 19: Non-metal building materials, namely, concrete walls, non-metal wall tiles; non-metal building products, namely, wall boards; non-metal textured wall surfacings, namely, non-metal wall claddings for building; Woven fabrics in rolls, pieces or prefabricated forms for use in building, including fabric angles and corners, namely, waterproof fabric used in building construction for protection against floods; decorative ornaments and decorative profiles of rigid foam and foamed glass beads, namely, non-metal decorative moldings and decorative trim for use in building construction; String cornice profiles, not of metal; Termination strips, namely, seam tape for building; Bumper strips, namely, non-metal railings for the protection of buildings; Frames and surrounds for wall openings, namely, non-metal door and window frames; non-metal window sills; Non-metallic rigid pipes for building; non-metal beams; perches, namely, non-metal window sills; non-metal rails; Drywall corner bead not of metal; Angle irons, not of metal; corners, namely, plaster stops for reinforcing plaster in the corners of plastered walls; non-metal window sills; non-metal window frames; Non-metal door lintels, door sills and door frames; Non-metal building panels, in particular for covering walls and facades; Non-metal façade sheets, partly made of stone, artificial stone or with coatings visually reminiscent of stone; Non-metal building boards, wall panels and panels for façade claddings; Non-metal, front-hung, back-ventilated exterior wall cladding for buildings, including carrier sheets for various coating variants; Non-metallic façade panels for construction purposes and non-metallic fixing and bordering elements therefor; Asphalt-based coatings with rigid foam granules for use on ceilings and walls; Non-metal decorative moldings of composite materials for use in building construction; Stone; Building stone, Refractory construction materials, not of metal; Natural ashlar, namely, building stone, Calcareous stone, Sandstone, Granite, Marble; natural ashlar in blocks, slabs and massive stones for use as building stone; Ceramic tiles for flooring and facing; Non-metal façade panels for use in construction, namely, stone façade panels, stone-bonded façade panels, curtain-type, rear ventilated façade panels and non-metal façade panels for use in building walls; Interior and exterior stone floors; Works of stonemasonry, namely, engraved and cut stone plaques; ashlars, namely, building stone; Masonry blocks and paving blocks, namely, building stone; ceramic tiles, glass tiles; Bricks; filler for mosaics, namely, cement; Granulated marble, Sand, gravel; Spackling compound, Levelling compounds and quick-repair mortar, namely, self-leveling concrete for use in building construction; mortar for building; screed, namely, cement; Concrete; Finishing and base coats for indoor and outdoor applications, namely, asphalt-based coatings and sealants for use on roofs, walls and pavements; decorative plaster for indoor and outdoor applications; Artificial resin plaster, silicate plaster, silicone resin plaster, dry plaster in powder form; Lime for building, Cement, Plaster of Paris; Reinforcing materials, not of metal, for building; Wall coating compositions for spraying, painting and spreading, namely, asphalt-based coatings and sealants for use on walls; Decorative compositions for floor coatings in the nature of non-metal floor tiles; Non-metallic rigid pipes for construction purposes; building auxiliaries for use in wall draining, namely, non-metallic rigid pipes for construction purposes; Drilling hole filling compounds, namely, cement; rendering base and concrete repair materials for repairing concrete parts in structural and civil engineering, namely, concrete mix; Asphalt, pitch, bitumen; Modular non-metal structures with flexible covers for agricultural, commercial or industrial storage; Non-

metallic building sections, namely, building panels, not of metal; Ventilated curtain façade systems comprised of non-metal facade panels for construction purposes; reinforcing rails of plastic for construction purposes

CLASS 37: Civil building construction services; Construction consultancy relating to the structure and color selection of building coatings

CLASS 41: Providing training courses in the field of building construction; Preparing, arranging and conducting of workshops in the field of building construction; Conducting of further training events relating to the artistic, functional and technical-economic aspects of designing building surfaces, in particular interior and exterior walls, floors and ceilings

CLASS 42: Providing an on-line computer database featuring interior design and architectural design information in the nature of color, structure and material concepts for interior and exterior building coatings for individual buildings or groups of buildings; Computer programming for creating color and material concepts for interior design; Architectural design services, namely, selection and determination of colour tones, surfaces and materials for parts of buildings, individual buildings and cityscape designs; Architectural design services, namely, development of color and material concepts for use in construction; Preparation of technical reports, namely, drafting of plans and engineering drawings for others; Engineering consultancy services; Engineering design and consultancy; Architectural design consultancy regarding material and color selection, architecture, building design with stone, building design, energy efficiency and environmental planning; Development and testing of technical and design solutions for walls and wall coatings in the field of building construction; Technological services, namely, research in the field of building construction and design relating thereto; Color consultancy in construction, namely, color analysis and development to determine proper paint mixture for matching colors for exterior decorating purposes; Scientific and technological services and research and design relating thereto, namely, technology consulting with respect to using surface coatings in construction; Design and development of computer hardware and software; Computer services, namely, providing search engines for finding the information, resources and websites of others on a global computer network

THE MARK CONSISTS OF STANDARD CHARACTERS WITHOUT CLAIM TO ANY PARTICULAR FONT STYLE, SIZE OR COLOR

PRIORITY CLAIMED UNDER SEC. 44(D) ON EUROPEAN UNION APPLICATION NO. 18065484, FILED 05-16-2019, REG. NO. 018065484, DATED 01-10-2020, EXPIRES 05-16-2029

SER. NO. 88-648,205, FILED 10-09-2019

## **REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION**

**WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.**

### **Requirements in the First Ten Years\***

#### **What and When to File:**

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.\* See 15 U.S.C. §1059.

### **Requirements in Successive Ten-Year Periods\***

#### **What and When to File:**

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.\*

### **Grace Period Filings\***

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

**\*ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

**NOTE:** Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

**NOTE:** A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.
