GOODS AND SERVICES INFORMATION
For  Printing machines; offset printing machines; rotary web fed printing machines; rotary sheet fed printing machines; silk screen printing machines; pad printing machines; flexographic printing machines; gravure printing machines; printing machines for use on sheet metal; printing machines for use on cans; printing machines for use on hollow bodies being containers; printing machines for corrugated cardboard; inkjet printing machines and apparatus in the nature of inking apparatus for printing machines; laser marking machines and apparatus, namely, engraving machines and laser machines for printing; laser printing machines and apparatus in the nature of inking apparatus for printing machines; marking machines, namely, industrial machinery in the nature of electromechanical marking machines; lacquering machines being painting machines; packaging machines; paper coating machines, in particular working rotationally, for web-type and separate materials; digital printing and digital electromechanical marking machines for industrial use, based on electrophotography, magnetography, xerography, ink jet; exposure apparatus, being parts for printing machines for contact printing or creating circuit and print templates; electric credit card imprinting and electromechanical marking machines for industrial use, in particular for the graphics sector, the packaging sector and data processing; labellers being machines, namely, automatic industrial labeling machines for applying labels to containers; engraving machines; machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, namely, printing machines, metal forming machines; pallet changing and pallet transfer machines; stacking machines; machines for handling sheets and plates of metal, namely, metal forming machines; foodstuff distribution machines being packaging machines for food; machines and apparatus for the surface treatment of metals, namely, metal drawing machines; hot stamping machines and apparatus being automatic stamping machines; thermal transfer machines and apparatus being machines in the nature of heat transfer presses; rotary die-cutters for punching of printed matter or paper or plastics; flat-bed die cutters for stamping printed matter or paper or plastics; marking machines for printed matter, namely, electromechanical
addressing machines for printed matter; machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, namely, machines for pneumatic transporting, cutting, punching, industrial paper folding, dust collecting for chemical processing, tacking being packaging, packaging, compiling, sorting, and binding paper, scanning, checking in the nature of sorting printed products, perforating being punching, gluing, stapling, tying being packaging, bundling, bookbinding for industrial purposes; printing plates; flexographic printing plates; accessories, included in this class, for the aforesaid printing machines, , namely, structural machine parts for offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastic or metal or organic or inorganic materials, namely, control apparatus, printing mechanisms, inking apparatus, damping units, lacquering units, reel changers, folding apparatus; machines and mechanical apparatus being machine-operated platforms for storing printed matter or printing materials or printing material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; conveyors being machines, belts for conveyors, conveying apparatus for conveying printed matter or printing materials or printing material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies being containers, printing machines for corrugated cardboard, industrial inkjet printing machines and inking apparatus for printing machines, industrial inkjet printing machines, in particular with one or more inkjets, single-colour or multi-colour industrial inkjet printing machines, laser marking machines and apparatus being engraving machines and apparatus in the nature of laser machines for printing, laser printing machines and inking apparatus for printing machines, marking machines being industrial machinery in the nature of electromechanical marking machines, lacquering machines, packaging machines, paper coating machines, digital printing and digital electromechanical marking machines, labelling machines being automatic industrial labeling machines for applying labels to containers, engraving machines, machines and mechanical apparatus for the graphics industry being printing machines, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials in the nature of printing machines; machines and mechanical apparatus for the folding of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, namely, industrial paper folding machines; machines
and mechanical devices being polishing, bending, and punching machines for changing and/or bending and/or punching
printing plates and/or flexographic printing plates; machines and mechanical apparatus being machine-operated platforms for
the storing of printing plates for printing machines; conveying machines, conveyor belts, conveying apparatus being
machines for conveying printing plates for printing machines; machines and mechanical apparatus being cleaning machines for
cleaning rollers in inking apparatus or damping units and/or cylinders and/or lacquering units and/or inkjet print heads and/or
laser systems in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines,
screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing
machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies being
containers, printing machines for corrugated cardboard, industrial inkjet printing machines and inking apparatus for printing
machines, industrial inkjet printing machines, in particular with one or more inkjets, single-colour or multi-
colour industrial inkjet printing machines, laser marking machines and apparatus being engraving machines and laser machines
for printing, laser printing machines and inking apparatus for printing machines, industrial machinery in the nature of
electromechanical marking machines, lacquering machines, packaging machines, paper coating machines, digital printing
and digital electromechanical marking machines for industrial use, labelling machines being automatic industrial labeling
machines for applying labels to containers, engraving machines, machines and mechanical apparatus for the graphics
industry being printing machines, machines and mechanical apparatus for the further processing of printed matter or printing
materials or paper or plastics or metal or organic or inorganic materials being printing machines; machines and mechanical
apparatus for storing and adjusting rollers in inking apparatus and damping units and cylinders and lacquering units and inkjet
printing modules and laser systems, in all of the aforementioned being structural parts of printing machines, offset printing
machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines,
flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use
on cans, printing machines for use on hollow bodies being containers, printing machines for corrugated cardboard,
industrial inkjet printing machines and inking apparatus for printing machines, industrial inkjet printing machines, in
particular with one or more inkjets, single-colour or multi-colour industrial inkjet printing machines, laser marking being
engraving machines and apparatus in the nature of laser machines for printing, laser printing machines and inking apparatus for
printing machines, industrial machinery in the nature of electromechanical marking machines, lacquering machines, packaging
machines, paper coating machines, digital printing and digital electromechanical marking machines, labelling machines being
automatic industrial labeling machines for applying labels to containers, engraving machines, machines and mechanical
apparatus for the graphics industry being printing machines, machines and mechanical apparatus for the further processing of
printed matter or printing materials or paper or plastics or metal or organic or inorganic materials being printing machines;
machines and mechanical apparatus for adjustment, for inking apparatus and damping units and printer engine
cylinders and for lacquering units in printer engines and in lacquering units and for inkjet printing modules and laser systems,
all of the aforementioned being parts of printing machines; machines parts, namely, parts for inking apparatus for printing
machines, and damping units and inkjet printing modules and laser systems and cylinders in tempering machines, included in
this class; machines and mechanical apparatus for adjusting cutting equipment and cutting cylinders being structural parts
of printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing
machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on
sheet metal, printing machines for use on cans, printing machines for use on hollow bodies being containers, printing machines
for corrugated cardboard, industrial inkjet printing machines and inking apparatus for printing machines, industrial inkjet printing machines, in particular with one or more inkjets, single-colour or multi-colour industrial inkjet printing machines, laser marking being engraving machines and apparatus in the nature of laser machines for printing, laser printing machines and inking apparatus for printing machines, industrial machinery in the nature of electromechanical marking machines, lacquering machines, packaging machines, paper coating machines, digital printing and digital electromechanical marking machines, labelling machines being automatic industrial labeling machines for applying labels to containers, engraving machines, machines and mechanical apparatus for the graphics industry being printing machines, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials being printing machines; machines and mechanical apparatus for adjusting registers and register marks being structural parts of printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies being containers, printing machines for corrugated cardboard, industrial inkjet printing machines and inking apparatus for printing machines, industrial inkjet printing machines, in particular with one or more inkjets, single-colour or multi-colour industrial inkjet printing machines, laser marking being engraving machines and apparatus in the nature of laser machines for printing, laser printing machines and inking apparatus for printing machines, industrial machinery in the nature of electromechanical marking machines, lacquering machines, packaging machines, paper coating machines, digital printing and digital electromechanical marking machines for industrial use, labelling machines being automatic industrial labeling machines for applying labels to containers, engraving machines, machines and mechanical apparatus for the graphics industry being printing machines, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials being printing machines; mechanical control machines and apparatus for quality control being structural parts of printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies being containers, printing machines for corrugated cardboard, industrial inkjet printing machines and inking apparatus for printing machines, industrial inkjet printing machines, in particular with one or more inkjets, single-colour or multi-colour industrial inkjet printing machines, laser marking being engraving machines and apparatus in the nature of laser machines for printing, laser printing machines and inking apparatus for printing machines, marking being engraving machines, lacquering machines, packaging machines, paper coating machines, digital printing and digital electromechanical marking machines for industrial use, labelling machines being automatic industrial labeling machines for applying labels to containers, engraving machines, machines and mechanical apparatus for the graphics industry being printing machines, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials in the nature of printing machines; machines and mechanical apparatus for adjusting web tension settings being structural parts of printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies being containers, printing machines for corrugated cardboard, industrial inkjet printing machines and inking apparatus for printing machines, industrial inkjet printing machines, in particular with one or more inkjets, single-colour or multi-colour industrial inkjet printing machines, laser marking being engraving machines and apparatus in the nature
of laser machines for printing, laser printing machines and inking apparatus for printing machines, industrial machinery in the nature of electromechanical marking machines, lacquering machines, packaging machines, paper coating machines, digital printing and digital electromechanical marking machines for industrial use, labelling machines being automatic industrial labeling machines for applying labels to containers, engraving machines, machines and mechanical apparatus for the graphics industry being printing machines, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials being printing machines; fuel filters being parts of machines or engines; dust separators; dust removal and dust separation machines and chambers equipped therewith; filters for cleaning cooling air, for engines; blowing engines being blowing machines for the compression, exhaustion and transport of gases; fibre separators being machines for separating target materials from mixtures of materials; air compressors and air ejectors being fans for machine engines; collecting machines comprised of machine tools for compacting, filling and pressing of waste being particles, dust and fibres separated from machines; air conveying devices, namely, air conditioning compressors; blowing machines being power-operated blowers for motors and engines; air compressors; accessories being machine parts included in this class, for the aforesaid printing machines, namely, for offset printing machines, rotary web printing machines, sheet fed rotary printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies being containers, printing machines for corrugated cardboard, industrial inkjet printing machines and inking apparatus for printing machines, laser marking being engraving machines and apparatus in the nature of laser machines for printing, laser printing machines and inking apparatus for printing machines, industrial machinery in the nature of electromechanical marking machines, lacquering machines, packaging machines, paper coating machines, digital printing and digital electromechanical marking machines for industrial use, labellers being automatic industrial labeling machines for applying labels to containers, engraving machines, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials being printing machines, material handling machines in the nature of palletizers being pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal being metal forming machines, foodstuff distribution machines being packaging machines for food, machines and apparatus for the surface treatment of metals being metal forming machines, hot stamping machines and apparatus being automatic stamping machines, thermal transfer machines and apparatus being machines in the nature of heat transfer presses; fittings, included in this class, being structural parts in the nature of filters for filtering machines, dust separators, dust removal and dust separation machines and chambers equipped therewith, air filters for cleaning cooling air for engines, blowing machines being power-operated blowers, fibre separators being collecting machines comprised of machine tools for compacting, filling and pressing machine-separated waste being particles, dust and fibres, air compressors and air ejectors being engine fans for machines, collecting machines comprised of machine tools for compacting, filling and pressing machine-separated particles, dust and fibres; electronic label printing machines for commercial use, namely, machines and mechanical apparatus for producing security labels, securities, banknotes and/or components therefor; automatic industrial labeling machines for applying labels to containers, namely, machines and mechanical apparatus for applying security labels and/or components therefor; packaging machines, namely, machines and mechanical apparatus for packaging product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; structural parts for the aforesaid goods and accessories being structural parts for the aforesaid goods, included in this class
Machinery

For Air conditioning, heating, refrigerating, ventilating, humidifying and dehumidifying installations and apparatus, namely, air-conditioning units; air handling installations being air handlers; air delivery devices for air-conditioning, namely, heat recovery ventilators; air repeaters being air heaters; air coolers being air cooling apparatus; filters for air conditioning; nozzle chambers for humidifying, namely, air humidifiers; ventilating installations and apparatus for air conditioning, namely, ventilating exhaust fans; air conditioning, heating, refrigerating, ventilating, humidifying and dehumidifying installations and apparatus, namely, air-conditioning apparatus and structural parts therefor, in particular for spaces, buildings, trains, ships and vehicles; heat recovery ventilators, air heaters, air cooling apparatus and filters for air conditioning, included in this class; clean chambers for humidifying and washing out air; spray nozzles being structural parts of air conditioning installations, airflow control valves and shut-off valves being structural parts for air-conditioning installations; individual air treatment systems comprised of ionization apparatus for the treatment of air, air ducts being fabric air dispersion ducts for distributing and dispensing air as part of a HVAC system, air outlets being ventilating exhaust fans, nozzles being jet nozzles for bathtubs, induction devices being induction water heaters and fan coil units being fans for HVAC units for heating and cooling spaces, room cooling devices with ventilators being air-conditioning units; air outlets and inlets being structural parts for ventilating installations, including in combination with fume cupboards; facade air-conditioning modules being air-conditioning units for decentral heating, cooling, fresh-air supplying, air recirculating and ventilating, for spaces and buildings; air conditioning filters for process air technology, for filtering dust, fibres, chips, granules and paper; drying ovens not for laboratory use; desiccating apparatus being desiccating units for producing dried fruits; heat accumulators; heat exchangers not being parts of machines and structural parts therefor included in this class, containing active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations; thermal energy accumulators being heat accumulators; solar thermal collectors for heating; solar modules for heat generation, namely, solar collectors for heating; regulating and safety accessories for gas apparatus included in this class, namely, flashback arrectors and reverse flow check valves; structural parts of the aforesaid goods, included in this class

Environmental Control Apparatus

For Installation, maintenance and repair of printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus and parts therefor;
installation, maintenance and repair of installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; installation, maintenance and repair of air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air conveying devices, namely, fans, blowing machines and compressors, air heaters, air coolers, air filters, and nozzle chambers for humidifying; installation, maintenance and repair of drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; installation, maintenance and repair of machines for producing security labels, securities, banknotes; installation, maintenance and repair of machines for applying security labels; installation, maintenance and repair of machines for producing product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; installation, maintenance and repair, included in this class, of pre-printing data processing equipment, parts or fittings for pre-printing data processing equipment, data processing equipment for data preparation, including continuous data preparation, variable data printing, including database printing, further processing of printed matter, production controls, parts and fittings for interfaces and/or parts or fittings for data transfer for devices for transport and/or storage of printed matter or printing materials or printing material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; installation, maintenance and repair of electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus and/or web tension controls, being parts or fittings for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials.
namely, for transporting, cutting, punching, folding, collecting, tacking, packaging, compiling, sorting, binding, scanning, checking, perforating, gluing, stapling, tying, bundling, bookbinding; installation, maintenance and repair of electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus, being parts or accessories for installations, equipment, apparatus, filters, separators, suction and conveying devices for the air-technology cleaning, dust removal and air separation of machines and rooms equipped therewith, air filters, blowers and fibre separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing particles, dust and fibres separated from machines; installation, maintenance and repair of electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus, being parts or accessories for ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air coolers, air filters, and nozzle chambers for humidifying; installation, maintenance and repair of electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus, being parts or accessories for machines for producing product security means, identification features, security labels, securities, banknotes and/or components thereof; installation, maintenance and repair of electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus and/or web tension controls, being parts or accessories for machines for applying product security means, identification features, security labels, securities, banknotes and/or components thereof; installation, maintenance and repair of electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus and/or web tension controls, being parts or accessories for machines for packaging product security means, identification features, security labels, securities, banknotes and/or components thereof; installation, maintenance and repair of electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines,
machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; installation, maintenance and repair of electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; installation, maintenance and repair of electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; installation, maintenance and repair of electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts thereof, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; installation, maintenance and repair of electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for producing product security means, identification features, security features, security labels, securities, banknotes and/or components thereof; installation, maintenance and repair of electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for applying product security means, identification features, security features, security labels and/or components thereof; installation, maintenance and repair of electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and/or components thereof; installation, maintenance and repair of remote control, remote operation, remote monitoring, control and/or regulating apparatus and equipment for ink levers, ink rollers, damping rollers, register adjusting devices, devices for storing and/or adjusting rollers in inking apparatus or damping units and/or cylinders, devices for cleaning rollers in inking apparatus or damping units and/or cylinders, and/or inkjet print heads and/or laser systems, for cutting equipment and/or cutting cylinders, registers and/or register marks, web tension settings, being parts or fittings for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; installation, maintenance and repair of remote control, remote operation, remote monitoring, control and/or
regulating apparatus and equipment for devices for the changing and/or transporting and/or storage of printing plates, for inking apparatus and/or damping units and/or printer engine cylinders in printer engines, and/or for devices for tempering, for inking apparatus and/or damping units and/or cylinders in printer engines; installation, maintenance and repair of remote control, remote operation, remote monitoring, control and/or regulating apparatus and equipment for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; installation, maintenance and repair of remote control, remote operation, remote monitoring, control and/or regulating apparatus and equipment for installations, equipment, apparatus, filters, separators, suction and conveying devices for the air-technology cleaning, dust removal and air separation of machines and rooms equipped therewith, air filters, blowers and fibre separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing particles, dust and fibres separated from machines; installation, maintenance and repair of remote control, remote operation, remote monitoring, control and/or regulating apparatus and equipment for ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; installation, maintenance and repair of remote control, remote operation, remote monitoring, control and/or regulating apparatus and equipment for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; installation, maintenance and repair of remote control, remote operation, remote monitoring, control and/or regulating apparatus and equipment for machines for producing product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; installation, maintenance and repair of remote control, remote operation, remote monitoring, control and/or regulating apparatus and equipment for machines for applying product security means, identification features, security features, security labels and/or components therefor; installation, maintenance and repair of remote control, remote operation, remote monitoring, control and/or regulating apparatus and equipment for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; machinery installation, maintenance and repair; rebuilding machines that have been worn or partially destroyed; installation of machines in the context of commissioning being the installation of machines; maintenance of machines in the context of commissioning being the installation of machines; cleaning of machines; cleaning of buildings; vehicle cleaning;
installation and maintenance of apparatus for the payment of goods and/or services and/or bills, in particular for enabling
customers to pay by themselves, in particular by payment means in the form of banknotes and/or coins and/or tokens of value
and/or cashless payment by debit, credit and/or loyalty cards, in particular contactless and/or contact cards and/or near field
communication (NFC) apparatus, including in particular with return of change; installation and maintenance of money-
dispensing apparatus; installation and maintenance of money-receiving apparatus; installation and maintenance of money-
dispensing and money-receiving apparatus; installation and maintenance of vending machines; installation and maintenance of
accessories for the aforesaid apparatus, in particular cash boxes for receiving payment means, in particular banknotes and/or
coins and/or tokens of value; installation, maintenance and repair of voice command devices for printing apparatus, offset
printing machines, web fed rotary printing machines, sheet fed rotary printing machines, screen printing machines, pad printing
machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing
machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet
printing machines and apparatus, ink-jet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet
printers, laser marking machines and apparatus, marking machines, lacquering machines, machines for packing, coating machines, the aforesaid goods in particular rotary machines for web-type and
separated materials, digital printing and marking machines based on electrophotography, magnetography, xerography, inkjet,
exposure apparatus, being parts for printing machines for contact printing or creating circuit and print templates, numbering,
coding, imprinting and marking machines, in particular for the graphics sector, for the packaging sector and for data
processing, labeling machines, engraving machines; all of the foregoing excluding computer software

and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment being calibration, for subassemblies and parts for installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment being calibration, for subassemblies and parts for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment being calibration, for subassemblies and parts for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment being calibration, for subassemblies and parts for machines for producing product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment being calibration, for subassemblies and parts for applying product security means, identification features, security features, security labels and/or components therefor; electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment being calibration, for subassemblies and parts for packaging product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; recorded consultancy software and recorded sales software for data processing for electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; recorded consultancy software and recorded sales software for data processing for electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for
subassemblies and parts for installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; recorded consultancy software and recorded sales software for data processing for electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheatrers, air coolers, air filters, and nozzle chambers for humidifying; recorded consultancy software and recorded sales software for data processing for electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment, for subassemblies and parts for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; recorded consultancy software and recorded sales software for data processing for electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for producing product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; recorded consultancy software and recorded sales software for data processing for electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for packaging product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; recorded consultancy software, recorded sales software, and recorded software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating ink slides, ink rollers, damping rollers, register adjustment devices in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; recorded consultancy software, recorded sales software, and recorded software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating devices for transporting and storing printed matter or printing materials or printing material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal,
printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; recorded consultancy software, recorded sales software, and recorded software for the remote control, remote operation, remote monitoring, control and/or regulating of devices for the changing and transporting and storage of printing plates; recorded consultancy software, recorded sales software, and recorded software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating devices for cleaning rollers in inking apparatus or damping units and/or cylinders and/or inkjet print heads and/or laser systems in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; recorded consultancy software, recorded sales software, and recorded software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating devices for storing and adjusting rollers in inking apparatus or damping units and/or cylinders and/or inkjet print heads and/or laser systems in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; recorded consultancy software, recorded sales software, and recorded software for the remote control, remote operation, remote monitoring, control and regulating of inking apparatus and/or damping units and/or printer engine cylinders in printer engines; recorded consultancy software, recorded sales software, and recorded software for the remote control, remote operation, remote monitoring, control and regulation of devices for tempering of inking apparatus or damping units and/or cylinders and/or inkjet print heads and/or laser systems in printer engines; recorded consultancy software, recorded sales software, and recorded software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating cutting equipment and/or cutting cylinders in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing
machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; recorded consultancy software, recorded sales software, and recorded software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating registers and register marks in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; recorded consultancy software, recorded sales software, and recorded software for remote control, remote operation, remote monitoring, control and regulation for the purposes of quality control in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; recorded consultancy software, recorded sales software, and recorded software for remote control, remote operation, remote monitoring, control and regulating, for quality control in installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; recorded consultancy software, recorded sales software, and recorded software for remote control, remote operation, remote monitoring, control and regulating, for quality control in ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; recorded consultancy software, recorded sales software, and recorded software for remote control, remote operation, remote monitoring, control and regulating, for quality control in drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with
catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; recorded consultancy software, recorded sales software, and recorded software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating web tension settings in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inks, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; recorded consultancy software, recorded sales software, and recorded software for data processing for devices for pre-press, for the printing of printed matter, for the further processing of printed matter, for production control, and for production planning; recorded consultancy software, recorded sales software, and recorded software for data processing for printing machines, for the printing of printed matter, for the further processing of printed matter, for production control, and for production planning; recorded consultancy software, recorded sales software, and recorded software for graphical user interfaces and data transfer, for use with printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus and parts therefor; recorded consultancy software, recorded sales software, and recorded software for graphical user interfaces and data transfer, for use with installations, equipment, apparatus, filters, separators, suction and conveying devices for air-technology cleaning, dust removal and air separation from machines and rooms equipped therewith, air filters, fans, fibre separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing of particles, dust and fibres separated from machines; recorded consultancy software, recorded sales software, and recorded software for graphical user interfaces and data transfer, for use with ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and de-aerating, humidifying and dehumidifying installations and apparatus, air treatment installations, air conveying devices, in particular fans, blowers and compactors, air heaters, air coolers, air filters, and nozzle chambers for humidifying; recorded consultancy software, recorded sales software, and recorded software for graphical user interfaces and data transfer, for use with drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties,
heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; recorded consultancy software, recorded sales software, and recorded software for graphical user interfaces and data transfer, for use with machines for producing product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; recorded consultancy software, recorded sales software, and recorded software for graphical user interfaces and data transfer, for use with machines for applying product security means, identification features, security features, security labels and/or components therefor; recorded consultancy software, recorded sales software, and recorded software for graphical user interfaces and data transfer, for use with machines for packaging product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; recorded software for remotely controlling, remotely operating, remotely monitoring, controlling and regulating devices for transporting and storing printed matter or printing materials or printed material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; recorded software for remotely controlling the transport, packaging and storage of remote controls, remote operators, remote monitoring apparatus, controllers and regulators for devices for the transport, packaging and storage of printed matter or printing materials or printing material reels or paper or paper reels or plastics or plastics reels or metal or organic or inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; RFID (radio frequency identification) systems comprised of radio frequency identification tag readers and tags; encoded electronic identification chips and cards for identifying particular users of computers; apparatus for the payment of
goods and/or services and/or bills, in particular for enabling customers to pay by themselves, in particular by payment means in the form of banknotes and/or coins and/or tokens of value and/or cashless payment by debit, credit and/or loyalty cards, in particular contactless and/or contact cards and/or (NFC) near field communication apparatus, including in particular with return of change, namely, near field communication (NFC) technology-enabled readers; automated teller machines (ATM); money-receiving apparatus, namely, coin counting or sorting machines; money-dispensing and -receiving apparatus, namely, automated teller machines (ATM); fittings for the aforesaid apparatus, included in this class, in particular cartridges for collecting payment means, in particular bank notes and/or coins and/or tokens of value, namely, mechanisms for coin-operated apparatus; electric apparatus, namely, data processing equipment for communication with recording media, in particular for communication with recording media with integrated circuits and recording media with contactless interfaces, and in particular data processing equipment for writing data in or on recording media, for reading data from or on recording media and for displaying data from recording media on a display; data processing equipment for personalising recording media; machine-readable recording media, in particular recording media with integrated circuits for storing, encrypting and decrypting, processing and providing data and programs, namely, blank digital storage media, machine-readable; cards having an integrated circuit being chip cards, in particular cards having microprocessors for communication with external data processing devices or with mobile radio terminals, namely, blank electronic chip cards; coded telecommunication cards being encoded electronic chip cards for identifying particular users of telephones; coded and uncoded digital recording media with contactless interfaces, namely, blank digital storage media, machine-readable; integrated circuits with characteristic physical properties for protection against forgery; memories for data processing installations, in particular non-volatile memories (digital storage media); digital recording media containing memories, in particular non-volatile memories, namely, blank digital storage media, machine-readable; electric apparatus for processing, in particular encryption and decryption, data for both online and offline operation, namely, data processing apparatus; downloadable software for data processing for computer network applications, in particular for internet, intranet and extranet applications; downloadable data processing software, in particular for telecommunications with chip card-activated mobile telephones and in particular for associated chip cards and mobile telephones, and downloadable computer programs for activating, modifying, testing and displaying data and software structures stored in these telecommunications cards; downloadable software for the encryption and decryption and the signing of data; downloadable operating system software and downloadable application software for data processing for digital recording media with integrated circuits, in particular for hardware tokens and chip cards, and for data processing equipment for communication with these digital recording media; downloadable computer programs for the development, management and maintenance of all the aforesaid types of software; digital recording media featuring the aforesaid software, namely, data processing software, recorded on computer media; electronically/ optically stored pre-recorded advertising and communications media, included in this class, in particular films, videos, included in this class, namely, DVDs featuring instruction on printing machines; electronic checking in the nature of supervision, control, display and measuring apparatus, and recorded consultancy software, recorded sales software, and downloadable software, included in this class, for voice control of printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, in particular with rotational
operation for web-form and isolated materials, digital printing and marking machines on the basis of electrophotography, magnetography, xerography, inkjet, exposure apparatus, being parts of printing machines for contact printing or creating circuit and print templates, numbering, coding, imprinting, and marking machines, in particular for the graphics sector and the data processing sector, labelling machines, engraving machines; downloadable artificial intelligence and machine learning software for operating printing machines; downloadable data management software; downloadable simulation software featuring instruction in operating printing machines for use in digital computers; interactive electronic databases in the field of printing machine operation, recorded on computer media; downloadable software for the integration of artificial intelligence and machine learning in the field of big data; downloadable artificial intelligence software for machine learning; interactive software based on artificial intelligence, namely, downloadable computer software using artificial intelligence for facial and speech recognition; downloadable artificial intelligence software for analysis of printing errors and causes; downloadable artificial intelligence software for operating video cameras for surveillance; computer software platforms, recorded or downloadable, for application development; internet platform for electronic commerce, namely, downloadable computer software platforms for web hosting; downloadable software for data processing for the graphics industry; downloadable software platform for database management for the internet; downloadable software for providing internet-based access to applications and services; internet platform for electronic commerce, namely, downloadable computer software platforms for web hosting; downloadable management information system (MIS) software for database management; downloadable data conversion software; interfaces for computers; downloadable software for operating, controlling, and monitoring video camera equipment for the graphics industry; personal digital assistants; wireless communication devices featuring voice, data and image transmission; downloadable computer software for creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organizing text, graphics, images, audio, video, and multimedia content, and electronic publications; downloadable operating software, downloadable computer software for data synchronization, downloadable application development software; downloadable computer software for personal information management; downloadable computer software for database management; downloadable computer programs for accessing, browsing and searching online databases; downloadable web browser software for mobile communications devices; downloadable computer software to enhance mobile access to the internet via computers, mobile computers, and mobile communications devices; downloadable computer software for transmitting, sharing, receiving, downloading, streaming, displaying and transferring content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works via portable electronic devices and computers and global computer and communications networks; inkjet color printers for documents, in particular with one or more inkjets, single-colour or multi-colour inkjet color printers for documents; coding machines being electronic coding units, for use in the graphics sector, packaging sector, and data processing sector; mechanical remote checking and inspecting apparatus and instruments for quality control of machines for producing security labels, securities, banknotes, and/or components therefor, namely, data processing apparatus; mechanical remote checking and inspecting apparatus and instruments for quality control of machines for packaging product security apparatus with identification features, security features, security labels, security apparatus, banknotes and/or components therefor, namely, data processing apparatus; mechanical remote checking and inspecting apparatus and instruments for quality control of machines for packaging product security apparatus with identification features, security features, security labels, security apparatus, banknotes and/or components therefor, namely, data processing apparatus; mechanical remote checking and inspecting apparatus and instruments for quality control of security labels, security apparatus, banknotes, and/or components therefor, namely, data processing apparatus; voice
command devices being home automation hubs comprised of voice-activated speakers, computer hardware, and downloadable software for use in operating printing machines, offset printers, web-fed rotary printing machines, sheet fed rotary printing machines, silk-screen printing machines, pad printing machines, flexographic printing machines, intaglio printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, ink jet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, machines for packing, coating machines, the aforesaid goods in particular rotary machines for web-type and separated materials, digital printing and marking machines based on electrophotography, magnetography, xerography, inkjet, exposure apparatus, being parts for printing machines for contact printing or creating circuit and print templates, numbering, coding, imprinting and marking machines, in particular for the graphics sector, for the packaging sector and for data processing, labellers being machines, engraving machines; structural parts for the aforesaid goods and accessories for the aforesaid goods, included in this class
