

# United States of America

## United States Patent and Trademark Office

We turn on the promise of a new day.

**Reg. No. 6,274,931**

**Registered Feb. 23, 2021**

**Amended Jan. 09, 2024**

**Int. Cl.: 1, 2, 3, 4, 5, 6, 7, 9,  
10, 11, 12, 16, 35, 36, 37, 38,  
39, 40, 41, 42, 44, 45**

**Service Mark**

**Trademark**

**Principal Register**

Kabushiki Kaisha Toshiba (JAPAN CORPORATION), TA Toshiba Corporation  
1-1, Shibaura 1-chome, Minato-ku  
Tokyo, JAPAN 105-0023

CLASS 1: Chemicals used in industry, science and photography; chemical compositions for developing, printing and enlarging photographs; raw plastics being unprocessed plastics

CLASS 2: Pigments; coatings being paints; printing ink; filled toner cartridges for facsimile machines; filled toner cartridges for printers and photocopiers

CLASS 3: Anti-static preparations for household purposes; degreasers, other than for use in manufacturing processes; rust removing preparations; stain removing benzine; laundry fabric conditioner; laundry bleach; breath freshening preparations for personal hygiene; deodorants for animals; non-medicated soaps and detergents; cosmetics; fragrances

CLASS 4: Fuel; industrial oils

CLASS 5: reagent paper for medical purposes

CLASS 6: Iron and steel; nonferrous metals and their alloys; reservoirs of metal; nonferrous metals

CLASS 7: Metalworking machines and tools, namely, cutting machines for metalworking, electric welding machines, electric arc welding machines, metal cutting machines, gas operated cutting torches, hand-held electric drills, laser welding machines, electric welding apparatus, power-driven hand-held drills, power-driven hand-held hammers, power-driven hand-held grinders, power-driven hand-held sanders, power-driven hand-held cutters, moulds and dies for metal-forming for use with machines, machining centers, electric spot welding machines and metalworking machine tools; construction machines and apparatus, namely, bulldozers, concrete construction machines, truck cranes, power shovels, excavators, earth augers, pile-drivers, pile-extractors, grout pumps, graders, earth scrapers, tamping machines, rammers and road rollers, derricks, asphalt paving machines, earth scrapers, jack hammers, winches, and agitating machines used for construction; loading-unloading machines and apparatus; chemical processing machines and apparatus; food or beverage processing machines and apparatus, namely, cereal processors, rice polishers, canning machines, meat processors, noodle makers, electric juice extractors, beverage processors, coffee extractors; pulp making, papermaking or paper-working machines and apparatus; printing machines; bookbinding machines for industrial purposes; plastic processing machines and apparatus; non-electric prime movers, not for land vehicles, namely, internal combustion engines not for land vehicles, jet engines not for land

*Katherine Kelly Vidal*

Director of the United States  
Patent and Trademark Office

vehicles, rocket engines not for land vehicles, turbines not for land vehicles, hydraulic turbines not for land vehicles, electric drive motors for machines, blades for hydraulic turbines, hydraulic turbines runners, hydraulic turbines and their fittings, blades for wind turbines, wind turbines and their fittings, other turbines not for land vehicles, drive motors not for land vehicles; pneumatic or hydraulic machines and instruments, namely, rotary compressors, centrifugal compressors, air compressors, electric compressors for machines, electric pumps for domestic use, pumps used to circulate water in nuclear reactors, electric well pump, circulating pumps, vacuum pumps, air pumps, water pumps, wind-powered electricity generators, centrifugal blowers, rotary blowers, axial flow blowers, turbo blowers in the nature of blower air machines for construction use, lifting pumps used in pumped storage hydroelectric plant; vending machines; fuel dispensing machines for service stations; washing machines for laundry; food mixing machines for commercial use; food peeling machines for commercial use; food chopping machines for commercial use; dishwashers; machines and apparatus for wax-polishing, electric; vacuum cleaners; machine elements, not for land vehicles, namely, shafts, axles, spindles, bearings being parts of machines, shaft couplings and connectors, power transmissions and gearing for machines not for land vehicles, brakes, valves being parts of machines, ball bearings being parts of machines, blades holders being parts of machines, joints being parts of machines, brushes being parts of machines, cowlings being parts of machines, cranks being parts of machines, drill chucks being parts of machines, drums being parts of machines, filters being parts of machines, feeders being parts of machines, guards being part of machines; waste compacting machines and apparatus for industrial purposes; waste crushing machines for industrial purposes; 3D printers; starters for motors and engines; AC motors and DC motors, not including those for land vehicles; parts for AC motors and DC motors; AC generators being alternators; DC generators; electric food blenders for household purposes; dynamo brushes; elevators being lifts; escalators; moving sidewalks; turbines, other than for land vehicles; steam engine boilers for power generation, other than for land vehicles; hydrogen-powered electricity generators with fuel cell technology; steam engine boilers for non-electric prime movers and engines

CLASS 9: Ozonisers being ozonators; electrolysers; blueprint machines; cash registers; coin counting or sorting machines; photo-copying machines; time and date stamping machines; time clocks being time recording devices; punched card office machines; voting machines; automatic stamping machines \* ; \* automated teller machines (ATM); fire alarms; gas alarms; burglar alarms; railway signal apparatus, luminous or mechanical; game programs for arcade video game machines; simulators for the steering and control of vehicles; laboratory apparatus and instruments, namely, chromatography apparatus for laboratory use, apparatus for fermentation being laboratory apparatus and furnaces for laboratory experiments, microchips containing DNA probes, electronic apparatus consisting of hardware, microchips, and software for examining, studying, and researching genes and genetic material, DNA chips, DNA testing apparatus, microscopes, centrifuges, air-gas producers, constant temperature incubators, constant humidity incubators, glassware for scientific experiments in laboratories, porcelain ware for scientific experiments in laboratories, furnaces for laboratory experiments, animal specimens and plant models; photographic apparatus and instruments, namely, flash guns for photographic purposes, flash lamps for photographic purposes, cameras, digital cameras, flashbulbs and filters, focusing mirrors, namely, mirrors for focusing sunlight for solar power generators; cinematographic machines and apparatus; optical machines and apparatus, namely, optical scanners, magnifying glasses, microscopes, telescopes; measuring or testing machines and instruments, namely, electronic weighing scales, testing equipment for semiconductors, X-ray and gamma-ray thickness gauges, gamma-ray level gauges, electromagnetic flow meters, smart meters in the nature of electric quantity meters, watt meters, watt-hour meters, gas meters, water meters, voltmeters, ammeters, automatic meter reading apparatus, metal measuring instruments for measuring thickness gauges, width gauges, crop meters, hole detectors, crack detectors, telemetering equipment in the nature of telemeters, water quality measurement instruments, biochemical analyzers for blood and RNA, electricity meters, vibration meters, acoustic meters; power distribution or control machines and apparatus, namely,

electrical sockets, electrical receptacles, electrical plugs; transformers, inverters, induction voltage regulators, condensers and capacitors, circuit breakers, electrical switches, plugboards, lightning arresters, electric relays, converters, electrical connectors, rectifiers, electrical fuses, electrical resistors, static power capacitors, leakage circuit breakers, safety circuit breakers, switch boxes, lighting and electrical power distribution blocks, chargers for electric batteries, electric voltage ballasts, vacuum circuit breakers, electrical controllers, remote control starters for vehicles, electricity distribution consoles; rotary converters; phase modifiers; solar batteries; electrical cells and batteries; fuel cells; electricity meters; watt hour meters; electric wires and cables; telecommunication machines and apparatus, namely, telephone sets, mobile phones, battery chargers for mobile phones, video-phones, automatic telephone exchangers, intercoms, transceivers, AC adaptors, facsimile machines and apparatus and their parts and accessories, namely, platen cover, reversing automatic document feeder (RADF/ADF), paper feed pedestal, drawer module, work tray, finisher, multi position staple finisher, saddle stitch finisher, holepunch unit, inserter, large capacity feeder (LCF), main/page memory module, EFI controller, FAX board, FAX 2nd line board, wireless module kit, personal area network module, PCI slot, card reader, tape recorders, radio cassette tape recorders, stereo tuners, audio stereo tuners, tuners for television receivers, tuners for HDD and DVD recorders, record players, sound recording machines and apparatus, digital audio players, DVD players, DVD recorders, DVD drives, video cameras, video tape recorders, video disc players, digital video disc recorders, digital photo frames, surveillance cameras, digital video cameras, blank magnetic tapes for tape recorders, blank magnetic tapes for video tape recorders, blank video discs for video disc players, needles for phonographs, electrical phonograph record turntable cartridges, noise reduction filters for audio equipment, audio amplifiers, microphones, headphones, graphic equalizers, public-address systems and instruments, transmitters of telecommunication signals, walkie-talkies; electronic machines, apparatus and their parts, namely, electrostatic copying machines, image scanners, multi-function peripherals having function of copying machines, document printers, image scanners and facsimile machines, personal computers, computers, universal serial bus (USB) memories, document printers for use with computers, magnetic tape and discs units for computers, card readers for use with computers, displays for computers, display monitors for computers, keyboards for computers, mice for computers, word processors, integrated circuit memory card readers and/or writers, smart phones; personal digital assistance having function of internet connection, sending and receiving of e-mail, and video and data information; personal digital assistants, digital photo printers for digital cameras, hard disc drives, printer cables for electrostatic copying machines and printers, printer carrying cases for electrostatic copying machines and printers, drums for electrostatic copying machines and printers, heat rollers for electrostatic copying machines and printers, cleaning rollers and blades for electrostatic copying machines and printers, computer servers; machines and apparatus for POS (point-of-sale) systems and their parts and accessories, namely, terminals for POS systems, barcode readers for POS systems, optical readers for POS systems, liquid crystal displays for POS systems, electric luminescent display panels for POS systems, keyboards for POS systems, printers for POS systems, scanners for POS systems, barcode readers, barcode printers, radio frequency identification (RFID) readers and/or writers; X-ray non-destructive testing units not for medical purposes, diagnostic ultrasound non-destructive testing units other than for medical use, liquid crystal display (LCD) large screen displays, X-ray tubes not for medical purposes, X-ray image intensifiers not for medical purposes, electron tubes, radiation detectors, semiconductors, integrated circuits, printed circuit boards, solid state drive (SSD), integrated circuit memory cards, electronic circuits, light emitting diode (LED) displays, liquid crystal displays (LCD); liquid crystal display (LCD) projectors; computer docking stations, electronic card readers, kiosk terminal, digital signage; magnetic cores; resistance wires; electrodes, other than welding electrodes or medical electrodes; earth satellites for use in telecommunications; observation rockets; spectacles; recorded video discs and video tapes featuring movies and music; downloadable electronic publications, namely, books, magazines and manuals featuring information in the field of business, sports, music and movies; facsimile machines; broadcasting machines and

apparatus, namely, cable broadcast transmission machines and apparatus, transmitting and receiving apparatus for radio and television broadcasting, television receivers, TV sets, television transmitters, television cameras, closed circuit television cameras, closed circuit television monitors, radio receivers with clocks, car radios, radio receivers, radio transmitters; radio communication machines and apparatus, namely, aeronautical radio communication machines and apparatus, marine radio communication machines and apparatus, vehicle radio communication machines and apparatus, multichannel radio communication machines and apparatus for fixed stations, single-channel radio communication machines and apparatus for fixed stations; radio machines and apparatus, namely, radar machines and apparatus, loran navigation machines and apparatus, navigation apparatus for vehicles, radio beacon machines and apparatus, radio direction finders; parts for telecommunication machines and apparatus, namely, antennas, telegraphs, circuit boards for electric communication machines and apparatus, switches for electric communication machines and apparatus; computers and their peripherals; electrostatic copying machines; electron tubes; semi-conductor power elements; semi-conductor elements, namely, diodes, transistors, light emitting diodes (LED); electronic circuits; integrated circuits; computer programs, namely, computer programs recorded on tapes and discs for use in database management, for web browsers, for anti-hackers, for language translation, for use as a spreadsheet, for word processing, for adding and repartitioning a hard disk drive, for integrating clusters consisting of plural PC servers to prevent system downtime, for optical character readers, for the transfer of institutional business knowledge between employees, for the education of children, for translation, for the creation of firewalls, for encryption, for use in creating spreadsheets; computer hardware; computer software, namely, downloadable or recorded computer software for use in database management for POS systems, for use as a spreadsheet for POS systems, for use as a word processors for POS systems, for use for multivision processors, for data security, system protection and wired and wireless connectivity, for having viewing, editing and merging function used in multi-functional machines with photocopying, scanning, printing and facsimile functions, for controlling the viewing, editing and merging functions of the aforesaid printers, for controlling the operation of variable speed drives, for managing print and capture related jobs on computer network, for computer screen saver, for point of sales systems used for tracking inventory, processing payments, accounting, categorizing merchandise, creating reports, managing employees, and creating customer accounts in the hospitality and retail industries; downloadable or recorded computer operating system software to operate personal computers; downloadable or recorded computer software application program that allows the user to maintain a PLU (Price Look Up) and Ingredient Item file; downloadable or recorded computer software for use in controlling, testing and monitoring electricity generators, power plant, distribution of electrical power, micro grid and energy management system; downloadable or recorded computer software for use in connecting, managing, controlling, monitoring and enabling communication among IoT (Internet of Things) devices over a network; downloadable or recorded computer software for use in controlling home automation systems; downloadable or recorded computer software for controlling vehicle driving systems; downloadable or recorded computer software for managing logistics operations; downloadable or recorded computer software to provide connectivity among vehicles, database and electronic devices; downloadable or recorded computer software for graphical user interface; downloadable or recorded computer software for spreadsheet management, downloadable or recorded computer software for facial recognition; downloadable or recorded computer software for computer security; downloadable or recorded computer software for use in computer system management; downloadable or recorded computer software used for big data statistical analysis; downloadable or recorded computer software for analyzing big data; downloadable or recorded computer software used for integration and visualization of scattered data; downloadable or recorded computer software used for quality engineering analysis

CLASS 10: Esthetic massage apparatus for commercial use; medical apparatus and instruments, namely, X-ray diagnostic apparatus, computed tomography (CT) apparatus, magnetic resonance imaging (MRI) apparatus for medical purposes, ultrasonic

diagnostic apparatus for medical purposes, diagnostic imaging apparatus for use in nuclear medicine, radiological apparatus for medical purposes, radiotherapy apparatus \*, apparatus \* in the nature of apparatus for blood analysis for clinical medical laboratory services for the analysis of samples, ultraviolet irradiation apparatus, devices and instruments for medical use, namely, ultraviolet radiator units for medical purposes; heavy ion radiotherapy apparatus, X-ray scintillator detector for medical use, computer workstation comprising computer displays and computer monitors and controllers [ therefore ] \* therefor \* for medical imaging systems for clinical and diagnostic use used in direct association with medical diagnosis apparatus during the process of diagnosis of a condition in an individual; neutron ray detectors for medical purposes, biochemical analyzers for medical purposes; electric massage apparatus for household purposes; electric blankets for medical purposes

CLASS 11: Drying apparatus for chemical processing; recuperators for chemical processing; steamers for chemical processing; evaporators for chemical processing; distillers for chemical processing; heat exchangers for chemical processing; industrial furnaces; nuclear reactors and atomic piles; air-conditioning apparatus for industrial purpose; freezers for industrial purposes; towel steamers; hair drying machines for beauty salon use; hair steamers for beauty salon use; shampoo basins being parts of sanitary installations for barbers' shop use; cooking apparatus and installations for commercial use, namely, [ cook tops ] \* cooktops \*, microwave ovens and industrial cooking ovens; industrial dish drying machines; dish disinfectant apparatus for commercial use; waste water treatment tanks; septic tanks for industrial purposes; solar water heaters; water purifying apparatus for industrial purposes; electric lamps and other lighting apparatus in the nature of LED lamps, lighting fixture; household electrothermic appliances, namely, electric radiant heaters for household purposes, Japanese electric leg-warming apparatus for household purposes, Japanese electric warming pans for beds, electric hot air heaters for household purposes, hand-held electric hair dryers, room air conditioners for household purposes, electric fans, electric room air purifiers, electric ventilating fans, electric humidifiers, electric dehumidifiers, electric blankets for household purposes, water heaters for household purposes, storage water heaters for household purposes, electric cooking ovens for household purposes, microwave ovens, electric toasters, immersion heaters, electric refrigerators for household purposes, electric freezers for household purposes, automatic electric rice cookers, electric hot plates for cooking, automatic steam cookers, baking ovens for household purposes, electric pots, electric pans, electric coffee percolators, electric egg cookers for household purposes, electric popcorn cookers for household purposes, electric hamburger cookers for household purposes, electric waffle cookers for household purposes, electric ice cream makers for household purposes, electric rice-cake making machines for household purposes, electric yogurt makers for household purposes, electric grilling apparatus for household purposes, electric pressure cookers, electric water coolers for household purposes, electric driers for clothing for household purposes, ionizers for treatment of air for household purposes, electric foot muffs, oil space heaters for household purpose, gas space heaters for household purpose, vacuum defreezer for food in the nature of thawing machines and defrosting machines for frozen foods, wine cellar refrigerating showcases, electrothermic bottles in the nature of electric hot water bottles, electric fish roasters, wine warmers in the nature of electric beverage warmers for wine, electric warming tray, electric oil filter for foods in the nature of a filtration unit for filtering and treating cooking oil being part of commercial deep fryers, smoke filtering machines for air conditioning; non-electric cooking heaters in the nature of food warmers for household purposes; kitchen worktops with integrated sinks for household purposes; kitchen sinks for household purposes; household tap-water filters; gas lamps; oil lamps; lamp chimneys; toilet seats with a washing water jets; disinfectant dispensers for toilets; toilet bowls; seats for use with Japanese style toilet bowls; bath fittings, namely, bath tub jets, bath tubs; air-conditioning installations for household purposes; apparatus for generating hydrogen by water-electrolysis, namely, hydrogen generators and hydrogen production devices in the nature of hydrogen-generation equipment and components, namely, hydrogen generators, hydrogen purifiers, hydrogen purification membranes, fuel processors, and steam

reformers

CLASS 12: Non-electric prime movers for land vehicles, not including their parts in the nature of motors and engines; mechanical elements for land vehicles, namely, drive shafts, power transmission and gearings for railway rolling stock, power transmission and gearing for other land vehicles, axle bearings, balance weights and band brakes for land vehicles; AC motors or DC motors for land vehicles, not including their parts; civilian drones; railway rolling stock and their structural parts and fittings; automobiles and their structural parts and fittings; two-wheeled motor vehicles, bicycles and their structural parts and fittings; parts for non-electric prime movers, namely, land vehicle parts in the nature of shaft couplings and axle bearings

CLASS 16: Ink ribbons; paper and cardboard; stationery; printed matter, namely, general interest magazines, catalogs, pamphlets, books and newsletters all in the fields of computers, electrical machines, medicine and business; printed matter, namely, paintings and calligraphic works, calendars, and comic books; bookbinding machines for office use

CLASS 35: Advertising; promoting the goods and services of others through the administration of sales and promotional incentive schemes involving trading stamps; business management analysis or business consultancy; marketing research or analysis; providing business information concerning commercial sales; business management of hotels; employment agencies; import-export agencies; document reproduction; office functions, namely, filing, in particular documents or magnetic tape; accumulation and compilation of information into computer databases; providing business assistance to others by the operation of data processing apparatus namely, computers, typewriters, teletext machines and other similar office machines; rental of typewriters, copying machines and word processors; providing employment information; rental of vending machines; retail services, namely, retail store services featuring electrical machinery and apparatuses; wholesale services, namely, wholesale distributorships featuring electrical machinery and apparatuses

CLASS 36: Financing services for hire-purchase and lease of goods; loans being financing and discount of bills; life insurance brokerage; life insurance underwriting; agencies for non-life insurance; claim adjustment for non-life insurance; non-life insurance underwriting; insurance premium rate computing; management of buildings; agency services for the leasing or rental of buildings; rental of buildings; purchase and sale of buildings, namely, real estate brokerage; real estate agency services relating to real estate brokerage; real estate appraisal; providing real estate information; real estate management services relating to land; agency services for the leasing or rental of land; leasing of land; purchase and sale of land, namely, real estate brokerage; agency services for the brokerage of land; rental of paper money and coin counting or processing machines; rental of cash dispensers; rental of automated-teller machines

CLASS 37: Construction of buildings, hydroelectric power plants, thermal electric power plants, geothermal power plants, photovoltaic power plants and wind-power plants; construction consultancy; general building contractor services for others regarding air conditioning equipment, hot-water supply equipment, electric equipment, gas facilities, power-generating facilities, feed-water and drainage equipment and fire-extinguishing equipment of buildings; maintenance of building equipment, namely, maintenance of air conditioning equipment, hot-water supply equipment, electric equipment, gas facilities, power-generating facilities, feed-water and drainage equipment and fire-extinguishing equipment of buildings; repair and maintenance of automobiles; repair and maintenance of railway rolling stocks; repair and maintenance of loading-unloading machines and apparatus; repair and maintenance of fire alarms; repair and maintenance of office machines and equipment; repair and maintenance of air-conditioning apparatus for industrial purposes; repair and maintenance of burners; repair and maintenance of boilers; repair and maintenance of pumps; repair and maintenance of freezing machines and apparatus for industrial purposes; repair and maintenance of electronic machines and apparatus; repair and maintenance of

telecommunication machines and apparatus; repair and maintenance of consumer electric appliances; repair and maintenance of electric lighting apparatus; repair and maintenance of electric motors; repair and maintenance of power distribution or control machines and apparatus; repair and maintenance of power generators; repair and maintenance of hydrogen-powered electricity generators; repair and maintenance of wind power plants; repair and maintenance of photovoltaic power plants; repair and maintenance of laboratory apparatus and instruments; repair and maintenance of measuring and testing machines and instruments; repair and maintenance of medical apparatus and instruments; repair and maintenance of printing or bookbinding machines and apparatus; repair and maintenance of chemical processing machines and apparatus; repair and maintenance of metalworking machines and tools; repair and maintenance of industrial furnaces; repair and maintenance of nuclear reactors and atomic piles; repair and maintenance of integrated circuits manufacturing machines and systems; repair and maintenance of semiconductor manufacturing machines and systems; repair and maintenance of storage tanks; repair and maintenance of gasoline station equipment; repair and maintenance of cooking equipment for industrial purposes; repair and maintenance of dishwashers for industrial purposes; repair and maintenance of vending machines; repair and maintenance of machines and apparatus for use in beauty salons or barbers' shops; repair and maintenance of water pollution control equipment; repair and maintenance of water purifying apparatus for industrial purposes; repair and maintenance of waste compacting machines and apparatus; repair and maintenance of waste crushing machines and apparatus; repair and maintenance of waste compacting machines and apparatus; repair and maintenance of waste crushing machines and apparatus; repair and maintenance of chemical plants; repair and maintenance of nuclear power plants; repair and maintenance of power plants; repair and maintenance of non-electric cooking heaters for household purposes; repair and maintenance of bath fittings; repair of toilet stool units with a washing water squirt; repair of spectacles; sterilization of medical apparatus and instruments; rental of laundry dryers; rental of spin dryers for clothes; rental of electric washing machines; repair and maintenance of elevators in the nature of lifts; repair and maintenance of escalators; repair and maintenance of moving sidewalks

CLASS 38: Telecommunications other than broadcasting, namely, telecommunications routing and junction services, telecommunications consultation, ISDN services and personal communications services; broadcasting, namely, radio broadcasting, television broadcasting, audio broadcasting and cable and satellite television broadcasting; news agency services for electronic transmission; rental of telecommunication equipment including telephones and facsimile apparatus

CLASS 39: Car transport; packaging of goods for transport; freight brokerage; cargo unloading; removal services, namely, moving services of houses and offices; warehousing services; electricity distribution; water supplying being distribution; rental of warehouse space; rental of loading-unloading machines and apparatus; rental of freezers for household purposes; rental of refrigerator-freezers for household purposes; tour conducting, namely, arranging of transportation for travel tours; escorting of travel tours, namely, providing transport for [ flight seeing ] \* flightseeing \* tours; travel arrangement and reservation services, namely, transport and travel ticket reservations services; rental of freezing machines and apparatus for industrial purposes; rental of gasoline station equipment, not for repair and maintenance of automobiles

CLASS 40: Removal of radiation rays, namely, radiation decontamination services; water treating; nuclear fuel reprocessing; rental of water purifying apparatus; rental of chemical processing machines and apparatus; printing; processing, treatment, and destruction of waste and trash; production of energy

CLASS 41: Educational and instruction services, namely, providing classes and seminars in the fields of arts, crafts, sports or general knowledge; arranging, conducting and organization of seminars in the fields of arts, crafts, sports, general knowledge, financial services, home security, intellectual property, personal computers; providing online non-downloadable electronic publications, namely, comic books, and books and

newsletters in the fields of computers, electrical machines, medicine and business; reference libraries of literature and documentary records; publication of books; presentation of musical performances; production of radio or television programs; production of videotape film in the field of education, culture, entertainment or sports, not for movies or television programs and not for advertising or publicity; organization, arranging and conducting of sports competitions; organization of social entertainment events excluding movies, shows, plays, musical performances, sports, horse races, bicycle races, boat races and auto races; providing facilities for movies, shows, plays, music or educational training; rental of cinematographic machines and apparatus; rental of television sets; rental of radio sets; rental of optical machines and apparatus, namely, cameras and video cameras

CLASS 42: Architectural design; surveying; geological surveys or research; designing of machines, apparatus, instruments, including their parts, or systems composed of such machines, apparatus and instruments; designing, namely, product design, industrial design, packaging design, graphic arts design, design of interior décor, lighting design; computer software design, computer programming, and maintenance of computer software; technological advice relating to computers, automobiles and industrial machines; research on building construction or city planning; testing and research on prevention of pollution; testing and research on electricity; testing and research on civil engineering; testing and research on machines, apparatus and instruments; rental of measuring apparatus; rental of computers; providing a website featuring resources, namely, non-downloadable computer programs for web browsers, for anti-hackers, for certification, for translation, for use in database management, for use as a spreadsheet, for word processing, for adding and repartitioning a hard disk drive, for integrating cluster being a system for connecting computers and computer servers, for optical character readers, for knowledge succeed being organizing information for educational purposes, for the education of children, for the creation of firewalls, for encryption, for use in creating spreadsheets, and for word processing on data networks; cloud computing featuring software for integration of public and private cloud computing environments, for asset optimization, industrial automation, machine diagnostics, optimization of industrial, mining, healthcare, electric power energy, traffic and transportation, logistics, real estate and building facilities, manufacturing and infrastructure management processes, for web browsers, for anti-hackers, for certification, for translation, for database management, for use as a spreadsheet, for word processing, for adding and repartitioning a hard disk drive, for integrating cluster being a system for connecting computers and computer servers, for optical character readers, for knowledge succeed being organizing information for educational purposes, for the education of children, for the creation of firewalls, for encryption, for creating spreadsheets, for word processing, for hosting websites, and for rental of memory space on computer servers; rental of laboratory apparatus and instruments

CLASS 44: Beauty salons; hairdressing salons; providing medical information; physical examination; dietary and nutritional guidance; nursing care; rental of medical apparatus and instruments; rental of apparatus and instruments for use in beauty salons or barbershops; rental of lawnmowers

CLASS 45: Information relating to fashion coordination services for individuals; security guarding for facilities; personal body guarding; rental of fire alarms; rental of fire extinguishers; rental of surveillance cameras; rental of security surveillance equipment

PRIORITY CLAIMED UNDER SEC. 44(D) ON JAPAN APPLICATION NO. 2018-073176, FILED 06-01-2018, REG. NO. 6139652, DATED 04-19-2019, EXPIRES 04-19-2029

The mark consists of the words "WE TURN ON THE PROMISE OF A NEW DAY."

SER. NO. 88-202,707, FILED 11-21-2018

## **REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION**

**WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.**

### **Requirements in the First Ten Years\***

#### **What and When to File:**

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.\* See 15 U.S.C. §1059.

### **Requirements in Successive Ten-Year Periods\***

#### **What and When to File:**

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.\*

### **Grace Period Filings\***

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

**\*ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

**NOTE:** Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

**NOTE:** A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.
