

United States of America

United States Patent and Trademark Office

Reg. No. 6,268,846

Registered Feb. 16, 2021

Corrected Mar. 26, 2024

Int. Cl.: 7, 9, 11, 17, 19, 35

Service Mark

Trademark

Principal Register

KEMPER GmbH (GERMANY GESELLSCHAFT MIT BESCHRÄNKTER
HAFTUNG (GMBH))
Von-Siemens-Straße 20
48691 Vreden
GERMANY

CLASS 7: Mechanical hose reels, namely, power-operated gas hose reels; extracting machines, namely, gas extracting machines and air extracting machines; machine parts, namely, air filters, gas filters, dust separators; air suction machines; blowing machines for the compression, exhaustion and transport of gases; suction machines for industrial purposes, namely, air suction machines; filters being parts of air suction machines or engines; suction installations and suction apparatus for craft businesses and manufacturing companies, consisting predominantly of air suction machines, filters featuring mechanical and/or electrostatic cleaning, suction arms and/or suction crane arms; exhaust gas suction installations for craft businesses and manufacturing companies, consisting predominantly of air suction machines, filters, suction arms and/or suction crane arms and suction hoods; exhaust gas suction installations for vehicles, namely, exhaust gas suction machines; machine parts, namely, suction arms, including in the form of hoses, suction cranes and telescopic suction arms for suction installations and exhaust gas installations; machine parts, namely, suction hoods for industrial purposes, in particular for welding workstations; fans being parts of machines; blowing machines, namely, blowing machines for the compression, exhaustion and transport of gases; air suction machines, namely, high-vacuum suction installations; filtering machines, namely, filtering machines for filtering air and exhaust air; portable filtration units, namely, air and exhaust air filtering machines; mobile filter apparatus, namely, air and exhaust air filtering machines; [welding machines in the nature of gas welding machines and electric welding machines, industrial robots for welding;] [parts of welding machines, namely, cubicles for welding, in particular robot welding cubicles *, namely, made of plastic or metal, but not made of or containing wood or wood-based materials; * welding and soldering equipment, * made of plastic or metal, but not made of or containing wood or wood-based materials, *, namely, welding electrodes, welding

Katherine Kelly Vidal

Director of the United States
Patent and Trademark Office

generators, soldering lamps, electric soldering apparatus; tables specially adapted to hold powered machinery, * made of plastic or metal, but not made of or containing wood or wood-based materials, *, namely, suction tables, grinding tables and welding tables for industrial purposes] [; rack control apparatus, namely, mechanical and hydraulic lifts; rack control apparatus, namely, rack-guided or floor-guided, pneumatic, hydraulic, electric or otherwise motorised power-operated lifts for the storage and retrieval of goods from racks, in particular high-bay racks; elevating apparatus in the nature of elevators and elevating work platforms, lifting apparatus in the nature of mechanical and hydraulic lifts; hydraulic, pneumatic and electric lifting apparatus and installations, namely, mechanical and hydraulic lifts, power-operated lifts used to transport and place portable storage containers; hydraulic and pneumatic control mechanisms for machines, engines or motors; industrial robots; industrial robots for machines; automated sheet metal rack storage units, namely, storage machinery in the nature of a vertical hoist for raising and storing parts of welding machines, gas suction machines and blowing machines elevated from ground level]

CLASS 9: [Face protection shields, safety goggles; visors and protective screens for use in helmets; workmen's protective face masks not for medical purposes; solderers' helmets; respirators for filtering air other than for artificial respiration; eye-shades, namely, eye covers for protective purposes;] filters for respiratory masks and for protective face masks for workers not for medical purposes; [glare and light filters, namely, anti-glare filters for face protection shields; clothing for protection against accidents, including shoes; special clothing for life-saving purposes in the nature of clothing for protection against accidents and fire, helmets in the nature of protective helmets; welding helmets;] protective welding covers, * made of plastic or metal, but not made of or containing wood or wood-based materials, *, namely, protective coverings for protection of welders against accidents and fire [; downloadable computer software for managing databases and the operation of filtering machines for filtering air and exhaust air and for the operation of air suction machines; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, namely, electricity limiters, electricity meters, electricity conduits, electrical switches; fire-extinguishing apparatus; automatic control apparatus, namely, automatic combustion control machines and instruments, automatic pressure control machines and instruments]

CLASS 11: Filters being parts of [household or] industrial installations, namely, filters for air conditioning and filters for cleaning air and exhaust air and welding smoke; air filtering installations, and individual component parts therefor; air purifying apparatus; air filtering installations; air purifiers; filters for industrial [and household] use, namely, filters for air conditioning, and filters for cleaning air and exhaust air and welding smoke; exhaust air filters for suction units being parts of industrial installations; suction ventilators for heat recovery, energy recovery and for commercial and industrial use; extraction columns other than laboratory apparatus, namely, extraction columns being component parts of air conditioning installations and being parts of welding stations; hoods incorporating extractor fans, namely, range hoods, exhaust hoods for kitchens and exhaust hoods for workplaces and welding stations; air filters for industrial installations for use as dust extractors in industrial processes; ventilating fans for commercial and industrial use; [hvac systems being heating, ventilation and air conditioning systems, namely, HVAC units;] industrial ventilation apparatus, namely, ventilation hoods, air impellers for ventilation, turbine ventilators; apparatus for ventilating, namely, ventilation hoods, air impellers for ventilation, turbine ventilators; chimney flues and installations for conveying exhaust gases, namely, ventilating exhaust fans, exhaust hoods for workplaces and welding stations

CLASS 17: Flexible tubes, not of metal; flexible exhaust gas hoses, not of metal; flexible cables being tubes, pipes, tubes and connecting parts in the nature of valves of rubber or vulcanized fiber, all of the foregoing not of metal; semi-processed filtering materials, included in this class, namely, semi-processed plastics in the nature of filtering materials in the filtering of air, exhaust air and welding smoke; non metal

suction hoses for use in suction machines and air suction machines; curtains, in particular protective welding curtains, * made of plastic or metal, but not made of or containing wood or wood-based materials, *, namely, plastic fire curtains and plastic barrier curtains for the containment of pollutants, welding lighting and welding smoke; welding vertical blinds,* but not made of or containing wood or wood-based materials, * in particular of plastic, namely, asbestos fire curtains and plastic barrier curtains for the containment of pollutants, welding lightning and welding smoke; welding safety plates, * but not made of or containing wood or wood-based materials, * in particular of plastic, namely, plastic fire curtains and plastic barrier curtains for the containment of pollutants, welding lightning and welding smoke; transportable protective walls, in particular protective welding walls, consisting of protective curtains and vertical blinds hung on supports, * made of plastic or metal, but not made of or containing wood or wood-based materials, *, namely, plastic fire curtains and plastic barrier curtains for the containment of pollutants, welding lighting and welding smoke

CLASS 19: Translucent protective screens of glass or plastic for use in robotic enclosures, enclosures and partitions for workstations and soundproof cabins, namely, non-metal window screens [; transportable non-metal buildings in the form of cabins; transportable non-metal buildings, namely, portable cabins; cabin walls, not of metal, including being soundproof, namely, prefabricated non-metal walls; non-metallic transportable buildings; air ducts of non-metallic materials for buildings, namely, non-metal ventilating ducts, non-metal heating ducts, non-metal air conditioning ducts, non-metal air ducts; non-metal partitions for building, namely, noise protection partitions, mainly consisting of compacted mineral wool, both sides covered with perforated plates]

CLASS 35: [Retail store services featuring building materials of metal; wholesale store services featuring building materials of metal; retail store services featuring flexible tubes of metal; wholesale store services featuring flexible tubes of metal; retail store services featuring cabin walls of metal; wholesale store services featuring cabin walls of metal; retail store services featuring bastion defence walls of metal materials; wholesale store services featuring bastion defence walls of metal materials; retail store services featuring buildings, transportable, of metal; wholesale store services featuring buildings, transportable, of metal; retail store services featuring shelving frames of metal other than furniture; wholesale store services featuring shelving frames of metal other than furniture;] retail store services featuring ducts of metal for ventilating and air-conditioning installations; [wholesale store services featuring ducts of metal for ventilating and air-conditioning installations; retail store services featuring metal rods for brazing and welding; wholesale store services featuring metal rods for brazing and welding; retail store services featuring soldering wire of metal; wholesale store services featuring soldering wire of metal; retail store services featuring tool boxes of metal, empty; wholesale store services featuring tool boxes of metal, empty; retail store services featuring extracting machines; wholesale store services featuring extracting machines;] retail store services featuring air suction machines; wholesale store services featuring air suction machines; retail store services featuring blowing machines for the compression, exhaustion and transport of gases; wholesale store services featuring blowing machines for the compression, exhaustion and transport of gases; retail store services featuring suction machines for industrial purposes; wholesale store services featuring suction machines for industrial purposes; retail store services featuring fans being parts of machines; wholesale store services featuring fans being parts of machines; retail store services featuring blowing machines; wholesale store services featuring blowing machines; retail store services featuring portable filtration units being machines; wholesale store services featuring portable filtration units being machines; [retail store services featuring welding and soldering equipment; wholesale store services featuring welding and soldering equipment;] [retail store services featuring control mechanisms for machines, engines or motors; wholesale store services featuring control mechanisms for machines, engines or motors; retail store services featuring industrial robots; wholesale store services featuring industrial robots; retail store services featuring solderers' helmets; wholesale store services featuring solderers' helmets;] retail store

services featuring respirators for filtering air; wholesale store services featuring respirators for filtering air; [retail store services featuring welding helmets; wholesale store services featuring welding helmets; retail store services featuring computer software; wholesale store services featuring computer software; retail store services featuring fire extinguishers; wholesale store services featuring fire extinguishers; retail store services featuring automatic control apparatus; wholesale store services featuring automatic control apparatus;] retail store services featuring air purifying apparatus; wholesale store services featuring air purifying apparatus; retail store services featuring air filtering installations; wholesale store services featuring air filtering installations; retail store services featuring air purifiers; wholesale store services featuring air purifiers; retail store services featuring filters for industrial [and household] use; wholesale store services featuring filters for industrial [and household] use; retail store services featuring suction ventilators; wholesale store services featuring suction ventilators; retail store services featuring extraction columns other than laboratory apparatus; wholesale store services featuring extraction columns other than laboratory apparatus; retail store services featuring hoods incorporating extractor fans; wholesale store services featuring hoods incorporating extractor fans; retail store services featuring air filters for use as dust extractors in industrial processes; wholesale store services featuring air filters for use as dust extractors in industrial processes; retail store services featuring ventilating fans; wholesale store services featuring ventilating fans; [retail store services featuring hvac systems being heating, ventilation and air conditioning systems; wholesale store services featuring hvac systems being heating, ventilation and air conditioning systems;] retail store services featuring industrial ventilation apparatus; wholesale store services featuring industrial ventilation apparatus; retail store services featuring apparatus for ventilating; wholesale store services featuring apparatus for ventilating; retail store services featuring flexible tubes, not of metal; wholesale store services featuring flexible tubes, not of metal; retail store services featuring buildings being non-metallic * but not made of or containing wood or wood-based materials * in the form of cabins; wholesale store services featuring buildings being non-metallic* but not made of or containing wood or wood-based materials * in the form of cabins; retail store services featuring portable cabins being non-metallic; wholesale store services featuring portable cabins being non-metallic * but not made of or containing wood or wood-based materials; * [retail store services featuring buildings, transportable, not of metal; wholesale store services featuring buildings, transportable, not of metal; retail store services featuring air ducts of non-metallic materials for buildings; wholesale store services featuring air ducts of non-metallic materials for buildings; retail store services featuring furniture; wholesale store services featuring furniture; retail store services featuring racks being furniture; wholesale store services featuring racks being furniture; retail store services featuring shelves for storage; wholesale store services featuring shelves for storage; retail store services featuring furniture of metal; wholesale store services featuring furniture of metal; retail store services featuring curtains of plastic; wholesale store services featuring curtains of plastic;] retail store services featuring flues and installations for conveying exhaust gases; wholesale store services featuring flues and installations for conveying exhaust gases

The mark consists of a circle containing the letter "K" with the base of the letter "K" resembling an industrial exhaust extractor arm.

PRIORITY DATE OF 03-08-2019 IS CLAIMED

OWNER OF INTERNATIONAL REGISTRATION 1514452 DATED 09-05-2019, EXPIRES 09-05-2029

SER. NO. 79-278,690, FILED 09-05-2019

REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION

WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.

Requirements in the First Ten Years*

What and When to File:

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.* See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*

What and When to File:

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.
